L. P. MAGGIONI & CO.

COMPLAINT AND NOTICE OF HEARING

In the matter of Joseph O. Maggioni, Joseph S. Cafiero, and Madeline Cafiero, doing business as L. P. Maggioni & Company.

Complaint. The Federal Trade Commission, having reason to believe that the parties respondent named in the caption hereof and hereinafter more particularly designated and described, since June 19, 1936, have violated and are now violating the provisions of subsection (c) of section 2 of the Clayton Act (U.S.C. Title 15, sec. 13) as amended by the Robinson-Patman Act, approved June 19, 1936, hereby issues its complaint, stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondents Joseph O. Maggioni, Joseph S. Cafiero and Madeline Cafiero are partners, doing business as L. P. Maggioni & Company, having their principal office and place of business located at 401 West Bay Street, Savannah, Georgia.

PAR. 2. The respondents are now engaged, and for many years prior hereto have engaged, in the business of packing and canning fish, oysters, shrimp and clams (all of which are hereinafter called "Sea Food Products") and in the marketing, sale and distribution of such sea food products in its own name and for its own account for resale.

The respondents sell and distribute their sea food products through two separate and distinct methods: (1) through a large number of legitimate intermediaries who act as their agents in negotiating the sale of sea food products and for which services such intermediaries customarily are paid directly, or indirectly, commissions or brokerage fees; (2) through the sale of its sea food products direct to a few buyers who are paid, directly or indirectly, commissions or brokerage fees on their own purchases of such sea food products from the respondents.

The respondents, to distinguish their sea food products from the sea food products sold by competitors, to facilitate sales utilize registered and unregistered trade marks and brands for the various sea food products it sells. These brands are generally known as packers' or sellers' brands. Representative of the respondents' brands are:

Mermaid, Sea Zone, Daufuski, Warsaw, Coosaw, Sambo, Port Royal, Fox Inn, Crown, Off Shore, Jekyl Island, Magico, Maggioni, Magestic, English Ace.

Respondent also sells its sea food products under the labels or brands of its buyers, which brands or labels are generally known to the trade as private or buyers brands. Some of such buyers who incorrectly designate themselves as brokers also utilize registered and unregistered labels and brands, which labels and brands are utilized by the respective buyers in selling such buyers merchandise. Representative of respondents' buyers who purchase respondents' sea food products under their own buyers' brands or labels as well as under the sellers brands or labels is Wm. H. Stanley, Inc., of New York City, N. Y. This buyer purchases in its own name, and for its own account, large quantities of respondents' sea food products under its own registered private brand "Seaspray." Representative of respondent's buyers who purchase in their own name and for their own account respondents' sea food products exclusively under the sellers brands or labels are, Haas-Guthman Co., Savannah, Georgia and Brit-McKinney Co., Inc., Greenville, S. C.

PAR. 3. The respondents, in the course and conduct of their said business, since June 19, 1936, have sold and distributed a substantial portion of their sea food products directly to buyers located in states other than the state in which the respondents are established, and as a result of said sales and the respondents' instructions, such sea food products are shipped and transported across state lines to such buyers who are located in various states of the United States.

PAR. 4. The respondents, since June 19, 1936, in connection with the interstate sale and distribution of sea food products in their own name and for their own account for resale, have sold such sea food products to buyers located in the various states of the United States other than the state where respondents are established, and have been and are now paying or granting or have paid or granted, directly or indirectly, commissions, brokerage or other compensation or allowances or discounts in lieu thereof to buyers of said sea food products.

PAR. 5. The paying and granting by respondents, Joseph O. Maggioni, Joseph S. Cafiero and Madeline Cafiero, partners, doing business as L. P. Maggioni & Company, directly or indirectly, of commissions, brokerage or other compensation and allowances or discounts in lieu thereof to the buyers of said sea food products, on their own purchases, and the acts and practices of the respondents in promoting sales of sea food products by paying to buyers, directly or indirectly, commissions, brokerage or other compensation and allowances or discounts in lieu thereof, as set forth above, are in violation of subsection (c) of section 2 of the Clayton Act, as amended.

Wherefore, the premises considered, the Federal Trade Commission, on this 5th day of February, A. D. 1944, issues its complaint against said respondents.

Notice. Notice is hereby given you, Joseph O. Maggioni, Joseph S. Cafiero and Madeline Cafiero, partners, doing business as L. P. Maggioni & Company, respondents herein, that the 10th day of March, A. D., 1944, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C. as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The rules of practice adopted by the Commission with request to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 5th day of February, A. D. 1944.

(c) With the first delivery of bread at the new maximum price granted by this order, the Lamoni Industries, Inc., shall give to retailers a notice in writing as follows:

The Office of Price Administration has permitted us to raise our maximum price for sales to you of 1¼ pound loaves of white bread from 7¢ to 8¢. Your new ceiling price for such 1¼ pound loaves of bread is your March 1942 ceiling price, plus 1¢ per loaf. If you have in March 1942 been selling this bread in a multiple unit sale at a reduced price from the single unit sale, you are permitted to add the 1¢ per loaf in computing your new multiple unit price. For example, if you were in March 1942 selling this bread at 3 loaves for 25¢, you are now permitted to charge not to exceed 26¢ on a three loaf sale. You are also required to post the new ceiling price.

About September 10, 1943, he began residential construction on property located at 97 Dudley Lane, Milton, Massachusetts, the estimated cost of which was in excess of the $200.00 limit permitted by Conservation Order L–41. Wherefore, upon the agreement and consent of Anthony V. Taurasi, the Regional Compliance Chief and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered,* That:

(a) Anthony V. Taurasi, his successors and assigns, shall not directly or indirectly order, purchase, accept delivery of, withdraw from inventory, or in any other manner secure or use material or construction plant in order to continue or complete construction of the premises at 97 Dudley Lane, Milton, Massachusetts, unless such construction is hereafter specifically authorized by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Anthony V. Taurasi from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

On December 1, 1943 it was charged by the War Production Board with having wilfully furnished false information on report forms PD–249, in that it did not include thereon all of the #1 wire and heavy copper scrap which it had received and shipped during the months of March, April, May, June and July, 1943.

The company admits that it incorrectly stated its shipments of scrap on said forms for the months of March, April, May, June and July, 1943, but denies that these acts were done wilfully. It does not desire to contest this matter further, and consents to the issuance of the following order.

Wherefore, upon the agreement and consent of the International Scrap Iron & Metal Company, Inc., the Regional Compliance Chief and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered,* That:

(a) At the time of construction of the vessel the space above referred to was open to the weather and not permanently closed in;

(b) At the time of construction or thereafter the space above referred to is closed in by omitting the coaming of the middle line tonnage opening and by enclosing that opening in a superstructure which is closed in and not open to the weather;

(c) After construction the space above referred to is further closed in by making the weather-tight hatch in the shelter-deck water-tight and by closing the tonnage openings in the transverse bulkheads between the freeboard and shelter decks, making those bulkheads water-tight; and

(d) The load line of the vessel is not raised as a result of the closing in of the space above referred to.

I deem that such action is necessary in the conduct of the war.

Chapter VI—National War Labor Board

PART 802—RULES OF PROCEDURE

STAY OF ORDER OR RULING

Section 802.37 has been amended to read as follows:

§ 802.37 *Stay of order or ruling of an agent of the Board*—(a) *Rulings in voluntary wage or salary cases*—(1) *Effective date.* Rulings of an agent of the Board on a voluntary application for a wage or salary adjustment shall take effect when issued to the parties.

(2) *Stay of issuance to parties.* Rulings of an agent on a voluntary application for approval of a wage or salary adjustment may be issued to the parties when made, unless two or more public members of such an agent who dissent from a ruling request that the issuance of the ruling or any specified portion thereof be stayed and at the same time state the reasons for their request. In such event, the ruling or the specified portion thereof and the accompanying request shall immediately be transmitted to the Board and, except as provided in paragraph (3) below, shall not be issued to the parties until the expiration of 10 days after receipt in Washington of the request for stay, unless (i) the ruling is earlier approved by the Board, or (ii) within such ten-day period, the Board sets the case down for review. In the latter event, the Executive Assistant to the Board shall communicate the Board's action to the agent of the Board, and the requested stay shall continue in effect until the case is finally disposed of.

(3) If only a specified portion of a ruling is asked to be stayed, as above provided, the agent of the Board may, in its discretion, issue to the parties any other, unrelated provisions of the ruling at any time after the ruling is made.

(b) *Directive orders in dispute cases.* (1) Agents of the Board shall issue their directive orders to the parties when made. The parties may in any case mutually agree upon the date when the order, or any part thereof, shall take effect, except that where a wage or salary adjustment is made subject to the approval of the Economic Stabilization Director, the parties may not by their agreement make such adjustment effective prior to the date of such approval.

(b) Each Regional War Labor Board shall consist of the following members to be appointed by the National War Labor Board:

* * * * *

(3) Representatives of the public, 4 of whom are to be available for service with the Regional War Labor Board at any given time. There shall be a Chairman, and one or more Vice-Chairmen, to be designated by the National War Labor Board from among full-time members.

[1] 8 F.R. 16676.

Paragraphs (a), (b), (c) and (d) of § 802.52 are amended to read as follows:

§ 802.52 *Procedure in dispute cases not involving wages or salaries.* (a) If the National War Labor Board refers a labor dispute over which it has obtained jurisdiction to a Regional War Labor Board, the Regional War Labor Board to which the case is referred will be notified and a formal certification, together with all other available data and reports, will be transmitted to it.

(b) Upon receipt of the certification, the case will be considered by a New Case Committee of the Regional War Labor Board, composed of the Chairman or Vice-Chairman, one industry and one labor member, and the Disputes Director. The New Case Committee, in determining what action to take, will consult with the Regional Representative of the Conciliation Service. If the Committee does not consider the case ready for a hearing, it may refer the case back to the parties for further negotiation or to the Regional Representative of the Conciliation Service for further information, or further investigation or conciliation. If the case is deemed ready for a hearing, the Committee will designate a tri-partite panel to hear the case, unless the parties agree to have the case heard by a single person, in which event the Regional War Labor Board will designate one of the public panel members, or some other suitable person to hear the case. Wherever the term "panel" is hereafter used, it will be deemed to include a single hearing officer in the cases just mentioned.

(c) If a case is assigned to a panel, the panel shall advise the parties that they may if they so desire, submit their evidence and argument in writing. If the parties mutually agree in writing to such a presentation, the Disputes Director shall transmit to them any requests for information required by the panel and shall advise them of the procedure to be followed in submitting their case. If the parties do not agree to present their case in writing, a public hearing shall be held in accordance with the provisions of §§ 802.15 to 802.27 of the Rules of Procedure of the National War Labor Board, adopted November 27, 1943.

(d) Any member of the Regional Board who in a particular case serves as a hearing officer or on a panel shall be disqualified from participating in any other capacity in any further proceedings in the case.

Paragraphs (e) and (f) remain the same. Additional paragraph (g) is added as follows:

(g) At any time before its decision of a dispute case, the Regional Board may, upon the request of a party or upon its own motion, order a further hearing to be held before the Board or a panel for the purpose of receiving evidence not introduced at any prior hearing in the case. The conduct of such hearing shall be governed by the provisions of §§ 802.15 to 802.27 of the Rules of Procedure of the National War Labor Board, adopted November 27, 1943.

Paragraphs (b) and (c) of § 802.53 are amended to read as follows:

(b) If an agreement to refer the wage or salary question to arbitration is brought about, whether as a result of conciliation or without it, and the arbitrator's award provides for a wage or salary adjustment, a copy of the award, together with all of the information submitted to the arbitrator relating to the wage or salary issue, shall be filed by the arbitrator directly with the Regional Board at the same time that it is issued to the parties. Arbitrators should consult the Regional Wage Stabilization Director, in advance of any award, regarding the application to the particular situation of the Board's wage stabilization policy.

(c) If an agreement calling for an adjustment has been reached the procedure thereafter will be the same as in voluntary wage and salary adjustment cases. If the case has resulted in an arbitration award, the procedure will be that set forth in § 802.31 of the Arbitration Policy of the National War Labor Board, adopted November 27, 1943. A ruling of the Regional Board approving, modifying, or disapproving the award shall have the same effect, and be subject to the same provisions for stay and review, as similar rulings of the Regional Board on an application for the approval of a voluntary wage or salary adjustment. In all cases the conciliator, hearing officer, or panel chairman should remind the employer that he should promptly upon receiving the award or report (and without waiting for the Board's decision) apply to the Office of Price Administration for price relief if he intends to make any order requiring increased payment of wages and salaries the basis for asking such relief.

Present paragraphs (d) and (e) are repealed.

Paragraph (b) of § 802.55 is amended to read as follows:

(b) If the Regional Wage Stabilization Director disapproves the application (or approves a lesser increase than that requested) the applicant, or any application if there be more than one, may within ten days after the date of the issuance of the ruling file with the Regional War Labor Board a petition for review by that Board of the action of the Regional Wage Stabilization Director. Upon receipt of such a petition the Regional Board shall rule upon the application on the basis of the entire record of the case and such other information as may be available to it.

In paragraph (c) (1) and (c) (2) of § 802.57 the first sentence has been amended to read as follows:

(1) Within fourteen days after a Regional Board mails to a party a ruling denying or modifying a voluntary application for approval of a wage or salary adjustment, or remits to him a directive order in a dispute case, such party to the case may mail to the Board at Washington, D. C., an original and four copies of a petition, including supporting documents, seeking review by the Board of such ruling or directive order.

(2) Within fourteen days after a copy of a petition for review is mailed by the petitioning party to any other party to the case, such other party may mail to the National War Labor Board an answer to the petition.

In paragraph (d) (3) of § 802.57 the first sentence has been amended to read as follows:

(3) The Regional Board shall not act on any petition for reconsideration of a directive order or ruling unless (1) the petition is mailed to the Regional Board within fourteen days after the mailing by the Regional Board of the order or ruling in question and sets forth with particularity the grounds upon which the petition is based, or, (2) the petition is filed promptly upon the petitioner's discovering material and substantial evidence which the petitioner was unable, despite due diligence, to discover in time to present to the Regional Board before it issued its order or ruling, and sets forth with particularity such evidence, or (3) the petition is filed promptly upon the occurrence of events after the date of the order or ruling which make the order or ruling harsh or unfair, and sets forth with particularity such events.

(E.O. 9017, 7 F.R. 237, E.O. 9250, 7 F.R. 7871, War Labor Disputes Act, P. L. 89, 78th Cong.)

Adopted: February 1, 1944.

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–478, Stay of Execution]

JAMES A. GAVIN & SONS, INC.

James A. Gavin & Sons, Inc., has appealed to the Chief Compliance Commissioner from the provisions of Suspension Order S–478 on the grounds that it would suffer irreparable damage unless the suspension order was stayed pending determination of its appeal from the provisions of Suspension Order No. S–478. The Chief Compliance Commissioner has directed that the suspension order be stayed. In view of the foregoing, it is hereby ordered, that:

§ 1010.478 *Stay of execution of Suspension Order S–478.* (a) The provisions of § 1010.478, Suspension Order S–478, issued January 8, 1944, are hereby stayed and shall be of no force or effect

pending further order directed by the Chief Compliance Commissioner.

Issued this 9th day of February 1944.

PART 927—NICKEL

[Conservation Order M-6-b, Direction 1]

The following direction is issued pursuant to M-6-b:

To all holders of nickel plating solutions who have had the solutions in their inventories since March 30, 1942, and to any persons who may acquire such solutions after February 9, 1944:

Notwithstanding the provisions of General Preference Order M-6-a, any holder of nickel plating solutions who has held such solutions in his inventory since March 30, 1942, is hereby given authorization (1) to deliver those solutions to any person (unless he knows or has reason to believe the person accepting delivery intends to use the solutions in violation of the restrictions of this direction), or (2) to use them for plating subject to the restrictions of this direction.

Notwithstanding the provisions of Conservation Order M-6-b, the solutions may be used by any person holding them on February 9, 1944, who had acquired them on or before March 30, 1942, or by any person who acquires them after February 9, 1944, for any purpose whatsoever, if (1) no nickel anodes (scrap or otherwise) are used in the plating process and (2) no additional nickel salts are added to the solutions. If the nickel anodes are used or salts are added to the solutions the solutions may be used without further authorization from the War Production Board, in any manner not prohibited by paragraph (a) and List A of Order M-6-b, unless of course, specific restrictions were placed on the use of the anodes or salts at the time of their allocation by the War Production Board.

This direction covers only those solutions in inventory on or before March 30, 1942, and does not apply to solutions subsequently allocated to platers for specific uses by the War Production Board. Your attention is further called to the fact that there are many limitation orders of the War Production Board restricting nickel plating in addition to Order M-6-b, and the provisions of any such order apply when they are more restrictive than this direction.

Issued this 10th day of February 1944.

NICKEL SCRAP AND SECONDARY NICKEL

Section 927.4 *Order M-6-c* is revoked. This revocation does not affect any liabilities incurred under this order. PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 11B, Direction 1]

RATINGS FOR PRODUCTION MATERIALS FOR UNCLASSIFIED PRODUCTS MAY BE ASSIGNED PURSUANT TO A CMP-4B APPLICATION

The following direction is issued pursuant to Priorities Regulation 11B.

(a) A manufacturer of a Class B product who also makes the same product without incorporating controlled materials in it (which is an unclassified product) may file a single CMP-4B application covering his entire production of the product. He does not have to file a CMP-4B application for the part of his production which is a Class B product and a WPB-2613 application for the part of his production which is an unclassified product. For example, abrasive wheels are listed on the Official CMP Product List. A manufacturer of abrasive wheels incorporates controlled materials in some of his wheels and makes the rest of them without using controlled materials. He may file a single CMP-4B application for his entire production of abrasive wheels, or, if he prefers, he may file a CMP-4B application covering the wheels which are Class B products and a WPB-2613 for the wheels which are unclassified products.

(b) If such a manufacturer decides to file a CMP-4B application he must explain in a letter accompanying his application, that the products covered by the application include both Class B and unclassified products. In filling out the CMP-4B application the manufacturer does not have to make any breakdown between the two types of products.

(c) The preference ratings assigned pursuant to such a CMP-4B application may be used in ordering production materials both for the Class B products and for the unclassified products covered by the application. The allotment number identifying the allotment made to the Class B product schedule must be used to identify the ratings when applied to orders for production materials.

Issued this 10th day of February 1944.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 4, as Amended Feb. 10, 1944]

SALES OF CONTROLLED MATERIALS BY WAREHOUSES AND DISTRIBUTORS

§ 3175.4 *CMP Regulation 4*—(a) *Purpose and scope.* This regulation describes the procedure to be followed by warehouses and distributors in delivering controlled materials from stock (including consigned stock) except that in the case of steel, deliveries from one distributor to another are governed by Orders M-21-b-1 and M-21-b-2.

Steel

(b) *Definitions with respect to steel.* The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP regulation unless otherwise indicated:

(1) "Steel" means carbon steel, alloy steel, and wrought iron, in the forms and shapes listed in Schedule I of CMP Regulation No. 1.

(2) "Distributor" means any person (including a warehouse, jobber, dealer or retailer) who is engaged in the business of receiving steel for sale or resale in the form received or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding; but a person who, in connection with any sale, bends, punches or performs any fabricating operation designed to prepare steel for final use or assembly shall not be deemed a distributor with respect to such sale.

(c) *Rejection of orders.* (1) A distributor must reject all orders except those which he is required or permitted to fill under paragraph (d).

(2) [Deleted Jan. 13, 1944.]

(3) A distributor must not deliver any steel on an authorized controlled material order bearing a specific allotment number except in the period for which the allotment was made or within 15 days before or 30 days after such period. For example, a distributor receiving an order bearing the allotment number N-1-4Q43 may fill the order at any time during the period September 15, 1943, through January 31, 1944. Orders bearing symbols such as MRO which do not have to bear any quarterly identification are not subject to this provision.

(4) A distributor may reject any order for steel on which the customer does not specify immediate delivery. Even if he elects to accept an authorized controlled material order calling for future delivery, he is not allowed to set aside the steel covered by such order. He must deliver it on any order calling for immediate delivery that he is required to fill under paragraphs (d) (1), (2) or (3), and may deliver it on any order calling for immediate delivery that he is permitted to fill under paragraph (d) (4).

(5) A distributor may reject any order calling for the delivery of steel which he does not have in stock or which he does not know is in transit to his stock.

(6) A distributor may reject all or any part of an order which the War Production Board specifically authorizes him to reject. If a delivery would deplete his stock to a point where his function in the distribution of steel would be seriously impaired, he may apply to the War Production Board for authority to reject the order and may delay filling the order until his application is acted upon.

(d) *Orders which must be filled.* A distributor must fill the following kinds of orders unless he is required or permitted to reject them under paragraph (c):

(1) A distributor must fill all authorized controlled material orders.

(2) A distributor must fill orders for delivery to farmers as required by Priorities Regulation No. 19.

(3) A distributor must fill orders bearing preference ratings of AAA.

(4) A distributor may fill other orders as follows, but is not required to do so regardless of whether rated or not:

(i) Orders in amounts of $25 or less. No endorsement is required on such orders.

(ii) Orders calling for delivery to one customer during any calendar quarter of not more than 10 tons of carbon steel, 1,000 pounds of stainless steel and 2 tons of other alloy steel, providing such deliveries of any one product group and type to one customer do not exceed the amounts shown below:

	Quantities in pounds per quarter unless otherwise stated		
	Carbon (including wrought iron)	Stainless	Alloy (Other than stainless)
Tool steel, including drill rod	300	----	300
Mechanical tubing	1,000*	100*	200*
Wire rope and strand	300*	----	----
Music Wire	300	----	----
All other steel products	20,000	1,000	4,000

*Feet per quarter.

Each order placed under this paragraph (d) (4) (ii) must be accompanied by or endorsed with both the standard form of certification in CMP Regulation No. 7 and the following sentence: "This order is placed under paragraph (d) (4) (ii) of CMP Regulation No. 4."

The purpose of this paragraph (d) (4) (ii) is to permit persons using small quantities of steel to obtain their requirements without the use of allotments; it is not to allow users of large quantities to obtain steel in addition to their purchases on authorized controlled material orders. Therefore, a person who buys any steel under this paragraph (d) (4) (ii) cannot receive steel from producers or distributors in any quarter in excess of the amounts shown in the above table whether it is received on authorized controlled material orders or otherwise. Purchases of steel from persons other than producers or distributors do not affect the amount which can be bought under this paragraph. Such purchases are subject to the provisions of Priorities Regulation 13 and paragraph (u) of CMP Regulation No. 1.

Copper

(e) *Definitions with respect to copper.* The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP regulation unless otherwise indicated:

(1) "Copper wire mill product" means bare, insulated or armored wire or cable for electrical conduction made from copper or copper base alloy or copper-clad steel containing more than 20% copper by weight.

(2) "Brass mill product" means sheet, wire, rod or tube made from copper or copper base alloy. This does not include copper wire mill products.

(3) "Warehouse" means any industrial supplier, mill supplier, plumbing supply house, electrical wholesaler or other person engaged in the business of distributing brass mill products or copper wire mill products to industry or trade otherwise than as a controlled materials producer and includes warehouses owned by mills.

(4) "Item of copper wire mill product" means any wire or cable made from copper, copper base alloy or copper-clad steel containing more than 20% copper by weight for electrical conduction which is different from all other items of that form by reason of one or more differences of its specifications, such as size, alloy or insulation. Differences in temper or length do not differentiate items.

(5) "Item of brass mill product" means sheet, wire, rod or tube made from copper or copper base alloy, which is different from all other items of that form, by reason of one or more differences of its specifications, such as size, shape, gauge, thickness or alloy. Differences in temper or length do not differentiate items except in the case of copper and brass sheet, where differences in temper will constitute different items.

(6) "Warehouse stock" means brass mill or copper wire mill products physically located in warehouse inventories, whether owned or held on consignment by the warehouse.

(f) *Delivery of brass mill or copper wire mill products*—(1) *Delivery from warehouse stock.* (i) A warehouse shall fill authorized controlled material orders for brass mill or copper wire mill products, in accordance with this regulation, if it can fill the orders from its stock. In no case, however, may a warehouse fill an order for brass mill or copper wire mill products unless the purchaser has the right to accept delivery under the provisions of this paragraph (f) which limit the amount of brass mill and copper wire mill products which a purchaser may get from a warehouse. A warehouse is entitled to rely on a certificate furnished by any of its customers under paragraph (f) (1) (iv) of this regulation, unless it knows or has reason to believe the certificate to be false.

(ii) No person shall place orders for delivery from warehouse stock of any item of brass mill product to any one destination, during any one calendar month, which aggregate more than 2,000 pounds gross weight and no person shall accept any delivery in excess of this amount, except that this limitation does not apply to condenser tubes or to the resale of brass mill products obtained by brass mill warehouses through an authorization issued by a Regional Office of the War Production Board or by the Copper Recovery Inventory Branch, War Production Board, 350 5th Avenue, New York City, New York.

(iii) No person shall place orders for delivery from warehouse stock of any item of copper wire mill product to any one destination, during any one calendar month, which aggregate more than 3,000 pounds copper content and no person shall accept any such delivery in excess of this amount, except that this limitation does not apply to the resale of copper wire mill products obtained by copper wire mill warehouses through an authorization issued by a Regional Office of the War Production Board or by the Copper Recovery Inventory Branch, War Production Board, 350 Fifth Avenue, New York City, New York.

(iv) No person shall place an order under this paragraph (f) (1) and no warehouse shall accept an order unless it is accompanied by, or endorsed with, a certificate in the form provided in CMP Regulation No. 7 (or a certificate prescribed by any regulation or order of the War Production Board for use in placing an authorized controlled material order), signed manually or as provided in Priorities Regulation No. 7.

(2) *Shipments direct to customer or to fill specific orders.* If a warehouse wants to order material to fill a specific authorized controlled material order of a customer instead of filling it from stock, it may order the material either for direct shipment to the customer or for shipment via the warehouse, by placing on its order the customer's name and allotment number or symbol. Such an order is to be treated as an authorized controlled material order. The warehouse may not treat the delivery to the customer as made from stock and may not request a replacement. However, in the case of brass mill products, a warehouse may order from another warehouse only if it does not have the material in inventory and needs it for immediate delivery to a customer on an authorized controlled material order. It must state these facts on its order.

(3) *Rejection of orders.* (i) A warehouse must not fill any order for brass mill or copper wire mill products except those which it is required or permitted to fill under paragraph (f) (1) or (f) (2) above.

(ii) A warehouse must not deliver any brass mill or copper wire mill product on an authorized controlled material order except in the quarter for which the allotment appearing on the order is valid. Orders bearing symbols such as "MRO" or "SO" which do not have to bear any quarterly identification may be filled during any quarter, but such orders must indicate when delivery is required if for other than immediate delivery.

(iii) A warehouse may reject any order calling for immediate delivery of brass mill or copper wire mill products which it does not have in stock or know to be in transit to its stock.

(iv) A warehouse may reject an order calling for future delivery. If it elects to accept the order, it must not set aside or hold any material to fill it.

Aluminum

(g) *Definitions with respect to aluminum.* The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP Regulation unless otherwise indicated:

(1) "Aluminum" means aluminum in any of the forms and shapes constituting controlled material as defined in CMP Regulation No. 1.

(2) "Distributor" means any person who is specifically authorized by the War Production Board to engage in the business of receiving aluminum for sale or resale.

(h) *Deliveries of aluminum by distributors on authorized controlled material orders.* (1) Each distributor shall, to the extent of his available stocks, fill authorized controlled material orders, except that a distributor shall reject any authorized controlled material order calling for delivery at any one time, to any one person, at any one destination, of more than 2,000 pounds of any gage, alloy and size of aluminum sheet, or more than 900 pounds of any alloy, shape and size of aluminum wire, rod or bar, or more than 600 pounds of any alloy, size and shape of aluminum tubing, extrusions or structural shapes: *Provided, however,* That any distributor shall be entitled to fill an authorized controlled material order calling for delivery at any one time, to any one person, at any one destination, of 5,000 pounds or less of any gage, alloy and size of aluminum sheet, 3,000 pounds or less of any gage, alloy and size of aluminum wire, rod or bar or 2,000 pounds or less of any alloy, size and shape of aluminum tubing, extrusions or structural shapes, if such distributor shall first have requested the mill supplying him to fill such order and such mill shall have advised such distributor to fill the same from his stock. Such request and advice may be made verbally but shall be confirmed in writing.

(2) No distributor shall deliver any aluminum except to fill an authorized controlled material order or pursuant to a specific direction of the War Production Board.

General Provisions Applicable to Steel, Brass Mill Products, Copper Wire Mill Products and Aluminum

(i) *Directions to distributors and warehouses.* Each distributor and warehouse shall comply with such directions as may be issued from time to time by the War Production Board with respect to making or withholding deliveries of steel, brass mill products, copper wire mill products or aluminum, and with respect to the earmarking of stocks of such material.

(j) *Placement of authorized controlled material orders.* A delivery order for steel, brass mill products, copper wire mill products or aluminum, shall be deemed an authorized controlled material order, if but only if,

(1) It is specifically designated as an authorized controlled material order by any regulation or order of the War Production Board; or

(2) It is endorsed with the appropriate certification and allotment number or symbol in the way prescribed by paragraph (s) (3) of CMP Regulation No. 1.

(3) A delivery order for steel, brass mill products, copper wire mill products or aluminum, placed with a distributor or warehouse shall be considered as calling for immediate delivery unless the order specifically provides otherwise.

(k) *Verbal delivery orders.* Any delivery order requiring shipment within seven days may be placed verbally or by telephone by stating to the distributor or warehouse the substance of the information required by this regulation, *Provided,* That the person placing the order furnishes to the distributor or warehouse, within fifteen days after placing the same, written confirmation of the order complying with the requirements of this regulation. In case of failure to receive written confirmation within fifteen days, the distributor or warehouse shall not accept any other order from, or deliver any additional material of any kind to, the purchaser until such written confirmation is furnished. On or before the twentieth day of each month any distributor or warehouse who has received in the prior month a delivery order by telephone, shall notify the appropriate Regional Compliance Office of the War Production Board, of any case in which a purchaser has failed to furnish to him the written confirmation when due.

(l) *Special provisions with respect to AAA orders.* Notwithstanding the foregoing provisions of this regulation, an authorized controlled material order placed with a distributor or warehouse bearing a rating of AAA shall be filled in preference to any other authorized controlled material orders regardless of time of receipt.

(m) *Communications.* All communications concerning this regulation should be addressed to the War Production Board, Washington 25, D. C., Ref: CMP Regulation No. 4 (specify whether steel, copper or aluminum).

Issued this 10th day of February 1944.

Recording Secretary.

INTERPRETATION 1

DISTRIBUTORS OF AUTOMOTIVE REPLACEMENT PARTS

The definitions of "distributor" and "warehouse" appearing in paragraphs (b) (2) and (e) (3) of CMP Regulation No. 4 are not deemed to include persons engaged solely in the business of distributing automotive replacement parts. Consequently, such persons may sell, for use as automotive replacement parts, such items as bulk or spooled primary and spark plug wire, battery cables and magnet wire, without reference to the terms of CMP Regulation No. 4, but subject to the provisions of General Limitation Order L-158 and other applicable regulations or orders (Issued Feb. 27, 1943)

PART 3207—RADIO AND RADAR DIVISION INDUSTRIAL TYPE INSTRUMENTS; CONTROL VALVES AND REGULATORS: SIMPLIFICATION

[Limitation Order L-272, Schedule VIII]

RAILROAD GAUGES

§ 3207.2 *Schedule VIII to Limitation Order L-272*—(a) *Scope of this schedule.* This schedule sets forth certain special rules which must be followed in the manufacture of "railroad gauges" which means gauges specially designed and manufactured for use on locomotives, railway rolling stock, subway trains or trolleys. Airbrake gauges are included, but gearless crank type movement gauges are not included. A gauge is any instrument which measures and indicates, but does not record, any pressure or vacuum (regardless of the units specified on the dial) by means of a bourdon spring or springs, a diaphragm, or a bellows; or any complete element assembly of such an instrument without a case. Schedule IV to this order, which applies to indicating dial pressure gauges, generally, no longer applies in any respect to railroad gauges, so Schedule IV need not be considered at all in connection with this schedule. Schedule IV continues to apply, however, to other gauges, even when they are purchased by railroad, subway or traction companies.

(b) *Size specifications* (expressed in inches-dial diameter). Railroad gauges shall be manufactured only in the 3½, 5 and 6¾ inch sizes, subject to the following special size limitations:

(1) Tank-level gauges shall be manufactured in only one size by each producer, and each producer may select the one size which he wishes to manufacture.

(2) Quadruplex gauges shall be made in only one size of casing, and each producer may select the one size of casing which he wishes to manufacture.

(3) Double-dial gauges and boiler gauges shall be made in the 6¾ inch size only.

(4) Duplex gauges shall be made in the 3½, and 5-inch sizes only, except that steam chest and back pressure gauges may also be made in the 6¾ inch size.

(5) Steam heat, booster, stoker, feed water heater and injector gauges shall be made in the 5-inch size only.

(6) Single pointer airbrake gauges shall be made in the 3½ and 5-inch sizes only.

(c) *Range specifications.* Railroad gauges shall be manufactured only in the following pressure ranges (or their metric equivalents): O–30 in. vac.; 30 in.–15 lb.; 30 in.–30 lb.; 30 in.–60 lb.; 30 in.–100 lb.; 30 in.–150 lb.; 30 in.–200 lb.; 30 in.–300 lb.; 0–15 lb.; 0–30 lb.; 0–60 lb.; 0–100 lb.; 0–160 lb.; 0–200 lb.; 0–300 lb.; 0–400 lb.; 0–600 lb.; 0–800 lb.; 0–1,000 lb.; 0–1,500 lb.; 0–2,000 lb.; 0–3,000 lb.; 0–5,000 lb.; and 0–10,000 lb. There are however certain exceptions to these limitations. The exceptions are:

(i) Ranges are not limited for pressures lower than 15-lb. or higher than 10,000 lb. p. s. i.

(ii) Boiler gauges shall be manufactured only in pressure ranges of 0–400 lb.; 0–500 lb.; and 0–600 lb.

(d) *Design limitations.* (1) Railroad gauges shall be furnished with bottom connection only.

(2) The following items and special features shall be eliminated:

(i) Ribbed or lugged back construction, except for bosses on the back of the flange at bolt holes.

(ii) Customer's name on dial.

(iii) Illuminated dial construction or attachments, except for quadruplex and double dial gauges.

(iv) Cases of copper base alloy. The bezel is not considered part of the case.

(3) Bezels shall be furnished in either the flared or close flat knurled types and shall be limited for each producer to his standard bezel in each type.

(4) Dials shall have a dull black background only, except that duplex airbrake gauges, quadruplex and double dial gauges may be furnished with white or silvered background dials.

(5) There shall be only one type of bourdon tube design for each specific service, and that shall be as follows:

(i) Double bourdon tubes for boiler, steam heat and booster gauges.

(ii) Single bourdon tube design for all other services.

(iii) Duplex construction shall be of the single bourdon tube design.

(6) Railroad gauges shall be manufactured with the following connections only:

(i) Bronze bourdon tube gauges—¼-inch pipe thread only.

(ii) Steel bourdon tube gauges—¼-inch pipe thread from 0 to 1,000 lbs. p. s. i. dial graduation inclusive; ½-inch pipe thread from 1,000 lbs. to 10,000 lbs. p. s. i. dial graduation inclusive.

(7) Railroad gauges shall be furnished with flanged cases only, and the bolt circle diameter and bolt hole drillings, if furnished, shall conform to the specifications in the following table (quadruplex and double dial gauges may be furnished with bracket feet for mounting):

GAUGE MOUNTING SPECIFICATIONS (IN INCHES)

Nominal size of gauge	Diameter of bolt circle	Size of bolt holes
3½	4¼	#2
5	6¼	#2
6¾	7¾	#2

Holes shall be located at the third points on the bolt circle (120 degrees apart), with one hole at the top center. Sheared flange case gauges, however, shall be furnished with four holes for single pointer gauges, and three holes for the duplex types. Slotted openings for dial illumination shall be furnished in only one position and size for each quadrant.

PART 3208—SCHEDULED PRODUCTS

[General Scheduling Order M-293 as Amended Feb. 10, 1944]

Section 3208.1 *General Scheduling Order M-293* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the production of certain products for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote national defense:

§ 3208.1 *General Scheduling Order M-293*—(a) *Definitions.* For the purpose of this order:

(1) "M-293 product" means any item listed in the tables to this order except Table 1. These items are identified in the Tables as Class X; Class Y and undesignated. The same products may be designated X and Y and, if so, are subject to the provisions applying to each class. Class X, Class Y and undesignated products are subject to all other provisions of this order.

(2) "Manufacturer" means any person to the extent that he is engaged in making an M-293 product.

(b) *Operations reports.* Each manufacturer must file an operations report on the applicable form shown in Column 1 of the appropriate table in accordance with the instructions accompanying the form at the times there shown. If no form is designated in Column 1, no operations report need be filed.

(c) *Provisions covering Class X products*—(1) *Filing of shipping schedules of Class X products.* Each manufacturer of Class X products must file with the War Production Board his shipping schedule and other information called for on the form shown in Column 2 of the appropriate table, at the times shown and in accordance with the instructions accompanying the form, except when he is excused from filing by the War Production Board. If the War Production Board excuses the manufacturer from filing his shipping schedule under this paragraph, that does not excuse him from complying with paragraph (f) below. In arranging the sequence of shipments on his shipping schedules, unless otherwise directed by the War Production Board, the manufacturer shall be governed by Priorities Regulation No. 1 and other applicable orders and regulations of the War Production Board. The shipping dates of purchase orders which are already part of a frozen schedule, must not be changed.

(2) *Maintaining shipping schedules of Class X products when not filed.* Each manufacturer of a Class X product who is excused from filing his shipping schedule by the War Production Board, must maintain his proposed shipping schedule on the forms shown in Column 2 of the appropriate table if so instructed by the War Production Board, otherwise in such manner that they can be readily transferred to that form. In arranging the sequence of shipments on his shipping schedule, unless otherwise directed by the War Production Board, the manufacturer shall be governed by Priorities Regulation No. 1 and other applicable orders and regulations of the War Production Board. The shipping dates of purchase orders which are already part of a frozen schedule must not be changed.

(3) *Freezing of shipping schedules of X products.* If a manufacturer is not excused from filing, his shipping schedule is automatically frozen under Priorities Regulation 18 on the date it is filed for the period of time specified in Column 4 of the appropriate table or for sixty days if no time is specified. If a manufacturer of a Class X product is excused from filing his shipping schedule, his schedule becomes frozen under Priorities Regulation 18 at the time specified in the letter excusing him, and at the close of business on the same day of each successive month thereafter. The schedule is frozen for shipments to be made during the period of time specified in Column 4 of the appropriate table or for sixty days if no time is specified. Even though a manufacturer is excused from filing his shipping schedule, he may, if he wishes, file the Column 2 form with the War Production Board but his shipping schedule is frozen at the time and manner specified in the letter excusing him.

(4) *Production and shipment of X products.* When a shipping schedule has become frozen, the manufacturer must schedule his production and make his shipments so as to meet the schedule without regard to preference ratings or directions from any governmental agency, except that the schedule may be amended by the War Production Board as explained in Priorities Regulation 18 and paragraph (g) of this order.

(d) *Provisions covering Class Y products*—(1) *Authorization of orders required.* No person shall place a purchase

order with a manufacturer and no manufacturer shall accept a purchase order for any Class Y product unless the purchase order is accompanied by specific authorization of the War Production Board obtained on the form shown in Column 3 of the appropriate table. If a time for shipment is specified in the authorization of the War Production Board, a manufacturer must not accept a purchase order specifying any other shipping time. He must not accept an order which will interfere with a previously frozen schedule or on which delivery cannot be made on the specified date because of the requirements of Priorities Regulation No. 1 or any other applicable order or regulation of the War Production Board.

(2) *Freezing of authorized orders for Y products.* All authorized purchase orders for Class Y products which the manufacturer accepts, automatically become a "frozen schedule" under Priorities Regulation No. 18, and the manufacturer must schedule his production and make his shipments so as to meet the schedule without regard to preference ratings or directions from any governmental agency, except that the schedule may be amended by the War Production Board as explained in Priorities Regulation 18 and paragraph (g) of this order.

(3) *Authorization of orders for Y products placed by distributors.* A distributor who places a purchase order for a Class Y product must accompany it by an authorization as provided in subparagraph (1) above. If he wants to buy for immediate resale, the information called for by the application for authorization must be given about the customer and not the distributor. The application may be filled out and filed either by the distributor or by the customer. In either case the distributor must forward the authorization with his purchase order to the manufacturer. If the distributor is buying for stock, he must say so on his application and give all information called for by the application form in terms of the type of customers to whom he expects to sell. A manufacturer must obtain authorization for the transfer of a Y product to a distribution outlet owned or controlled by him. The term "distributor" includes wholesalers, retailers, jobbers, sales agencies and consignees for sale.

(e) *Provisions covering undesignated products.* No manufacturer of an undesignated M–293 product need file the form shown in Column 2 of the appropriate table unless specifically directed to do so by the War Production Board or unless he chooses to do so. If the manufacturer is directed to file, the shipping schedule shown on the form becomes frozen in accordance with the direction. If the manufacturer is not directed, but chooses to file the form, the shipping schedule shown on it does not become a frozen schedule until the War Production Board specifically directs the manufacturer that it is one.

(f) *Special reporting provisions covering certain M–293 products*—(1) *Reports of requirements by purchasers of M–293 products.* Any claimant agency listed on Table 1 may instruct its prime contractor (or the prime contractor of a procuring agency which the claimant agency represents) who is purchasing M–293 products required in his prime contracts, or any other person purchasing M–293 products except for incorporation into other M–293 products manufactured by himself, to file with the claimant agency a report on Form WPB–3003 or other form approved for the purpose by the Bureau of the Budget. In such a case the person must file the form giving the information called for concerning the purchase orders which he has placed or will place for each specified M–293 product required under the Table 1 programs, except those which are indicated on the tables as being exempt from this paragraph. The report must state how many of each M–293 product will be used as spares.

(2) *Reports of shipping schedules.* A claimant agency listed on Table 1 may send to a manufacturer a Form WPB–3003, or other form approved for the purpose by the Bureau of the Budget, which shows the requirements of purchasers described in paragraph (f) (1) above covering all M–293 products for Table 1 programs, except those indicated on the tables as being exempt from the provisions of this paragraph. If a manufacturer receives such a form filled out and certified by the claimant agency in accordance with the accompanying instructions, he must fill in only the proposed shipping dates determined in accordance with Priorities Regulation No. 1 and other applicable orders and regulations of the War Production Board. The shipping dates of purchase orders which already are part of a frozen schedule must not be changed. He must file copies of the form with the claimant agency in accordance with the accompanying instructions and also with the War Production Board when requested to do so by the appropriate industry division. This schedule does not become a frozen schedule unless the War Production Board specifically directs the manufacturer that it is one.

(g) *Other scheduling provisions.* With respect to any M–293 product, the War Production Board may, notwithstanding any other order, preference rating, directive, rule or regulation (except Priorities Regulation 18) of the War Production Board, or of any other government agency:

(1) Revoke any authorization or approval to place a purchase order granted by it under paragraph (d) above;

(2) Direct the return or cancellation of any purchase order on the books of a manufacturer;

(3) Direct changes in the shipping schedule of a manufacturer;

(4) Cancel purchase orders placed with one manufacturer and direct that they be placed on another manufacturer;

(5) Take such other action as it deems necessary with respect to the production of, the placing of purchase orders for, or the shipment of M–293 products.

(h) *Deviations from a frozen schedule.* If a manufacturer is unable to fulfill on time a frozen schedule of any M–293 product, he must make shipments, so far as practicable, in the sequence required by the schedule. In any case where the manufacturer foresees an appreciable delay in or acceleration of production, the manufacturer must notify the War Production Board of the reason for the delay or acceleration and the revised dates on which he expects to be able to make shipments under each purchase order affected. The manufacturer shall notify the War Production Board, either by letter or telegram, at his option.

(i) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from, and stating fully the grounds of the appeal.

(j) *Reports and communications.* The list of M–293 products is arranged so that the name of the Industry Division appears at the top of the table covering M–293 products for which it is primarily responsible. All reports and forms required by the order and all appeals should be addressed to the War Production Board, Washington 25, D. C., attention of the appropriate Industry Division so listed. All reports and forms required in paragraphs (b), (c), (d), (e), (f), (g), and (h) of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) *Violations.* Any person who wilfully violates any provisions of this order, or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priorities assistance.

Effective date. This order, as amended, shall become effective March 1, 1944.

Issued this 10th day of February 1944.

STEEL INSECT SCREEN CLOTH

Section 3284.26 *General Limitation Order L–303* is hereby amended in the following particular:

1. The following new paragraph (c) is inserted after paragraph (b) and the subsequent paragraphs are redesignated accordingly:

(c) *Producers must disregard certain ratings.* Producers must disregard any preference rating of AA–3 or lower borne by any order for steel insect screen cloth unless (1) the order is one of the kinds designated in paragraph (b) (2) of this order, or (2) the order is for screen cloth which is to be used in a project approved by the National Housing Agency (the order must carry some identification showing that the screen cloth will be used in a project approved by the National Housing Agency). Orders bearing preference ratings which must be disregarded under this rule must be treated as unrated orders, and should be filled in accordance with the equitable distribution provisions of paragraph (d).

PART 3293—CHEMICALS

[Allocation Order M–371]

TRICHLORETHYLENE AND PERCHLORETHYLENE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of trichlorethylene and perchlorethylene for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.591 *Allocation Order M–371*—(a) *What this order does.* This order provides for the allocation of trichlorethylene and perchlorethylene from all producers and distributors except distributors who sell these materials only in quantities of a drum or less per customer per month.

A customer must file certified statements of end use with his purchase orders when ordering 700 pounds or more of these materials for delivery by all suppliers in any calendar month.

Suppliers must apply on Form WPB–2947 (formerly PD–602) for authorization for use or delivery on or after March 1, 1944.

(b) *Definitions.* (1) "Trichlorethylene" means the chemical $CHCl{=}CCl_2$.

(2) "Perchlorethylene", sometimes known as tetrachlorethylene, means the chemical $Cl_2C{=}CCl_2$.

(3) "Drum" means a container with a capacity of approximately 52 gallons.

(4) "Supplier" means any person who produces trichlorethylene or perchlorethylene or who purchases trichlorethylene or perchlorethylene for resale as such. The term "supplier" shall not include any person who resells exclusively in quantities of a drum or less per customer per month.

Requirements for Suppliers

(c) *Restrictions on delivery by suppliers.* (1) Beginning March 1, 1944, no supplier shall deliver trichlorethylene or perchlorethylene to any person except as specifically authorized in writing by the War Production Board, upon application pursuant to Appendix A.

(2) Authorization to each supplier for deliveries will be made on the following basis:

Deliveries to customers ordering 10,000 pounds or more of trichlorethylene and perchlorethylene combined during any month must be individually authorized; deliveries to customers ordering between 700–10,000 pounds per month will be authorized on the basis of end uses stated in the customers' certificates and a lump sum will be allocated to each end use for such orders without specifying individual customers' names; deliveries to customers ordering 700 pounds (one drum) or less of trichlorethylene and perchlorethylene combined will be authorized by allocating a lump sum for such small orders without specifying individual customers' names and without reference to end use.

(3) Perchlorethylene and trichlorethylene which cannot be delivered as authorized or directed shall revert to inventory subject to further allocation.

(d) *Restrictions on use by suppliers.* Beginning March 1, 1944, no supplier shall use trichlorethylene or perchlorethylene except as specifically authorized in writing by the War Production Board, upon application pursuant to Appendix A.

(e) *Suppliers to notify customers of denial of applications.* Each supplier shall notify his customer as soon as possible of denial in whole or in part by the War Production Board of any item or items on a certified purchase order placed by the customer.

Requirements for Customers

(f) *Requirement for filing certificates with purchase orders.* Each person ordering more than 700 pounds of trichlorethylene and perchlorethylene combined for delivery in the aggregate by all suppliers during March 1944, or during any calendar month thereafter, shall furnish each supplier with a use certificate in accordance with Appendix C.

(g) *Use of allocated material.* Each person furnishing a use certificate with a purchase order shall use the trichlorethylene or perchlorethylene only as specified in the certificate, unless advised by his supplier that a particular specified use has been denied or limited by the War Production Board. However, any person not a supplier may redeliver to a supplier without restriction.

(h) *One-time customer's report.* Each person (excluding governmental departments and agencies, but including suppliers who consume any part of their own stock) shall file a report in accordance with Appendix B on or before the 20th day of the month preceding the first month in which he expects to receive or use 10,000 pounds or more of trichlorethylene and perchlorethylene combined. This report need be filed only once, and not earlier than February 20, 1943.

Other Provisions

(i) *Exemption for intermediate brokers and sales agents.* Application and specific authorization shall not be required for the participation by a broker or sales agent in either of the following cases:

(1) When trichlorethylene or perchlorethylene is ordered through the broker or sales agent and is to be delivered by the supplier directly to the purchaser and not to the broker or sales agent for redelivery to the purchaser;

(2) When trichlorethylene or perchlorethylene is sold by a supplier through an agent who is required to submit the customer's purchase orders to the supplier for approval.

In either of the above cases, the purchaser shall furnish the broker or sales agent with a purchase order and use certificate, which certificate the broker or sales agent shall transmit to the supplier. The supplier shall then apply in accordance with Appendix A as if the order had been placed directly with him.

(j) *Special directions.* The War Production Board, at its discretion, may at any time issue special directions with respect to:

(1) Use, delivery or acceptance of delivery of trichlorethylene or perchlorethylene; or

(2) Production of trichlorethylene or perchlorethylene; or

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control, and may be deprived of priority assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-371.

(k) *Supplementary use certificates.* Persons required to file statements of use with respect to materials subject to this order may be required by the applicable schedule to obtain supplementary statements of use from their customers.

Existing Stocks on Initial Allocation Date

(l) *Suppliers' stocks.* The restrictions on delivery and use of Appendix A, B, and C materials shall apply to all stocks of each supplied on the initial allocation date. Stocks of suppliers who resell exclusively on small orders are exempted by paragraph (o) (4).

(m) *Exemption for stocks of suppliers who consume.* If a supplier customarily maintains inventories of an Appendix

A, B or C material for his own consumption separately, both physically and on his books, from his inventory of the material for sale, his stocks on the initial allocation date for his own consumption shall be subject to the provisions of the following paragraph (n) regarding consumers' stocks and not to the restrictions of paragraph (l) above regarding suppliers' stocks. Prior to the initial allocation date, no supplier shall transfer any more material to his inventory as a consumer than his rated orders for derivatives of the material compared with his rated orders for the material itself would permit under Priorities Regulation No. 1.

(n) *Consumers' stocks.* Any person not a supplier may freely use, deliver or accept delivery of any Appendix A, B or C material which he had in stock on the initial allocation date or which was in transit consigned to him prior to that date, unless otherwise expressly provided in the applicable Schedule (indicated by asterisk in Column 7 of Appendix A).

Small Order Exemption

(o) *Small order deliveries by suppliers.* A supplier may fill small orders without application or specific authorization, if he delivers not more than the small order exemption quantity specified in Appendix A, B or C to any customer in any allocation period, if he has received small order certificates when so required, and if the total amount delivered does not exceed the sum of the following:

(1) The amount which he has been specifically authorized, upon application on the applicable supplier's form (WPB-2946 or 2947) to deliver on small orders;

(2) The amount which he has received pursuant to specific authorization or certification for redelivery on small orders;

(3) The amount which he himself acquired on small orders and has not used for other purposes;

(4) The amount which he had on hand on the initial allocation date, if he sells exclusively on small orders.

(p) *Acceptance of delivery and use of small order quantities.* Any person during each allocation period may use and accept delivery of the small order exemption quantity provided in Appendices A, B and C for each material, provided that:

(1) The total accepted from all suppliers during each allocation period shall not exceed in the aggregate one small order exemption quantity;

(2) Quantities received under the small order exemption shall be used only for experimental purposes if additional quantities of the material are received during the same allocation period on specific allocation;

(3) Use of the material is subject to any special limitations on use contained in the applicable schedule (noted with a "u" in the small order exemption columns of Appendices A, B and C);

(4) Acceptance is subject to the filing of a special small order cerificate when required by the applicable schedule (noted with a "c" in the small order columns of Appendices A and C).

Territorial and Import-Export Provisions

(q) *Territorial limitations.* This order shall apply only to acts occurring within the forty-eight States and the District of Columbia, unless otherwise provided in the applicable schedule.

(r) *Imports.* Application and authorization under this order shall not be required for importation of an Appendix A, B and C material into the United States, acceptance of delivery of the material by the consignee and delivery by such consignee to, and acceptance by, any person who purchased or contracted to purchase the material prior to its importation. No person who acquires an Appendix A, B or C material under this exemption shall use it after the initial allocation date except as specifically authorized in writing by the War Production Board upon application under this order. Nothing contained in this order limits the requirements of General Imports Order M-63.

(s) *Exports.* (1) No supplier shall export or deliver for export on Appendix A, B or C material after the initial allocation date except as specifically authorized in writing by the War Production Board upon application under this order, or except to fill exempt small orders. A producer who is also an exporter shall treat the export part of his operations as a separate entity for the purpose of this order. An exporter applying on Form WPB-2945 (formerly PD-600) for allocation and to the Foreign Economic Administration for an export license for the same material subject to this order, shall file both sets of applications together with the Foreign Economic Administration.

(2) Authorized deliveries for export must be made within the authorized period, unless the exporter notifies the supplier and the War Production Board in writing that delivery must be postponed to a later specific period, in which case the limitation of duration of authorization in paragraph (t) is automatically waived, subject to any special directions from the War Production Board. After an exporter has accepted an authorized delivery for export he may export the material at any time to the destination for which allocation was made without further application or authorization under this order.

Duration of Authorizations

(t) *Duration of authorization for delivery.* If it is not practicable for a supplier to make all deliveries in the allocation period for which authorized, he may complete them as early as practicable in the next month. However, authorization shall terminate if the purchaser fails to place his order before the end of the allocation period or if the purchaser requires postponement of delivery beyond 10 days after the allocation period.

(u) *Duration of authorization for acceptance of delivery.* A purchaser may accept delivery after the allocation period but shall notify the War Production Board and hold the material intact subject to direction from the War Production Board if he knows or has reason to believe that the shipment was made after the authorization for delivery had expired.

(v) *Duration of authorization for use.* Authorization for use on Form WPB-2945 (formerly PD-600) shall be valid during the allocation period for which the authorization was issued and the following month. Any unused portion remaining thereafter shall not be used for any purpose until further authorized or directed by the War Production Board.

Action by War Production Board

(w) *Individual actions.* In addition to regular allocations under this order, the War Production Board may at any time issue special directions to any person with respect to:

(1) Use, delivery or acceptance of delivery of an Appendix A, B or C material; or

(2) Production or processing of an Appendix A, B or C material; or

(3) Preparation and filing of forms and certificates required by this order or by its schedules, subject to approval by the Bureau of the Budget when required by Federal Reports Act of 1942.

Miscellaneous Provisions

(x) *Miscellaneous provisions*—(1) *Toll arrangements.* In the case of any toll arrangement where raw materials are converted into any Appendix A, B or C material by any person for the owner of the raw materials, the owner shall be considered the producer for the purpose of applications and authorizations under this order, and the Appendix A, B or C material may be delivered to him without restriction.

(2) *Laboratories.* This order is subject to the provisions of Supplementary Order P-135-a, which contains optional provisions for filing of small order and end use certificates by laboratories ordering reagent chemicals, and for acceptance by laboratories of small order deliveries of reagent chemicals.

(3) *Equivalent quantities.* The provisions of this order relate to quantities of material and not to the identity of any particular lot of material.

(4) *Full container adjustments.* A specifically authorized delivery (not including an exempt small order delivery) may be increased to the extent necessary to avoid shipping partly filled containers, if a container in the nearest practicable size is used. The excess quantity shall be deducted from subsequent authorized shipments to the same customer. The person accepting overshipment shall hold the excess material as an advance shipment on subsequent allocations, and shall use it only for the purpose authorized for the subsequent allocation against which it is credited, or shall hold it in inventory subject to further directions from the War Production Board.

(5) *Allocated inventory.* Material which is allocated for inventory shall not be used or disposed of for any purpose, except as specifically directed by the War Production Board. Material which has not been used for the purpose for which it was allocated shall revert to inventory as if originally allocated for inventory. Pending receipt of material allocated for a particular purpose, stocks on hand may be used for that purpose. The quantity withdrawn from allocated inventory must be replaced upon receipt of the allocated material.

(6) *Applicability of regulations.* This order, its schedules, and all transactions affected thereby, are subject to all applicable War Production Board regulations, as amended from time to time.

(7) *Approval of reporting requirements.* Forms WPB-2945, 2946, 2947 and 3442, and the instructions in this order and in its Appendices and schedules for applications and reports regarding materials subject to this order, have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(8) *Violations.* Any person who wilfully violates any provision of this order or of its schedules or who, in connection with such order or schedule, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priority assistance.

(9) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Chemical Bureau, Washington 25, D. C.; Ref: M-300—(specify applicable schedule number).

Issued this 11th day of February 1944.

(1) Each person required to file a use certificate with a purchase order for material subject to this order shall furnish the supplier with a certified statement of proposed use of the material in substantially the following form, either placed on or attached to the purchase order:

(Statement of quantity of listed material required for each specified product and end use—see instructions in the applicable schedule and the instructions in paragraphs (10) and (11) of Appendix E for description of proposed use.)

Each item shall bear an identifying number so that it will be possible for the supplier to advise his customer by purchase order number and item number as to the action taken in the supplier's application for authorization to make delivery.

(3) A written purchase order placed by any department or agency of the United States Government pursuant to the Act of March 11, 1941 (Lend-Lease Act) shall constitute a use certificate for the purpose of this order, if the purchase order specifies the Lend-Lease contract or requisition number.

APPENDIX E—FORMS WPB-2945, 2946 AND 2947—GENERAL INSTRUCTIONS

CUSTOMERS' FORMS

Customers' Form WPB-2945 (formerly PD-600). Each person requiring specific authorization to use or accept delivery of a material subject to this order shall file application on Form WPB-2945 in the manner prescribed therein, subject to the following general instructions:

(1) *Where to obtain copies.* Copies may be obtained at local field offices of the War Production Board.

(2) *Special instructions in schedules.* The applicable schedule may contain special instructions for applying for the particular material, supplementing or modifying the following general instructions.

(3) *When application is required.* Application for specific authorization is required for use or acceptance of delivery during any allocation period of a quantity exceeding the small order exemption in Column 5 of Appendix A, or of a quantity specified in Column 3 of Appendix C, or for use of an Appendix A, B or C material which has previously been allocated for a different purpose or for inventory.

(4) *Time of filing.* Application for regular allocation shall be filed or mailed in time to reach the War Production Board on or before the date specified in Column 3 of Appendix A or C.

(5) *Number of copies and where to file.* Prepare five copies, retain one, send one (reverse side blank) to the supplier, if any, and send three copies (original certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-300-_____ (specify schedule number). Exporters, however, when applying to the Foreign Economic Administration for an export license for material for which War Production Board allocation is requested, shall send both sets of applications to the Foreign Economic Administration.

(6) *Applications regarding suppliers and inventory.* When applying only for use from inventory, specify "Inventory" as supplier in the heading. When applying for material from other companies as suppliers, file separate sets of applications for each supplying company. A combined application may be made to accept delivery and use material from

another company as supplier, and to use an additional quantity from inventory. It will be presumed that applications which name another company in the heading as supplier relate only to acceptance of delivery and use of material from that supplier, unless it is clearly indicated that part of the application relates to use of an additional quantity from inventory. This may be indicated by specifying the requested quantity from inventory separately in Column 2 (quantities requested) and by specifying in Column 10 (Remarks) "From Inventory").

(7) *Heading.* Fill in as indicated, specifying as WPB Order No., "M-300-----" (specify Schedule number).

(8) *Table I.* Specify in the heading the allocation period for which authorization for acceptance of delivery or use is sought.

(9) *Columns 1 and 2.* Fill in as indicated, subject to the instructions in the applicable Schedule.

(10) *Column 3.* Specify the proposed primary use of the material sought in terms of the proposed primary product to be made from the material (as indicated in the applicable Schedule), or specify the use as for resale, export or inventory of the requested material in original form.

Column 4. Fill in as follows:

Opposite any primary product in Column 3 which is subject to allocation, specify in Column 4 only the allocation order number (and Schedule number, if allocated under General Allocation Order M-300).

Opposite any primary product in Column 3 which is not under allocation, specify in Column 4 the end use accurately and briefly, giving Army or Navy specification or contract numbers, or Lend-Lease requisition and contract numbers, when practicable.

Opposite "resale" in Column 3, suppliers shall write into Column 4 "upon further authorization" or "for exempt small orders". Suppliers who resell in both large and small quantities should specify "upon further authorization" for the total quantity ordered, and should apply on their suppliers' Form WPB-2946 or 2947 for authorization to deliver an aggregate quantity for small orders.

Opposite "export" in Column 3 specify in Column 4 the name of the individual company or governmental agency to whom, or for whose account, the material will be exported, the country of destination, and the governing export license or contract number, unless Lend-Lease, in which case merely specify the Lend-Lease contract and requisition number.

Opposite "inventory" in Column 3, write into Column 4, "subject to further authorization".

(12) *Columns 9 and 10.* Leave blank, except for remarks, if any, in Column 10.

(13) *Tables II, III and IV.* Fill in as indicated except as otherwise provided in the applicable schedule. In Columns 15 and 16, report entire physical inventory, whether or not subject to valid authorization or exemption on the dates specified. Suppliers who both sell and consume the material shall keep separate accounts of their sales and consumption inventories, reporting only the latter on customers' Form WPB-2945.

(14) *Table V.* Fill in only when and as required by the applicable schedule.

SUPPLIERS' FORMS

Suppliers' Forms WPB-2946 and 2947 (formerly PD-601 and 602). Each supplier requiring specific authorization to make delivery shall file application on Form WPB-2946 for an Appendix A material and on Form WPB-2947 for an Appendix B or C material, in the manner prescribed in these forms, subject to the following general instructions:

(15) *Where to obtain copies.* Copies may be obtained at local field offices of the War Production Board.

(16) *Special instructions in schedule.* The applicable schedule may contain special instructions for applications to deliver the particular material, supplementing or modifying the following general instructions.

(17) *When application to deliver is required.* Application for specific authorization to deliver an Appendix A, B or C material is required for any delivery by a supplier after the initial allocation date which is not subject to small order exemption.

A supplier who wishes to divert to his own use any part of his own production shall list his own name on the applicable supplier's form as in the case of any other customer, in addition to applying on customer's Form WPB-2945 (formerly PD-600) when so required.

(18) *Time of filing.* Applications for regular allocation shall be filed or mailed in time to reach the War Production Board on or before the date specified in Column 4 of Appendix A or Column 3 of Appendix B or Column 6 of Appendix C.

(19) *Number of copies and where to file.* Prepare five copies, retain one, and send four copies (original certified) to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-300 ——— (specify schedule number).

(20) *Number of sets.* File a separate set of forms for each separately located plant or distributing point, unless otherwise expressly provided in the applicable schedule.

(21) *Heading.* Fill in as indicated, specifying as WPB Order No. "M-300 ——". (specify schedule number).

(22) *Table I.* Fill in as indicated on Form WPB-2946 (formerly PD-601). List customers alphabetically, as far as practicable. On Form WPB-2947 (formerly PD-602) group customers according to end use and list alphabetically within each group, as far as practicable. If the applicant supplier wishes to use any part of his own production, he should list his own name as a customer on his supplier's form as in the case of any other customer. An aggregate quantity may be requested for exempt small orders without listing individual customers' names. In the case of Appendix C materials specify "WPB-2945" without further use description in Column 1-a of Form WPB-2947 opposite the names of customers who have filed copies of Form WPB-2945 with the applicant supplier.

(23) *Table II.* Fill in as indicated. In Column 10 and 13 report stocks on physical inventory basis regardless of whether any part of the stock is subject to valid authorization to deliver on the date specified. In Column 16, specify a quantity no greater than what is estimated will be available for allocation during the requested allocation period, taking into account undelivered balances on still valid prior authorizations.

SUBPART A—LANDLORDS' PETITIONS AND TENANTS' APPLICATIONS

§ 1300.202 *Right to file petition.* A petition for adjustment or other relief may be filed by any landlord subject to any provision of a maximum rent regulation who requests such adjustment or relief pursuant to a provision of the maximum rent regulation authorizing such action.

§ 1300.203 *Method of filing, form, and contents.* A petition for adjustment or other relief provided for by a maximum rent regulation shall be filed with the rent director of the Office of Price Administration for the defense-rental area within which the housing accommodations involved are located. Petitions shall be filed upon forms prescribed by the Administrator and pursuant to instructions stated on such forms and may be accompanied by affidavits or other documents setting forth the evidence upon which the petitioner relies in support of the facts alleged in his petition.

§ 1300.204 *Joint petitions, consolidation.* Two or more landlords may file a joint petition for adjustment or other relief where the grounds of the petition are common to all landlords joining therein. A joint petition shall be filed and determined in accordance with the rules governing the filing and determination of petitions filed by one landlord. A landlord's petition may include as many housing accommodations as present common questions which can be expeditiously determined in one proceeding. Whenever the rent director deems it necessary or appropriate, he may order the filing of separate petitions or he may consolidate separate petitions presenting common questions which can be determined expeditiously in one proceeding.

§ 1300.205 *Tenants' applications.* All tenants' applications provided for by any maximum rent regulation shall be filed with the rent director for the defense-rental area within which the housing accommodations involved are located. The application shall be filed on forms prescribed by the Administrator and pursuant to directions set forth on such forms. Action upon any tenant's application shall be within the discretion of the rent director and the procedure thereon shall be the same as in proceedings initiated by the rent director pursuant to provisions of a maximum rent regulation authorizing such action.

§ 1300.206 *Investigation of petitions and applications.* Upon the filing of a petition or application pursuant to the provisions of this regulation, the rent director may make such investigation of the facts involved in the petition or application, hold such conferences, and require the filing of such reports, evidence in affidavit form or other material relevant to the proceeding, as he may deem necessary or appropriate for the proper disposition of the petition or application.

§ 1300.207 *Action by rent director on his own initiative.* In any case where the rent director pursuant to the provisions of a maximum rent regulation, deems it necessary or appropriate to enter an order on his own initiative, he shall, before taking such action, serve a notice upon the landlord of the housing accommodations involved stating the proposed action and the grounds therefor.

§ 1300.208 *Action by the rent director on petitions for adjustment or other relief.* (a) Upon receipt of a petition for adjustment or other relief, and after due consideration, the rent director may either:

(1) Dismiss any petition which fails substantially to comply with the provisions of the applicable maximum rent regulation or of this regulation; or

(2) Grant or deny in whole or in part, any petition which is properly pending before him; or

(3) Notice such petition for oral hearing to be held in accordance with §§ 1300.229 to 1300.237, inclusive, of this regulation; or

(4) Provide an opportunity to present further evidence in affidavit form, in connection with such petition.

(b) An order entered by a rent director upon a petition for adjustment or other relief, or an order entered by a rent director on his own initiative, shall be effective and binding until changed by further order and shall be final subject only to application for review or protest as provided in §§ 1300.209 and 1300.210 and §§ 1300.215 to 1300.228, inclusive, of this regulation. An order entered by a rent director may be revoked or modified at any time upon due notice to the petitioner.

An application for review shall be filed in triplicate upon forms prescribed by the Administrator and pursuant to instructions stated on such forms. Upon the filing of an application for review of such determination, the rent director shall forward the record of the proceedings with respect to which such application is filed to the appropriate regional administrator.

(b) Applications for review shall be deemed filed on the date received by the rent director: *Provided,* That applications for review properly addressed to the rent director, bearing a postmark dated within the sixty-day period specified above, but received after the expiration thereof, shall be deemed to have been filed on the date of the postmark.

[§ 1300.209 amended by Am. 1, 8 F.R. 1798, effective 2-13-43, Am. 2, 8 F.R. 3534, effective 3-20-43 and Am. 3, 8 F.R. 5481, effective 4-24-43]

§ 1300.210 *Action on applications for review.* Upon the filing of an application for review in accordance with § 1300.209 of this regulation, and after due consideration, the regional administrator may affirm, revoke, or modify, in whole or in part, the determination of the rent director sought to be reviewed and may enter such order as is necessary or proper. In any case where an application for review does not conform in a substantial respect to the requirements of this regulation, the regional administrator may dismiss such application. An order entered by a regional administrator upon an application for review shall be effective and binding until changed by further order and shall be final subject only to protest as provided in §§ 1300.215 to 1300.228, inclusive, of this regulation. An order entered by a regional administrator upon an application for review may be revoked or modified at any time upon due notice to the applicant.

[§ 1300.210 as amended by Am. 3, 8 F.R. 5481, effective 4-24-43]

§ 1300.211 *Right to file petition.* A petition for amendment may be filed at any time by any person subject to or affected by a provision of a maximum rent regulation. A petition for amendment shall propose an amendment of general applicability and shall be granted or denied on the merits of the amendment proposed. The denial of a petition for amendment is not subject to protest or judicial review under the Act.

§ 1300.212 *Place for filing petitions for amendment; form and contents.* A petition for amendment shall be filed with the Secretary, Office of Price Administration, Washington, D. C. One original and four copies of the petition and of all accompanying documents and briefs shall be filed. Each copy shall be printed, typewritten, mimeographed, or prepared by a similar process, and shall be plainly legible. upon the first page thereof, the name of the defense-rental area and the number and date of issuance of the maximum rent regulation to which the petition relates, and the name and address of the petitioner. The petition shall specify the manner in which the petitioner is subject to or affected by the provision of the maximum rent regulation involved, and shall include a specific statement of the particular amendment desired and the facts which make that amendment necessary or appropriate. The petition shall be accompanied by affidavits setting forth the evidence upon which the petitioner relies in his petition.

[§ 1300.212 as amended by Am. 1, 8 F.R. 1798, effective 2-13-43]

§ 1300.213 *Joint petitions for amendment.* Two or more persons may file a joint petition for amendment, where the amendments proposed are identical or substantially similar. Joint petitions shall be filed and determined in accordance with the rules governing the filing and determination of petitions filed by one person. Whenever the Administrator deems it to be necessary or appropriate for the disposition of joint petitions, he may treat such joint petitions as several, and, in any event, he may require the filing of relevant material by each individual petitioner.

§ 1300.214 *Action by the Administrator on petition.* In the consideration of any petition for amendment, the Administrator may afford to the petitioner and to other persons likely to have information bearing upon such proposed amendment, or likely to be affected thereby, an opportunity to present evidence or argument in support of, or in opposition to, such proposed amendment. Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more petitions for amendment, the Administrator may consolidate such petitions.

SUBPART C—PROTESTS

§ 1300.215 *Right to protest.* Any landlord subject to any provision of a maximum rent regulation, or of an order issued under § 1300.210 of this regulation, or of an order entered under section 5 (d) of any maximum rent regulation, or of an order entered by the rent director under § 1300.207 of this regulation, may file a protest in the manner set forth below. A landlord is, for the purposes of this regulation, subject to a provision of a maximum rent regulation or of an order only if such provision prohibits or requires action by him. Any protest filed by a landlord not subject to the provision protested, or otherwise not in accordance with the requirements of this regulation, may be dismissed by the Administrator.

[§ 1300.215 as amended by Am. 3, 8 F.R. 5481, effective 4-24-43]

[Former text of § 1300.216 designated (a) by Am. 2, 8 F.R. 3534 and amended by Am. 3, 8 F.R. 5481, effective 4-24-43]

(b) Protests shall be deemed filed on the date received by the Secretary, Office of Price Administration, Washington, D. C.: *Provided,* That protests properly addressed to the Secretary bearing a postmark dated within the applicable sixty-day period specified above, but received after the expiration thereof, shall be deemed to have been filed on the date of the postmark.

[Paragraph (b) added by Am. 2, 8 F.R. 3534, effective 3-20-43]

§ 1300.217 *Form of protest.* Every protest shall be clearly designated a "Protest" and shall contain, upon the first page thereof (a) the name of the protestant and of the defense-rental area for which the maximum rent regulation or order protested was issued, (b) a statement whether the protest is against a maximum rent regulation or order, and (c) the date of issuance and the number of such maximum rent regulation or order. One original and five copies of the protest and of all accompanying documents and briefs shall be filed. Each copy shall be printed, typewritten, mimeographed or prepared by a similar process, and should be plainly legible. Copies shall be double spaced, except that quotations shall be single spaced and indented.

§ 1300.218 *Assignment of docket number.* Upon receipt of a protest it shall be assigned a docket number, of which the protestant shall be notified, and all further papers filed in the proceedings shall contain on the first page thereof the docket number so assigned and the information specified in § 1300.217 of this regulation.

§ 1300.219 *Contents of protest.* Every protest shall set forth the following:

(a) The name and the post office address of the protestant, the manner in which the protestant is subject to the provision of the maximum rent regulation or order protested, and the location, by post office address or otherwise, of all housing accommodations involved in the protest.

(b) The name and post office address of the person filing the protest on behalf of the protestant and the name and post office address of the person to whom all communications from the Office of Price Administration relating to the protest shall be sent.

(c) A clear and concise statement of all objections raised by the protestant against the provision of the maximum rent regulation or order protested, each such objection to be separately stated and numbered.

(d) A clear and concise statement of all facts alleged in support of the objections.

(e) A statement of the relief requested by the protestant including, if the protestant requests modification of a provision of the maximum rent regulation or order, the specific changes which he seeks to have made therein.

(f) In cases where the protest is based upon grounds arising after the date of issuance of the maximum rent regulation, a clear and concise statement of facts showing the time when such grounds arose.

(g) A statement signed and sworn to (or affirmed) by the protestant personally or, if a partnership, by a partner or if a corporation or association, by a duly authorized officer, that the protest and the documents filed therewith are prepared in good faith and that the facts alleged are true to the best of his knowledge, information and belief. The protestant shall specify which of the facts are known to him to be true and which are alleged on information and belief.

§ 1300.220 *Affidavits or other written evidence in support of protest.* Every protestant shall file together with his protest the following:

(a) Affidavits setting forth in full all the evidence, the presentation of which is subject to the control of the protestant, upon which the protestant relies in support of the facts alleged in the protest. Each such affidavit shall state the name, post office address, and occupation of the affiant; his business connection, if any, with the protestant; and whether the facts set forth in the affidavit are stated from personal knowledge or on information and belief. In every instance, the affiant shall state in detail the sources of his information: *Provided,* That on a protest of an order, the evidence and all documents in proceedings had in connection therewith, shall be a part of the record on protest and need not be filed by the protestant.

(b) A statement by the protestant in affidavit form setting forth in detail the nature and sources of any further evidence, not subject to his control, upon which he believes he can rely in support of the facts alleged in his protest.

(c) If necessary, a further statement by the protestant in affidavit form setting forth the nature and sources of any evidence which the protestant is unable to present solely because of the time limit for the filing of protests and supporting material. Such further statement may contain a request for an opportunity to present such further evidence, which request shall state specifically the amount of time needed for preparation of such evidence. Any affidavits providing further evidence, pursuant to order, shall contain the information required by subparagraph (a) of this section.

§ 1300.221 *Submission of brief by protestant.* The protestant may file with his protest and accompanying evidential material a brief in support of the objections set forth in the protest. Such brief shall be submitted as a separate document, distinct from the protest and evidential material.

§ 1300.222 *Joint protests.* Two or more landlords may file a joint protest. Joint protests shall be filed and determined in accordance with the rules governing the filing and determination of protests filed severally. A joint protest shall be verified in accordance with §1300.219 (g) of this regulation by each protestant. A joint protest may be filed only where at least one ground is common to all persons joining in it. Whenever the Administrator deems it to be necessary or appropriate for the disposition of joint protests, he may treat such joint protests as several, and, in any event, he may require the filing of relevant materials by the individual protestants.

§ 1300.223 *Amendment of protest and presentation of supplemental evidence.* (a) The protestant may amend his protest or his affidavits and briefs submitted therewith, or may add to such material within a period of sixty days after the issuance of the maximum rent regulation or order against a provision of which the protest is filed, or, in the case of a protest based solely on grounds arising after the date of issuance of a maximum rent regulation, within sixty days after the protestant has had or could reasonably have had notice of the existence of such grounds.

(b) After the time prescribed in paragraph (a) of this section, a protestant may be granted permission to amend his protest or to present further evidence in connection therewith, when, in the judgment of the Administrator, such permission will not unduly delay the completion of proceedings on the protest. No amendment which adds a new ground of protest will be permitted.

§ 1300.224 *Protest and evidential material not conforming to this regulation.* In any case where a protest or accompanying evidential material does not conform, in a substantial respect, to the requirements of this regulation, the Administrator may dismiss such protest, or, in his discretion, may strike such evidential material from the record of the proceedings in connection with the protest. A protest against the provisions of an order entered under section 5 (d) of any maximum rent regulation or of an order entered by a rent director under § 1300.207 of this regulation may be dismissed where, prior to the filing of such protest, the landlord filed an application for review of such order as provided in § 1300.209 of this regulation.

[§ 1300.224 as amended by Am. 3, 8 F.R. 5481, effective 4-24-43]

§ 1300.225 *Action by the Administrator on protest.* (a) Within a reasonable time after the filing of any protest, in accordance with this regulation, but in no event more than thirty days after such filing or ninety days after the issuance of the maximum rent regulation or order against a provision of which the protest is filed, whichever occurs later, the Administrator shall:

(1) Grant or deny such protest in whole or in part; or

(2) Notice such protest for oral hearing, to be held in accordance with the provisions of §§ 1300.229 to 1300.237, inclusive of this regulation; or

(3) Provide an opportunity to present further evidence in connection with such protest. Before, or within a reasonable time after, the presentation of such further evidence, the Administrator may notice such protest for oral hearing in accordance with subparagraph (2) of this section, may include additional material in the record of the proceedings in connection with the protest in accordance with § 1300.226 of this regulation, or may take such other action as may be appropriate to the disposition of the protest.

(b) Notice of any such action taken by the Administrator shall promptly be served upon the protestant.

(c) Where the Administrator has ordered a hearing on a protest or has provided an opportunity for the presentation of further evidence in connection therewith, he shall, within a reasonable time after the completion of such hearing or the presentation of such evidence, grant or deny such protest in whole or in part.

§ 1300.226 *Statements in support of maximum rent regulation or order.* (a) Any person affected by the provisions of a maximum rent regulation, or of an order issued thereunder, may at any time after the issuance of such regulation or order submit to the Administrator a statement in support of any such provisions. Such statement shall include the name and post office address of such person, the nature of his business, and the manner in which such person is affected by the maximum rent regulation or order in question, and may be accompanied by affidavits and other data. Each such supporting statement shall conform to the requirements of § 1300.220 of this regulation.

(b) In the event that a protest has been, or is subsequently, filed against a provision of a maximum rent regulation or order in support of which a statement has been submitted, the Administrator may include such statement in the record of the proceedings taken in connection with such protest. If such supporting statement is incorporated into the record, and is not so incorporated at an oral hearing, copies of such supporting statement shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.

§ 1300.227 *Inclusion of material in the record by the Administrator.* The Administrator shall include in the record of the proceedings on the protest such evidence, in the form of affidavits or otherwise, as he deems appropriate in support of the provision against which the protest is filed. When such evidence is incorporated into the record, and is not so incorporated at an oral hearing, copies thereof shall be served upon the protestant, and the protestant shall be given a reasonable opportunity to present evidence in rebuttal thereof.

§ 1300.228 *Consolidation of protests.* Whenever necessary or appropriate for the full and expeditious determination of common questions raised by two or more protests the Administrator may consolidate such protests.

Oral Hearings

§ 1300.229 *Requests for oral hearing.* Any protestant, applicant, or petitioner may request an oral hearing. Such request shall be accompanied by a showing as to why the filing of affidavits or other written evidence and briefs will not permit the fair and expeditious disposition of the protest, application for review, or petition. In the event that an oral hearing is ordered in connection with a protest, application for review, or petition, notice thereof shall be served on the protestant, applicant, or petitioner not less than five days prior to such hearing. The time and place of the hearing shall be stated in the notice. Any such oral hearing may be limited in such manner and to the extent deemed appropriate to the expeditious determination of the proceeding.

[§ 1300.229 amended by Am. 1, 8 F.R. 1798, effective 2-13-43 and Am. 3, 8 F.R. 5481, effective 4-24-43]

§ 1300.230 *Conference prior to oral hearing.* At any time prior to the commencement of the oral hearing, the protestant, applicant, or petitioner may be requested to appear at a conference to consider (a) the simplification of issues; (b) the possibility of obtaining stipulations of fact which will avoid unnecessary proof; and (c) such other matters as may expedite the conduct of the oral hearing. No transcript of such conference shall be kept, but the officer authorized to conduct such conference shall incorporate in the record of the proceedings any written stipulations or agreements made at, or as a result of, the conference. If the circumstances are such that an oral conference is impracticable, such negotiations may be conducted by correspondence.

[§ 1300.230 as amended by Am. 3, 8 F.R. 5481, effective 4-24-43]

§ 1300.231 *Continuance or adjournment of oral hearing.* The oral hearing shall be held at the time and place specified by the notice of hearing but may be continued or adjourned to a later day or to a different place. Notice of such adjournment or continuance may be by announcement at the oral hearing.

§ 1300.232 *Conduct of the oral hearing.* (a) An oral hearing on a protest, application for review, or petition shall be conducted by the Administrator or such officer or employee of the Office of Price Administration (hereinafter referred to as the "presiding officer") as the Administrator may appoint or designate for that purpose. Any such appointment or designation may be made or revoked at any time.

ARTICLE 1—SCOPE OF THE REGULATION

SECTION 1. *Prices higher than ceiling prohibited.* (a) On and after February 17, 1944, regardless of any contract or other obligation, no person shall sell or buy for direct-mill shipment, or deliver or receive on direct-mill shipment, any Northeastern softwood lumber at prices higher than the ceiling prices fixed by this regulation; and no person shall agree, offer or attempt to do any of these things.

(b) Prices lower than the ceiling prices may, of course, be charged and paid.

SEC. 2. *To what products and transactions this regulation applies*—(a) *Products covered.* This regulation covers, under the name of "Northeastern softwood lumber", all items of lumber of the following softwood species produced in the States of Maine, New Hampshire, Vermont, Connecticut, Massachusetts, Rhode Island, New York, Pennsylvania, Maryland, West Virginia, Kentucky, Virginia, Tennessee, North Carolina, South Carolina and Georgia, and in that part of the Dominion of Canada located east of the 85th meridian: Northeastern white pine (Pinus strobus), Norway pine (Pinus resinosa), Eastern hemlock (Tsuga canadensis), Eastern spruce (Picea rubra, Picea Mariana, and Picea glauca), Eastern white cedar (Thuja occidentalis), and Jack pine (Pinus banksiana), and of all other softwood species except Southern pine (covered by Second RMPR 19), Cypress (covered by MPR 412, GMPR or other maximum price regulations) and Cedar (covered by MPR 454), whether the item or species is specifically named in the price tables or not.

(b) *Transactions covered.* This regulation covers, under the term "sales for direct-mill shipment", all sales of Northeastern softwood lumber, no matter who the seller is, and regardless of the quantity involved, except sales of Northeastern softwood lumber which was part of the regular stock of a distribution yard at the time the sale was made.

(1) *How to tell a mill from a distribution yard.* The term "mill", as used here, covers what are known in the trade as sawmills, planing mills and concentration yards. Three types of establishment are described below: the first (1), a typical sawmill or planing mill; the second (2), a typical concentration yard; and the third (3), a typical distribution yard. An establishment which resembles (1) or (2) more than it does (3) is considered a mill; and one which resembles (3) more than it does (1) and (2) is considered a distribution yard.

(i) "A typical sawmill or planing mill" is an establishment which is chiefly engaged in manufacturing lumber from logs or rough lumber by sawing or planing; which is located in or near a lumber producing area; which makes and sells chiefly Northeastern softwood lumber;

(ii) "A typical concentration yard" is an establishment which concentrates and prepares lumber for commercial shipment, which keeps in stock mostly Northeastern softwood lumber, which has its lumber brought in chiefly in rough green form by truck from small local sawmills and sells chiefly for rail or full truck-load shipment, and which has been located at its particular site to be near the lumber producing area;

(iii) "A typical distribution yard" is a wholesale or retail lumber yard which gets lumber from mills or other yards; unloads, sorts, and resells or redistributes it; which regularly maintains a varied stock of lumber from different regions; which gets its lumber, except for local species, mostly by rail and sells mostly for truck shipment; which is equipped to make quick deliveries of many different items of lumber; and which has been located at its particular site in order to be near a lumber consuming area.

(2) *New yards or changed status.* In order to prevent violation of this regulation by unnecessary routing through yards, the Office of Price Administration will not recognize distribution yards, either new or resulting from a change in operations, set up after May 24, 1943, unless the yard writes to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., and proves that it satisfies the requirements of the definition and that the purpose is not to get around this regulation by means of unnecessary yard business. Until approval is received, the new yard cannot consider itself a distribution yard for the purpose of this regulation.

(3) *"CPA contract yards".* "CPA yards" as defined in Second Revised Maximum Price Regulation 215[1] are considered distribution yards, regardless of the above requirements.

ARTICLE II—MAXIMUM PRICES AND TERMS OF SALE

SEC. 3. *Basic prices and cash discount*—(a) *Basic prices.* The maximum f. o. b. mill prices for domestic Northeastern softwood lumber are set forth in Appendices A, B, C, D, and E. The maximum base prices for imported Northeastern softwood lumber are set forth in Appendices A, C, D, and F, and the transportation charges provided in these Appendices shall be added to arrive at the maximum delivered prices to points within the United States.

(b) *Cash discount.* If cash is paid the maximum price must be reduced by the seller's August 1941 cash discount. When a seller was not in business in August 1941, 2% cash discount for payment in 10 days shall be allowed. On specific written allocations issued by the Office of the Chief of Engineers, War Department, the terms 30 days net may be used by the seller regardless of his established practice.

(c) If the purchaser himself makes the pick-up at the mill, the maximum price shall be reduced $2.00 per M'BM.

SEC. 4. *Addition for "direct mill retail sales."* In the case of sales of less than 2,500 feet to any buyer except mills or distribution yards, a handling charge of $5.00 per M'BM may be added to the f. o. b. mill price, together with a percentage mark-up of 10% of the total so obtained, provided the seller expressly agrees:

(a) To see that the lumber is delivered to the job site or buyer's plant at such time and in such quantities as the buyer specifies;

(b) To give the buyer the privilege of exchanging the lumber and returning unused material;

(c) To make good any shortage from stocks kept on hand for this purpose. The size of the sale is determined by the over-all amount involved in the transaction. Thus, if the buyer and seller know that a particular shipment will run to 10 M'BM, the addition may not be made even if the order is broken into five orders of 2 M'BM and delivered on five different days in loads of 2 M'BM.

SEC. 5. *Transportation charges*—(a) *Domestic lumber*—(1) *Private truck.* When shipment is by truck owned or controlled by the seller, the following amounts may be added for transportation: For distances up to and including 10 miles, $1.50 per M'BM; over 10 and up to and including 20 miles, $2.00 per M'BM; and over 20 and up to and including 30 miles, $2.50 per M'BM. Where the distance is greater than 30 miles, the seller may charge the amount of the railroad charge at the carload rate for the most similar haul or $3.00 per M'BM, whichever is greater. Distance, as used in this paragraph, means the distance from the mill to the point of destination as measured by the speedometer. No addition may be made for the return trip.

(2) *Common or contract carrier.* For common or contract carrier shipments, the maximum transportation addition shall be either the rate times the estimated weights in the Appendices, or the actual amount paid to the carrier.

(3) *Truck delivery after rail haul.* Where the shipment is by rail followed by truck delivery, the amount added for transportation may include, in addition to the amount added for rail transportation, the actual cost of the truck delivery.

[1] 8 F.R. 14145.

(4) *Trucking to rails.* Where a truck haul precedes the rail haul, as where a mill located away from a railhead hauls lumber by truck to the railhead, no addition may be made for the truck haul.

(5) *Transportation to planing mill.* Where the lumber is shipped by rail from a mill having milling-in-transit arrangements with a carrier to a planing mill, owned by the same person, for further processing before delivery to the purchaser, that person may apply for permission to figure transportation charges on the basis of the through rail freight rate from the first mill to final destination in the following case:

(i) Where the hurricane of September, 1938, damaged and destroyed a substantial portion of the timber near which the planing mill had been located so that the mill has been compelled to rely primarily on more distant sources of timber; and

(ii) Where it has not been practicable to move the planing mill near other sources of timber because of excessive moving costs, shortages of mill labor and insufficient standing timber in any single location to warrant moving the mill.

The application should be made by letter to the Lumber Branch, of the Office of Price Administration, Washington 25, D. C., and may be acted upon by letter. The addition may not be made on quotations or sales until permission has been received.

(b) *Imported lumber.* In the case of sales of imported lumber the transportation charges that may be added to the maximum basic prices are specifically set forth in the various Appendices dealing with imported Northeastern softwood lumber.

(c) *"Evening-out."* When estimated weights are used, delivered prices shall be evened out to the nearest quarter of a dollar per M'BM, or nearest 5 cents per 1,000 pieces of lath or square of shingles.

SEC. 6. *Species, grades, items, services and extras not listed.* (a) If a seller wishes to sell a species, grade or item of Northeastern softwood lumber which is not specifically priced in the price tables, or wishes to make an addition for special workings, specifications, services, or extras for which additions are not specifically permitted, he must apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C. for a maximum price. He must submit the following information:

(1) The requested price: (2) a complete description of the material to be priced; and (3) the price differential between it and the most comparable item priced in the price tables between January 1 and August 1, 1941, from the seller's own records, or if that is impossible, from the experience of the trade. If no established price differential existed, detailed analysis of comparable value should be furnished.

Applications under this section will be considered only when accompanied by a true copy of an order or of a customer's inquiry which forms the basis of the application, and a written statement by the purchaser showing that none of the items specifically priced in the regulation will serve the purpose for which the stock is to be used, and that it has been his custom to purchase lumber on these special specifications.

(b) As soon as the request has been filed, quotations and deliveries may be made at the requested price, but final payment may not be made until the price has been approved. Action on the request may be by letter or telegram. If the Office of Price Administration has not acted within 30 days of the receipt of the request, the requested price is approved.

SEC. 7. *What the invoice must contain*—(a) *Basic price.* All invoices must contain a complete description of the lumber to show whether the price is proper or not. Any working, specification, or extra which affects the maximum price must be mentioned in the description. The amount added for these does not have to be separately shown.

(b) *Transportation charges.* In delivered sales, the invoice must contain the:

(1) Point of origin of shipment;

(2) Destination;

(3) Rail rate (if estimated weights are used; otherwise the actual amount added for transportation); and in the case of the sales of imported lumber, the method of calculation of the freight addition;

(4) The words "direct-mill shipment".

(c) *Delivery and related charges.* Any separate charge which the seller is permitted to make for truck delivery after rail haul must be separately shown on the invoice.

(d) *Direct-mill retail sales.* If the price exceeds the basic mill price because of the "direct-mill retail sale" mark-up authorized in section 10, the invoice should show the amount of the mark-up separately labeled "Direct-mill retail sale".

(e) *Different freight rates.* When a single order, for which a single flat delivered price was quoted and accepted is shipped from two or more mills to a single destination on varying freight rates, the seller may average-out the transportation charges. For example, if a wholesaler bids $33.00 per M'BM on a single order of a hundred thousand feet of lumber, the ceiling price being $30.00 per M'BM and the estimated freight $3.00, he can ship half of it on a rate resulting in a $2.00 freight charge and half on a rate resulting in a $4.00 freight charge. Where this practice is adopted, the seller must observe all of the following conditions:

(1) Each invoice must state that the particular shipment is part of a larger order and identify the order. It must also show the individual rates for each shipment or delivery.

(2) The transportation charges which may be made and collected for each shipment or delivery, on account, must not exceed the average transportation charge figured on the entire order or the actual transportation charge for the particular shipment based upon the permitted estimated weights, whichever is the lower.

(3) Upon completion of the order the seller must render a final invoice showing the individual f. o. b. mill prices separately, the amount shipped from each mill, the freight charge for each shipment, and a reconciliation of the total amount so computed with the agreed delivered selling prices and also with the maximum prices permitted by this regulation. Final payment and all necessary adjustments between buyer and seller are to be made upon the final reconciliation.

SEC. 8. *Sales for export.* The maximum price at which any person may export Northeastern softwood lumber shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation [1] issued by the Office of Price Administration.

SEC. 9. *Prohibited practices.*—(a) *General.* Any practice which is a device to get the effect of a higher than ceiling price without actually raising the dollars-and-cents price is as much a violation of this Regulation as an outright over-ceiling price.

(b) *Specific practices.* The following are some of the specific practices prohibited.

(1) Getting the effect of a higher price by changing credit practices from what they were in August 1941. This includes decreasing credit periods or making greater charges for extension of credit. In any case, on sales made through the Office of the Chief of Engineers, War Department, terms of 30 days net may be used.

(2) Refusing (without good reason) to ship except in specified or restricted random lengths, or under other circumstances which bring the seller an extra return.

(3) Selling as specified lengths or widths a shipment of lumber which is substantially equivalent to standard or random lengths or widths; or reselling as specified lengths or widths a shipment bought by the seller as standard or random lengths or widths.

(4) Grading as a special grade lumber which can be graded as a standard grade; wrongly or falsely grading or invoicing lumber in any way.

(5) Making additions for special specifications, services, or other extras which are not specifically permitted.

(6) Refusing to sell on an f. o. b. mill basis, and insisting on selling on a delivered basis, except in the case of sales of imported Northeastern softwood lumber.

(7) Unnecessarily routing lumber through a distribution yard.

(8) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(9) Making the buyer take something he does not want in order to get what he does want.

(10) Getting a higher price by charging the buyer for ripping or resawing, or charging on the basis of an original size larger than the item actually delivered (for example, charging the price of 4 x 4 ripped to 2 x 4 on a sale and delivery of 2 x 4's) except where the items ordered and delivered are non-standard sizes not

[1] 8 F.R. 4132, 5987, 7662, 9998, 15193.

specifically priced in the tables. This prohibition has no application where the item resulting from remanufacture is priced higher in the tables than the original larger size.

(11) Making any of the additions contained in the footnotes to the tables in Articles V to X inclusive, to the prices of the various items set forth in the tables unless the purchaser's order expressly requires the working, grade, condition, size, or length for which the additions are permitted.

(12) Making an addition for double end trimming when standard lengths are ordered and shipped.

(c) *Adding commission to ceiling prohibited.* It is unlawful for any person to charge, receive, or pay a commission for the service of procuring (including buying, selling or locating lumber, or for any related service such as "expediting") which does not involve actual physical handling of lumber, if the commission plus the purchase price results in a total payment by the buyer which is higher than the maximum price of the lumber. For purposes of this regulation, a commission is any compensation, however designated, which is paid for the procurement of lumber. This prohibition has no application to the case of a bona fide employer-employee relationship where the employee serves only one employer, insofar as lumber procurement is concerned, and where the compensation paid by the employer is a fixed salary and is not based directly or indirectly on the quantity, price or value of the lumber in connection with which the service is rendered.

(d) *Combination grades.* Lumber sold in a combination of grades for which no price is established in the regulation may not be sold above the maximum price for the lowest priced grade actually named in the combination. For example, the maximum price for lumber sold as merchantable and selected merchantable is the maximum price fixed for merchantable lumber. But it is permissible to sell a combination of grades where the exact quantity of each grade shipped is separately shown on the invoice and segregated in the car by strips (except timbers) or otherwise easily made identifiable to the purchaser and separately tallied (tally card to be included in car), in which case the appropriate ceiling price for the quantity of each grade shipped may be charged.

SEC. 10. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment.

ARTICLE III—MISCELLANEOUS

SEC. 11. *Applications for adjustment and petitions for amendment*—(a) *Government contracts.* (See Procedural Regulation No. 6.[5])

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[6] issued by the Office of Price Administration.

(c) In treating with petitions for amendment or applications for adjustment, consideration will not be given to log and bolt costs which are higher than the applicable maximum purchase prices for logs and bolts established in Maximum Price Regulation 348 (Logs and Bolts),[7] or any revision or amendment of that regulation. This rule shall be followed regardless of whether the petitioner gets logs and bolts by purchasing them, logging his own standing timber, contracting for the logging of his own standing timber, or any other means. All petitions in any way based on the cost of logs or bolts must show the actual cost to the petitioner of logs and bolts received at his plant during the three months immediately prior to filing the petition, and the cost which would have been incurred by the petitioner if all of these logs and bolts had been purchased by him at ceiling prices. To figure these ceiling prices the petitioner should refer to the regulation which fixes the maximum prices for purchases and sales of the kinds of logs and bolts received at his plant.

SEC. 12. *Records.* All sellers of Northeastern softwood lumber must keep, for two years, records which show a complete description of the items of lumber sold, the name and address of the buyer, the date of the sale and the price. Buyers must keep similar records, including the name and address of the seller. These records must be kept for any month in which the seller or buyer sold or bought 5,000 feet board measure or more of Northeastern softwood lumber.

SEC. 13. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 14. *Licensing.* The provisions of Licensing Order No. 1,[8] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

ARTICLE IV—APPENDIX A: SQUARE-EDGE WHITE PINE

SEC. 15. *Application of Appendix A.* This appendix applies to domestic Northeastern white pine lumber processed square edge (i. e., sawn or processed square on four sides), and to imported Northeastern white pine lumber processed square edge shipped from mills located in that part of the Dominion of Canada east of the Province of Ontario, when sold on the specifications and on the grades designated below. (Maximum prices for Northeastern white pine lumber shipped from mills located in that part of the Province of Ontario lying east of the 85th Meridian, known as Ottawa Valley White Pine, are set forth separately in Appendix F.)

SEC. 16. *Grading rules.* Grade terms in this Appendix have the meaning set forth in "Standard Grading Rules for Northern White Pine and Norway Pine" (Northeastern type) published by the Northeastern Lumber Manufacturers Association, Inc., effective January 1, 1937.

SEC. 17. *Maximum prices.* The maximum f. o. b. mill price for domestic Northeastern white pine lumber processed square edge, and the maximum base price for imported Northeastern white pine lumber other than Ottawa Valley white pine lumber processed square edge shall be as set forth below. These prices are for 1,000 feet board measure of lumber in a rough air-dried condition.

SEC. 18. *Transportation addition on imported lumber.* (For domestic transportation addition, see section 11). In the case of sales of imported Northeastern white pine lumber, the amount that may be added to the maximum base price for transportation is the railroad freight from Campbellton, New Brunswick, to the point of delivery in the United States, computed on the lowest through rate. This rule applies regardless of the point of origin, and whether the lumber is shipped by rail or truck. The freight shall be computed on the basis of the estimated average weights set forth in Table No. 3 above, and the final amount shall be even out to the nearest quarter of a dollar per M'MB. No addition may be made to the maximum base price for duty or for any charges or fees incurred in importation.

SEC. 22. *Application of Appendix C.* This appendix applies to domestic and imported Eastern spruce, Jack pine and Norway pine lumber (except Norway pine produced in Ontario and farther west), sold on the specifications and on the grades designated below. (Maximum prices for Norway pine shipped from mills located in that part of the Province of Ontario lying east of the 85th meridian, known as Ottawa Valley Norway pine, are set forth separately in Appendix F.)

SEC. 23. *Grading rules.* Grade terms used herein have the meaning set forth in "Standard Grading Rules for Eastern Spruce and Balsam Fir", published by the Northeastern Lumber Manufacturers Association, Inc., effective April 1, 1938, as applied to Eastern spruce and Jack pine lumber, and in "Standard Grading Rules for Northern White Pine" (Northeastern type) published by the Northeastern Lumber Manufacturers Association, Inc., effective January 1, 1937, as applied to Norway pine lumber.

SEC. 25. *Transportation addition on imported lumber.* (For domestic transportation addition, see section 11). In the case of sales of Eastern spruce, Norway pine (other than Ottawa Valley Norway pine) and Jack pine lumber, the amount that may be added to the maximum base price for transportation is the railroad freight from Campbellton, New Brunswick, to the point of delivery in the United States computed on the lowest through rate. This rule applies regardless of the point of origin and whether the lumber is shipped by rail or truck. The freight shall be computed on the basis of the estimated average weights set forth in Table No. 14 above, and the final amount shall be evened out to the nearest quarter of a dollar per M'BM. No additions may be made to the maximum base price for duty or for any charge or fees incurred in importation.

ARTICLE VII—APPENDIX D: NEW ENGLAND AND IMPORTED EASTERN HEMLOCK LUMBER: PRICE TABLES

SEC. 26. *Application of Appendix D.* This appendix applies to Eastern hemlock lumber which is shipped to the purchaser from mills located in the states of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, and Connecticut, and that part of the Dominion of Canada located east of the 85th meridian, and which is sold on the specifications and on the grades designated in this section.

SEC. 27. *Grading rules.* Grade terms used herein have the meaning set forth in the "Official Grading Rules for Hemlock and Tamarack Lumber, and White Cedar Shingles" published by the Northern Hemlock and Hardwood Manufacturers' Association, effective June 27, 1941.

SEC. 28. *Maximum prices.* The maximum f. o. b. mill price for New England Eastern hemlock lumber, and the maximum base price for imported Eastern hemlock lumber shall be as set forth below. These prices are for 1,000 feet board measure of lumber in a rough air dried condition.

SEC. 36. *Transportation adjustment.* In the case of shipments of Ottawa Valley white or Norway pine to destinations in the United States other than Niagara Falls, N. Y., the maximum delivered price shall be computed as follows: From the maximum price, f. o. b. Niagara Falls, N. Y., deduct railroad freight from the point of shipment to Niagara Falls, N. Y., and add freight from point of shipment to destination. Freight shall be calculated on the lowest through rate and on the applicable estimated average weights set forth in Table 25 above. The final amount shall be evened out to the nearest quarter of a dollar per M'BM. No additions may be made in the maximum prices for the duty or for any charge of fees incurred in importation.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date. This regulation shall become effective February 17, 1944, except that:

(a) If lumber has been received before February 17, 1944, by a carrier other than one owned or controlled by the seller, for shipment to a buyer, that shipment is not subject to this revised regulation. It remains subject to the terms of the earlier regulation, Revised Maximum Price Regulation 219.

(b) If this regulation lowers any maximum price below that fixed in the earlier regulation, contracts that were in existence before the date of issuance of this revised regulation at lawful prices may be completed according to their terms, if delivery is made on or before March 2, 1944.

NOTE: The mere fact that this revised regulation increases some maximum prices does not of itself allow any seller to apply the higher prices to existing uncompleted contracts without the consent of the buyer. The regulation permits the making of certain adjustable pricing agreements to cover such situations. Apart from that, increasing prices in existing uncompleted contracts to the level of increased maximum prices in the regulation is purely a matter of agreement between buyer and seller.

Issued this 11th day of February 1944.

Administrator.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 2—ADJUDICATION, VETERANS' CLAIMS

SERVICE CONNECTION FOR DENTAL DISABILITIES

§ 2.1105 *Required period of service.* Determinations relative to the origin or aggravation in active service of dental conditions will be in accordance with the requirements of § 35.011, paragraph (a) (1) and § 35.012, paragraph (a) (1), respectively, and section 28, Title III, Public No. 141, 73d Congress.

(a) When a period of six months or over of continuous active service during a wartime enlistment which began prior to November 11, 1918, or before the termination of hostilities incident to the present war (World War II), as determined by proclamation of the President or by concurrent resolution of Congress, is shown, service connection may be considered as having been established under the World War Veterans' Act, 1924, as amended, reenacted by Public No. 141, 73d Congress, or § 35.011, paragraph (a) (1), as amended, for World War II service, for any dental disability except such as were recorded at time of enlistment subject to the provisions of § 2.1107 (a), existed prior thereto, or otherwise rebutted, shown to have existed within a year from date of discharge from those periods of service. If the claimant was or is discharged after July 2, 1921, or after the termination of hostilities incident to the present war (World War II), as determined by proclamation of the President or concurrent resolution of Congress, the one year period for the establishment of such service connection will begin on July 2, 1921, or the date of termination of hostilities incident to the present war (World War II) as determined by proclamation of the President or concurrent resolution of Congress. Service connection will not be considered as having been established when the evidence clearly shows that the disabilities or conditions existed or were recorded at the time of enlistment subject to the provisions of § 2.1107 (a) or originated subsequent to discharge from causes not related to service. (February 11, 1944) (Sec. 9, Public No. 144, 78th Cong.)

§ 2.1107 *Service connection where dental disability is not of pensionable or compensable degree.* Determinations relating to the origin or aggravation in active service of dental conditions not of pensionable or compensable degree where claim is made for treatment will be in accordance with § 2.1105, § 2.1106 and current instructions covering service connection and aggravation under § 35.011, as amended. However, the statutory presumption provided in section 200 of the World War Veterans' Act, 1924, as amended, as reenacted by Public No. 141, 73d Congress, or § 35.011, paragraph (b) (1), as amended, as to soundness of condition at time of entrance into active service will not be applicable in cases of dental conditions not of pensionable or compensable degree.

(a) The furnishing of treatment or prosthesis for non-compensable dental conditions during service will not be considered per se as aggravation of a dental condition shown to have existed prior to entrance into active service. However, service connection by aggravation will be conceded where a tooth is noted at time of enlistment as defective but was restorable and is extracted during service or where pyorrhea is noted at enlistment but during service necessitates extraction of a tooth or teeth. Conversely, service connection by aggravation will not be conceded if the tooth at enlistment was classified as defective but was not restorable. On and after August 1, 1939, the amounts for dependents of World War veterans will be those authorized by section 5, Public No. 198, 76th Congress. On and after September 1, 1941, the rates for the dependents of any veteran entitled under § 35.011, shall be the rates provided by section 5, Public No. 198, 76th Congress. (b) *Under section 8 of Public No. 304, 75th Congress.* Where an incompetent World War veteran receiving or entitled to receive compensation under Public No. 141, 73d Congress, disappears or has disappeared and for ninety days or more thereafter his whereabouts remains unknown to the members of his family and the Veterans Administration, there will be paid to the dependents of the veteran the amount of compensation payable to dependents of deceased veterans who die from war service-connected disabilities as provided in section 3 of Public No. 304, 75th Congress, effective as of the day following the discontinuance of the veteran's award, date of veteran's disappearance, or August 16, 1937, whichever is the later. On and after August 1, 1939, the amounts will be those authorized by section 5, Public No. 198, 76th Congress. From August 1, 1943, as provided in section 14 (c) of Public No. 144, 78th Congress, the rates for dependents will be those authorized by section 14 (a) of that act. However, in no event will the amount paid to dependents hereunder exceed the amount payable to a veteran at the time of his disappearance. (February 16, 1944) (57 Stat. 554-560)

* * * * *

(c) Awards to dependents under § 35.016, or section 8, Public No. 304, 75th Congress, will not be continued for more than seven years from date of disappearance of the veteran in any case where the facts are such as to bring into effect the presumption of death provided in Public No. 591, 77th Congress. ORDER REVOKING LICENSES, DIRECTING SURRENDER OF LICENSES AND REQUIRING RECORDS TO BE FURNISHED

In the matter of licensee H. O. Eri, R. 1, Boring, Oregon. Proceedings for revocation of license.

Based upon the records in this matter, I make the following findings of fact:

1. On January 12, 1944, a specification of charges against you, setting forth violations of the Federal Explosives Act (55 Stat. 863), as amended, and the regulations pursuant thereto of which you were accused, was mailed to you giving you notice to mail an answer within 15 days from January 12, 1944, answering the charges against you and requesting an oral hearing if you wished.

2. More than 25 days have elapsed since January 12, 1944. The length of time required for mail to be delivered to the Bureau of Mines, Washington, D. C. from Boring, Oregon, does not exceed 7 days. The only communication received from you was your answer dated January 26, 1944. That answer neither denied the charges against you nor requested an oral hearing.

3. The charges against you are true.

Now, therefore, by virtue of the authority vested in me by the Federal Explosives Act and the regulations pursuant thereto, I hereby order

1. That all licenses issued to you under the Federal Explosives Act be and they are hereby revoked at the expiration of three weeks from the date of this order;

2. That within three weeks from the date of this order you shall sell or otherwise dispose of, to properly licensed persons, or destroy, all explosives and ingredients of explosives owned or possessed by you or consigned to you or which are in your custody;

3. That, after having sold or otherwise disposed of or having destroyed all of the explosives and ingredients as required by paragraph 2 of this order, you shall, within three weeks from the date of this order, deliver or mail to L. H. McGuire, Engineer in Charge, United States Bureau of Mines, 233 Federal Office Building, Seattle 4, Washington, a sworn statement of your transactions and destructions of explosives and ingredients of explosives, beginning with the date of this order and ending with the final sale or other disposition or with the destruction of the explosives and ingredients as required above. The statement shall set forth the amount of each kind of explosives and ingredients of explosives which you had on hand at each location at the opening of business on the date of this order, the amount of each kind acquired by you that day and each day thereafter, the dates on which acquired, the names and addresses of the persons from whom acquired, the amount of each kind sold or otherwise disposed of by you, the dates on which sold or otherwise disposed of, the names and addresses and the numbers and dates of Federal explosives licenses of the persons to whom sold or otherwise disposed of, the amount of each kind destroyed by you, the dates on which destroyed and the places where destroyed.

4. That within three weeks from the date of this order you shall surrender all licenses issued to you under the Federal Explosives Act, and all copies thereof, by mailing or delivering them to L. H. McGuire, Engineer in Charge, United States Bureau of Mines, 233 Federal Office Building, Seattle 4, Washington.

Failure to comply with any of the provisions of this order will constitute a violation of the Federal Explosives Act punishable by a fine of not more than $5,000 or by imprisonment for not more than one year, or by both such fine and imprisonment.

This order shall be published in the FEDERAL REGISTER.

Dated at Washington, D. C., this 7th day of February 1944.

ORDER TERMINATING GOVERNMENT POSSESSION

I have been advised that no strikes or stoppages have occurred since October 25 or are threatened in the coal mines of The B. F. Goodrich Company, Akron, Ohio. Based on such advice, and after consideration of all the circumstances, I find that the possession by the Government of such mines is not required for the furtherance of the war program.

Accordingly, I order and direct that the possession by the Government of the mines of The B. F. Goodrich Company, including any and all real and personal property, franchises, rights, facilities, funds, and other assets used in connection with the operation of such mines be, and it is hereby, terminated and that there be conspicuously displayed at those mining properties copies of a poster to be supplied by the Coal Mines Administration and reading as follows:

NOTICE: Government possession and control of the coal mines of this mining company have been terminated by order of the Secretary of the Interior.

Provided, however, That nothing contained herein shall be deemed to preclude the Government from requiring the submission of information relating to operations during the period of Government possession as provided in section 40 of the regulations for the operation of coal mines under Government control, as amended (8 F.R. 6655, 10712, 11344), for the purpose of ascertaining the existence and amount of any claims against the United States so that the administration of the provisions of Executive Order No. 9393 (8 F.R. 14877) may be concluded in an orderly manner; and *Provided further*, That except as otherwise ordered, the appointment of the operating manager for the mines of said company shall continue in effect.

PINK BOLLWORM QUARANTINE

NOTICE OF PUBLIC HEARING TO CONSIDER ADVISABILITY OF EXTENDING TO LOUISIANA

FEBRUARY 10, 1944.

The Secretary of Agriculture has information that the pink bollworm (*Pectinophora gossypiella* Saunders), a dangerous insect not heretofore widely distributed within or throughout the United States, but known to exist in portions of Texas, New Mexico, and Arizona, has recently been discovered in certain parts of Louisiana.

It appears necessary, therefore, to consider the advisability of revising the quarantine on account of this insect (B. E. P. Q.—Q. 52; 7 CFR 301.52) to include the State of Louisiana and of prohibiting or restricting the interstate movement from that State or areas therein where the bollworm has been discovered, of (1) cotton, including all parts of cotton plants, seed cotton, cotton lint, linters, and all other forms of unmanufactured cotton products; (2) bagging and other containers and wrappers of cotton and cotton products; (3) railway cars, boats, and other vehicles which have been used in conveying cotton or cotton products or which are contaminated with such products; (4) farm products, farm household goods, farm equipment, and any other articles if contaminated with unmanufactured cotton products.

Notice is hereby given that, in accordance with the Plant Quarantine Act of August 20, 1912 (37 Stat. 315; 7 U.S.C. 161), as amended, a public hearing will be held before the Bureau of Entomology and Plant Quarantine in the assembly hall of the Federal Building, Memphis, Tenn., at 10:00 a. m. on March 1, 1944, in order that any person interested in the hearing to consider the advisability of extending the quarantine may appear and be heard either in person or by attorney.

[Docket No. G-488]

CITIES SERVICE GAS COMPANY

NOTICE OF APPLICATION

FEBRUARY 10, 1944.

Notice is hereby given that on February 4, 1944, Cities Service Gas Company (hereinafter referred to as "applicant") filed with the Federal Power Commission an application seeking a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, as amended, authorizing applicant to operate a 26-inch natural gas main transmission line approximately 231 miles in length extending in an easterly direction from a point near Guymon, Texas County, Oklahoma in the Hugoton gas field to the applicant's Blackwell compressor station in Kay County, Oklahoma, together with appurtenant facilities. The pipe line and facilities are now under construction pursuant to the Commission's authorization issued in this matter on September 30, 1943, to Cities Service Transportation and Chemical Company.

NOTICE OF HEARING

In the matter of Wallace T. Austelle and John W. Flintom, partners, doing business under the name and style of Austelle-Flintom Company.

Complaint. The Federal Trade Commission, having reason to believe that the parties respondent named in the caption hereof, and hereinafter more particularly designated and described, since June 19, 1936, have violated and are now violating the provisions of subsection (c) of section 2 of the Clayton Act, as amended by the Robinson-Patman Act, approved June 19, 1936 (U. S. C. Title 15, section 13), hereby issues its complaint stating its charges with respect thereto as follows:

PARAGRAPH 1. Respondents Wallace T. Austelle and John W. Flintom are partners doing business under the name and style of Austelle-Flintom Company, having their principal office and place of business located in the Atlantic Coast Line Warehouse, on Dukes Avenue, in Orangeburg, South Carolina. Respondents are engaged in the business of purchasing canned fruits and vegetables, citrus juices, sugar, rice, beans, salt, and other miscellaneous commodities for their own account, and of reselling the same to jobbers, wholesalers, retail chain stores and other purchasers.

Since June 19, 1936, respondents have made many purchases of such commodities for their own account for resale as aforesaid from sellers located in states other than the State of South Carolina, pursuant to which purchases such commodities have been shipped and transported by sellers from the respective states in which they are located across state lines either to respondents or, pursuant to instructions and directions from respondents, to the respective purchasers to whom such commodities have been resold by respondents.

Since June 19, 1936, respondents have also made many purchases of such commodities for their own account as aforesaid from sellers located in the State of South Carolina, which sellers, pursuant to instructions and directions from respondents, have caused the commodities so purchased by respondents to be shipped and transported from the State of South Carolina across State lines to the respective purchasers to whom such

commodities have been resold by respondents.

PAR. 2. Since June 19, 1936, in connection with the purchases of such commodities by respondents for their own account in interstate commerce as aforesaid, respondents have received and accepted, directly or indirectly, from sellers brokerage fees and commissions or allowances and discounts in lieu thereof in substantial amounts.

PAR. 3. Since June 19, 1936, respondents have resold such commodities purchased for their own account as set forth in paragraphs 1 and 2 hereof to purchasers located in States other than the State of South Carolina, pursuant to which sales respondents have caused such commodities to be shipped and transported across state lines to such purchasers.

Since June 19, 1936, in connection with the resale of such commodities in interstate commerce as aforesaid, respondents have granted and allowed, directly or indirectly, brokerage fees and commissions or allowances and discounts in lieu thereof in substantial amounts to the purchasers of such commodities.

PAR. 4. The receipt and acceptance of brokerage fees and commissions or allowances and discounts in lieu thereof from sellers by respondents upon the purchases of commodities by the respondents as set forth herein, and also the granting and allowing of brokerage fees and commissions or allowances and discounts in lieu thereof by respondents to purchasers upon the resale of commodities by respondents as set forth herein, are in violation of subsection (c) of section 2 of the Clayton Act, as amended.

Wherefore, the premises considered, the Federal Trade Commission on this 7th day of February, A. D. 1944, issues its complaint against said respondents.

Notice. Notice is hereby given you, Wallace T. Austelle and John W. Flintom, partners, doing business under the name and style of Austelle-Flintom Company, respondents herein, that the 17th day of March, A. D. 1944, at 2 o'clock in the afternoon, is hereby fixed as the time, and the offices of the Federal Trade Commission in the City of Washington, D. C., as the place, when and where a hearing will be had on the charges set forth in this complaint, at which time and place you will have the right, under said Act, to appear and show cause why an order should not be entered by said Commission requiring you to cease and desist from the violations of the law charged in the complaint.

You are notified and required, on or before the twentieth day after service upon you of this complaint, to file with the Commission an answer to the complaint. If answer is filed and if your appearance at the place and on the date above stated be not required, due notice to that effect will be given you. The rules of practice adopted by the Commission with respect to answers or failure to appear or answer (Rule IX) provide as follows:

In case of desire to contest the proceeding the respondent shall, within twenty (20) days from the service of the complaint, file with the Commission an answer to the complaint. Such answer shall contain a concise statement of the facts which constitute the ground of defense. Respondent shall specifically admit or deny or explain each of the facts alleged in the complaint, unless respondent is without knowledge, in which case respondent shall so state.

* * * * *

Failure of the respondent to file answer within the time above provided and failure to appear at the time and place fixed for hearing shall be deemed to authorize the Commission, without further notice to respondent, to proceed in regular course on the charges set forth in the complaint.

If respondent desires to waive hearing on the allegations of fact set forth in the complaint and not to contest the facts, the answer may consist of a statement that respondent admits all the material allegations of fact charged in the complaint to be true. Respondent by such answer shall be deemed to have waived a hearing on the allegations of fact set forth in said complaint and to have authorized the Commission, without further evidence, or other intervening procedure, to find such facts to be true.

Contemporaneously with the filing of such answer the respondent may give notice in writing that he desires to be heard on the question as to whether the admitted facts constitute the violation of law charged in the complaint. Pursuant to such notice, the respondent may file a brief, directed solely to that question, in accordance with Rule XXIII.

In witness whereof, the Federal Trade Commission has caused this, its complaint, to be signed by its Secretary, and its official seal to be hereto affixed, at Washington, D. C., this 7th day of February, A. D. 1944.

By the Commission.

The claims submitted hereunder for cheese produced by the manufacturer during February 1944, shall also cover the cheese on hand at the manufacturer's plant at the close of business on January 31, 1944, purchased by Commodity pursuant to section 2 (b) of this offer. Claims shall be supported by:

(a) Dairy Products Report No. 1 (U.S.D.A. Form No. C. E. 9-119) applicable to the month for which the claim is submitted. This form is currently required to be submitted to the United States Department of Agriculture, P. O. Box 6910-A, Chicago, Illinois, pursuant to Food Distribution Order 15, and such submission shall also satisfy the requirements of this subsection.

(b) When required, a certified statement by each Receiver of American Cheddar cheese showing the quantities, weight, and moisture content of cheese received from the manufacturer during such month.

The documents (including statement of claim) presented pursuant to this offer shall be in such form and contain such certifications as Commodity may prescribe. The manufacturer shall keep books and records sufficient to show the information set forth above and all additional information which may be required by Commodity, and shall permit inspection of his books, records, and accounts and of his stocks of American Cheddar cheese by Commodity.

6. The manufacturer shall distribute to milk producers who supplied whole milk to a plant during any month with respect to which claim is submitted hereunder as amount equal to the difference between the purchase price payable by Commodity under section 2 of this offer, and the sale price payable to Commodity under section 3 of this offer for cheese purchased and sold during such month. Except as Commodity may otherwise direct, such payments shall be distributed pro rata among the milk producers on the basis of the amount otherwise paid to the producers for whole milk delivered to such plant during such month. All such payments shall be in addition to the payments producers would otherwise receive for whole milk. The manufacturer shall give to each producer a written statement of the amount of the payment being made to him in consequence of this offer. If the manufacturer received whole milk at his cheese plant from another plant or milk receiver, the manufacturer shall arrange for similar payment to the producers supplying whole milk to such other plant or milk receiver. The manufacturer shall furnish proof of such payments to producers in such form and at such time as Commodity or its duly authorized agent may prescribe. Notwithstanding the foregoing provisions of this section, if the manufacturer is a handler under any order issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, regulating the handling of milk in any marketing area, he shall not be required to distribute payments received from Commodity on cheese manufactured from milk received from producers whose milk is covered by such order (payments to producers of other milk to be made as otherwise provided in this section 6).

7. An amount equal to the total amount payable to the manufacturer by Commodity under the foregoing sections of this offer shall be set aside by the manufacturer as a trust fund for the benefit of the milk producers described in section 6 hereof. Any portion of such amount which the manufacturer has not distributed to the milk producers entitled thereto within sixty days after the receipt of payment hereunder shall, at such time as may be directed by Commodity or its duly authorized agent, be paid to Commodity.

FEB 16 '44

8. The manufacturer shall pay to Commodity 3.8 cents per pound of American Cheddar cheese and processed American Cheddar cheese, as defined in Food Distribution Order No. 15, as amended, sold by him to any of the following government agencies during the effective period of any regulation of the Office of Price Administration establishing maximum prices for sales of such cheese to such agencies equal to the maximum prices on other sales of such cheese plus 3.8 cents per pound:

(a) War Food Administration and any agency thereof (including Dairy Products Marketing Association, Inc., acting for the War Food Administration)

(b) U. S. Army Quartermaster Market Centers (including Field Headquarters) and U. S. Army Quartermaster Depots

(c) U. S. Navy Market Offices

The acceptance of this offer by any manufacturer shall constitute his authorization to any such Government agency to deduct 3.8 cents per pound from the purchase price of the cheese so sold and to pay such 3.8 cents to Commodity on his behalf, and shall constitute his ratification of the action of any such Government agency in making such deduction and payment on his behalf. Unless such Government agencies shall have made such deduction, payment of the amount due under this section on cheese sold to such Government agencies shall be made by the manufacturer directly to Commodity not later than five days after payment of the purchase price to the manufacturer by such Government agencies. The manufacturer shall keep complete and accurate books, records and accounts with respect to all American Cheddar cheese and processed American Cheddar cheese sold by him to such Government agencies, and shall furnish to Commodity such information and reports relating to such sales as Commodity may from time to time request. Notwithstanding the foregoing provisions of this section 8, the manufacturer shall not be required to make payment to Commodity pursuant to this section with respect to any such cheese for which he is obligated to pay, and makes payment of, to Commodity under Food Distribution Order No. 15, as amended, 3.8 cents per pound.

9. Payments shall not be made to the manufacturer if he has been determined by the agency responsible for the administration of the order not to be in compliance with any order issued by any officer or agency of the United States relating to the conservation, limitation, setting aside or allocation of cheese, or the procurement of cheese by the United States, or if he has been determined not to be in compliance with any order issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, regulating the handling of milk in any marketing area.

10. Any manufacturer who intends to accept this offer, and any extension hereof, by performing the acts herein set forth shall, on or before filing the first claim for payment hereunder, notify Dairy Products Marketing Association, Inc., of such intention, but no such notification, in the absence of the performance of such acts, shall constitute an acceptance of this offer or create any obligation of Commodity to such manufacturer.

11. This offer, or any extension hereof, may be partially or wholly revoked or modified by Commodity with respect to any manufacturer at any time upon notice to such manufacturer, or with respect to all manufacturers, by Commodity's giving public notice of such revocation or modification. Such public notice, and the notice referred to in section 2 (a) (ii) hereof may be given by press release or by filing of the notice with the Division of the Federal Register of the National Archives. Notwithstanding any such revocation or modification, settlement will be made as provided in Section 5 hereof with respect to any cheese purchased and sold hereunder prior to such revocation or modification and as provided in Section 8 hereof with respect to cheese sold to Government agencies.

12. Except as may be otherwise directed by Commodity any amounts owing by the manufacturer to Commodity under this offer may be offset against any amounts owing by Commodity to the manufacturer under this offer, and vice versa.

13. For the purpose of this offer, the following terms are defined as follows:

(a) "Dairy Products Marketing Association, Inc." means the corporation of that name organized under the laws of Delaware on May 7, 1938, whose principal place of business is 110 North Franklin Street, Chicago, Illinois.

14. No member of or delegate to the Congress of the United States shall be admitted to any share or part of this offer or to any benefit to arise herefrom but this provision shall not be construed to extend to benefits arising from this offer if accruing to a corporation.

15. The reporting and record-keeping requirements of this offer have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Subsequent record-keeping or reporting requirements will be subject to approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

PART 3284—BUILDING MATERIALS[1]

[Limitation Order L–303 as Amended Feb. 10, 1944]

STEEL INSECT SCREEN CLOTH

The fulfillment of requirements for the defense of the United States has created a shortage of materials, manpower and transportation for the manufacture and delivery of steel insect screen cloth for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3284.26 *General Limitation Order L–303*—(a) *Definitions.* For the purpose of this order:

(1) "Steel insect screen cloth" means a fabric of woven steel wire designed and constructed primarily for installation in an opening or passageway of a building or structure for the purpose of preventing the entrance of insects.

(2) "Producer" means a person who weaves steel insect screen cloth.

(3) "Dealer" means any person who buys steel insect screen cloth direct from a producer for sale in full rolls or cut lengths.

(4) "Screen manufacturer" means any person who buys steel insect screen cloth direct from a producer or dealer for the purpose of manufacturing window screens or screen doors.

(b) *Simplification and standardization.* (1) On and after December 28, 1943, no producer shall weave or fabricate any steel insect screen cloth except in conformity with the type, mesh, finish, diameter and widths established by Schedule I of this order.

(2) Notwithstanding the provisions of paragraph (b) (1) above, steel insect screen cloth may be woven or fabricated with a finer mesh or diameter wire than that specified in Schedule I if such cloth (or window screens or screen doors made therefrom) is required to fill an order for delivery (i) to or for the account of an agency or government named in § 944.1, paragraph (b) (1) or (b) (2) of Priorities Regulation 1, or (ii) under an export license issued by the Foreign Economic Administration.

(c) *Producers must disregard certain ratings.* Producers must disregard any preference rating of AA–3 or lower borne by any order for steel insect screen cloth unless (1) the order is one of the kinds designated in paragraph (b) (2) of this order, or (2) the order is for screen cloth which is to be used in a project approved by the National Housing Agency (the order must carry some identification showing that the screen cloth will be used in a project approved by the National Housing Agency). Orders bearing preference ratings which must be disregarded under this rule must be treated as unrated orders, and should be filled in accordance with the equitable distribution provisions of paragraph (d).

NOTE: Paragraphs (d) through (i), formerly (c) through (h), redesignated Feb. 10, 1944.

(d) *Equitable distribution.* It is the policy of the War Production Board that steel screen cloth produced for essential civilian uses shall be distributed equitably. In making such distribution due regard should be given to essential civilian needs, and there should be no discrimination in the acceptance or filling of orders as between persons who meet the producer's regularly established prices and terms of sale or payment.

Under this policy every producer of steel screen cloth, as far as practicable, should make available an equitable proportion of his merchandise to his customers periodically without prejudice because of their size, location or relationship as affiliated outlets.

It is not the intention to interfere with established channels and methods of distribution unless necessary to meet war or essential civilian needs. If observance of the policy outlined is inadequate to achieve equitable distribution or supply essential civilian needs the War Production Board may issue specific directions to named concerns. A failure to comply with a specific direction will be deemed a violation.

(e) *Reports.* Fifteen days after December 13, 1943 and, thereafter, fifteen days before the beginning of each quarter (beginning April–June, 1944) each producer of steel insect screen cloth shall file by letter a summary of his proposed shipping schedule covering dealers and screen manufacturers for that quarter. Each producer's shipping schedule shall show separately the aggregate quantity of screen cloth he proposes to ship to dealers and the aggregate quantity proposed for shipment to fill screen manufacturers' orders. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(f) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particluar provision appealed from and stating fully the grounds for the appeal.

(h) *Applicability of regulations.* This order and all transactions affected by it are subject to all applicable regulations of the War Production Board as amended from time to time.

(i) *Routing of correspondence.* All communications concerning this order shall be addressed to the War Production Board, Building Materials Division, Washington 25, D. C. Ref: L–303.

Issued this 10th day of February 1944.

PART 1075—CONSTRUCTION

[Limited Preference Order P–55–c]

HOUSING CONSTRUCTION

§ 1075.13 *Preference Rating Order P–55–c*—(a) *Purpose and scope of order and authorization.* This order applies only to persons who have received approval of an application for a housing project as provided below. For the persons who have received this approval, it is an authorization for residential construction under Conservation Order L–41 and it assigns a preference rating and an allotment symbol for material necessary for housing construction. It covers all residential construction except: (i) Farm construction; (ii) construction of the Federal Public Housing Authority; (iii) residential construction built under a Petroleum Administrative Order of the Petroleum Administration for War; and (iv) construction of hotels and apartments for six or more families not providing additional living quarters for war workers. Residential construction includes new construction, conversion, remodeling and rehabilitation. Priorities assistance for maintenance and repair of residential property is also provided by this order.

This order also applies to housing construction previously authorized under an application on Form WPB–2896 as explained in paragraph (g) below.

(b) *Method of obtaining authorization of housing applications.* Any person who wishes to construct a housing project should apply on Form WPB–2896. If the housing project qualifies for approval, the application will be approved either by the National Housing Agency or the War Production Board.

(c) *Authorization of housing construction.* Approval of the application constitutes War Production Board authorization of the housing project under Conservation Order L–41. The authorization includes only the buildings, structures, roads and other construction work specifically listed and approved on Form WPB–2896, and is subject to the following conditions and directions:

(1) *Cancellation of authorizations on buildings not begun on time.* If work on the building site preparatory to construction is not begun within sixty days of the approval of the project on WPB–2896, the agency which approved the application may cancel the authorization by giving written notice to the owner. Whatever buildings in the total authorized project have not been commenced by physically incorporating material into them by the last starting date specified in the construction schedule of the application will also be subject to cancellation in the way set forth above. These provisions do not preclude cancellation for any other reason. No person shall begin or carry on the construction of any building affected by a cancellation, and no person shall deliver or accept delivery of any material ordered for use in the construction of any building affected by a cancellation.

(2) *Utilities connections.* The builder must not begin construction of a housing project which requires the extension of utility or sewer lines unless both the builder and the utility operators are authorized to make the extensions. In any case where the applicable order of the U series (water, gas, and electricity) or P–141 (sewers) does not require specific authorization, then all required certifications must have been filed.

(3) *Restrictions on use of materials.* The builder must not incorporate any material into the housing project except of the kinds and minimum quantities needed for the project and permitted both by the War Housing Critical List and the War Housing Construction Standards (Schedules I and II to this order). If any schedule is amended after the housing project is approved, the builder may comply with any of the provisions of the schedule as amended or the schedule as in effect at the time the housing project was approved, as he may elect.

(4) *Liability of owner.* The owner and any other person who holds or later acquires any beneficial interest in the housing project or any part of it, must abide by all the representations, certifications and promises made by the owner in the application, except to the extent he is relieved by regulation or order of the National Housing Agency or the War Production Board.

(d) *Assignment of preference ratings and allotments.* It is not necessary to show on Form WPB–2896 the quantity of controlled material or to list products and equipment needed for the housing project. If the application is approved, the builder may use the allotment symbol of H–1 or S–2 (whichever is shown on the application as approved) and a preference rating of AA–3 to get materials permitted by the War Housing Critical List and needed to complete the project. Neither the owner nor the builder shall order or accept delivery of any material prohibited for incorporation in the project by subparagraph (c) (3) above.

(e) *Use of allotment symbol.* (1) The allotment symbol may be used to order controlled materials and Class A products by:

(i) The builder;

(ii) Manufacturers of Class A products or Class A components of Class A products to be incorporated in the project;

(iii) Contractors and subcontractors doing all or any part of the construction work.

The builder must not use the allotment symbol or give others the right to use it before his application is approved. A manufacturer, contractor or subcontractor may not use it or give others the right to use it unless he has received a statement in substantially the following form endorsed on the order or contract by the person placing it, signed manually or in the way explained in Priorities Regulation No. 7:

Serial No. (identifying project)——
You are authorized to use the allotment symbol —— to order controlled materials and Class A products needed to fill this order or contract.

It is not necessary to show the quantities of controlled materials in this statement. Its use shall constitute a representation by the person signing it to the person with whom the order or contract is placed, and to the War Production Board, subject to the penalties of section 35–a of the United States Criminal Code that he has the right to authorize the person with whom the order or contract is placed to use the allotment symbol to fill the order or contract. The standard form described in Priorities Regulation No. 7 cannot be used instead of the above statement.

(2) The preference rating may be used to order all materials other than controlled materials. If an applicant, contractor or subcontractor orders a Class A product the certificate described in Priorities Regulation 7 must be used in addition to the statement set forth in paragraph (d) (1) above. If a contractor or subcontractor needs a preference rating to buy materials the rating may be given him by use of the certificate set forth in Priorities Regulation 7. In using the rating to buy all products and materials other than controlled materials or Class A products the certificate in Priorities Regulation 7 must be used and the allotment symbol must be used along with the preference rating for purposes of identification.

(3) Each person using the allotment symbol or preference rating must maintain at his regular place of business for a period of two years records of the right to use the allotment symbol or preference rating, records, kept by serial number identifying the project, of the amount of controlled materials ordered with the allotment symbol or rating and showing that the materials so ordered were used for the purpose for which the right to use the symbol or rating was granted.

(4) The use of the allotment symbol assigned by this order will not be limited to any particular month or quarter and, therefore, no quarterly identification need be shown when using it. Authorized controlled material orders must, however, show the month in which delivery is requested. The allotment symbol or preference rating may not be used in placing authorized controlled material orders after the scheduled completion date of the project but delivery after such date may be specified on orders placed before then.

(5) The allotment symbol and preference rating must not be used to order controlled materials in greater quantities or on earlier dates than needed for the construction. It may be used not only to order materials needed for the construction but also to replace in inventory materials used for construction. Attention is called to CMP Regulation No. 2 which places a restriction on inventories of controlled materials which must be complied with.

(6) A person who has the right under this order to use an allotment symbol in ordering controlled materials must endorse the symbol on his purchase order and the form of certification set out in CMP Regulation No. 7, signed manually or in the way explained in Priorities Regulation No. 7. An order so endorsed is an authorized controlled material order (i) if it is a "delivery order" as defined in paragraph (b) (9) of CMP Regulation No. 6, (ii) if it is in sufficient detail to permit entry on mill schedules and (iii) if, when placed with a controlled materials producer, it is received by the lead time specified in Schedule III of CMP Regulation No. 1, or at such later time as the controlled materials producer may find it practicable to accept the same.

(f) *Applicability of War Production Board orders and regulations.* This order and all transactions affected by it are subject to the applicable provisions of all regulations and orders of the War Production Board. When any such order excepts from its restrictions any person to whom an order in the P–55 series has been issued, the exception shall include any person who is authorized to build by this order.

(g) *Projects previously authorized.* Where a housing project has been previously authorized by the War Production Board and the authorization is still in effect, the owner may construct the project under the provisions of the authorization he received or, at his election, under the provisions of this order. If he elects to construct under this order he should maintain the construction schedule in the CMP–H–1, if any; otherwise he should maintain the construction schedule in his application form. The authorization to construct any such project may be cancelled under paragraph (c) (1).

(h) *Appeals.* Any builder who considers that the provisions of this order or the schedules to it would work an exceptional and unreasonable hardship upon him may appeal to the War Production Board (by letter) setting forth the facts and the reasons why he considers he is entitled to the relief requested. This appeal should be addressed to the War Production Board and filed with the office which approved the application.

(i) *Violations.* Any person who wilfully violates any provisions of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control, and may be deprived of priorities assistance by the War Production Board and may be denied permission to begin construction under General Conservation Order L–41.

(j) *Definitions.* (1) "Owner" means the person in whose name the application was filed.

(2) "Builder" means the owner and any building contractor or subcontractor with whom the owner has placed a contract pursuant to which such contractor or subcontractor has agreed to furnish material.

(3) "Housing project" means the house, or houses, and its appurtenant buildings and related construction described in the owner's application as approved. This also includes projects converting any structure to residential use.

(4) "Application" means the owner's application on Form WPB–2896 as approved.

(k) The effective date of this order is March 1, 1944.

Issued this 12th day of February 1944.

By J. JOSEPH WHELAN,
Recording Secretary.

PART 1075—CONSTRUCTION

[Limited Preference Rating Order P–55–c, Schedule I]

WAR HOUSING CRITICAL LIST

§ 1075.16 *Schedule I to Preference Rating Order P–55–c.* Only the following kinds and quantities of materials may be used in housing construction, and they may be used only for the purposes permitted in the following list. The preference rating and allotment symbol assigned by P–55–c may be used to get materials except where otherwise provided.

100 GENERAL PROVISIONS:

111 The War Housing Critical List is a list of materials permitted for use in housing projects. Non-metallic products and materials not listed herein or used as substitutes for material or products listed herein and required for the completion of authorized housing projects are permitted for purchase and installation subject to applicable CMP and priorities regulations and limitation orders of the War Production Board.

112 Materials and products of metal or metallic content not listed herein but available from existing inventories are permitted for purchase and installation in housing projects only when listed in Appendix A hereof.

113 War Housing Construction Standards restricts the type and size of dwelling structures that may be built for war housing. These Standards may include limitations on the use of certain materials of a critical nature not contained in this list. These standards are set forth in Schedule II.

PART 1075—CONSTRUCTION

[Limited Preference Rating Order P-55-c, Schedule II]

WAR HOUSING CONSTRUCTION STANDARDS

§ 1075.19 *Schedule II to P-55-c*—(a) *Applicability of standards.* These standards shall apply only to new housing approved on Form WPB-2896 and, insofar as practicable, to all conversions, rehabilitations and remodeling of existing structures for dwelling purposes so approved.

(b) No housing construction shall be performed unless it complies with the provisions of these standards, the War Housing Critical List, and the Emergency Plumbing Standards for Defense Housing (available for examination at local offices of the Federal Housing Administration and the War Production Board.)

(c) *Design of projects.* Housing projects, whether consisting of single-family detached dwellings, semi-detached dwellings, row houses or multi-family dwellings, in which two or more family dwelling units are located upon a single property, shall be designed so as to use a minimum amount of critical materials in plumbing, heating, electrical work, site utilities and lumber for all purposes.

Project facilities, such as management, maintenance, community and other special service space or buildings which are essential to the operation of the project may be provided, if approved on the application.

Garages (not car ports) are permitted in connection with dwellings: (1) in basements directly under the living quarters (not under porches), (2) as attached structures or detached structures only if approved on the application. They will not be approved except in localities where the average annual snow fall is more than 60 inches or the average minimum temperature for any calendar month is less than plus 15° F. as determined by the War Production Board Regional Offices from past records of the United States Weather Bureau covering a period of not less than ten years.

(d) *Maximum permissible floor areas.* The floor area per family dwelling unit constructed with wood frame exterior wall shall not exceed the following allowances:

MAXIMUM NUMBER OF SQUARE FEET PER FAMILY DWELLING UNIT[1]

Dwelling height	Size of dwelling unit			
	0-bedroom	1-bedroom	2-bedroom	3-bedroom
One-story	400	650	800	1,000
More than one-story	500	750	900	1,100

[1] The maximum permissible floor area of dwelling units may be increased by 10 percent when the exterior wall construction is not wood frame, but this increased area may not be used in computing the permissible amount of lumber.

A one-story structure is one in which all the rooms used for living, sleeping, eating, cooking and sanitation are located on the same principal floor level. Where more than three bedrooms are provided, the floor area shall not exceed that allowed for a three bedroom unit.

Finished rooms only shall be used in determining the number of bedrooms.

A structure which immediately provides in an attic usable floor area of finished space not in excess of 50 per cent of the area of the main floor may be considered a one-story structure, provided the combined area does not exceed that permitted for a one-story structure.

The floor area of an attached or detached garage shall not exceed 200 square feet, and is in addition to the areas permitted above.

The floor areas of project facilities are in addition to the areas permitted above.

(e) *Minimum standards applicable to houses for sale or rent.* The minima set forth in this paragraph (e) apply only to houses built for rent or sale. They do not apply to houses built for occupancy by the applicant. The floor area per family dwelling unit, excluding bedrooms, or for a "0-bedroom" family dwelling unit, shall be not less than 220 square feet.

The minimum floor areas for bedrooms, exclusive of storage space, shall be not less than the following:

Type of dwelling unit	Minimum number of square feet per bedroom		
	1st bedroom	2d bedroom	3rd bedroom
1-bedroom unit	100	------	------
2-bedroom unit	100	70	------
3-bedroom unit	100	100	70

A reduction of the minimum floor areas stated above is permissible for temporary family dwellings constructed for use during the period of the emergency only.

All dwelling units must contain provision for living, sleeping, eating, cook-

ing and sanitation. This does not require separate bathroom facilities for each unit.

(f) *Calculation of floor areas.* Floor area is calculated at each principal floor level to the outside face of exterior walls and to the center line of common walls, except as noted below:

In attics or basements, walls or partitions enclosing finished space shall be considered as exterior walls. Finished space in attics less than 5'0" in height shall not be included. Unfinished space in attics and basements shall not be included. Garages located in basements shall be considered unfinished space.

The exterior side wall of an end row dwelling shall be considered a common wall.

Porches, whether roofed or not, shall not be included in calculating floor area.

The floor area includes space used for living, sleeping, cooking, eating, sanitation, utility rooms, finished closets, vestibules, halls and stair wells, and in multi-family dwellings the floor area also includes any common vestibules, halls and stair wells.

(g) *Allowances for lumber.* Any type of construction may be used provided the total use of dimension lumber (2-inch nominal size or thicker) for dwelling structures shall not exceed the following allowances in board feet per square foot of floor area:

Location of project	Height of structure	
	One story	More than one story
(1) Localities listed in appendix A	5.0	4.0
(2) All other localities	[1] 5.5	[1] 5.5

[1] Where the exterior wall construction is not of wood frame, the lumber allowances given in (1) above shall apply.

For each attached or detached garage, not more than 200 board feet of dimension lumber will be permitted for roof construction. Exterior side wall construction of garages shall be of material other than lumber. (Note: Car ports are not permitted.)

The necessary lumber for project facilities and for construction purposes such as shoring and sheds, is permitted in addition to that allowed for the construction of other structures.

(h) *Restrictions on lumber.* The use of substitutes for lumber shall be employed to the fullest possible extent. Wall sheathing and roof sheathing for flat roofs with a pitch of 3" in 12" or less shall be as allowed by the War Housing Critical List (Schedule I). Construction designs shall be based on the use of standard sizes of lumber and all lumber shall be so sized and spaced as to effect the most economical utilization. Where structural grades of lumber are used, the use shall be in accordance with WPB Directive No. 29, Emergency Specifications for the Design, Fabrication and Erection of Stress Grade Lumber and Its Fastenings for Buildings.

The War Housing Critical List shall be consulted for specific allowances on the use of lumber.

(i) *Plumbing installations.* Plumbing installations shall conform to the current provisions of the War Housing Critical List and the Emergency Plumbing Standards and are further limited as follows:

(1) In multi-family dwellings, the plumbing layout for kitchens and bathrooms shall be designed so as to use a minimum amount of critical materials. All multi-family dwellings of more than one-story and two-story semi-detached and row house dwellings designed for rent shall have an average of less than one stack per dwelling unit.

(2) In other dwellings, bathroom and kitchen plumbing shall be so arranged that not more than one plumbing stack per dwelling will be required. In dwellings of one story the bathroom shall be back to back with the kitchen; in dwellings of more than one story the bathroom may be over the kitchen or elsewhere provided it is immediately adjacent to a common stack.

(j) *Definition of a multi-family dwelling.* A "multi-family" dwelling means a structure containing separate single family dwelling units for two or more families with joint facilities or service or both. "Joint facilities" means any or all of the following which serve two or more families: entrance hall, stairway, storage or laundry facilities, bathroom or toilet, attic, heating plant, hot-water generator, and electrical service equipment; the term "joint services" means janitorial and maintenance services.

APPENDIX A

In the following States all housing structures, except as provided in paragraph (g) of this schedule, shall have laid-up masonry exterior walls constructed of clay or concrete products such as brick, structural clay tile, cement or concrete blocks, and cement brick:

New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia (including Washington Metropolitan Area), North Dakota, South Dakota, Ohio, Indiana, Illinois, Iowa, Nebraska, Kansas, Missouri, Oklahoma, Michigan and Wisconsin.

except that housing projects of which the foundations for one or more structures are completed during December, January, or February in:

New Hampshire, Vermont, Wisconsin, Iowa, North Dakota and South Dakota.

may be wood frame construction with the lumber allowances provided in paragraph (g) (2).

The effective date of Schedule II is March 1, 1944.

Issued this 12th day of February 1944.

Upon letter application the War Production Board may authorize deviations from the above mentioned standards when necessary to meet minimum civilian requirements for safety shoes.

(f) *Restriction on tanning and dyeing.* (1) No person shall finish any leather for use as upper leather except in the following colors (subject to unavoidable deviations in shade normally experienced in finishing leathers):

Black.

Natural color.

(2) No person shall color any leather or dye any fabric for use in shoe uppers except in the colors mentioned in paragraph (f) (1) above, (subject to unavoidable deviations in shade normally experienced in tanning and dyeing).

(3) No person engaged in the business of shoe manufacturing shall dye any new footwear except in the colors mentioned in paragraph (f) (1) above.

(4) Restrictions of this paragraph shall not apply to the dyeing of fabrics for use in footwear excepted by paragraph (e) (1), above.

(g) *General exceptions.* None of the restrictions of this order shall apply to military footwear.

(h) *Restrictions relating to sales and deliveries.* (1) No person shall sell or deliver any new footwear manufactured in the United States of America in violation of this order.

(2) No tanner or sole cutter shall deliver any leather to any shoe manufacturer if he knows or has reason to believe said leather is to be used in violation of the terms of this order.

(3) The prohibitions and restrictions of this paragraph shall not apply to:

(i) Deliveries of footwear or leather by, or to, any person having temporary custody thereof for the sole purpose of transportation or public warehousing.

(ii) Any bank, banker or trust company affecting or participating in a sale or delivery of footwear or leather solely by reason of the presentation, collection, or redemption of an instrument, whether negotiable or otherwise.

(4) In making sales or delivery of any footwear, no person shall make discriminatory cuts in quantity or quality between customers who meet such person's regularly established prices, terms and credit requirements, or between customers and his own consumption of said footwear. Reduction in sales or deliveries proportionate with any curtailment in supply available for nonmilitary use shall not constitute a discriminatory cut.

(5) No manufacturer shall accept delivery of any upper leather or lining leather reserved by tanners pursuant to Conservation Order M-310, or directions issued thereunder, for the manufacture of the following types of footwear:

(i) Infants';

(ii) Misses' and children's;

(iii) Footwear for the physically maimed and deformed manufactured on a custom-made basis and not for stock; if his inventory of leather available for making these types of footwear will thereby become greater than a 30-days' inventory, based on the previous months' production.

(i) *Restrictions on production of lines of footwear.* (1) No person shall in any six months' period beginning March 1, 1943 complete the manufacture of more civilian footwear within the following lines than the percentage of his civilian line quota for such line shown in the following schedule:

	Percent

Infants'	125
Men's safety shoes	125
Men's work	115
Men's dress	100
Women's and growing girls'	100
House slippers	100
Athletic	100
Women's safety shoes	100

With respect to misses' and children's footwear, no manufacturer may exceed 125% of his aggregate quotas for all his lines of misses' and children's footwear, but his production may be distributed among his established lines of misses' and children's footwear in any manner desired: *Provided, however,* That to the extent that a manufacturer's production of military footwear shows a decrease below that during his six months' base period, his production within any line of civilian footwear may exceed the civilian line quota for such line by its proportionate part of such decrease; and to the extent that such manufacturer's production of military footwear shows an increase over that during the six months' base period, each civilian line quota of such manufacturer shall be diminished by its proportionate part of such increase.

(2) No person shall manufacture any line of footwear (except military footwear) not manufactured by him in his six months' base period.

(3) *Exceptions to paragraphs* (i) (1) *and* (i) (2). (i) A lower priced line of the same type of civilian footwear may be substituted in whole or in part for a higher priced line.

(ii) The unused quota of any higher priced line may be added to a lower priced line of the same type of civilian footwear.

To the extent shown in the following schedule, any person may transfer the unused portion of any civilian line quota or quotas of men's dress or women's and growing girls' footwear to the production of the following types of footwear:

Type:	*Percentage of unused quota permitted to be added*
Men's work	115
Youths' and boys'	125
Misses' and children's	125
Infants'	125

Provided, however, That in no event shall any unused quota be added to a higher priced line, *And provided further,* That in no event shall a new line be added until authorization has been obtained under paragraphs (d) (1) above and paragraphs (i) (3) (vii) below.

(iii) A person may exceed his civilian line quota for any line of women's safety shoes if a pairage equal to such excess is deducted from some other line or lines of footwear.

(iv) During any six months' period, beginning March 1 or September 1 in any year, a manufacturer whose total production for the period will be less than $250,000 (based on wholesale value) is not subject to paragraph (i) (1), provided that no new lines are added and provided the manufacturer does not exceed his aggregate production in pairs during his six months' base period by more than 50%. The exemption in this paragraph shall not apply to manufacturers affiliated, as a subsidiary or otherwise, with another.

(v) Paragraphs (i) (1) and (i) (2) shall not apply to footwear made for the physically maimed or deformed on a custom-made basis and not for stock.

(vi) Until September 1, 1943 footwear made wholly without leather and without rubber soles shall not be included in computing production for the purposes of this paragraph (i). The War Production Board may authorize any person making a line of reasonably durable footwear utilizing non-critical materials to exceed his civilian line quota for such line. Application for such authorization shall be made by letter, describing fully the footwear proposed to be manufactured, listing in detail all the materials to be used and stating the quantity of such footwear to be made, the price range, the source of the manpower to effect such increase in production, and all other facts pertinent to the application.

(vii) Any person who has no civilian line quota for a particular type of footwear may apply by letter for one or more civilian line quotas, stating the types and construction of the footwear he proposes to manufacture, the number of pairs to be made, the price range, the consumer need for footwear of the quality proposed to be made, the source of the manpower to make such footwear, and whether production will be reduced in any other line or lines. No such quota will be granted unless the footwear to be made has been specifically priced by the Office of Price Administration.

(4) The period selected by any person as his six months' base period shall apply to all lines and may not be subsequently changed.

(j) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

tion Board, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(m) *Communications.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Division, Washington 25, D. C., Ref.: M–217.

(n) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

SCHEDULE I—SPECIFICATIONS FOR SOLES

Abrasion. The substitute material shall have a resistance to abrasion of not less than 4000 revolutions to abrade 50% of the thickness of the material, when tested on the type of machine used by and following the procedure of the National Bureau of Standards. The material may be tested on any other abrasive testing machine, using an appropriate number of abrasive strokes of revolutions to give abrasive action equivalent to the above.

Crackiness. The material shall not crack, after conditioning for 4 hours, at 32° F. and testing at that temperature, when bent 180° over a 3-inch mandrel. The material shall not crack, after aging for 48 hours at 120° F. ± 2° F. and reconditioning at 65 per cent ± 2 per cent relative humidity and 120° F. ± 2° F., when bent 180° over a 3-inch mandrel.

Tackiness. The material shall not become tacky or flow when subjected to a temperature of 120° F. ± 2° F. for 4 hours.

Stitch tear. Material which is used for stitched soles shall have a stitch tear strength of not less than 30 pounds when tested dry, and not less than 25 pounds when tested immediately after soaking in water for 4 hours. When the outsole is cemented securely to a backer or midsole, the test shall be made of the combined assembly.

Effect of water. After submerging in water at 75° F. ± 2° F. for 4 hours, the material shall not show visual evidence of delamination or separation and shall not show an increase in thickness of more than 20 per cent.

INTERPRETATION 1

The word "manufacture" in line two of paragraph (c) (1) of § 3290.191. (Conservation Order M–217), refers to the operation whereby the features mentioned in subdivisions (i) to (xvii), inclusive, of said paragraph became a part of the footwear.

Illustration: Subdivision (iv) refers to full overlaid tips or full overlaid foxings except on work shoes. The order prohibits the placing of full overlay tips or full overlay foxings on dress shoes after October 31, 1942. But it does not prohibit the completion of the shoe if an overlaid tip or an overlaid foxing has been affixed prior to said date. (Issued October 6, 1942.)

INTERPRETATION 2

FOOTWEAR

The reference to "leather outsoles or outside leather taps," in paragraph (c) (8) of § 3290.191 Conservation Order M–217 designates outsoles and outside taps the wearing qualities of which are derived primarily from leather. For example: An outsole composed primarily of leather but having a paper coating would constitute a "leather outsole," since, presumably, the paper would soon disappear and the wearing quality of the sole would rest primarily upon the leather.

On the other hand, if a sole of durable substitute material were cemented on a thin leather sole so that the substitute material received the wear the leather sole would constitute a midsole rather than an outsole.

Similarly, a wooden sole having a leather heel insert to provide nonskid and soundproofing features is not a "leather outsole," because the wear of the shoe is derived mainly from the wooden portion of the sole. (Issued Oct. 18, 1943.)

PART 3293—CHEMICALS

[Allocation Order M–340 as Amended Feb. 12, 1944]

MISCELLANEOUS CHEMICALS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of the chemicals subject to this order for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.491 *Allocation Order M–340*—(a) *Definitions.* (1) "Subject chemical" means any chemical listed in Appendix A, as therein defined.

(2) "Producer" means any person engaged in the production of any subject chemical and includes a person who imports any subject chemical or has it produced for him pursuant to toll agreement.

(3) "Distributor" means any person who buys any subject chemical for the purpose of resale without further processing and without changing the form thereof.

(4) "Supplier" means a producer or distributor.

(b) *Restrictions on deliveries.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall deliver a subject chemical to any person except as specifically authorized or directed in writing by War Production Board. No person shall accept delivery of a subject chemical which he knows or has reason to believe is delivered in violation of this order.

(2) Authorizations or directions as to deliveries to be made by suppliers in each calendar month will generally be issued by War Production Board prior to the beginning of such month, but may be issued at any time. They will normally be issued on Form WPB–2947 (formerly PD–602) which is to be filed by the supplier with War Production Board as explained in paragraph (g) below.

(3) If a supplier is authorized or directed by War Production Board to deliver a subject chemical to any specific customer or group of customers, but is unable to make the delivery either because of receipt of notice of cancellation or otherwise, the subject chemical shall revert to inventory, and shall not be delivered, or used, without further instructions.

(c) *Exceptions for small deliveries.* (1) Specific authorization in writing of War Production Board is not required for delivery by any supplier to any person in any calendar month of a subject chemical in a quantity not exceeding the quantity stated in Column 3 of Appendix B.

(2) The aggregate quantity of a subject chemical which any supplier may deliver in any calendar month pursuant to paragraph (c) (1), shall not exceed:

(i) The quantity which he has been specifically authorized, upon application pursuant to Appendix D, to deliver on small orders; or

(ii) If he is a distributor, the quantity which he acquired upon certification that it was required to fill small orders or the quantity which he acquired himself on such a small order; or

(iii) If he is a distributor who customarily delivers exclusively on small orders, any quantity.

(d) *Exceptions for deliveries for other reasons.* Specific authorization in writing of War Production Board is not required for delivery of a subject chemical by any supplier to any other person for a purpose stated in Column 4 of Appendix B.

(e) *Restrictions on use.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall use a subject chemical except as specifically authorized or directed in writing by War Production Board.

(2) Each person who with an order for a subject chemical furnishes a certificate required by paragraph (f) shall use the subject chemical delivered on such order only as specified on such certificate except as otherwise specifically authorized or directed in writing by War Production Board.

(3) War Production Board may from time to time issue directions with respect to the use or uses which may or may not be made of a subject chemical to be delivered to, or then in inventory of, the prospective user.

(f) *Supplier to obtain from customer a certificate of use.* No supplier shall in any calendar month (beginning in the case of each subject chemical with the calendar month in which the order becomes effective as to that chemical as stated in Appendix A) deliver to any person a greater quantity of such subject chemical than is stated in Column 3 of Appendix B, unless he shall have received from such person a certificate as to the use for which such person is ordering such subject chemical. Such certificate must be received by the supplier not later than the 15th day of the month preceding the month in which delivery is to be made. It need not be filed with War Production Board. A supplier must not deliver a subject chemical where he knows or has reason to believe the purchaser's certificate is false, but in the absence of such knowledge or reason to believe, he may rely on the certificate.

(g) *Applications by suppliers for leave to deliver or use.* (1) Each supplier requiring authorization to make delivery of, or to use, a subject chemical during any calendar month shall file application on or before the 20th day of the preceding month. The application should be made on Form WPB–2947 (formerly PD–602) in the manner set forth in the general instructions appearing on that form, subject to the special instructions contained in Appendix D. If there is an inconsistency between the general and special instructions, the special instructions must be followed.

(2) War Production Board may issue to any supplier other and further directions with respect to preparing and filing Form WPB–2947 (formerly PD–602).

(h) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of War Production Board, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C. Ref: M–340.

Issued this 12th day of February 1944.

PART 3290—TEXTILE, CLOTHING, AND LEATHER

[Conservation Order M–328, as Amended Feb. 10, 1944]

PROVISIONS APPLICABLE TO TEXTILES, CLOTHING AND RELATED PRODUCTS

The fulfillment of requirements for the defense of the United States has created shortages in the supplies of textiles, clothing, leather and related products for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3290.118 *Conservation Order M–328*—(a) *Restrictions on preference ratings for textiles, clothing, leather, etc.* (This paragraph states conditions which must be met to make ratings for items on Schedule A valid. However, even though a rating is not valid for the items, this does not prevent anyone from filling a purchase order if he can do so without disregarding valid ratings on other purchase orders or disregarding other orders or directions of the War Production Board.)

No person shall apply, extend or give any effect to any preference rating heretofore or hereafter assigned, applied, or extended to the delivery of any item on Schedule A unless:

(1) The rating has been assigned by a preference rating form or letter issued by or under the authority of the War Production Board to a named applicant and the form or letter specifically describes the item and specifies the quantity, description and type which may be obtained by the rating. No rating assigned by any L, M, P or other order or by any regulation (such as CMP–5 or CMP–5A) shall be valid for any item on Schedule A, except as permitted by paragraphs (a) (2), (a) (3) or (a) (4). For example, the rating for any fabric to comply with this subparagraph must be assigned on a War Production Board form or letter naming the person to whom the rating is assigned and stating the yardage, type and construction of the fabric for which the rating is assigned, or

(2) The rating has been assigned by or pursuant to a form, order or regulation of the War Production Board and is used to obtain the item for direct or ultimate delivery to, or for incorporation into any material for ultimate delivery to the Army or Navy of the United States (including military exchanges and service departments when the order bears the appropriate endorsement referred to in paragraph (c) of Priorities Regulation 17), the Maritime Commission or War Shipping Administration; or

(3) The rating has been assigned by or pursuant to any supplement to this order or the particular order specified after the item on Schedule A.

(4) The material to be delivered is actually required as, or is required for incorporation in, a functioning part of industrial machinery and is one of the following numbered items on Schedule A: 1, 4, 5, 6, 7, 11, 15, 17, 19.

18. Wool and wool yarn.
19. Wool woven, knitted, felted or braided fabric.

(b) *Notation on purchase orders bearing a preference rating.* (1) Any person applying or extending a preference rating shall satisfy the certification requirements of Priorities Regulation 3. In addition, any person applying or extending a preference rating which is permitted by paragraph (a) (1), (a) (2) or or (a) (4) shall place upon the purchase order a notation substantially as follows:

This rating can be used under Order No. M–328.

However, the Army or Navy of the United States, the Maritime Commission and the War Shipping Administration shall not be required to place this notation on their direct purchase orders.

If the rating is assigned by any order listed on Schedule A, the person applying or extending the same shall place upon the purchase order a notation substantially as follows:

This rating has been assigned by Order No. ------ (insert number of order on Schedule A assigning the rating).

This notation is not necessary if the purchase order contains the specific identifying certification prescribed by an order on Schedule A, or if the rating is assigned by the Foreign Economic Administration in the manner provided in paragraph (a) (1) and the purchase order contains a notation substantially as follows:

This rating has been assigned by the Foreign Economic Administration.

(2) *Restriction on extension of ratings.* Notwithstanding the provisions of Priorities Regulation 3, no rating specifically permitted to be used by paragraphs (a) (1), (a) (3) or (a) (4) to obtain any item on Schedule A shall be extended for the delivery of any other item on Schedule A for physical incorporation into the item. For example, a rating for fabric may not be extended to obtain yarn unless to fill an Army, Navy, Maritime Commission or War Shipping Administration order as permitted by subparagraph (a) (2).

(c) *Specific directives.* The war Production Board may issue specific directions to individual producers or processors of items listed in Schedule A, with respect to the production, fabrication, processing or delivery of items to meet particular military or civilian requirements, and no producer or processor shall produce, fabricate, process, deliver or accept delivery contrary to directions.

(d) *Equitable distribution.* (This paragraph does not apply to sales by retailers, inasmuch as the Fair Distribution Policy for retailers is defined in Declaration of Policy of July 15, 1943.) Preference ratings are given to certain orders to further the war program. It is the policy of the War Production Board that items listed in Schedule A not required to fill rated orders shall be distributed equitably. In making such distribution due regard should be given to essential civilian needs, and there should be no discrimination in the acceptance or filing of orders as between persons who meet the seller's regularly established prices and terms of sale or payment.

Under this policy every seller of the items, so far as practicable, should make available an equitable proportion of his merchandise to his customers periodically, without prejudice because of their size, location or relationship as affiliated outlets.

It is not the intention to interfere with established channels and methods of distribution unless necessary to meet war or essential civilian needs. If voluntary observance of the policy outlined is inadequate to achieve equitable distribution, the War Production Board may issue specific directions to named concerns. A failure to comply with a specific direction shall be deemed a violation.

(e) *Rejects, over-runs and seconds*—(1) *Definitions.* "Rejects" means anything made to fill a rated order which (i) is so defective that it will be refused if tendered, (ii) the purchaser has refused, or (iii) the purchaser has notified the seller will be refused because of defects, failure to deliver on time, or termination of the procurement of the United States Government or any of its agencies for which the product was ordered. The term also is used to include seconds, over-runs or by products. A "Second" is anything made to fill a rated order but not actually offered or tendered to the purchaser because of defects, or for any other reason. An "Over-run" is anything made to fill a rated order but not delivered because in excess of the quantity actually needed to fill the order. A "By-product" is anything produced entirely or partly from a reject.

(2) *No one may purposely make a reject.* No manufacturer, processor or converter shall manufacture, process or order any product on Schedule A which he knows or should know will be a reject. This paragraph does not prohibit the production of seconds, over-runs or by-products to the extent that they are unavoidable in the manufacturer's operations.

(3) *Restrictions on the disposition of rejects.* No manufacturer, processor or converter shall sell or deliver a reject listed on Schedules B or C, and no one may accept delivery of such reject except as permitted by this subparagraph (e) (3) or by the schedule on which it is listed:

Rejected hides, skins and leather and products made primarily therefrom may be disposed of only as authorized under General Conservation Order M–310.

Any item listed on Schedule A, but not listed on Schedules B or C, or covered as to disposition of rejects by M–310 or by any direction issued pursuant to this order, may be disposed of for use in the United States or to fill a rated order without regard to the limitations of § 944.11 of Priorities Regulation 1.

(4) *How to get needed permission to dispose of a reject.* Any manufacturer who under the terms of this order needs specific permission to dispose of a reject may apply by letter to the War Production Board stating the number of the contract, the amount of material to be produced under it, the kinds of such material, a detailed statement of quantities and kinds of rejects, a copy of the rejection, and a statement of the efforts he has made to dispose of the rejects to the buyer. If the War Production Board decides he ought to be allowed to dispose of the reject, it will give him specific instructions.

(5) *Effect of specific instructions on disposition.* The War Production Board may issue specific instructions in writing to anyone respecting the use and disposition of rejects or material obtained with priorities assistance, but not used for the purpose for which the priorities assistance was given. These instructions may relate to rejects not yet manufactured on the date of their issuance. They must be obeyed even if they conflict with other provisions of this order.

(6) *Reports.* Manufacturers of textile, clothing and leather products shall report their rejects at such times and in such manner as the War Production

Board may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(7) *Records.* All persons affected by this order shall keep for at least two (2) years records showing the quantities and kinds of rejects produced by them and the disposition thereof.

SCHEDULE B—REJECTS WHICH MAY BE DELIVERED ONLY ON SPECIFIC AUTHORIZATION OF THE WAR PRODUCTION BOARD

Equipage: Military luggage and sleeping bags.

9 oz. sateen for foundation garments, footwear and clothing.

(f) *Miscellaneous provisions*—(1) *Applicability of regulations.* Except as otherwise provided herein, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board as amended from time to time.

(2) *Violations and false statements.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications.* All reports to be filed hereunder and communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Textile, Clothing and Leather Division, Washington 25, D. C., Ref: M-326.

(4) *Appeals.* Any appeal from the provisions of paragraphs (c), (d) or (e) of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from, and stating fully the grounds of the appeal. An appeal for suspension of a direction under paragraph (c) may be made on the ground that compliance with the direction will result in production at a loss, provided that an application for price relief on that ground is first filed with the Secretary of the Office of Price Administration, Washington, D. C., and a copy is filed with the WPB appeal. If the WPB appeal is granted, requirements of a direction for increases above current production will be suspended until the decision by the Office of Price Administration upon the application for price relief. This paragraph does not indicate or limit the extent or kind of price relief, if any, which may be granted by the Office of Price Administration.

[MPR 306,[2] Amdt. 26]

CERTAIN PACKED FOOD PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 306 is amended in the following respects:

1. Section 1341.584 (f) (4) (iii) is amended to read as follows:

(iii) The maximum price for any variety, style, grade and size of asparagus packed:

(*a*) In No. 303 cans, shall be 85% of the maximum price for the same variety, style, grade and size packed in No. 2 cans;

(*b*) In No. 55 (211 X 300) cans, shall be 55% of the maximum price for the same variety, style, grade and size packed in No. 2 cans;

(*c*) In No. 1 (picnic) cans, shall be 70% of the maximum price for the same variety, style, grade and size packed in No. 2 cans;

(*d*) In No. 300 (300 X 407) cans, shall be 78% of the maximum price for the same variety, style, grade and size packed in No. 2 cans.

2. In § 1341.584 (f), subparagraph (5) is redesignated (6) and the phrase, "subparagraphs (1), (2), (3) or (4) (iii)" in the redesignated subparagraph (6) is amended to read, "subparagraphs (1), (2), (3) or (4)". A new subparagraph (5) is added to read as follows:

(5) If the processor cannot establish a maximum price for such variety, style, grade and size under the foregoing provisions of paragraph (f) or of §§ 1341.557 or 1341.588, he shall apply to the Office of Price Administration, Washington, D. C., for authorization of a maximum price, as provided in § 1341.563.

3. Section 1341.584 (d) (7) (iv) is added to read as follows:

(iv) In No. 55 (211 x 300) cans, shall be 55% of the maximum price for the same variety, style, sieve size (including blends) and grade packed in No. 2 cans.

4. Section 1341.585 (a) (2) (i) (*b*) is amended to read as follows:

(*b*) Add to the figure so obtained the 1943 raw vegetable cost per dozen containers determined by dividing the weighted average of the prices per ton or other unit paid or contracted to be paid by the processor to the grower for the raw vegetables in 1943, based on not less than the first 75% of his purchases, by the dozen container yield per ton or other unit as required to be used in computing his 1942 maximum price. However, in no event shall the 1943 raw vegetable cost exceed the applicable support price of the War Food Administration for the area where the processor's factory is located, except that where the processor purchases any of the raw vegetables in Group II in a support price area other than in which his factory is located, his 1943 raw vegetable cost shall not exceed the applicable support price for the area in which the raw vegetables were grown, with respect to the quantities so purchased, and he may add with respect to such quantities the actual cost of transportation to his factory at the lowest available common or contract carrier rate.

5. Section 1341.585 (a) (3) (i) (*b*) is amended to read as follows:

(*b*) For raw vegetables in Group II, deduct the 1942 raw vegetable cost for such vegetables as required to be used in computing maximum prices for the 1942 pack and add to the figure so obtained the 1943 raw vegetable cost per dozen containers determined by dividing the weighted average of the prices per ton or other unit paid or contracted to be paid by the processor to the grower for the raw vegetables in 1943, based on not less than the first 75% of his purchases, by the dozen container yield per ton or other unit as required to be used in computing his 1942 maximum price. However, in no event shall the 1943 raw vegetable cost exceed the applicable support price of the War Food Administration for the area where the processor's factory is located, except that where the processor purchases any of the raw vegetables in Group II in a support price area other than in which his factory is located, his 1943 raw vegetable cost shall not exceed the applicable support price for the area in which the raw vegetables were grown, with respect to the quantities so purchased, and he may add with respect to such quantities the actual cost of transportation to his factory at the lowest available common or contract carrier rate.

6. Section 1341.585 (a) (4) is amended to read as follows:

(4) *Maximum prices for vegetables and vegetable juices in Groups I, II, and III in certain instances.* (i) Any processor who established a maximum price for any variety, style, grade and container type and size of the 1942 pack of any particular item in Group I, II, or III by the adoption of a competitor's maximum price shall adopt the same competitor's maximum price for the 1943 pack of the same item: *Provided*, That as to all the vegetables in Group II, and any mixture of vegetables in Group III which contains a vegetable for which the War Food Administration has announced a support price, the competitor shall be one in the same support price area.

(*a*) Where the same competitor does not pack such item in 1943 or, as to Group II and III vegetables for which a support price is named, he is located in a different support price area, the processor shall establish his maximum price for the item by adopting his closest competitive seller's maximum price for the 1943 pack of the same variety, style, grade and container type and size: *Provided*, That as to all vegetables in Group II and any mixture of vegetables in Group III which contains a vegetable for which the War Food Administration has announced a support price, the competitor shall be one in the same support price area.

(ii) Where the processor did not pack the same variety, style, grade and container type and size of any particular item in Group I, II or III in 1942, the maximum price of his closest competitive seller for the same variety, style, grade and container type and size of the 1943 pack shall be the processor's maximum price: *Provided*, That as to vegetables in Group II and any mixture of vegetables in Group III which contains a vegetable for which the War Food Administration has announced a support price, the competitor shall be one in the same support price area.

(iii) The maximum price for any variety, style and grade of any particular item in Group I, II, or III packed.

(*a*) In No. 303 cans, shall be 85% of the maximum price for the same variety, style and grade packed in No. 2 cans;

(*b*) In No. 55 (211 x 300) cans, shall be 55% of the maximum price for the same variety, style and grade packed in No. 2 cans;

(*c*) In No. 1 (picnic) cans, shall be 70% of the maximum price for the same variety, style and grade packed in No. 2 cans.

(iv) In the event that a processor cannot establish his maximum price under the provisions of the regulation, he shall apply to the Office of Price Administration, Washington, D. C., for authorization of a maximum price as provided in § 1341.563.

7. Section 1341.583 (g) (1) (i) is amended to read as follows:

(i) Determine the weighted average price per dozen containers or other unit of sale of brined cherries processed from cherries of the 1941 crop charged by the processor, f. o. b. factory, for the same variety, style, grade, size and container during the period from September 1 through November 30, 1941. "Weighted average price" shall be the total gross sales dollars charged for each variety, style, grade, size and container divided by the number of dozens of containers or other units of sale sold of such variety, style, grade, size and container. All sales contracts made in the regular course of business during the base period (September 1, through November 30, 1941) shall be included, regardless of the date of delivery, except sales contracts made with the United States. Sales contracts made at times other than during the base period shall not be included, even though delivery was made during the period.

8. Section 1341.583 (g) (1) (vi) is added to read as follows:

(vi) A processor who purchases and uses red sour cherries in processing brined cherries shall determine his maximum price under paragraph (g) except that in making the subtraction under subparagraph (1) (iii) and the addition under subparagraph (1) (v) he shall:

(*a*) Subtract his 1941 weighted average red sour cherry cost converted into units of the finished product; and

(*b*) Add to the difference figured by making this subtraction the 1943 weighted average raw fruit cost converted into units of the finished product. However, in figuring the 1943 weighted average cost of red sour cherries, the processor shall base his calculation on not less than 75% of his purchases of red sour cherries of the 1943 crop purchased and used by him in processing brined cherries and in no event shall the raw fruit cost for red sour cherries of the 1943 pack be in excess of 8½ cents per pound.

9. Section 1341.583 (h) (6) is added to read as follows:

(6) A processor who purchases and uses red sour cherries in the brining of cherries for use in processing maraschino and glace (drained) cherries shall determine his maximum price under paragraph (h) except that in making the subtraction under subparagraph (1) (i) and the addition under subparagraph (1) (ii) he shall:

(i) Subtract his 1941 weighted average red sour cherry cost converted into units of the finished product; and

(ii) Add to the difference figured by making this subtraction the 1943 weighted average raw fruit cost converted into units of the finished product. However, in figuring the weighted average cost of red sour cherries, the processor shall base his calculation on not less than 75% of his purchases of red sour cherries of the 1943 crop purchased and used by him in processing maraschino and glace (drained) cherries and in no event shall the raw fruit cost for red sour cherries of the 1943 pack be in excess of 8½ cents per pound.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 5C,[1] Amdt. 104]

MILEAGE RATIONING: GASOLINE REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5C is amended in the following respects:

1. A center headnote preceding § 1394.8341 is added to read as follows: "*Non-Highway Gasoline Purchase Receipt Books in the St. Paul Test Area.*"

2. Sections 1394.8341 through 1394.8349 are added to read as follows:

§ 1394.8341 *General.* (a) The following sections under this heading provide for the issuance of certain rations by issuing Non-Highway Gasoline Purchase Receipt Books (OPA Form No. R-582). These sections apply only if the rations are issued in the St. Paul Test Area. This area consists of the counties of Washington, Dakota, and Goodhue in the State of Minnesota.

§ 1394.8342 *When Non-Highway Gasoline Purchase Receipt Book is to be issued.* (a) Where the Board would otherwise issue to a consumer Class E or R coupon books as a non-highway ration for use in connection with farming (or as a non-highway ration for other users designated by the St. Paul District Director), the Board shall not issue such coupon books but shall, instead, issue one Non-Highway Gasoline Purchase Receipt Book (OPA Form No. R-582), if the ration is to be used to acquire gasoline by bulk transfers into the consumer's storage tanks or the fuel tank of his non-highway equipment at a place other than the supplier's establishment. (Non-Highway Gasoline Purchase Receipt Books shall not be issued to dealers or distributors.)

§ 1394.8343 *Issuing the Non-Highway Gasoline Purchase Receipt Book.* (a) Before issuing the Non-Highway Gasoline Purchase Receipt Book, the Board shall fill out the Certification of Account on the cover of the book, stating among other things, the first day on which the book may be used, the amount of the ration in gallons, and the earliest renewal date of the ration. The Board shall also note its number and address on the back of each Non-Highway Gasoline Purchase Receipt in the book.

(b) The consumer must sign the Certification of Account before using the Non-Highway Gasoline Purchase Receipt Book.

§ 1394.8344 *Deliveries to consumers in exchange for Non-Highway Gasoline Purchase Receipts*—(a) *General.* The Non-Highway Gasoline Purchase Receipt Book issued to a consumer contains Non-Highway Gasoline Purchase Receipts with a stub for each receipt. These receipts are evidences. They may be used by the consumer to acquire gasoline by bulk transfers into his storage tanks or the fuel tank of his non-highway equipment at a place other than the supplier's establishment. However, they may be so used only under the conditions stated in this section.

(b) *Time when the consumer must surrender the receipts.* The consumer must issue the receipt (and the dealer or distributor must get it) at the time he acquires the gasoline. However, if either is absent when the gasoline is transferred by delivery, he may, at the supplier's option, issue the receipt after the delivery. (The supplier may be absent because delivery is made by a common or contract carrier.) In that case, he must issue the receipt (and the supplier must get it) within 7 days after the delivery, or at the time the gasoline is paid for if that takes place within the 7 days.

(c) *Stub and receipt must be filled out by consumer.* Before the consumer issues the receipt, he must fill it out and sign it. He must also fill out the accompanying stub. The receipt and the stub must each show, among other things:

(1) The date the receipts is issued;
(2) The name and address of the supplier;
(3) The amount of gasoline acquired;
(4) The date of acquisition; and
(5) The amount of the ration less the total amount for which previous receipts from the Non-Highway Gasoline Purchase Receipt Book have been issued.

(d) *Certification of account must be shown to the supplier.* The consumer must show the Certification of Account to the supplier when the gasoline is delivered (unless either is absent at the time).

(e) *Period when transfers may be made.* A Non-Highway Gasoline Purchase Receipt does not authorize the transfer of gasoline to the consumer before the validity date stated on the Certification of Account. A consumer may not issue a receipt after the ration expires.

(f) *Amount that may be transferred.* A Non-Highway Gasoline Purchase Receipt authorizes the transfer of an amount of gasoline not in excess of the balance authorized to be transferred, as shown on the receipt and the accompanying stub. No consumer shall issue a Non-Highway Gasoline Purchase Receipt for or acquire an amount of gasoline which when added to the gasoline already acquired by him (on the basis of the Certification of Account) will exceed the amount authorized to be transferred by the Certification of Account. No dealer or distributor shall transfer gasoline to a consumer or accept a receipt from him if he knows or has reason to believe that the consumer is not permitted to acquire the gasoline or issue the receipt.

(g) *Advance surrender prohibited.* Non-Highway Gasoline Purchase Receipt Books may not be deposited by consumers with dealers or distributors or received for deposit from consumers by dealers or distributors. Non-Highway Gasoline Purchase Receipts may not be issued by consumers or received from them by dealers or distributors before the transfer of the gasoline.

(h) This section constitutes an exception to § 1394.8152, in addition to the other exceptions stated in that section.

§ 1394.8345 *Altered, mutilated, lost, stolen or destroyed Non-Highway Gasoline Purchase Receipts.* (a) No Non-Highway Gasoline Purchase Receipt which has been altered, mutilated, or partially destroyed (or which contains an erasure) may be issued, transferred or deposited. A person who holds such a receipt shall return it to the consumer who issued it with a request for a new receipt. If he is unable to locate the consumer, or to obtain a new receipt from him, he shall deliver the receipt to the St. Paul, Minnesota, District Office, with a statement signed by him of all the circumstances.

(b) A person who loses or unintentionally destroys a receipt issued or transferred to him or from whom such a receipt is stolen, shall notify the consumer who issued it in writing of the circumstances of the loss or destruction and request that a new receipt be issued to him. If he is unable to locate the consumer, or to obtain a new receipt from him, he shall send to the St. Paul, Minnesota, District Office a statement signed by him of all the circumstances.

(c) A consumer to whom an altered, mutilated, or partially destroyed receipt (or one containing an erasure) issued by him is returned or who receives a request for the replacement of a lost, destroyed or stolen receipt issued by him, may issue a new receipt. If he does so, he must enter on the stub of the original receipt the fact that it has been lost, stolen, altered, mutilated, or partially or completely destroyed, and on the stub of the new receipt the fact that it replaces the original receipt. Every consumer shall immediately send to the St. Paul, Minnesota, District Office a written description of any receipt issued by him and lost, destroyed or stolen, and a description of any receipts issued to replace them.

§ 1394.8346 *Disposition of book and unused and mutilated receipts; getting additional books*—(a) *When consumer applies for adjustment or renewal of ration.* When the consumer applies for an adjustment or a renewal of the ration for which he was given a Non-Highway Gasoline Purchase Receipt Book, he must, as a condition of getting the further or renewal ration, surrender to the Board the book along with all unused and voided Non-Highway Gasoline Purchase Receipts whether or not still attached to the stubs.

(b) *Additional book for current ration.* If the consumer has used all the receipts in his Non-Highway Gasoline Purchase Receipt Book but has issued receipts for an amount of gasoline less than the amount authorized to be transferred by the Certification of Account, he may, on application to his Board, get another Non-Highway Gasoline Purchase Receipt Book for the difference. However, he must first surrender to the Board the old book along with all unused and voided Non-Highway Gasoline Purchase Receipts whether or not still attached to the stubs.

(c) *Replacement of book for current ration; mutilated Certification of Account.* No Non-Highway Gasoline Purchase Receipt Book may be used if the Certification of Account has been altered, mutilated, or partially or completely destroyed (or which contains an erasure). If the consumer has such a book, or if the book is lost, destroyed or stolen, and if the consumer has issued receipts for an amount of gasoline less than the amount authorized to be transferred by the Certification of Account, he may, on application to his Board, get another Non-Highway Gasoline Purchase Receipt Book for the difference. However, he must first surrender to the Board the old book along with all unused and voided Non-Highway Gasoline Purchase Receipts whether or not still attached to the stubs.

(d) *Expiration of ration.* If the consumer's ration expires, he must within 5 days surrender the book to the Board along with all unused and voided receipts whether or not still attached to the stubs.

(e) The consumer's obligation to surrender the book or receipts may be excused by the Board if lost, stolen or destroyed, or for other good cause.

§ 1394.8347 *Substitution of Non-Highway Gasoline Purchase Receipt Book for E and R coupons already issued.* (a) If, upon the renewal of his current ration, a consumer would receive a Non-Highway Gasoline Purchase Receipt Book (pursuant to § 1394.8342) and he has been given only E or R coupons for his current ration, he may, by applying to his Board, get a renewal ration before the earliest renewal date of his current

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 15937.

ration. If he does so apply, his current ration shall expire and he must surrender his E and R coupons to the Board in the manner required by § 1394.8102.

§ 1394.8348 *Use of Non-Highway Gasoline Purchase Receipts by dealers and distributors.* (a) Dealers and distributors may transfer or deposit Non-Highway Gasoline Purchase Receipts in the same manner that they may transfer or deposit checks received in exchange for gasoline. The dealer or distributor who obtained the receipt from the consumer must endorse the receipt by signing the certification, and inserting the number of the invoice, delivery ticket, or other document of transfer, if any, on the back of the receipt.

§ 1394.8349 *Exceptions by District Director or Director of Automotive Supply Rationing Division.* (a) The Director of the Automotive Supply Rationing Division, Washington, D. C., or the St. Paul District Director may modify any of the provisions contained in §§ 1394.8341 through 1394.8348 (or grant exceptions thereto) covering the issuance or use of Non-Highway Gasoline Purchase Receipt Books or Receipts. (Action taken under this section shall not include modification of any other provision of this order.)

This amendment shall become effective February 17, 1944.

NOTE: The reporting and record keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order No. 11 is amended in the following respects:

1. Section 1394.5253 (b) is redesignated § 1394.5732 (d) and is amended to read as set forth in paragraph 3 below.

2. Section 1394.5656 is redesignated § 1394.5732 (b) and is amended to read as set forth in paragraph 3 below.

3. Section 1394.5732 is amended to read as follows:

§ 1394.5732 *Records to be kept by dealers, primary suppliers and others—*

(a) *Transfers within the trade*—(1) *All transfers.* Every person (other than as a consumer), whether within or without the limitation area, who makes a transfer of fuel oil to any dealer or primary supplier within the limitation area shall furnish to such dealer or primary supplier an invoice, delivery ticket, or other customary document of transfer showing the name and address of the transferor and transferee, the date and amount of the fuel oil transferred and the place where delivered. The transferor shall make, and keep at his place of business for a period of at least two years from the date of transfer, a copy of the invoice, delivery ticket or other customary document so furnished by him. The transferee shall retain at his place of business for a period of at least two years from the date of the transfer the invoice, delivery ticket or other document so furnished him. In addition, if evidences of a gallonage value equal to the amount of the fuel oil transferred are surrendered at the time of the transfer, the transferor and the transferee shall each note that fact on his copy of the invoice, delivery ticket or other record. If the surrender of evidences is required for the transfer and if evidences of a gallonage value equal to the amount of the fuel oil transferred are not surrendered at the time of the transfer, the transferor and transferee shall also comply with the record requirements of whichever of the following two subparagraphs is applicable.

(2) *Additional requirements when evidences are to be surrendered after the transfer.* Whenever a dealer or primary supplier does not at or before the time of the transfer surrender evidences of a gallonage value equal to the amount of the fuel oil transferred, the transferor and the transferee shall each, immediately following the transfer, make a record showing the name and address of the transferee and transferor, that evidences of a gallonage value equal to the amount of the fuel oil transferred were not surrendered at the time of transfer, the date and amount of the fuel oil transferred and the place where delivered. Immediately following the surrender of evidences for that transfer, the transferor and the transferee shall each note on the record the date when the evidences were surrendered and the aggregate gallonage value of those evidences. The records required by this subparagraph shall be retained at the place of business of the transferor and transferee for a period of at least two years from the date of the transfer of the fuel oil.

(3) *Additional requirements when evidences are surrendered in advance of delivery.* Whenever evidences are surrendered by a dealer or primary supplier to a transferor in advance of a transfer of fuel oil, the transferor and the transferee shall each, immediately following the surrender of the evidences, make a record showing the name and address of the transferee and transferor, the aggregate gallonage value of the evidences surrendered, the date of surrender and that they were surrendered in advance of the transfer of the fuel oil. Immediately following any transfer of fuel oil against those evidences, the transferor and the transferee shall each note on the record the date and amount of each transfer made or received against those evidences and the place where delivered. The records required by this subparagraph shall be retained at the place of business of the transferor and transferee for a period of at least two years from the date the evidences are surrendered.

(b) *Transfers to consumers.* Every dealer and primary supplier shall, immediately following the transfer, make and retain at his place of business for a period of at least 2 years from the date of transfer, a record of each transfer to a consumer of an amount of fuel oil in excess of 10 gallons. Such record shall show the name and address of the consumer, the date of the transfer, the amount of the fuel oil transferred and the place where delivered and whether or not evidences of a gallonage value equal to the amount of the fuel oil transferred are surrendered at the time of the transfer. If evidences of such gallonage value are not surrendered at the time of the transfer, the transferor shall immediately following the surrender of evidences for that transfer, note on the record the date when the evidences were surrendered and the aggregate gallonage value of the evidences surrendered. When a ration check is issued by a consumer in advance of a fuel oil transfer, the transferor's record shall also show the date the check was received, the gallonage value of the check, and that it was issued in advance of the transfer of the fuel oil. Immediately following any transfer of fuel oil against that check, the transferor shall note on the record the date and amount of each transfer made against that check.

(c) *Records and devices showing fuel oil on hand.* Every dealer and primary supplier shall retain at his place of business for a period of at least 2 years from the date of his registration, all receipts, invoices, and other records showing the fuel oil on hand at the time of his registration. He shall also keep at his place of business at all times, all records and equipment including charts, tables, tank gauges, measuring tapes, rods and other devices regularly used by him to determine the amount of fuel oil on hand.

(d) *Records relating to consumer's past consumption.* Each dealer or primary supplier who furnished to a consumer the certification required by § 1394.5253 (a) showing the total amount of fuel oil purchased from such dealer or supplier shall retain at his place of business, for a period of at least two years from the date of such certification, all records on the basis of which such certification was made.

(e) *Other records.* Further record-keeping requirements to be observed by dealers and primary suppliers are set forth in §§ 1394.5687 (d) (entries on check stubs), 1394.5701 (d) (5) (additional records to be kept by dealers who commingle fuel oil), 1394.5704 (c) (certificate of registration), 1394.5721 (use of gummed sheet), 1394.5722 (summary of coupons), and section 6.4 of Revised General Ration Order 3A (retention of checks, stubs, deposit slips and statements of account—ration banking).

4. Section 1394.5687 (d) is amended by adding after the period at the end of the paragraph the sentences, "If the check is issued in advance of the transfer of the fuel oil, the consumer's record shall also show that it was issued in advance of the transfer. Immediately following the receipt of any transfer of fuel oil against that check, he shall note on the record the date and amount of each transfer so received. If the check is issued after the transfer of fuel oil, that record shall also show the date and amount of each transfer for which the check is issued."

PART 1499—COMMODITIES AND SERVICES

[Rev. SR 14 to GMPR, Amdt. 93]

BED LINENS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Article III of Revised Supplementary Regulation No. 14 to the General Maximum Price Regulation is amended by adding section 3.11 to read as follows:

SEC. 3.11 *Sales of certain bed linens at wholesale.* (a) This section applies to sales at wholesale of carded cotton bed linens of Types 112, 128, 140 and 180 for which the manufacturer's ceiling price is established by Revised Price Schedule No. 89—Bed Linens.[1]

[1] (a) "Bed linens" means finished sheets, finished pillow cases, finished bolster cases, bleached pillow tubing, domestic-type grey wide sheeting, brown sheeting, and bleached sheeting; however, it refers only to goods made of cotton and does not include goods made wholly of combed yarn.

(b) "Types 112, 128, 140, and 180" are defined in Table I, Section 1316.111 of Revised Price Schedule No. 89. That Schedule requires bed linens, when sold by the manufacturer, to bear a label stating the type.

(c) "Sale at wholesale" means a sale by a person who in the performance of a recognized distributive function resells the goods otherwise than at retail in the same form as that in which he purchases them. No sale is made in the performance of a recognized distributive function unless it advances the goods sold to the next stage of distribution. Presumptively, sales by one jobber or wholesaler to another are not sales in the performance of a recognized distributive function.

(d) "At retail" means in small quantities to ultimate consumers buying for household use and not for resale.

(b) The maximum price for sales at wholesale of these types of bed linens shall be the higher of the following:

(1) The maximum price fixed by the General Maximum Price Regulation;

(2) The seller's net cost of the goods (including, if the goods are sold from stock, freight from the manufacturer's mill to the seller's place of storage) divided by 0.93.

The maximum price shall be subject to the allowances, discounts, and other price differentials observed by the seller during March 1942. No seller shall require any purchaser, and no purchaser shall be permitted, to pay on a sale at wholesale a larger proportion of transportation costs incurred in delivery of bed linens than the seller required purchasers of the same general class to pay during March 1942.

This amendment shall become effective February 12, 1944.

(b) *Maximum prices for grades of steel scrap*—(1) *On-line prices for operating railroads operating in a basing point.* (The term "on-line prices" means the maximum prices that the originating railroad may charge for scrap delivered to a consumer located on the line of that railroad.)

The maximum on-line price of any grade of steel scrap originating from an operating railroad operating in a basing point named in paragraph (a) of this Section shall be the price established in such paragraph for the scrap at the highest priced basing point in which the railroad operates.

(2) *On-line prices for operating railroads not operating in a basing point.* (i) The maximum on-line price of any grade of steel scrap originating from an operating railroad not operating in a basing point named in paragraph (a) of this section, shall be the price established for the scrap at the most favorable basing point in such paragraph minus the foreign line proportion of the lowest established charge for transporting scrap by rail from the scrap accumulation point of the railroad to such basing point. (The "scrap accumulation point" shall be that point from which the greatest tonnage of scrap was shipped in the calendar year 1943). In no case need the maximum on-line price fall below $15.00 per gross ton for No. 1 Railroad Heavy Melting Steel, (with differentials established in paragraph (a) for all other grades).

The "most favorable basing point" is the basing point which will yield the highest maximum on-line price.

(3) *Non-operating railroads.* (i) The maximum price of any grade of steel scrap originating from a non-operating railroad shall be the price established for the scrap at the most favorable basing point named in paragraph (a) of this section, minus the transportation charges established in paragraph (c) (1), (2) and (3) of § 1304.13. In no case need the maximum price fall below $15.00 per gross ton for No. 1 Railroad Heavy Melting Steel (with differentials established in paragraph (a) of this section for all other grades).

The "most favorable basing point" is the basing point which will yield the highest maximum price.

(d) *Maximum prices for scrap delivered to a consumer*—(1) *When delivered to a consumer located on the line of a railroad.* The maximum delivered price of any grade of scrap originating from an operating railroad and delivered to a consumer's plant located on the line of that railroad shall be the maximum on-line price established in paragraph (b) or (c) of this section, whichever is applicable.

(2) *When delivered to a consumer located off the line of the originating railroad.* The maximum delivered price of any grade of scrap originating from an operating railroad and delivered to a consumer's plant located off the line of that railroad shall be the maximum on-line price established in paragraph (b) or (c) of this section, whichever is applicable, plus the foreign line proportion of the through rate from the railroad's line to the plant of the consumer via the point on the line of the railroad nearest the consumer's plant (unless off-line routing at another point is required by order of a Governmental agency).

(3) *When delivered to a consumer from a non-operating railroad.* The maximum delivered price of any grade of scrap originating from a non-operating railroad shall be the maximum price established in paragraph (b) or (c) of this section, whichever is applicable, plus transportation charges to the point of delivery. Such transportation charges shall be computed in the same manner and subject to the same limitations as the charges allowable under § 1304.13 (d) except that the springboard limitations in that section shall not apply to the grades of rails, grades No. 21, 22, 23, 24, and 25.

(e) *Railroad scrap prepared by a dealer.* (1) With the exception of unprepared scrap prepared in-transit pursuant to paragraph (f) (2) of this section, railroad steel scrap prepared by a dealer or moving through a dealer's yard shall be deemed to have lost its railroad origin. Steel scrap which has lost its railroad origin shall be classified and priced under § 1304.13 except that for the following grades of steel scrap number in paragraph (a) (2) above, grades No. 4, 5, 14, 21, 22, 23, 24, 25, 26, 27, 29, 30, 31, 32, 33, 34, and 35 the maximum shipping point price shall be the same as those prices established for non-operating railroads in paragraph (b) (3) of this section for those grades, and the maximum delivered prices shall be the same as those prices established for non-operating railroads in paragraph (d) (3) of this section for those grades.

(2) The maximum shipping point price of any grade of railroad cast iron scrap sold by a dealer shall be the same as the price established for the railroad seller in paragraph (c) of this section.

(f) *Unprepared scrap.* (1) The term "unprepared scrap" shall have its customary trade meaning and shall not include such demolition projects as bridges, or box cars, which must be so priced that the prepared scrap will deliver to the consumer within the maximum delivered price established in this section.

(2) *Preparation in-transit.* (i) If a consumer without adequate preparation facilities purchases unprepared scrap from an originating railroad, the consumer may designate a dealer or dealers to prepare such scrap on a preparation fee basis. The maximum preparation fee for steel scrap shall be the differential established in paragraph (e) of § 1304.13 or paragraph (a) of § 1304.14, whichever is applicable, between the unprepared scrap and the listed grade into which the scrap is prepared (for example: $3.50 per gross ton for prepared No. 1 Railroad Heavy Melting Steel from Structural and/or Wrought Iron and Steel Uncut, or $2.50 per gross ton for cutting rails 18 inches and under from Scrap Rails in Random Lengths, or $4.00 per gross ton for No. 2 Bundles prepared from No. 1 Sheet Scrap, etc.). For railroad cast iron scrap, an in-transit preparation fee will be applicable only for preparing Cast Iron, No. 3 into Cast Iron, No. 1 for which the maximum preparation fee shall be $3.50 per gross ton.

(ii) The maximum delivered price for railroad scrap prepared intransit shall be the maximum on-line price for the unprepared scrap, plus the applicable rail transportation charges, if any, incurred in moving the scrap to the dealer's yard, plus the applicable preparation fee, plus transportation charges from the dealer's yard to the point of delivery. The transportation charges from the dealer's yard to the point of delivery shall be computed in the same manner as the charges allowable under § 1304.13 (d) on an identical tonnage of scrap shipped by the dealer from his yard to the same point of delivery.

(g) *Premiums for alloy content.* The provisions concerning alloy scrap set forth in § 1304.13 (a) (4) shall be applicable to any grade of railroad scrap.

(h) *Prohibition against special preparation charges.* (1) Except upon prior approval by the Office of Price Administration, no charge may be made for special preparation.

*Copies may be obtained from the Office of Price Administration.

[1] A basing point includes a switching district of the city named.

(2) Whenever scrap has arrived at the point of delivery, and the consumer engages a dealer to prepare such scrap, no charge may be made for such service unless prior approval is secured from the Office of Price Administration.

(i) *Superior grades.* Except upon prior approval by the Office of Price Administration, no grade of railroad scrap, other than those listed in this Section, shall command a premium over the base grades (No. 1 Railroad Heavy Melting Steel or Cast Iron, No. 1).

(j) *Inferior grades.* For grades, other than those listed in this section, which are inferior to the base grades (No. 1 Railroad Heavy Melting Steel or Cast Iron, No. 1) the seller shall apply to the Office of Price Administration, Washington 25, D. C., for the establishment of an appropriate price.

(k) *Mixed shipments.* (1) When grades of scrap commanding different maximum prices under the provisions of this Revised Price Schedule No. 4 are included in one vehicle, the maximum price for the scrap in such vehicle shall be the maximum price applicable to the lowest priced grade in the vehicle. This limitation shall not affect shipments involving vessel movement if each grade commanding a different maximum price is segregated in the vessel.

(2) Where a vehicle contains exclusively grades of scrap for which premiums for alloy content are established under the provisions of this schedule, such premiums shall not apply (and the limitations set forth in subdivision (1) of this paragraph shall apply), unless each such grade is segregated in the vehicle.

[Supp. Order 84]

PAYMENT OF PATRONAGE DIVIDENDS BY MARKETING COOPERATIVE ASSOCIATIONS

A statement of the considerations involved in the issuance of this supplementary order has been issued simultaneously herewith and filed with the Division of the Federal Register.*

§ 1305.215 *Payment of patronage dividends by marketing cooperative associations.* (a) This order applies to the payment of patronage dividends by marketing cooperative associations to their patrons (members or non-members) in connection with any commodity subject to a price regulation issued by the Office of Price Administration unless the applicable price regulation contains different provisions.

(b) No marketing cooperative association may pay to any patron and no patron may receive, through the payment of patronage dividends or otherwise, more for any commodity than the ceiling price applicable to sales of that commodity by the patron to non-cooperative distributors regardless of whether the association acquires title to the commodity or acts as selling agent for the patron except as provided in this order.

(c) Patronage dividends may be paid by marketing cooperative associations to or received by their patrons in connection with a commodity when the dividend plus the original payment to the patron results in his receiving more for the commodity than the applicable ceiling price for sales by him to non-cooperative distributors only if all the following conditions are met:

(1) The association operates on a cooperative basis for the purpose of marketing the commodities of its patrons solely for their mutual benefit, and conforms with all the requirements of the applicable statutes of a state or territory.

(2) The association does not handle a greater proportion (in terms of dollar value or unit volume) of non-member business in any fiscal year than it handled during the calendar year 1943, or its fiscal year ending in 1943, or, if the association was not in existence during all of 1943, it does not handle a greater proportion of non-member business than it handled during the first fiscal or calendar year of its existence: *Provided,* That, for purposes of this paragraph (c), there shall be disregarded in determining the proportion of member to non-member business transaction by the association, any business done by it for and at the request of the United States or any of its agencies as part of a special government procurement program which makes it necessary for the association to obtain commodities out of the normal course of its business from other than its customary sources of supply.

(3) The association is not controlled, with respect to finances, policy, payment of patronage dividends, employment or compensation of personnel or agents, or in any other way by any person (other than a cooperative association).

(4) The association does not offer or agree to pay a patronage dividend of a definite amount or at a specific rate.

(5) The association does not pay patronage dividends except at the end of the association's fiscal year or at the end of intervals of not less than six months where the books of the association are regularly closed at the end of such intervals.

(6) If the association in the payment of patronage dividends customarily differentiates between, and maintains separate accounting records for, various operations in its business (differentiating, for example, between operations in different areas, or between the marketing of different commodities or the products of different types or grades of the same commodity), the patronage dividend paid to patrons whose commodities are marketed in one such operation in its business does not include any sums derived from other such operations.

(7) In the case of a farmers' cooperative association, the association also conforms with all the requirements of the Capper-Volstead Act.

(d) "Price regulation," as used in this supplementary order, means a price schedule effective in accordance with the provisions of section 206 of the Emergency Price Control Act of 1942, as amended, a maximum price regulation, or temporary maximum price regulation issued by the Office of Price Administration, or any amendment or supplement thereto or order issued thereunder.

(e) This order shall become effective February 19, 1944.

Such sales shall also be exempt from the General Maximum Price Regulation.

(b) *Commodities.* Motor oils including aviation oils, stock oils (neutrals, bright stocks, steam refined and other stock oils), greases, industrial oils, petroleum sulphonates, mineral oil polymers, and any other fraction of crude petroleum which is sold as a source of any of the foregoing commodities, unless specifically excluded in the following paragraph.

The following commodities are not included in this regulation: Insecticides; germicides; core oils and core washing oils; household oils, upper motor lubricants and other specialty lubricants and compounds such as sealing and thread compounds, honing oil, etc., normally sold to consumers by sellers other than petroleum refiners, compounders, jobbers and service stations; petrolatum, paraffin wax, microcrystalline wax, slop wax, and any compound a major portion of which consists of any of these products; asphalt and asphalt products; crude petroleum; naphthenic acids; those petroleum products coming under Maximum Price Regulation No. 88 or any superseding regulation; and those petroleum products excepted from price control by any applicable price regulation.

(c) *Areas.* This regulation applies in the forty-eight states of the United States, the District of Columbia, and the territories and possessions of the United States, except sales and deliveries in the Panama Canal Zone excepted by Supplementary Order No. 8.

SEC. 2. *Transfers of business or stock in trade.* This section covers cases where the business effects or stock in trade of any seller or any person are sold, leased or otherwise transferred after October 15, 1941 in the case of motor and stock oils, or after March 31, 1942, in the case of other products, and the transferee carries on the business or contracts to deal in the same commodity in an establishment separated from any other establishment previously owned or operated by the transferee. In such cases the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place. His obligation to keep records and make reports shall be the same as those of the tansferor. The transferor shall either preserve and make available or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation and those of the General Maximum Price Regulation where the latter were applicable.

SEC. 3. *Federal and State taxes*—(a) *Tax in effect during March 1942.* Where a seller during March 1942 included a tax (either directly or by separate statement and collection) as a part of his price for a petroleum product, he may include such tax (either directly or by separate statement and collection) as a part of any maximum price established under this regulation for that product or for a new product he is now selling which is subject to the same tax.

(b) *Tax or increase in tax effective after March 1942.* Any tax increase or new tax imposed after March 31, 1942, upon or incident to the sale, delivery, processing, or use of any petroleum product covered by this regulation may be collected by a seller in addition to the maximum prices established under this regulation.

NOTE: Supplementary Order No. 31 (7 F.R. 9894) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."

SEC. 4. *Applications for adjustment and petitions for amendment*—(a) *Government contracts.* Any person who has entered into or proposes to enter into a "Government contract" as defined by Revised Supplementary Order No. 9 who believes that a maximum price contained in this regulation impedes or threatens to impede production, manufacture or distribution of a commodity essential to the war program, may file an application for adjustment in accordance with Procedural Regulation No. 6 and under terms of Revised Supplementary Order No. 9.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

(c) *Local shortages.* The Office of Price Administration, or any duly authorized representative thereof, may adjust by order any maximum price established under this regulation for any seller or group of sellers when it appears:

(1) That there exists or threatens to exist in a particular locality a shortage in the supply of a petroleum product which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such seller and of like sellers for such petroleum product; and

(3) That such adjustment will not create or tend to create a shortage or a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

NOTE: Applications for adjustment shall be filed in Washington, D. C., in accordance with Revised Procedural Regulation No. 1.

(d) *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery. Where a petition for adjustment or amendment is pending the buyer and seller may agree that prices for deliveries made during the pendency of the petition shall be determined in accordance with the disposition of the petition. The new maximum prices established in accordance with the disposition of the petition will be permitted to apply to the deliveries which were made while the petition was pending if the deliveries are necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

SEC. 5. *Records and price filing requirements.* (a) Every person selling petroleum products subject to this regulation shall keep for a period of two years and make available for examination by the Office of Price Administration records of the same kind as he customarily kept, relating to the prices which he charged for such petroleum products and in addition, records showing the basis upon which he determined maximum prices for such petroleum products.

(b) Within thirty days after the effective date of this regulation each refiner, blender or compounder of any commodity for which maximum prices are established under this regulation shall file with the Office of Price Administration in Washington, D. C., in duplicate, a list of his selling prices including therewith his written statement of discounts and price differentials which he supplies to his salesmen, on all of such commodities which he produces. The list shall consist of the prices which he customarily publishes for use of his sales department, customers or distributors. It need not include prices for individual products and formulas which are not customarily published in such manner. The filing of such prices shall not constitute their establishment as maximum selling prices nor their approval as such by the Office of Price Administration.

SEC. 6. *Shifts which must be reported.* A seller who on the last sale prior to the effective date of this regulation sold a particular petroleum product to a purchaser who is a reseller on a delivered price basis at a given point and thereafter sells such a reseller on an f. o. b. shipping point price basis shall report such fact to the regional office of the Office of Price Administration serving the point of destination for such shipment within ten days after such sale is made, if but only if, the effect of selling on an f. o. b. shipping point price basis is to increase the laid-down cost to the reseller above the seller's maximum delivered price to such reseller.

SEC. 7. *Compliance with this regulation*—(a) *No selling or buying above maximum prices.* Regardless of any contract or obligation, no person shall sell or deliver and no person shall buy or receive any commodity governed by this regulation at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things. Prices lower than the maximum prices may, of course, be charged and paid.

(b) *Evasion.* The price limitations set forth in this regulation shall not be evaded either by direct or indirect methods in connection with a sale, delivery or transfer of petroleum products alone or in conjunction with any other materials or by way of any commission, service, transportation, loading, tank car rental or other charge or discount, premium or privilege or by tying agreement or other trade understanding or by a change in the quality of a product or otherwise.

(c) *Enforcement.* Any person violating a provision of this regulation is subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended. War procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. Persons who make sales covered by this regulation to War procurement agencies and buyers to whom such products have been allocated by any such agencies are, however, subject to all the liabilities imposed by this regulation. "War procurement agencies" include the War Department, the Navy Department, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies.

(d) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 8. *Definitions.* (a) "Motor oil" means a lubricating oil when sold for use in the crank cases of internal combustion diesel or gasoline engines installed in mobile equipment, exclusive of rail and marine equipment. By internal combustion engine is meant that type of engine commonly used in an automobile, motorcycle, truck, bus, tractor, airplane, etc. Oils sold exclusively for break-in purposes are classed as industrial oils.

(b) "Industrial oil" means those petroleum oils and compounds thereof used for lubricating and non-lubricating purposes sold primarily for the lubrication of industrial machinery or for processing or other industrial use except as fuel. Examples are lubricating oils for machinery, stationary diesel and gasoline engines and rail and marine equipment; lubricating oils for testing and breaking-in automotive and aircraft engines; ink oils; transformer oils; cable compounds; hydraulic oils; oils and compounds for processing textiles, rubber, fibres, leather, paper, etc.; cutting oils and compounds; rust preventives; etc.: *Provided*, That no product shall be considered an industrial oil unless it is intended for ultimate sale to industrial (including rail and marine) consumers and unless approximately 50% of its non-aqueous constituents are derived from petroleum.

(c) "Grease" means oils commonly sold for the lubrication of automotive gears and soap-thickened oils suitable for lubrication.

(d) "Gross profit" means in the case of producers the difference between the net maximum selling price and the ingredient values, and in the case of sellers at wholesale the difference between the net maximum selling price and the cost delivered to seller's plant.

(e) "Ingredients values" are determined as follows:

(1) If the ingredients are purchased by the seller, he shall use the maximum prices which his suppliers of such ingredients may charge him under applicable price regulations, including cost of delivery to seller's plant.

(2) If the ingredients are obtained from the seller's own refinery, he may use the refinery value, inventory value, works billing price, or other similar value which he customarily places on such ingredients.

(f) "Highest price charged during March 1942" means:

(1) The highest price which the seller charged at the same shipping or delivery point to a purchaser of the same class for delivery of the particular petroleum product during March 1942.

(2) If the seller made no such delivery during March 1942, such seller's highest offering price to a purchaser of the same class for delivery during that month.

(3) If the seller made no such delivery and had no such offering price to a purchaser of the same class, the highest price charged or offered by the seller during March 1942 to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers.

(4) In no event, however, shall a price charged pursuant to a contract entered into prior to March 1942 be regarded as a price charged in March 1942 unless such contract was adjustable to reflect current market conditions at or about the dates of deliveries under such contract.

(g) "Purchaser of the same class" refers to the practice adopted by the seller in setting different prices for a commodity for sales to purchasers performing different functions (for example, refiner; jobber; distributor; commercial, industrial or private consumer; service station tank car dealer; divided or undivided tank wagon dealer, etc.), or for purchasers performing the same function but located in different areas or buying in different quantities or grades or under different conditions of sale. Price is prima facie evidence but not conclusive evidence to be considered in determining if a purchaser belongs to a particular class; however, a lower price to a particular purchaser which was to meet competition and otherwise was inconsistent with the seller's practice in setting the same price to the particular purchaser and one or more other purchasers, shall neither result in placing the particular purchaser in a lower price class nor be considered in determining a seller's maximum price.

(h) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes any government, its political subdivisions and agencies.

(i) "Retail establishment" means the physical location of the store, shop, garage, service station, or other place of business in which petroleum products are sold at retail other than by delivery in tank wagon or larger lots.

(j) "Seller of the same class" means a seller (1) performing the same function, (2) of similar type, (3) dealing in the same type of commodity, and (4) selling to the same class of purchaser.

(k) "Contract" means an agreement, the existence of which is established by written evidence.

ARTICLE II—PRICING PROVISIONS

NOTE: How to determine maximum prices.

Specific maximum prices are set forth in section 10 for certain stock oils sold in bulk lots.

If no specific maximum price is provided, you will determine your maximum price as follows:

1. *In the case of motor and stock oils sold by any seller including wholesalers:*

(a) By using your price on the last sale prior to October 15, 1941, as outlined in section 11. If a maximum price cannot be determined in this way,

(b) By continuing to use the maximum price of your most closely competitive seller of the same class, if you have heretofore used such price as your maximum price under § 1340.159 (b) (3) of Revised Price Schedule No. 88 and have heretofore printed it in your published price list or other customary method of publication. If a maximum price cannot be determined in this way,

(c) By using the blending, minor differences or shortages methods outlined in section 14. If a maximum price cannot be determined by these methods,

(d) By using the final pricing method set forth in section 16.

2. *In the case of all products other than motor and stock oils sold by any seller including wholesalers:*

(a) By using your March 1942 price as outlined in section 13. If a maximum price cannot be determined in this way,

SEC. 11. *Motor and stock oils—Last sale prior to October 15, 1941 method.* Where no applicable specific price is set forth in section 10 the maximum price for each seller at a given shipping or delivery point for motor or stock oils shall not exceed the net price charged at that point by him on the last sale of the same product to a purchaser of the same class, within sixty days prior to October 15, 1941. Where the product is sold on a delivered basis at a given point the maximum price shall be the net price charged on the last sale of the same product to a purchaser of the same class made on a delivered basis at that point in the period specified. Where the product is sold at a given point on an f. o. b. shipping point basis, the maximum price shall be the price charged on the last f. o. b. shipping point sale at that point of the same product to a purchaser of the same class in the period specified. The term "sale" as hereinabove employed shall include (1) sales and contracts of sale made during the period specified, and (2) deliveries made during the period specified under a contract made prior thereto, if the prices chargeable under such contract were adjustable to reflect market conditions during the said period.

SEC. 12. *Motor and stock oils; price of competitive seller method.* If the maximum price for a motor or stock oil at a given shipping or delivery point was determined prior to the effective date of this regulation on the basis of the maximum price of the seller's most closely competitive seller of the same class for a product of the same grade pursuant to § 1340.159 (b) (3) of Revised Price Schedule No. 88, and a sale was made at such price, or such price was evidenced by publication in seller's published price list or other customary method of publication used by the seller, the seller may continue to use such price as his maximum price.

SEC. 13. *All products other than motor and stock oils—March 1942 price method.* (a) The maximum price for all products covered by this regulation other than motor and stock oils shall be the highest price charged in March 1942 (defined in section 8 (f)), except:

(1) The maximum price established prior to February 25, 1943, for industrial oils and greases, or prior to May 13, 1943, for petroleum sulphonates and mineral oil polymers, in accordance with the provisions of the General Maximum Price Regulation may be continued as the maximum price provided a sale was made at such price or such price was evidenced by publication in the seller's published price list or other customary method of publication used by the seller.

(2) The period April 10, 1942 to May 10, 1942, inclusive, shall be substituted for March 1942 in applying the provisions of this section to the territories of Puerto Rico and the Virgin Islands.

(b) If the particular product was not delivered or offered for delivery during March 1942 but was delivered or offered for delivery prior thereto, the seller's maximum price thereof, shall be determined under the final pricing method described below under section 16.

SEC. 14. *All products—Minor differences, blending and shortages methods (to be used only where a maximum price cannot be determined under the preceding pricing methods)*—(a) *Minor differences method.* Where a maximum price for a particular product cannot be determined under the preceding pricing methods of this regulation and where the product differs from a product for which a maximum price has been determined under this regulation only by reason of minor differences in composition which do not prevent its offering substantially equivalent serviceability, the maximum price of the particular product shall be the same as that of the product for which a maximum price has been established, except that:

(1) *Producers.* A producer may not use this provision if the ingredients value of the particular product varies from the ingredients value of the product for which he has an established maximum price by more than approximately ten per cent of the gross profit of the original product.

(2) *Wholesalers.* A wholesaler may not use this provision if the delivered cost of the particular product varies from the delivered cost of the product for which he has an established maximum price by more than approximately ten per cent of the gross profit of the original product.

(b) *Blending or compounding method.* New products resulting from the blending or compounding of two or more petroleum products each of which has a maximum price.

(1) *Producers.* Where a producer cannot establish a maximum price under the preceding pricing methods of this regulation, the maximum price of any product which is produced by mixing two or more petroleum products for each of which the producer has a maximum price to purchasers of the same class, shall be the weighted average by volume or by weight of the maximum prices of such products plus a mixing charge of ½¢ per gallon. In determining the weighted average mentioned above, the seller shall multiply the per unit maximum price of each product being blended by the percentage (by volume or weight as above prescribed) of each ingredient and add the results of such multiplication.

(2) *Wholesalers.* Where a producer has established his maximum price for a new product by using the blending or compounding method set forth above, wholesalers shall apply for a maximum price for the new product under the final pricing method set forth in section 16.

(c) *Shortages method.* Changes in products necessitated by shortages of ingredients.

(1) *Producers.* Where a producer has an established maximum price for a product under the preceding pricing methods of this regulation and is required to change the product because of shortages of certain ingredients, his maximum price shall be the established maximum price of the original product adjusted by adding or subtracting the increase or decrease in ingredients value (defined in section 8 (e)) resulting from the changes, provided he is unable to establish a maximum price for the new product by use of the preceding pricing methods of this regulation. However, this shortages method shall not be used in determining a maximum price unless the change in ingredients results in an increase or decrease in the ingredients value of the product by more than 10% of the gross profit (defined in section 8 (d)) of the original product.

(2) *Report of maximum price.* Within fifteen days after a purchaser first agrees to buy a commodity for which a maximum price must be determined by this shortages method, or at any time prior thereto, the producer shall report to the Office of Price Administration, Washington, D. C. the maximum price computed by him. The report shall set forth the following in the manner and form prescribed below:

State the Reason for Each Shortage of Ingredients Indicated in Part B-Column 1:

Instructions and footnotes.—Footnote No. 1 In parts B and C the ingredients listed in column 1 should correspond line by line. Where new ingredients are used these should be listed in column 1 of Part C following the list of original ingredients. Indicate ingredients changed as a result of a shortage and each substitute ingredient by an asterisk (*).

Footnote No. 2 Before computing these values see Section 14 (c).

The unit of sale should be the same for Part A1 and Parts B and C.

Such price shall be the seller's maximum price at the particular shipping point or delivery point for the particular product until the said price is disapproved in writing by the Office of Price Administration or until the seller is notified in writing that a substitute price has been set by the Office of Price Administration. If a substitute price is set, then such price shall be the maximum price subject, however, to further substitution at any time of another maximum price by the Office of Price Administration.

The producer shall notify in writing each person purchasing the new product for resale at wholesale that his maximum price for the new product shall be his maximum price for the product being replaced, adjusted by the amount of the difference in the cost to him of the new product.

(3) *Wholesalers.* Where a producer's maximum price for a product has been increased or decreased by use of this shortages method, the wholesaler's maximum price for such product shall be increased or decreased by the same amount as the increase or decrease in the producer's maximum price.

*Upon written request by the producer, information contained in the report shall be treated as confidential.

SEC. 15. *Prior orders and price approvals.* (a) Orders of adjustment Nos. 1, 2, 3, 9 and 10 were issued pursuant to § 1340.156 (c) (2) of Revised Price Schedule No. 88. Sellers affected by such orders may, notwithstanding the other provisions of this regulation charge the maximum prices authorized by such orders.

(b) If a maximum price for a product at a given shipping or delivery point cannot be established under any preceding provision of this regulation and if a maximum price for a product at the particular point was heretofore approved for a seller under § 1340.159 (b) (7) of Revised Price Schedule No. 88, such approval shall be deemed to continue in full force and effect as if granted under section 16 of this regulation.

(c) If a maximum price for a product was heretofore approved for a seller under the Third Pricing Method contained in § 1340.159 (e) (4) (iii) (a) of Revised Price Schedule No. 88 (Changes necessitated by shortages of ingredients), such approval shall be deemed to continue in full force and effect as if granted under section 14 (c) of this regulation.

SEC. 16. *All products; final pricing method.* (a) If under any of the preceding pricing methods of this regulation a seller is unable to determine the maximum price at a given shipping or delivery point for any product covered by this regulation then the seller may nevertheless make a sale of such product at the said point or may notify the Office of Price Administration in writing that he has set a tentative maximum price for the product at the said shipping or delivery point. In giving notice of the setting of such tentative maximum price or within 15 days of the making of the said sale, the seller shall file with the Petroleum Branch of the Office of Price Administration, Washington, D. C., a written request for the approval of either the tentative or sale price and together with such request a statement setting forth:

(1) Such tentative or sale price and in the latter case, full details of the sale;

(2) An explanation as to why it is impossible for the seller to establish a selling price under the preceding pricing methods of this regulation.

(3) If a new product, the reason for the introduction of a new product at this time.

(4) (i) An explanation, supplemented by specifications showing how the particular product differs from two other of his products having the same end use, which are closest in ingredients value and most nearly similar in specifications and for which maximum prices are established under this regulation for purchasers belonging to the same class; also the ingredients value and seller's maximum prices for such products, and the ingredients value of the new product.

(ii) Should (i) be inapplicable inasmuch as the most nearly similar products having the same end use have extremely wide specification variations, the seller shall submit an explanation, including ingredient values and maximum selling prices, showing how the particular product differs from the two products closest in ingredients values and sold for the same end use for which maximum prices are established under this regulation for purchasers belonging to the same class.

Maximum prices which have been established on the basis of comparison with a competitor's price and which have not been reported to the Office of Price Administration may not be used for purposes of comparison in this subparagraph (4).

(5) (i) The maximum prices of the three nearest competitive sellers of the same class for the same or comparable commodity at the nearest point for which the tentative price was set;

(ii) If the seller has an established maximum price or prices at other points for the same commodity for which a tentative price is herein established, such prices for the three nearest points.

An applicant need not supply information under both subparagraphs (4) and (5) if the applicant believes that the information he submits under only one of such subparagraphs clearly justifies the tentative maximum price for which he is requesting approval. If information under both subparagraphs is needed for the purpose of establishing a maximum price, it may be required at a later date by the Office of Price Administration.

Such tentative or sale price shall be the seller's maximum price at the particular shipping point or delivery point for the particular product until the said price is disapproved in writing by the Office of Price Administration or until the seller is notified in writing that a substitute maximum price has been set by the Office of Price Administration. Either an approved tentative or sale price or a substitute maximum price set by the Office of Price Administration may be replaced by another maximum price upon written notice to the seller from the Office of Price Administration.

If a seller shall fail to report a sale as required by this section, the Office of Price Administration may at any time upon written notice to the seller establish his maximum price for the particular product at the particular point effective retroactively to a date 15 days after the making of the said sale.

SEC. 17. *Exceptions for Hawaii; greases, motor, stock and industrial oils.* A seller's maximum price for a grease or a motor, stock or industrial oil at a particular shipping or delivery point in the Territory of Hawaii shall be the sum of his maximum price at such point for such product as determined by other provisions of this regulation and the amount designated below:

Product:	*Amount*
Motor, Stock and Industrial Oils	4 cents per gallon
Greases	.5 cents per pound

SEC. 18. *On sales to Government agencies pursuant to Government bidding.* (a) Notwithstanding the other provisions of this regulation, a seller may charge for any petroleum product covered by this regulation on any sale thereof, pursuant to open and public bidding, to any governmental agency, whether state or Federal, or any state or political subdivision thereof, either:

(1) His own maximum price under the other provisions of this regulation, or

(2) The amount of the highest maximum price established under this price regulation for any person participating in the particular bidding for sale of the same product to the same buyer.

(3) No bid at any such bidding regardless of the amount thereof shall be deemed to conflict with any provision of this regulation.

Effective date. This regulation shall become effective February 19, 1944 as to the 48 states an dthe District of Columbia and April 4, 1944 as to the territories and possessions, except the Panama Canal Zone.

PART 1384—HARDWOOD LUMBER PRODUCTS

[MPR 176,[1] Amdt. 7]

SOUTHERN ROTARY CUT BOX GRADE VENEER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 176 is amended in the following respects:

1. The title of the regulation "Rotary Cut Southern Hardwood Box Lumber" is amended to read "Southern Rotary Cut Box Grade Veneer".

2. The words "rotary cut southern hardwood box lumber", "rotary cut southern hardwood lumber", "rotary cut box lumber", and "rotary cut lumber" wherever appearing in §§ 1384.1, .5, .9, .10, .12, and .13, are amended to read "southern rotary cut box grade veneer".

3. The words "rotary cut egg case lumber" are amended to read "rotary cut egg case veneer" wherever appearing in §§ 1384.12 (c) and (d).

4. In § 1384.4, *Evasion*, the second paragraph is amended to read as follows:

It is unlawful for any person to charge, receive or pay a commission for the service of procuring, buying, selling or locating box grade veneer, or for any related service (such as "expediting") which does not involve actual physical handling of box grade veneer, if the commission plus the purchase price results in a total payment by the buyer of box grade veneer which is higher than the maximum price of the box grade veneer. For the purposes of this regulation a commission is any compensation, however designated, which is paid for the procurement of box grade veneer. This prohibition has no application to the case of a bona fide employer-employee relationship where the employee serves only one employer, insofar as box grade veneer procurement is concerned, and where the compensation paid by the employer is a fixed salary and is not based directly or indirectly on the quantity, price or value of the box grade veneer in connection with which the service is rendered.

5. Section 1384.8 (a) (3) is amended to read as follows:

(3) "Southern rotary cut box grade veneer" means veneer of any species,

(i) Cut on a rotary cutting machine (lathe);

(ii) Cut at a mill located in Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Louisiana, Texas, Oklahoma, Arkansas, Missouri, Tennessee, or Kentucky;

(iii) Conforming to the grading rules set forth in § 1384.13, Appendix B, hereof, except that cut backs and cut downs in excess of the proportion set forth in paragraph (e) (1) of § 1384.13, Appendix B, shall be considered southern rotary cut box grade veneer; and

(iv) Which either has or has not been cut into box-part finished sizes by means of a saw or comparable cutting device.

This amendment shall become effective February 19, 1944.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter I—Coast Guard, Department of the Navy

PART 6—SECURITY OF PORTS AND THE CONTROL OF VESSELS IN THE NAVIGABLE WATERS OF THE UNITED STATES

SUBPART E—SECURITY REGULATIONS FOR VESSELS IN PORT

Pursuant to the authority contained in section 1, Title II of the Espionage Act approved June 15, 1917, 40 Stat. 220, as amended by the act of November 15, 1941, 55 Stat. 763 (50 U.S.C. 191, 191a), and by virtue of the Proclamation and Executive order issued June 27, 1940 (5 F.R. 2419), and November 1, 1941 (6 F.R. 5581), respectively, the regulations relating to the control of vessels in the navigable waters of the United States are hereby amended as follows:

§ 6.355 *Readiness of engines.* • • •

(a) Whenever a vessel moored to a waterfront facility is without power to operate its fire pumps, suitable measures shall be taken to place hose lines aboard for fire-fighting purposes sufficient to bring hose streams to bear on any part of the vessel where fire may occur. Such measures shall consist either of bringing separate hose lines aboard supplied from an adequate shore water supply if available on the waterfront facility to which the vessel is moored, or of connecting the vessel's fire system with such shore water supply. Whenever the vessel's fire system is to be connected with a shore drinking water supply and back flow prevention devices, approved by local health officers, are not installed on the supply outlet, the hose lines shall be led aboard and the necessary adapters and fittings provided, but no actual physical connection between the vessel's fire system and such water supply shall be made for fire-fighting purposes until an alarm is sounded; in such cases, a man on watch shall be definitely assigned to complete all connections, to open any necessary valves upon the sounding of the alarm, and to break such connections as soon as the necessity therefor has ended.

• • • • • •

§ 6.395 *Inspection.* • • •

(a) *Inspection of dock on arrival.* Upon arrival at the dock the master shall designate officers to inspect its facilities for furnishing fire-fighting assistance, fresh water, steam, electricity and floodlighting. Inquiry shall be made of the terminal superintendent with regard to the immediate and continuous availability of fire apparatus, guard and pass service and the location of fire alarm boxes and telephones. All of this information shall be given to the master and deck officer on duty.

PART 8A—TESTIMONY OF EMPLOYEES AND USE OF BOOKS, RECORDS AND FILES IN JUDICIAL AND ADMINISTRATIVE PROCEEDINGS

Pursuant to section 161 of the Revised Statutes (5 U.S.C. sec. 22), and the act of August 24, 1912 (37 Stat. 497, ch. 370; 5 U.S.C. secs. 488, 489), the following regulations are hereby prescribed:

Sec.
2a.1 Applicability.
2a.2 Employee's testimony subject to bureau head's permission.
2a.3 Prejudicial character of evidence determined by Secretary.
2a.4 Method of refusal to furnish records.
2a.5 Method of claiming privilege.

AUTHORITY: §§ 2a.1 to 2a.5, inclusive, issued under sec. 161 of Rev. Stat. (5 U.S.C. sec. 22), and act of Aug. 24, 1912 (37 Stat. 497, ch. 370; 5 U.S.C. secs. 488, 489)

§ 2a.1 *Applicability.* The regulations in this part shall govern the testimony of employees and the use of books, records, and files of the Department in judicial and administrative proceedings.

§ 2a.2 *Employee's testimony subject to bureau head's permission.* Employees of the Department shall not testify in any judicial or administrative proceeding concerning matters related to the business of the Government, or furnish books, records or files of the Department or copies thereof for use in such a proceeding, voluntarily or in response to process, without the written advance permission of the head of the bureau or office concerned. Where time does not permit an employee to obtain written advance permission from the head of the bureau or office concerned and all possible effort to postpone the time fixed for the taking of his testimony has been made without success, the employee may appear, but shall claim a privilege, respectfully refuse to answer questions until the matter can be referred to the head of the bureau or office involved and, if permission to answer be withheld, to the Secretary or Acting Secretary, and exhibit a copy of these regulations in justification of such refusal. A departmental attorney may accompany the employee called upon to testify where permission has been denied or where permission has been granted and the bureau chief deems it desirable.

§ 2a.3 *Prejudicial character of evidence determined by Secretary.* Any employee, whose testimony is sought or from whom departmental books, records or files or copies of them are sought to be obtained for use in any proceeding, shall request the written advance permission of the head of the bureau or office concerned to appear and testify or furnish books, records or files or copies of them and as a part of such request shall disclose in so far as possible the nature of the evidence sought. If the head of the bureau or office concerned deems the disclosure of the evidence sought to be prejudicial to the interests of the Government, he shall refer the matter to the Secretary or Acting Secretary, who shall make a written determination that the disclosure of the evidence sought is or is not prejudicial to the interests of the Government and, consistent with such determination, the head of the bureau or office involved shall withhold or give his permission to the employee.

§ 2a.4 *Method of refusal to furnish records.* Any employee from whom departmental books, records or files, the disclosure of which has been determined to be prejudicial to the interests of the Government, are sought to be obtained shall respectfully refuse to furnish them or copies of them and exhibit a copy of these regulations and such determination in justification of such refusal.

§ 2a.5 *Method of claiming privilege.* Any employee appearing as a witness from whom evidence, the disclosure of which has been determined to be prejudicial to the interests of the Government, is sought to be obtained shall claim a privilege, respectfully refuse to answer and exhibit a copy of these regulations and such determination in justification of such refusal. In the event of unanticipated efforts to obtain evidence on which no prior determination has been had, the disclosure of which would, in the judgment of the employee involved or the departmental attorney accompanying him, be prejudicial to the interests of the Government, the employee shall claim a privilege, respectfully refuse to answer until the matter can be referred to the head of the bureau or office involved and, if permission to answer be withheld, to the Secretary or Acting Secretary, and exhibit a copy of these regulations in justification of such refusal.

Revocation and amendments. (a) Departmental Order No. 1610, dated September 16, 1941, is hereby revoked. (b) Section 2.1 of Part 2 of this subtitle is hereby amended by striking out "The" at the beginning of the section and substituting "Except as provided in Part 2a of this subtitle, the."

Applicant seeks a certificate of public convenience and necessity to authorize the construction and operation of such facilities.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 28th day of February 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's provisional rules of practice and regulation under the Natural Gas Act.

[Region II Rev. Order G-17 Under RMPR 122]

PENNSYLVANIA ANTHRACITE IN MERCER CO., N. J.

Revised Order No. G-17 under § 1340.-200 of Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Pennsylvania anthracite delivered by dealers in Mercer County, State of New Jersey; Coal Area VIII.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is ordered:

(a) *What this order does—(1) Dealers' maximum prices; area covered.* If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and quantities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in State of New Jersey, Coal Area VIII. Coal Area VIII comprises all of Mercer County in the State of New Jersey.

(2) *Schedules of prices, charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within Coal Area VIII, are set forth in Schedules I, II and III hereafter.

(3) *To what sales this order applies.* If you are a dealer in anthracite, you are bound by the prices, charges and discounts, and by all other provisions of this order for all deliveries within Coal Area VIII, whether or not you are located in Coal Area VIII.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not:

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by:

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by this order, or

(iv) Charging a price for any service set forth in Schedule I higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) Use the schedule which covers your sale. (Schedule I applies to "direct-delivery" sales of anthracite. You will find Schedule I in paragraph (d). Schedule II applies to "yard sales". You will find Schedule II in paragraph (e). Schedule III applies to sales of bagged coal in 50 lb., 25 lb. and 12 lb. paper bags. You will find Schedule III in paragraph (f).)

(2) Take the dollars-and-cents figure given in the applicable schedule for the size and quantity you are selling.

(3) Deduct from this figure the amount of the discount which you are required to give as specified in the schedule. If the schedule makes no reference to any discount, you need give no discount. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for sales under Schedule I.

(5) If you deliver a fraction of a net ton, even if less than one-half ton, and the applicable schedule provides a discount on the basis of one ton or one-half ton, you shall allow a proportionate discount, making your calculation to the nearest full cent. For example, if you are required to deduct $1.00 per ton for cash payment, you shall deduct 75¢ for three quarters of a ton and 25¢ for one-quarter of a ton.

(6) If you deliver a fraction of a net ton, but not less than one-half ton, and the applicable schedule provides a service charge on the basis of one ton, you shall add no more than a proportionate service charge, making your calculation to the nearest full cent. For example, if the transaction permits a service charge of 50¢ per ton, you shall not add more than 38¢ for performance of that service in connection with the delivery of three-quarters of a ton.

(d) *Schedule I: Sales on a "direct-delivery" basis.* Schedule I establishes maximum prices for certain sizes of anthracite in certain specific quantities, delivered to or at any point within Coal Area VIII.

For rice-sized anthracite delivered in the Borough and Township of Princeton, the discounts shall be 65¢ per net ton and 30¢ per net ½ ton, where payment is made within ten days after delivery. You shall not break up a single order in an attempt to avoid this discount. You must grant this discount whether the purchaser has received 50 tons or more pursuant to a single purchase order, or several purchase orders, and whether there was delivery at one time or at intervals of time, the sole basis of the discount being the annual purchase of 50 tons or more for delivery at one point. (g) *Commingling.* If one size of anthracite is sold commingled with another size of anthracite, the maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, whether the sale be a "delivered sale", "yard sale", or a "sale of bagged coal", except in the following situation: Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, and in that event, if those sizes are separately weighed at the point of loading, or when bagged, the dealer may commingle those sizes in the truck or other vehicle or in the bags, in which the delivery is made. The prices for coal so commingled shall be calculated on the basis of the applicable per net ton price or, in the case of bagged coal, on the basis of the applicable bagged price, for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(h) *Ex Parte 148; freight rate increase.* Since the Ex Parte 148 freight rate increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any schedule price on account of freight rates.

(i) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(j) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, you need not state this tax separately.

(k) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(l) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(m) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(n) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(o) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(p) *Posting of maximum prices; sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, and the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(q) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Trenton District Office of the Office of Price Administration or with the Price Panel of the appropriate War Price and Rationing Board.

(r) *Definitions and explanations.* When used in this Order No. G-17, the terms:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political sub-divisions, or any agency of any of the foregoing.

(2) "Sell" includes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase" and "purchaser" shall be construed accordingly.

Order No. G-5 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Maximum prices for specified solid fuels in the municipalities of Akron, Barberton, Cuyahoga Falls, Mogadore, and Tallmadge, in the State of Ohio.

For the reasons stated in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region III of the Office of Price Administration by § 1340.260 of Revised Maximum Price Regulation No. 122, it is hereby ordered:

(a) *What this order does.* This order establishes maximum prices for sales of specified solid fuels made within the corporate limits of Akron, Barberton, Cuyahoga Falls, Mogadore, and Tallmadge, Ohio. These are the highest prices that any dealer may charge when he delivers such fuel at or to a point in such area; they are also the highest prices that any buyer in the course of trade or business may pay for them.

(b) *What this order prohibits.* Regardless of any obligation, no person shall:

(1) Sell or, in the course of trade or business, buy solid fuels at prices higher than the maximum prices set by this order No. G-5; but less than maximum prices may at any time be charged, paid or offered:

(2) Obtain a higher than ceiling price by:

(i) Charging a higher price than the scheduled price for a service or making a charge for a service not authorized by this order,

(ii) Making a charge higher than the scheduled charge authorized for the extension of credit,

(iii) Using any other device by which a higher than maximum price is obtained, directly or indirectly,

(iv) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with any requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(c) *Schedule for sales of coal—(1) Price schedules.* This schedule sets forth maximum prices for sales of specified sizes, kinds and quantities of solid fuels. Column I describes the coal for which prices are established; Column II shows maximum gross prices for sales on a "direct delivery" basis (subject to discount for payment within 30 days as set forth below); Column III shows maximum cash or credit prices for all "yard sales" to unequipped dealers and to consumers. (3) *Descriptive terms.* All terms used herein to describe size, volatility and producing district are those established and defined by the Bituminous Coal Division and in effect as of midnight, August 23, 1943.

(d) The maximum prices for all sales by dealers of solid fuel not provided for by this Order No. G-5 shall be the maximum prices established by Revised Maximum Price Regulation No. 122.

(e) *Schedule of service charges.* The maximum price for any service rendered by a dealer in connection with a sale or

handling of solid fuel shall be the highest price charged by the dealer during December 1941 for the same service. If, during December 1941, the dealer rendered any service without charge, he shall continue to do so. Although a dealer may have, during December 1941, rendered other services than those here enumerated, dealers customarily render these services subject to this regulation: carry, wheel, trimming and storing in the bin, bagging, shovel and dust treatment of coal.

(f) *The transportation tax.* The transportation tax imposed by section 620 of the Revenue Act of 1942 may be collected in addition to the maximum prices set by this order, provided the dealer states it separately from the price on his invoice or statement.

(g) *Addition of increase in suppliers prices prohibited.* The maximum prices set by this order may not be increased by a dealer to reflect increases in purchase costs or in supplier's maximum prices occurring after the effective date hereon; but increases in the maximum prices set hereby to reflect such increases are within the discretion of the Regional Administrator.

(h) *Petitions for amendment.* Any person seeking an amendment of any provision of this order may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 except that the petition shall be filed with the Regional Administrator and acted upon by him.

(j) *Right of amendment or revocation.* The Regional Administrator or Price Administrator may amend, revoke, or rescind this order, or any provision thereof, at any time.

(k) *Records.* Every person making a sale of solid fuel for which a maximum price is set by this order shall keep a record thereof showing the date, the name and address of the buyer, if known, the per net ton price charged and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also separately state each service rendered and the charge made for it.

(l) *Posting of maximum prices; sales slips.* (1) Each dealer subject to this order shall post all the maximum prices set by it for all his types of sales. He shall post his prices in his place of business in a manner plainly visible to and understandable by the purchasing public. He shall also keep a copy of this order available for examination by any person inquiring as to his prices for solid fuel. No report of the maximum prices established by this order need be made by any dealer under § 1340.262 (c) of Regulation No. 122.

(2) Every dealer selling solid fuel for sales of which a maximum price is set by this order shall, within thirty days after the date of delivery of the fuel, give to the buyer a statement showing: the date of the sale, the name and address of the dealer and of the buyer, the kind, size, and quantity of the solid fuel sold, the price charged and separately stating any item which is required to be separately stated by this order.

(m) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violations of this order are urged to communicate with Cleveland District Office of the Office of Price Administration.

(5) "Yard sales" shall mean deliveries made by the dealer in his customary manner at his yard or at any place other than his truck.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 11th day of February 1944.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and its subsidiary, Hagerstown Gas Company ("Hagerstown").

All interested persons are referred to said documents which are on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Hagerstown proposes to sell to Harrison & Co. (or its nominee), of Philadelphia, Pennsylvania, all of its properties and other assets (with certain stated exceptions) used in the manufacture and distribution of manufactured gas in the City of Hagerstown and environs, in Maryland, for $140,000 in cash and the assumption by Harrison & Co. (or its nominee) of all the outstanding obligations of Hagerstown (with certain stated exceptions), including the first mortgage bonds of that company, due August 1, 1962, and presently outstanding in the principal amount of $266,000.

In connection with the sale by Hagerstown of its assets, Consolidated proposes to sell to said Harrison & Co. (or its nominee) the $30,000 principal amount of first mortgage bonds of Hagerstown owned by Consolidated for $30,000 in cash.

The applicants (or declarants) state that the outstanding stock of Hagerstown, all owned by Consolidated, and the $30,000 principal amount of first mortgage bonds of Hagerstown owned by Consolidated are pledged under the indenture of Consolidated securing Consolidated's Collateral Trust Bonds. It is proposed that upon the consummation of the sales above mentioned, Hagerstown shall be liquidated and dissolved, that the proceeds of the sale of the assets of Hagerstown, together with all other cash of that company, shall be delivered to Consolidated in such liquidation, that the sum so received by Consolidated, together with the $30,000 in cash to be received by it in the sale of the bonds of Hagerstown in like principal amount, shall be deposited by Consolidated with the trustee under the indenture above mentioned, or be retained by Consolidated in reimbursement of its own treasury, if prior to receipt of such funds, it shall have deposited a like amount of cash with such trustee in lieu of such proceeds. It is further proposed that the moneys so to be delivered to said trustee, or an equivalent amount, shall be expended in the retirement of bonds issued by Consolidated and outstanding under said indenture by purchase thereof in the open market.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said applications or declarations (or both) shall not be granted or permitted to become effective except pursuant to further order of this Commission.

It is ordered, That a hearing on said matters under the applicable provisions of said act and rules of the Commission thereunder be held on February 18, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room in which the hearing will be held.

It is further ordered, That the Secretary of the Commission shall serve notice of the aforesaid hearing by mailing copies of this order by registered mail to Consolidated Electric and Gas Company and the Hagerstown Gas Company; and that notice of said hearing be given to all persons by publication of this order in the FEDERAL REGISTER. Any persons desiring to be heard in connection with these proceedings, or proposing to intervene herein shall file with the Secretary of the Commission on or before February 16, 1944, his request or application therefor, as provided by Rule XVII of the rules of practice of the Commission.

The officer so designated is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said applications and declarations (or both), particular attention will be directed at the hearing to the following matters and questions:

(1) Whether the consideration to be received for the assets of Hagerstown is reasonable;

(2) Whether the proposed use of the proceeds of the sale of said assets in the acquisition of Consolidated's collateral trust bonds on the open market is in conformity with the applicable provisions of the act;

(3) Generally, whether in any respect, the proposed transactions are detrimental to the public interest or to the interest of investors or consumers or will tend to circumvent any provisions of the act or the rules and regulations promulgated thereunder;

(4) Whether, if the proposed transactions are authorized, the imposition of terms and conditions is necessary and appropriate in the public interest or for the protection of investors and consumers and, if so, what terms and conditions should be imposed.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 11th day of February 1944.

Notice is hereby given that declarations or applications (or both) have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Consolidated Electric and Gas Company ("Consolidated"), a registered holding company, and its subsidiary, Athens and Sayre Gas Company ("Athens and Sayre").

All interested persons are referred to said declarations or applications (or both), which are on file in the office of the Commission, for a statement of the transactions therein proposed, which may be summarized as follows:

Athens and Sayre proposes to sell to H. Emerson Thomas and Mark Anton (or their nominee) of Westfield, New Jersey, and New York City, respectively, all of its properties and assets used in the manufacture and distribution of manufactured gas in the Boroughs of Athens and Sayre and their immediate environs, in Pennsylvania, for a basic sales price of $132,255, subject to certain adjustments to the date of sale, and the assumption by the purchaser of all outstanding contracts, obligations, and liabilities of Athens and Sayre, except obligations owed to Consolidated and any liability for Federal income taxes for prior years.

It is stated by the applicants (or declarants) that all the outstanding securities of Athens and Sayre are owned by its parent, Consolidated, except six shares of 6% non-cumulative preferred stock of the par value of $100 per share which are publicly held and $68,000 principal amount of demand notes which are held by an affiliated company, The Gas Light Company of Waverly, and that all the securities of Athens and Sayre owned by Consolidated are pledged under an indenture securing certain bonds heretofore assumed by Consolidated and known as Federated Utilities, Inc., First Lien Collateral Trust 5½% Gold Bonds, due March 1, 1957. In accordance with the contract for the sale of the assets of Athens and Sayre which provides for the transfer of said assets free of the lien of the indenture securing the bonds of Athens and Sayre, outstanding in the principal amount of $100,000 and all owned by Consolidated, Consolidated proposes to surrender said bonds to Athens and Sayre for cancellation, as a capital contribution, prior to the sale of the assets of the latter company. It is further proposed that upon the consummation of said sale, Consolidated shall surrender to Athens and Sayre the remaining debt securities of the latter company held by Consolidated, as a further capital contribution, and that Athens and Sayre shall then be liquidated and dissolved, the proceeds of the proposed sale to be received by Consolidated in such liquidation to be deposited by it with the trustee under the indenture securing the assumed Federated Utilities, Inc., bonds above mentioned, or retained by Consolidated to reimburse its own treasury if Consolidated, prior to receipt of such proceeds, shall have deposited a like amount of money with said trustee in lieu of such proceeds. It is further proposed that the moneys so to be deposited, or an equivalent amount, shall be expended in the retirement of said assumed bonds by purchases thereof in the open market.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matters and that said applications or declarations (or both) shall not be granted or permitted to become effective except pursuant to further order of this Commission.

It is ordered, That a hearing on said matters under the applicable provisions of said act and rules of the Commission thereunder be held on February 18, 1944, at 2:00 p. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it for that purpose shall preside at such hearing. Coughlin, W. T. Crawford and Rawleigh Warner, voting trustees under Voting Trust Agreement dated August 1, 1932, relating to common stock of Central Public Utility Corporation, respondents, File No. 59-49.

Consolidated Electric and Gas Company, a registered holding company, having filed an application, pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935, for approval of a plan for certain action designed to enable that company and certain of its subsidiary companies to comply with the provisions of section 11 (b) of said act; the Commission having by order dated July 19, 1943, consolidated the proceedings upon said application (1) with certain proceedings theretofore instituted by the Commission pursuant to section 11 (b) of said act with respect to said Consolidated Electric and Gas Company and Central Public Utility Corporation, also a registered holding company, (2) with certain other proceedings instituted by the Commission pursuant to said section 11 (b) with respect to Christopher H. Coughlin, W. T. Crawford, and Rawleigh Warner, Voting Trustees under a certain voting trust agreement dated August 1, 1932, relating to common stock of said Central Public Utility Corporation (said Trustees also being a registered holding company), (3) with proceedings upon an earlier application of said Consolidated Electric and Gas Company for approval of certain other action also designed to enable said Consolidated Electric and Gas Company to comply with said section 11 (b), and (4) with proceedings upon an application and declaration by said Trustees, above named, regarding the disposition of the common stock of Central Public Utility Corporation held by said Trustees and the Commission having by said order of July 19, 1943, set down said consolidated proceedings for hearing at the offices of the Commission in Philadelphia, Pennsylvania, at 10:00 a. m., e. w. t., on August 4, 1943; and said hearing having been postponed by subsequent orders of the Commission until February 15, 1944; and

Consolidated Electric and Gas Company having requested that the hearing so directed to be held in said consolidated proceedings be further postponed for a period of not less than sixty days, stating in such request, among other things, that the company, since June 23, 1943, the date of the filing of its application for approval of the plan hereinabove first mentioned, has disposed of its interests in, or the assets of, twelve of its subsidiary companies, that declarations regarding the sale of the assets of two additional subsidiaries are pending before this Commission; that negotiations looking toward the sale of several additional subsidiaries are in progress; that this Commission has recently authorized the sale by Consolidated Electric and Gas Company of all the common stock of Central Illinois Electric and Gas Co., one of the principal subsidiaries of the system, to the public through competitive bidding, but that

such sale cannot be consummated nor the price to be received for such common stock determined until after the date presently set for the hearing herein; that consummation of the transactions now pending will require substantially the full time and attention of the holding company management and, while simplifying problems of system compliance with said section 11 (b), will require material revision of the plan for such compliance heretofore submitted to this Commission; and that the financial statements reflecting the changes in the Consolidated system resulting from the above-mentioned transactions will not be available until after the date presently set for the hearing herein; and

The Commission deeming it appropriate under the circumstances that the hearing directed to be held herein on February 15, 1944, be further postponed;

It is ordered, That the hearing in this matter previously scheduled for February 15, 1944, at 10:00 a. m., e. w. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, be and hereby is postponed to April 18, 1944, at the same hour and place and before the same trial examiner as heretofore designated.

In the matters of American Utilities Service Corporation, File No. 54-57, and American Utilities Service Corporation and its subsidiary companies, respondents, File No. 59-57, Fred D. Ellis and Edmund J. Haugh, File No. 70-860.

Notice is hereby given that on February 10, 1944, Fred D. Ellis and Edmund J. Haugh filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935, and particularly sections 9 (a) (2) and 10 thereof. All interested persons are referred to said document which is on file in the office of this Commission for the statement of transactions therein proposed which are summarized as follows:

The applicants propose to purchase from American Utilities Service Corporation, a registered holding company, all (95,000 shares, par value $5 per share) of the issued and outstanding common stock of Northwestern Illinois Utilities, an electric and gas utility company and a subsidiary company of American Utilities Service Corporation, together with the unsecured 6% promissory note of Northwestern Illinois Utilities dated November 1, 1938, and due November 1, 1964, in the principal amount of $375,000 for a cash consideration of $840,000 with interest at the rate of 6% from January 1, 1944, to closing date.

It appearing to the Commission that said applicants are already affiliates of one or more public utility or holding companies and will by virtue of the proposed acquisition become affiliates of Northwestern Illinois Utilities; and

It further appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said application and that said application shall not be granted except pursuant to further order of the Commission; and

It further appearing to the Commission that on January 17, 1944, the said American Utilities Service Corporation filed an application with this Commission proposing to sell to Fred D. Ellis and Edmund J. Haugh all of the issued and outstanding common stock of Northwestern Illinois Utilities together with its unsecured note in the amount of $375,000 for the aggregate purchase price of approximately $840,000 in cash; and

It further appearing to the Commission that under date of January 26, 1944, the Commission gave notice of the filing of said application of said American Utilities Service Corporation and ordered that a hearing be held thereon on February 15, 1944, at 10:00 a. m., e. w. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania; and

It further appearing to the Commission that the proceedings upon the said applications of said Fred D. Ellis and Edmund J. Haugh and American Utilities Service Corporation involve common questions of law and fact; that evidence offered in respect to each of said matters will have a bearing on the other matter; and that substantial savings in time, effort and expense will result if the hearings on these matters are consolidated so that they may be heard as one matter, and so that the evidence adduced in each matter may stand as evidence in the other for all purposes;

It is ordered, That the proceedings upon the said applications of Fred D. Ellis and Edmund J. Haugh and of American Utilities Service Corporation be and they are hereby consolidated for the purpose of hearing and that the said consolidated hearing be held on February 15, 1944, at 10:00 a. m., e. w. t., in the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On the day hereinabove indicated for such consolidated hearing, the hearing room clerk in Room 318 will advise where such hearing will be held.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at such consolidated hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That at said hearing without limiting the scope of the issues presented by said applications, particular attention shall be directed to the issues specified in the notice of filing and order for hearing under date of January 26, 1944, in regard to the application of American Utilities Service Corporation, and to the following additional matters and questions:

1. The amount of interest to be acquired by each of the applicants in the securities of Northwestern Illinois Utilities and whether the interests to be acquired are to be held by the purchasers as individuals, or whether any partnership, syndicate or similar agreement exists or is contemplated.

2. Whether or not the acquisition of the proposed securities by these purchasers will serve the public interest by tending toward the economical and efficient development of an integrated public utility system, and whether such acquisition will tend toward interlocking relations or concentration of control of public utility companies of a kind or to an extent detrimental to the public interest or the interest of investors or consumers.

3. Whether it is necessary or appropriate to impose terms or conditions in the public interest or for the protection of investors and consumers.

4. Generally, whether the proposed transactions meet the standards of the appropriate provisions of the Public Utility Holding Company Act of 1935 and rules and regulations promulgated thereunder.

It is further ordered, That the Secretary of this Commission shall serve notice of the hearing aforesaid by mailing a copy of this order to American Utilities Service Corporation and to Fred D. Ellis and Edmund J. Haugh by registered mail; and that notice of said hearing be given to all other persons by publication of a copy of this order in the FEDERAL REGISTER.

The decision by a majority of the Committee shall be final unless further appeal is taken in accordance with § 906.3 (a) of this regulation. Members of the Committee may file majority and minority reports. In the event of a tie vote, the case, including the complete record thereon, shall be transmitted promptly to the Regional Management-Labor War Manpower Committee for review and decision in accordance with § 906.3 (b) and (c) of this regulation.

(2) An Area Management-Labor War Manpower Committee may take jurisdiction of, hear and render a decision, which shall supersede any decision rendered by an Area Appeals Committee, on any case assigned by that Committee to an Area Appeals Committee, at any time after the assignment of the case to an Area Appeals Committee and prior to the expiration of the period for further appeal or the filing of a further appeal to the Regional Management-Labor War Manpower Committee.

(c) *Intermediate appeals stage between area and regional levels.* A Regional Manpower Director, with the specific approval of the Chairman, may, with respect to an area presenting special problems and for which a duly constituted Management-Labor War Manpower Committee is functioning, provide for an intermediate review stage between the area appeals stage and the regional level. The review of appeals at such an intermediate review stage shall be subject, in all respects, to the procedures and requirements set forth in this regulation with respect to review of appeals at the regional level.

§ 906.3 *Second appeals stage; regional level.*—(a) *Who may appeal to regional level.* Any person who (1) has a right to appeal as provided in § 906.1 of this regulation and (2) has attended the hearing at the area appeal level in person or by a representative, or shows good cause for his failure to attend such hearing, may appeal to the regional level within the time prescribed for taking such appeal. Within the same time, the Area Manpower Director, upon his own initiative, may transmit any case for review at the regional level, after decision at the area level.

(b) *To whom appeals taken.* Further appeal from decisions at the area appeals level shall be taken to the appropriate Regional Management-Labor War Manpower Committee which may at the discretion of that Committee, act through a Regional Appeals Committee composed of an equal number of representatives of management and labor (including agricultural representation, as provided in § 906.6 (h)), selected by the Regional Manpower Director from a panel chosen by the Regional Management-Labor War Manpower Committee. The Regional Manpower Director, or his designated representative, shall serve as the non-voting chairman of the Regional Management-Labor War Manpower Committee in appeals cases and of Regional Appeals Committees.

(c) *Decision at second appeals stage.* (1) The Regional Committee shall render a decision on the basis of the record in the case unless, in its judgment a further hearing is necessary to enable the Committee to reach a fair and just decision. If the Committee determines that further hearing is necessary, the Committee may either conduct such hearing itself, or remand the case to the area level for such further hearing. The decision by a majority of the Committee shall be final unless further appeal is taken in accordance with § 906.4 (a). Members of the Committee may file majority and minority reports. In the event of a tie vote on a case in which a decision has been rendered at the area appeals level, the decision at that level shall be final unless further appeal is taken. In the event of a tie vote at both the area and regional appeals levels, the case, including the complete record thereon, shall be transmitted promptly to the Chairman of the War Manpower Commission for decision in accordance with § 906.4 of this regulation.

(2) A Regional Management-Labor War Manpower Committee may take jurisdiction of, hear and render a decision, which shall supersede any decision rendered by a Regional Appeals Committee, on any case assigned by that Committee to a Regional Appeals Committee, at any time after assignment of the case to a Regional Appeals Committee and prior to the expiration of the period for further appeal or the filing of a further appeal to the Chairman of the War Manpower Commission.

§ 906.4 *Appeal to the Chairman of the War Manpower Commission—(a) Who may appeal.* Any person entitled to appeal from a decision at the area appeals level may appeal from a decision at the regional level to the Chairman of the War Manpower Commission, within the time prescribed for taking such appeal. Within the same time, the Regional Manpower Director, upon his own initiative, may transmit any case to the Chairman of the War Manpower Commission for review, after decision at the regional level.

(b) *Taking of jurisdiction by Chairman.* The Chairman of the War Manpower Commission may, in his discretion, take jurisdiction of any appeals case at any stage of the appeals process and render a final decision on that appeal.

(c) *Final decision by the Chairman.* The decision of the Chairman of the War Manpower Commission made after consideration of the record in the case and recommendations submitted by the National Management-Labor Policy Committee, shall be final in all cases.

§ 906.5 *Effect of appeal on action appealed from or on further action in accordance with decision appealed from—* (a) *Effect of appeal.* Whenever in the first instance or pursuant to a decision on appeal, the War Manpower Commission or any agent or agency acting on its behalf or with its consent, issues a statement of availability to or makes a referral of any worker, neither the appeal of the employer nor any decision on such appeal (other than a final decision finding fraud or misrepresentation on the part of the worker) shall in any way prejudice the right of the worker to whom the statement or referral had been issued to accept new work on the basis thereof, or the right of an employer to retain a worker whom he has hired in reliance upon such statement or referral. In all other cases the taking of an appeal shall suspend the action appealed from pending final decision, unless the Chairman of the Committee to whom an appeal is taken specifically directs otherwise.

(b) *Immediate issuance of statements of availability or making of referrals.* Except as otherwise provided pursuant to paragraph (c) of this section, an individual found to be entitled to a statement of availability or a referral pursuant to a determination of the War Manpower Commission or any agent or agency acting on its behalf or with its consent, or pursuant to any appeal decision, shall be entitled to immediate issuance of such statement or referral notwithstanding any appeal or further appeal from such determination or decision.

(c) *Optional procedure with respect to issuance of statements of availability and making of referrals—*(1) *Method of exercising option.* Any Area Manpower Director, after consultation with his Area Management-Labor War Manpower Committee, may elect to make applicable in his area the procedure described in this subsection with respect to issuance of statements of availability to and making referrals of workers. Such election shall be evidenced by an order issued by the Area Manpower Director, and approved by the Regional Manpower Director, a copy of which order shall be filed with the Chairman prior to the effective date thereof. Such election shall be effective until revoked by further order of the Area Manpower Director, approved and filed in the same manner. Any such election shall have general application in the area, and may not be made with respect to particular cases only.

(2) *Procedure governing suspension of issuance of statements of availability and making of referrals.* (i) In and only in any case in which it is determined by the War Manpower Commission, or any agent or agency acting on its behalf or with its consent, that a statement of availability should be issued to a worker on the ground that continuance of his employment would involve undue personal hardship or that referral of the worker should be made to other available employment in which the individual will be more fully utilized in the war effort, the issuance of such statement of availability or the making of such referral shall be suspended for a period, designated by the Area Director, which shall not be more than three days from the date of notification to the employer of the determination to issue the statement of availability or make the referral.

(ii) The employer shall be immediately notified of the determination to issue the statement of availability or make the referral. If the employer does not file his appeal, in writing, within the period designated by the Area Director pursuant to subdivision (i) hereof, the statement of availability or referral shall be issued in accordance with such determination without prejudice however, to the employer's right to appeal therefrom on the merits as provided in this regulation. If the employer files his appeal in writing within such period, the issuance of the statement of availability or referral shall be suspended for a further period, designated by the Area Director, which shall not be more than ten days from the date of notification to the employer of the determination to issue the statement of availability or make the referral. If within such designated further period, the case has not been decided at the area level, the statement of availability or referral shall be issued immediately upon the expiration of such period. Except as permitted in this paragraph, no suspension of the issuance of a statement of availability or referral shall be directed or authorized.

(iii) If the employer, upon notification of a determination to issue the statement of availability or make the referral, indicates that he does not intend to appeal, the statement of availability shall be issued or the referral shall be made immediately; if the employer indicates his intention to appeal but does not perfect his appeal, in writing, within the period designated by the Area Director pursuant to subdivision (i) hereof, the statement of availability shall be issued or the referral made immediately upon the expiration of such period.

(iv) An Area Director may withhold the application of the procedure set forth in this paragraph for suspending the issuance of statements of availability and referrals as regards an employer whom the War Manpower Commission finds, after notice, hearing and final decision, to be arbitrarily and capriciously abusing his right of appeal under this paragraph and for so long as such employer fails to satisfy the Area Director that such abuse will be corrected.

§ 906.6 *General provisions—*(a) *Notification of action or decision and right to appeal.* Any worker or employer who has a right to appeal from any action or decision shall be notified of such action or decision, and shall be advised at the time of notification of his appeal rights and of the method of taking an appeal, except that this paragraph shall be construed to permit reasonable posting or publication of notices in cases in which personal notice is deemed impracticable.

(b) *Time for taking appeals.* Appeals to the area and regional levels shall be taken within the time prescribed by the Regional Manpower Director, which shall be not less than three and not more than seven days following receipt of notice or posting or publication of notice, as the case may be, of the action or decision. Appeals to the Chairman of the War Manpower Commission shall be taken within seven days following receipt of notice or posting or publication of notice, as the case may be, of the decision. When notice of the action or decision is given by mail, such notice shall be deemed to have been received on the second day following the date of mailing, and an appeal shall be deemed to have been taken on the date of mailing of a notice that appeal is taken.

(c) *Method of taking appeal.* Any person entitled to appeal as provided in § 906.1 of this regulation may give notice of his appeal in person, in writing, or in any other manner which duly apprises the War Manpower Commission of the taking of the appeal.

(d) *Notice of hearings and further appeal.* The appellant and any other person who following the decision to be made on appeal would be entitled to appeal, shall be given reasonable notice of the time and place of any hearing upon the appeal, and shall be promptly advised of any further appeal.

(e) *Appearance by interested persons.* Any worker or employer, group or organization of workers or employers, and other persons or organizations who claim to be prejudiced by any action which is the subject of an appeal under this regulation may be permitted by the Chairman of the Committee hearing an appeal from such action to attend and be heard at the hearing.

(f) *Right to representation.* Any action which any person or organization may take under this regulation may be taken on his behalf by his duly authorized representative.

(g) *Consolidation of appeals.* Whenever appropriate for the full and expeditious determination of common questions raised by two or more appeals, the Chairman of the Committee to whom such appeals are taken may consolidate them.

(h) *Agricultural management and labor representation.* Whenever agricultural employment is involved in an appeal, the Committee before whom such appeal is pending shall include representatives of agricultural management and labor.

(i) *Conduct of hearings on appeal.* All hearings on appeals shall be conducted informally and in a manner that will best develop the facts, and assure a fair and just decision in the matter, without regard to whether a worker or employer has erred as to the issues involved or as to his grounds for relief.

(j) *Decisions based on evidence presented at a hearing.* A decision of an appeal made on the record as provided in §§ 906.3 (c) and 906.4 (c) of this regulation shall be made exclusively upon evidence presented at a hearing before a lower appeals committee, but written or oral evidence which is submitted subsequent to a hearing in an appeals case may be considered by the appeals committee which afforded the hearing or on any subsequent appeal, if all the parties agree in writing to the consideration of such evidence, or if such evidence is presented in the course of a subsequent hearing which all parties have been afforded an opportunity to attend, or if such evidence has been requested by the Committee before which the appeal is pending.

(k) *Impartial appeals committee.* Any person directly interested in the outcome of an appeal shall be disqualified from acting as a member of any appeals committee considering the appeal.

(l) *Committee attendance required for consideration of appeals cases.* On the hearing of appeals by Regional or Area Management-Labor Committees or by Regional or Area Appeals Committees, an equal number of representatives of management and labor, respectively, shall be present and participate as voting members of the committee.

(m) *Interim appeals committees.* At any appeals level for which a Management-Labor War Manpower Committee has not been appointed, appeals shall be taken to, and hearings shall be afforded before, an Appeals Committee in the locality composed of an equal number of representatives of management and labor (including agricultural representation, as provided in § 906.6 (h)), selected by the Regional or Area Manpower Director. A representative designated by the Regional or Area Manpower Director shall serve as the non-voting chairman of the Appeals Committee.

(n) *Inapplicability to special appeals.* Nothing in this regulation shall be construed as applicable to actions taken or decisions rendered under War Manpower Commission Regulations Nos. 1 and 6, or Executive Order No. 9309, or to transfers between Executive departments or agencies of the Federal Government under Executive Order No. 9243.

(o) *Modification of other policies.* The provisions of any prior War Manpower Commission policy, program, regulation or other direction, to the extent that they are inconsistent with this regulation, are hereby modified to conform with the provisions of this regulation.

PAUL V. MCNUTT,
Chairman.

Applications may be made by a dresser at any time by submitting samples of his product, processed according to such specifications, accompanied by a letter describing his experience and equipment.

(2) *Dressed domestic bristles.* No person other than Defense Supplies Corporation shall buy or accept dressed domestic bristles.

(ii) *Shaving brushes.* In 1944, bristles, other than Chinese, may be used in the manufacture of shaving or lather brushes. The manufacturer may not use more than one-quarter of the quantity, by weight, of the bristles consumed by him in 1942 in the production of shaving or lather brushes.

(iii) *Military orders.* Upon specific orders for any product for delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration. (ix) *Manufacturers as distributors of their own products.* For the manufacture of brushes, of the kind referred to in subdivision (vi) of this subparagraph (1) and surgeons' hand brushes, for sale by the manufacturer directly to the consumer, as authorized by the War Production Board after application by the manufacturer on Form WPB-547 (formerly PD-IX). In granting such authorization, the War Production Board will give consideration to the extent to which the manufacturer customarily sold directly to consumers brushes manufactured by him.

(2) *Manufacture exceeding specific orders and disposal of excess.* The requirements in the next preceding subparagraph (1) (Domestic and imported bristles) that products be manufactured only to fill specific orders, shall not prevent the manufacture of minimum commercially practicable quantities of products exceeding specific orders:

Conservation

(e) *Conservation.* Unless otherwise authorized in writing by the War Production Board, no person shall use in the manufacture of any product a mixture of more than 55% of pigs' or hogs' bristles or a combination of both.

Equitable Distribution

(f) *Equitable distribution.* It is the policy of the War Production Board that bristles and products containing bristles, not required to fill rated orders, shall be distributed equitably. In making such distribution due regard should be given to essential civilian needs, and there should be no discrimination in the acceptance or filling of orders as between persons who meet the seller's regularly established prices and terms of sale or payment. Under this policy, every seller of the items, so far as practicable, should make available an equitable proportion of his merchandise to his customers periodically, without prejudice because of their size, location, or relationship as affiliated outlets. It is not the intention to interfere with established channels and methods of distribution, unless necessary to meet war or essential needs. If voluntary observance of the policy outlined is inadequate to achieve equitable distribution, the War Production Board may issue specific directions to concerns. A failure to comply with a specific direction shall be deemed a violation.

General Provisions

(g) *Reports and communications—*(1) *Imported bristles.* Every owner of imported bristles shall file with the Bureau of the Census, Department of Commerce, acting as compiling agent for the War Production Board, not later than the 10th day of each month, a report on Form WPB-431 (formerly Form PD-217), showing his holdings and consumption of imported bristles during the preceding month.

In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(j) *Further restrictions.* No person shall sell, deliver, accept or use bristles or products containing bristles contrary to any specific direction which may be issued from time to time by the War Production Board.

PART 1041—PRODUCTION, TRANSPORTATION, REFINING AND MARKETING OF PETROLEUM

[Preference Rating Order P-98-b, Direction 1]

MATERIALS PURCHASED BY EMPLOYEES OF OPERATORS FOR PRODUCTION CAMP FACILITIES

The following direction is issued pursuant to Preference Rating Order P-98-b:

(a) *Purpose of this direction.* An operator engaged in the production branch of the petroleum industry can request priorities assistance under Order P-98-b to secure material for use in connection with production camp facilities for his employees. As used in this direction and in any certification made under it, "production camp facilities" are those facilities of the same name included under the term "lease equipment", as defined in Petroleum Administrative Order No. 11, as amended and supplemented from time to time. Some operators construct and maintain such production camp facilities for all of their employees. Employees of other operators find it necessary to secure all or part of the materials with which to construct and maintain production camp facilities for themselves. This direction allows these latter employees under the conditions to be described in this direction to use preference ratings and allotment symbols to buy materials required for the construction of production camp facilities.

(b) *Use of employer's preference ratings and allotment symbols authorized.* (1) To secure material for the maintenance and repair of production camp facilities, an employee of a production operator may use preference rating AA-3, allotment symbol

MRO–P–3, and the "special MRO procedure" of Order P–98–b.

(2) To secure material for use in connection with production camp facilities other than for maintenance and repair, an employee of a production operator may use preference rating AA–3 and allotment symbol PSO.

(3) The particular materials which may be secured with a preference rating and with an allotment symbol are indicated in Order P–98–b. The preference ratings and allotment symbols may be used pursuant to this direction to secure only that material which a production operator could obtain if he were using the ratings or symbols himself.

(c) *How preference ratings and allotment symbols are used.* A preference rating or allotment symbol authorized by the preceding paragraph will be valid only if the employee complies with the appropriate delivery order filing instructions of Order P–98–b (which include placing the standard certification of paragraph (r) of that order on the delivery order), and if, in addition, he gives the seller of the item the following certificate, filled out (with the preference rating and allotment symbol assigned above) and signed by his employer, and then by himself:

Preference rating and allotment symbol (specify rating and symbol) ----------. The items on this (or on the attached) delivery order are required by the undersigned employee for use in connection with production camp facilities.

(Name and address of employer)

(Authorized signature)

(Signature of employee)

(Position)

(d) *Rules on the size of the houses which can be built.* Any production camp facilities built with the priorities assistance of this direction must conform with the War Production Board War Housing Construction Standards. These standards tell how large a house may be built depending upon the number of its rooms, and set forth other limitations. The production operator should be able to secure copies of the standards from the nearest War Production Board field office if he does not already have them. In the event the War Production Board issues an order governing the construction of housing and containing similar standards as part of the order, the standards of such order shall be used in place of the War Housing Construction Standards.

(e) *Records.* The employer must keep a copy of the employee's delivery order and of the certificate given to the employee for two years. The supplier who sells the items must keep the delivery order and the certificate given to him for two years.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 26 as Amended Feb. 15, 1944]

WHEN ALLOTMENTS MAY BE RETURNED BY SECONDARY CONSUMER DIRECTLY TO CLAIMANT AGENCY OR INDUSTRY DIVISION

The following amended direction is issued pursuant to CMP Regulation 1.

(a) Paragraph (w) of CMP Regulation No. 1 requires a consumer to return allotments which he does not need to the person from whom he received them. In the case of a prime consumer making an A or a B product, the return is made directly to the Claimant Agency or Industry Division which made the allotment except in those cases where the return is to be made to a Field Office of the War Production Board, as explained in paragraph (d) below. In the case of a secondary consumer, the return is made to the prime or secondary consumer who made the allotment.

(b) In those cases where it is impractical for a secondary consumer to return an allotment to the person from whom he received it, he may make the return directly to the Claimant Agency whose symbol appears on the allotment or to the War Production Board in the case of allotments bearing the symbols B, F, G, J, K, S and V. This situation may occur where a secondary consumer produces the same product for a relatively large number of customers whose schedules are all identified by the same abbreviated allotment number. For example, a manufacturer of metal stampings receives orders from many manufacturers accompanied by allotments all bearing the allotment number N–6. As a practical matter, he places all of the allotments in a single allotment account designated N–6. If his requirements for the manufacture of metal stampings are reduced, for any reason, it will be very difficult for him to figure out what portion of the total allotment should be returned to each customer and furthermore the amount returned to each will probably be small. Under this direction, he is permitted to make a return directly to the Navy.

Form CMP–32, "Consumers Return of Allotments", available at all War Production Board offices, should be used in making returns under this direction, but if it is impractical to get this form, the return may be made by letter.

(d) Returns of allotments under this direction bearing the symbols B, F, G, J, K, S and V should be mailed to the War Production Board, Washington 25, D. C. unless the allotment was originated by a Field Office of the War Production Board, in which case the return should be made to the originating Field Office. In case of doubt, returns of allotments bearing these symbols should be mailed to Washington. Returns of allotments under this direction bearing the symbols listed below should be mailed to the addresses indicated:

BROOM WIRE

The following direction is issued pursuant to CMP Reg. 5:

Steel wire used in making brooms may be treated as an operating supply under CMP Regulation No. 5 regardless of whether or not under a particular manufacturer's accounting practice the wire is charged to operating expenses. PART 3216—MATERIAL ENTERING INTO THE OPERATION OF TRANSPORTATION SYSTEMS

[Preference Rating Order P–142, as Amended Feb. 15, 1944]

Section 3216.1 *Preference Rating Order* P–142 is hereby amended to read as follows:

§ 3216.1 *Preference rating order P–142.* This order explains how "operators" of transportation systems, as defined below, get materials to carry on their operations, and it must be used by them in place of CMP Regulation 5. With a few exceptions, this order gives preference ratings for up to 110% per quarter of each item or group of items specifically authorized for the operator for the first quarter of 1944. Controlled materials (except aluminum and rail and track accessories) are allotted on the same basis. This means that, in most cases, quarterly applications on Form WPB–2585 are no longer necessary, but material may be scheduled for delivery on the new basis only three quarters in advance. Use of the ratings and allotments is explained in the order.

Definitions

(a) *Definitions.* For the purpose of this order:

(1) "Transportation system" means a steam railroad, an electric railroad, a terminal railroad, a switching railroad, a private car line company, a rapid transit system, an electric street railway system, a trolley coach system, or a common carrier passenger motor bus system.

(2) "Operator" means any person to the extent that he is engaged in the business of transporting passengers or property over a transportation system. The term does not include any person who can obtain all of his controlled material requirements at retail, or from warehouses or distributors under the provisions of CMP Regulation 4, and who has not elected to operate under this Order P–142 pursuant to paragraph (k) (1); such person must continue to operate under the provisions of CMP Regulation 5 and all other applicable regulations.

(3) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(4) "Controlled material" means steel, copper and aluminum in the forms and shapes indicated in Schedule I of CMP Regulation 1.

(5) "Maintenance and repair" means the upkeep or restoration of any unit of the operator's property or equipment by using the minimum amount of material necessary (i) to keep the unit usable for the purpose intended in its existing design, (ii) to restore parts of the unit to their original usefulness, or (iii) to renew parts to restore the unit to its usefulness for the purpose intended in its existing design. The term also includes "heavy repair of locomotives" and "heavy repair of railroad cars," as those terms are defined in paragraphs (a) (8) and (a) (9) below.

(6) "Operating supplies" means those materials and supplies which are essential to the operations of the operator's transportation system, the rendering of services, and the collection of revenues in connection therewith.

(7) "Construction" means the use of material to provide additional facilities or to rehabilitate existing facilities for a purpose not intended in the existing design.

(8) "Heavy repair of locomotives" includes only:

(i) Such repair to boiler, machinery and tender as is necessary to put the unit in thorough order and in condition to run out a new term of assigned mileare (sometimes known as class 1, 2 and 3 repair), and also such intermediate repair thereto as is necessary to enable the unit to run out its full mileage assignment (sometimes known as class 4 and 5 repair); or

(ii) Conversion, which means any change in the general machinery or wheel arrangement of the locomotive; or

(iii) Modernization, which means the addition of accessories and/or specialties to the locomotive.

(9) "Heavy repair of railroad cars" includes only:

(i) Program repair for any group of cars, or, if the operator does not program such repairs, repair of any car requiring 50 or more man hours per car for freight cars, or 100 or more man hours per car for passenger cars; or

(ii) Conversion, which means the modification of the structure of an existing car to such an extent as to change the type of the car.

Ratings and Allotment Symbol

(b) *Preference ratings for materials other than controlled materials.* Subject to the provisions of this order, preference ratings are hereby assigned to deliveries of material to be made to an operator after March 31, 1944, as follows:

(1) *Quotas.* Each operator may use the rating assigned for the purchase of each item or group of items under sections D and E of his authorization on Form WPB–2585 (original and supplements) for the first calendar quarter of 1944, to order for delivery to him during any calendar quarter not more than his quota for that item or group of items for uses permitted under paragraphs (f) and (g) of this order. This quota is in each case 110% of the amount authorized for him in column (k) of the above form, with the exception of the items listed in paragraph (b) (2) below, which are handled on a special basis. If this 110% quota is not enough in any quarter to provide for permitted uses under this order, application for additional amounts may be made as explained in paragraph (k) (2). Also, if an operator has received authorization on Form WPB–2585 for the second calendar quarter of 1944 or later quarters for any item or group of items in excess of the above 110% quota, he may use this authorization for the particular quarter instead of his quota unless otherwise directed by the War Production Board.

(2) *Special items and track material.* The ratings assigned above in paragraph (b) (1) may not be used to order the following items:

Steam injectors.
Mechanical lubricators.
Roller bearings (driving box, tender truck, and engine truck).
Stokers.
Superheaters and headers.
Air brakes—AB.
Hand brakes—power.
Brake beams.
Car bolster springs.
Couplers and coupler bodies.

Track material of the following kinds:
Frogs.
Crossings.
Switches.
Switch stands.
Rail anchors.
Rail braces.
Guard rails.
Guard rail clamps.
Gauge rods.
Clip bolts.
Rail clips.
Nut locks.

The amounts of these items which an operator can get for permitted uses and the proper ratings will be authorized from time to time on Form WPB–2585. Application for such authorization should be made by the operator as explained under paragraph (k) (3) of this order.

(3) *Emergency repairs.* The War Production Board may also assign in writing preference ratings to deliveries of specific materials essential for emergency repairs, application for which should be made as explained in paragraph (k) (2) of this order.

(4) Use of the ratings for advance quarters is subject to paragraph (e).

(c) *Assignment of allotment symbol for controlled materials.* Each operator may use the CMP allotment symbol T–7 to order controlled material for delivery to him after March 31, 1944, for a use authorized by paragraph (f) or (g) of this order, in amounts per quarter as follows:

(1) Aluminum to the extent required for maintenance, repair and operating supplies, excluding heavy repairs of locomotives and cars as defined in paragraphs (a) (8) and (a) (9). Any amounts of aluminum required for such heavy repairs or any other purpose may be applied for as explained in paragraph (k) (4).

(2) Steel and copper (except rail and track accessories) up to 110% per quarter of the respective amounts authorized for the operator for each item or group of items under section C of Form WPB–2585 (original and supplements) for the first calendar quarter of 1944. If this 110% quota is not enough in any quarter to provide for permitted uses

under this order, application for additional amounts may be made as explained in paragraph (k) (2). Also, if an operator has received authorization on Form WPB–2585 for the second calendar quarter of 1944 or later quarters for any such item or group of items in excess of the above 110% quota, he may use this authorization for the particular quarter instead of his quota unless otherwise directed by the War Production Board.

(3) Rail and track accessories (Code No. 2026) in amounts authorized for each quarter by the War Production Board upon Form WPB–2585. Application should be made by the operator only as required under paragraph (k) (3). (Note that the items of track material listed in paragraph (b) (2) are no longer controlled materials).

Use of these authorizations for advance quarters is subject to paragraph (e).

(d) *How to use the ratings and allotment symbol*—(1) *Certification.* An operator may use the above ratings and allotment symbol T–7 to get materials under this order by placing on his purchase orders a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7:

Preference rating—(specify rating if necessary); CMP allotment symbol T–7; P–142, serial No. -----.

The undersigned operator certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that, to the best of his knowledge and belief, the undersigned is authorized under applicable War Production Board regulations or orders to place this delivery order; to receive, for transportation MRO under P–142, the item(s) ordered; and to use any preference rating or allotment symbol which the undersigned has placed on this order.

However, the certifications provided in CMP Regulation 7 and Priorities Regulation 7 may be used instead of the above, if they include the following identification:

Preference rating—(specify rating if necessary); CMP allotment symbol T–7; P–142, serial No. -----.

(2) An order for controlled materials which bears the above certification and allotment symbol is an authorized controlled material order, except that, when placed with a producer, the order must conform to paragraph (s) (4) of CMP Regulation 1 relating to content of the order and time for placing it. On orders for controlled materials, no preference rating should be shown.

(3) The ratings applied by operators under paragraph (d) (1) may be extended in the manner provided in Priorities Regulation 3.

(4) The ratings assigned under this order may not be used to get items shown on List A or B of Priorities Regulation 3.

(e) *Advance authorizations.* Neither the preference ratings nor the allotment symbol assigned by this order may be used by an operator to place orders for delivery farther ahead than the three calendar quarters following the quarter during which the order is placed, unless otherwise indicated with respect to any authorization issued on Form WPB–2585. For example, during the second quarter of 1944, orders may be placed for delivery during that quarter and in each of the last two quarters of 1944 and the first quarter of 1945 to the full extent authorized per quarter under the above paragraphs; during the third quarter of 1944, orders may be placed in corresponding amounts for delivery in the second quarter of 1945, and so on. Any special authorization, unless otherwise indicated, is valid only for the quarter for which issued.

Permitted Uses of Materials and Inventories

(f) *Maintenance, repair, etc.* No operator shall acquire any material under the provisions of this order, nor make withdrawals from inventory of any material acquired with priorities assistance of any kind, except for the following purposes:

(1) Maintenance, repair and operating supplies (including materials required for MRO by the operator for its own use in carrying out authorized construction projects and in manufacturing transportation equipment);

(2) Heavy repair of locomotives;

(3) Heavy repair of railroad cars;

(4) Minor items of productive capital equipment not exceeding $500 per unit (excluding cost of labor);

(5) Replacement of rail with the weight of rail and type of fastenings conforming to the operator's standard practice;

(6) Construction to the extent permitted by paragraph (g) below; or

(7) For any other use when specifically authorized in writing by the War Production Board.

(g) *Construction.* Any operator may, for construction, acquire materials under this order, or make withdrawals from inventory of materials acquired with priorities assistance, but only to the extent that the total cost of such materials for any one project is $2,500 or less (excluding cost of labor). Additional materials of these kinds may be withdrawn from inventory for any one project if the operator has secured specific authorization in writing from the War Production Board pursuant to application made on Form WPB–617 (PD–200), but replacement in inventory of any additional materials so withdrawn may be made only by using the ratings and allotments assigned by the specific authorization (CMPL–224 or other applicable form). Furthermore, with respect to any project specifically authorized by the War Production Board (under Order L–41 or otherwise), acquisition or withdrawal from inventory of materials by the operator is limited to those which may be permitted by the authorization.

Each operator must get permission to construct under Conservation Order L–41 where the particular project is not exempted by that order. If the construction is of a kind exempted by that order, and the total cost of the materials required (excluding cost of labor) is over $2,500, the operator must apply on Form WPB–617 if the excess over $2,500 is to be withdrawn from inventory as explained above, or is to be acquired with priorities assistance.

Inventory Control; Resales

(h) *Inventory control.* Notwithstanding the provisions of any other order or regulation of the War Production Board (including CMP Regulation 2), an operator's inventory of material for uses permitted under this order shall be subject to the following restriction only:

No operator shall receive any delivery of material which will increase his inventory of such material to an amount greater than the minimum necessary to sustain his current level of operations.

However, this does not prevent the operator from maintaining minimum stocks of material for emergency use, nor from acquiring reasonable stocks of ties and lumber for seasoning. The foregoing inventory control also does not apply to printed matter.

(i) *Permitted resale of materials.* An operator may resell material (whether or not obtained with the assistance of this order):

(1) To any other operator;

(2) To another person when such material is to be physically incorporated in repairs of equipment that is used in the maintenance, repair, or operations of the operator's own property: *Provided,* That such material could have been used by the operator itself in making its own repairs without violation of any of the provisions of this order;

(3) To the operator's own transportation system subsidiaries, or for the maintenance of track or equipment not owned but customarily maintained by the operator or its subsidiaries; or

(4) For the repair of equipment of another carrier in accordance with the Code of Rules for the Interchange of Traffic as adopted by the Association of American Railroads.

Any such sale shall be expressly permitted within the provisions of paragraph (c) (3) of Priorities Regulation 13: *Provided,* That nothing in this paragraph (i) shall be deemed to authorize receipt or use of any material by any person in violation of any inventory or use restriction imposed by this order or any other order or regulation of the War Production Board, and no operator shall make any sale of material authorized above if he knows or has reason to believe that receipt or use thereof by the buyer will be in violation of any such restriction.

(j) *Other resales.* Any other resale of materials by an operator is subject to Priorities Regulation 13.

Procedure

(k) *How to make application under this order*—(1) *Serial numbers.* No operator shall be entitled to any assistance under the provisions of this order until he has been assigned an authorized serial number, which may be obtained upon application by letter to the War Production Board, stating that the applicant will be unable to obtain all of his controlled material requirements at retail or under the provisions of CMP Regulation 4. In addition, any person who can obtain all such requirements at retail or under that regulation may elect to apply as above for an authorized serial number. When such serial number is assigned to him, he shall be deemed an "operator" under all the provisions of this Order P–142.

(2) *Application for special or additional authorizations.* In order to get authorization or exemption under paragraph (b) (1), (b) (3), (c) (2) or (f) (7) of this order, an operator must communicate with the War Production Board, describing the nature of the emergency or the reason why specific authorization is necessary, and the amount and type of material involved. The War Production Board will thereupon notify the operator in writing whether, and to what extent, his application is approved.

Requests for additional authorizations for any quarter under paragraph (b) (1) or (c) (2) must be made by letter, giving the above information. In acting upon such a request, the War Production Board may at the same time authorize all or part of the additional amount for future quarters. For example, if it was shown that the operator's authorizations on Form WPB–2585 for the first quarter of 1944 were not a reasonable indication of his quarterly needs of any item or group of items, his "base" (against which to apply the 110% quota) might be increased. The War Production Board may also direct in writing that the "base" be reduced.

(3) *Application for special items and track material.* Application for track material under paragraph (b) (3) and for rail and track accessories under paragraph (c) (3) should be made by an operator only if called for by specific instructions of the War Production Board. Application for special items (other than track material) listed in paragraph (b) (3) should be made on Form WPB–2585 at least 45 days before the beginning of each calendar quarter, in accordance with the instructions on the form and any supplemental instructions that may be issued.

(4) *Aluminum.* Any operator requiring aluminum in the form of controlled material for heavy repairs, as defined in paragraphs (a) (8) and (a) (9), must apply by letter for an allotment for the required amounts to the War Production Board, Aluminum and Magnesium Division, Ref.: M–1–i, giving substantially the information described in paragraph (d) of Supplementary Order M–1–i.

NOTE: The reporting requirements in this paragraph (k) have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(l) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal.

(m) *Violations.* Any person who wilfully violates any provision of this order, or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(n) *Applicability of regulations.* (1) This order and all transactions affected by it are subject to all applicable regulations of the War Production Board, as amended from time to time, unless this order states otherwise.

(2) None of the provisions of CMP Regulations 5 or 5A shall apply to operators as defined in paragraph (a) (2) of this order, and no operator shall obtain any material under the provisions of either of those regulations. However, privileges under other orders and regulations of the War Production Board granted to persons on Schedule I or II of CMP Regulation 5 shall be considered as applicable to operators under this order. For example, Order E–5–a on gauges and precision measuring hand tools classifies a person on Schedules I and II of CMP Regulation 5 as an "approved user". Operators under this order P–142 are in the same position providing that certification clauses and all other provisions of those other orders are complied with.

(o) *Communications.* All communications concerning this order, unless otherwise directed, shall be addressed to: War Production Board, Transportation Equipment Division, Washington 25, D. C., Ref.: PF–142.

Issued this 15th day of February 1944.

WAR PRODUCTION BOARD,

Recording Secretary.

INTERPRETATION 1—RERATING DELIVERY ORDERS PLACED UNDER P–88

Order P–88 (predecessor of P–142) assigned "blanket" ratings to railroads for certain specified deliveries of MRO materials; it also provided for the specific assignment of ratings to other deliveries of materials pursuant to application made on Form PD–351. These ratings ranged from A–1–a to A–8. Order P–142 (§ 3216.1) assigns no "blanket" ratings in the order itself, all necessary ratings for transportation MRO being assigned on Form WPB–2585 (formerly PD–844). When P–142 was issued on April 5, 1943, it contained a provision specifically revoking Order P–88 and all ratings issued thereunder, with the exception of ratings issued on Form PD–351 for the second quarter of 1943. Under these circumstances, it is questioned whether an operator who, under P–88, properly placed a delivery order which was never filled, may rerate it on the basis of authorization granted on Form WPB–2585 pursuant to P–142.

The revocation of P–88 did not affect deliveries which had been rated under that order before April 5, 1943. Moreover, an operator who properly placed a rated order for MRO materials under P–88, but did not receive delivery at the time requested, may rerate the original delivery order to the extent that deliveries of such materials have been authorized on Form WPB–2585.

For example, a railroad placed a purchase order for a fabricated product on October 4, 1942, applying the rating of A–1–j in accordance with paragraph (b) (3) of Order P–88, and specifying the delivery date of December 15, 1942. The supplier was unable to make delivery at the time requested. Under P–142, the railroad received authorization for the fourth quarter of 1943 on Form WPB–2585 to apply a rating of AA–1 to the delivery of certain materials, including fabricated products of the kind specified in the original purchase order. Whether the authorization is in terms of units (under section D of the Form), or in terms of dollar value applicable to a group of products (under section E), Priorities Regulation 12 permits the railroad to rerate the original order if it is still unfilled. However, the items or dollar value involved must be charged against the WPB–2585 authorization for the quarter in which the rerating is made. (Issued Nov. 24, 1943.)

PART 3274—MACHINE TOOLS AND INDUSTRIAL SPECIALTIES

[Conservation Order M–319, Interpretation 2]

USE OF SMALL ORDER CERTIFICATION BY PRODUCERS WHO ARE ALSO DISTRIBUTORS

The following interpretation is issued with respect to Conservation Order M–319:

A question has arisen as to whether a person who produces certain sizes and types of abrasive grain, but who also purchases abrasive grain from other producers for resale without further processing, may use the small order certification described in paragraph (d) (2) of Conservation Order M–319 to obtain abrasive grain for stock to fill small orders. Paragraph (a) (10) defines a distributor as any purchaser of manufactured crude abrasive or abrasive grain for purposes of resale without further processing. To the extent that a producer obtains abrasive grain from other producers for resale without further processing, he is a distributor within the meaning of M–319 and, as such, may accept delivery of abrasive grain for stock to fill small orders, if he signs the certification required by paragraph (d) (2). The grain which he obtains by this means, however, can only be used to fill small orders placed with him, and is subject to the sixty day inventory limitation contained in paragraph (f). This grain, when obtained, should not be reported as a part of his inventory in making out his proposed production schedule (Form WPB–2780), nor should he include it in the WPB–2761 application which he files as a producer, pursuant to paragraph (d) (3), for authorization to deliver his own grain to fill small orders.

Issued this 15th day of February 1944.

[General Conservation Order M–241–a, Interpretation 1]

WAXED PAPER CONVERSION

The following interpretation is issued with respect to General Conservation Order M–241–a.

"Waxed and oiled paper, all types and grades other than household packages, excluding waxed paper wrappings for direct war use as provided in List A," as that caption appears in List B of General Conservation Order M–241–a, applies to all the kinds of paper so described regardless of whether produced as a result of a separate converting operation, as is commonly the case, or produced as a result of having been oiled or waxed on the paper machine. For the pur-

pose of this order control has been placed on the end product. The method employed in consuming paper in the manufacture of the end product is not a factor of consideration in determining the applicability of the order.

Issued this 15th day of February 1944.

PART 3281—PULP AND PAPER

[General Conservation Order M–241–a, Interpretation 2]

RETAIL UNITS

The following interpretation is issued with respect to General Conservation Order M–241–a.

This interpretation of General Conservation Order M–241–a applies to the consumption of paper in the manufacture of retail units of wrapping and other papers as dispensed through the variety chain stores, the department stores, the stationery stores and all other retail outlets. These retail units are regarded as within the definition of a "converted product" in Order M–241–a and therefore subject to the restrictions contained in paragraphs (d) or (e) of the order.

All grades and kinds of paper, plain or printed, when converted into retail units for wrapping purposes are subject to the order, although the percentage restriction on consumption need not be separately applied to each of the grades and kinds of paper consumed during the base period. It is permitted to calculate an aggregate quota and to consume any grade or kind of paper, plain or printed, within the quota without regard to the maintenance of the same relationship of grade and kind that prevailed during the base period.

Any person who did not consume paper during the base period of the order in the conversion of such retail units of wrapping and other papers has no basis from which to calculate a quota and, therefore, cannot become a converter.

There is a distinction in the instance of printed wrapping paper as follows:

1. When printed wrapping paper is delivered by the printer in bulk form (not packaged) for further sale or further distribution the printer is the "converter" as defined in the order, and, therefore, subject to the restrictions of paragraph (e); but,

2. If the printer delivers the printed wrapping paper to a person for subsequent conversion into retail units, the final converter is the one subject to the restrictions of paragraph (e) and not the printer.

Since retail units are regarded as a separate and distinct type of "converted product," it is obvious that tonnage from other products cannot be included when calculating a quota for retail units.

Plain wrapping tissue purchased in quires, or flat, when subsequently folded and labeled, or otherwise packaged, is deemed to be a retail unit and therefore restricted by paragraph (e).

Quota tonnage which has not been consumed at the end of a calendar quarter may not be carried over to the succeeding calendar quarter.

Issued this 15th day of February 1944.

Recording Secretary.

PART 3293—CHEMICALS[1]

[General Preference Order M–246, as Amended Feb. 15, 1944]

PHENOLIC RESINS AND PHENOLIC RESIN MOLDING COMPOUNDS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of phenolic resins and phenolic resin molding compounds for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.341[1] *General Preference Order M–246*—(a) *Definitions.* For the purposes of this Order:

(1) "Phenolic reactant" means:

(i) Any of the synthetic phenols except resorcinol, of all grades and from whatever source derived.

(ii) Phenolic acids, either in pure or crude form, comprised in whole or in part of one or more of the following: phenol, ortho cresol, meta cresol, para cresol, xylenols and commercial grades of higher boiling cresylic acids, from whatever source derived.

(iii) Any of the substituted phenols, including para phenyl phenol, para tertiary butyl phenol, para tertiary amyl phenol and bis-phenol.

(2) "Aldehyde" means any organic compound containing the monovalent —CHO radical.

(3) "Phenolic resin" means any synthetic reaction product of a phenolic reactant with an aldehyde or a derivative of an aldehyde such as, for example, formaldehyde, furfural, para formaldehyde or hexamethylenetetramine. Such term includes, but is not limited to phenolic resins, modified or otherwise in liquid, lump, spray dried, cast or pulverized form and in solutions commonly termed laminating varnishes and resin solutions as well as resin dispersions, emulsions and cement. The term does not include any reaction product of resorcinol, lignin, cashew nut shell liquid or cardinol unless enriched with another phenolic reactant.

(4) "Phenolic resin molding compound" means any combination of phenolic resin and bulk filler such as, for example, wood flour, asbestos, mica, cotton fibres, or macerated fabrics, which can be molded. Such term includes, but is not limited to, molding compound, molding board and molding blanks.

(5) "Producer" means any person engaged in the production of any phenolic resin or phenolic resin molding compound, and includes any person who has any such material produced for him pursuant to toll agreement.

(6) "Toll agreement" means any agreement by which title to material remains vested in a person other than the one processing the material.

(7) "Distributor" means any person who purchases phenolic resin or phenolic resin molding compound for resale as phenolic resin or phenolic resin molding compound.

(8) "Supplier" means a producer or distributor.

[1] Formerly Part 3104, § 3104.1.

(9) "Products made from or treated with phenolic resin or phenolic resin molding compound" mean the following products when made from or treated with phenolic resin or phenolic resin molding compound:

(i) Molded products;

(ii) Protective coatings (other than resins used by protective coatings manufacturers in the formulation of protective coatings);

(iii) Plywood (including shaped plywood and shaped impregnated wood);

(iv) Laminates (sheets, rods, tubes and molded shapes); and

(v) Specialties which shall include all other products, such as abrasive wheels, friction elements and resin bonded insulating batting.

(10) "Product manufacturer" means any person who manufactures any product defined above in paragraph (a) (9).

(b) *Restrictions applicable to suppliers only.* (1) No supplier shall deliver any phenolic resin or phenolic resin molding compound to any other person (except pursuant to a toll agreement) without (i) the specific authorization in writing of the War Production Board to make the particular delivery or (ii) general authorization to deliver specific amounts against orders marked "Small Orders" or "Previously Authorized" orders as provided in paragraph (b) (2) hereof. The term "other person" when used in the previous sentence, includes a branch, division or section of the same enterprise as that of the supplier unless the branch, division or section accepting delivery accepts it for the purpose of producing phenolic resin or phenolic resin molding compound, or unless the branch, division or section accepting delivery normally keeps the same inventory as the branch, division, or section making the delivery. Application by a supplier for authorizations to deliver shall be made pursuant to Appendix A.

(2) Each supplier shall be entitled to deliver against general authorizations amounts of phenolic resin or phenolic resin molding compound not exceeding in the aggregate the amount authorized for such purposes in writing by the War Production Board, as follows:

(i) Against purchase orders marked "Small Order", deliveries aggregating not more than five pounds of resin containing any para phenyl phenol or resin in which para tertiary butyl phenol is the sole phenolic reactant in any one calendar month to any one customer[2]; and against purchase orders marked "Small Order", deliveries aggregating not more than 50 pounds in the case of all other phenolic resins or phenolic resin molding compounds to any one customer[2] in any one calendar month.

(ii) Against orders marked "Previously Authorized" an amount not exceeding 2,000 pounds in any one month to any one customer.[3] This provision shall, however,

[2] In accordance with Interpretation 8 of Priorities Regulation No. 1, the provisions of paragraph (b) (2) (i), (b) (2) (ii), (c) (2) (i), and (c) (2) (ii), shall be available to each operating unit of the same company which does its own buying of phenolic resin or phenolic resin molding compound.

not be applicable to cast phenolic resins or to phenolic resins containing tung oil or para phenyl phenol, or to resins in which para tertiary butyl phenol is the sole phenolic reactant.

(3) Each supplier shall comply with such directions as may be given from time to time by the War Production Board with respect to the production, use, or delivery of any phenolic resin or any phenolic resin molding compound. If the War Production Board stamps or writes the word "Defer" in Column 7 of a supplier's Form WPB–2946 (formerly Form PD–601), the supplier shall not produce, use, or deliver any phenolic resin or any phenolic resin molding compound to fill the orders described on the lines so marked if its production, use, or delivery interferes in any way with the production, use or deliveries necessary to fill on time all other orders which the supplier is entitled to fill.

(c) *Restrictions on accepting deliveries from suppliers and restrictions on use.* (1) (i) No person (except a person acting pursuant to a toll agreement) shall accept delivery of phenolic resin or phenolic resin molding compound from a supplier without the specific authorization in writing of the War Production Board, or except as provided in paragraph (c) (2) below. The term "no person" when used in the previous sentence, includes a branch, division, or section of the same enterprise as that of the supplier, unless the branch, division, or section accepting delivery accepts it for the purpose of producing phenolic resin or phenolic resin molding compound, or unless the branch, division or section accepting delivery normally keeps the same inventory as the branch, division, or section making the delivery.

(ii) No person shall use phenolic resin or phenolic resin molding compound to manufacture products made from or treated with phenolic resin or phenolic resin molding compound (except pursuant to a toll agreement), without the specific authorization in writing of the War Production Board or except as provided in paragraph (c) (2) below.

(iii) No person shall cause another person to use phenolic resin or phenolic resin molding compound pursuant to a toll agreement to manufacture products made from or treated with phenolic resin or phenolic resin molding compound, unless he has himself been specifically authorized in writing by the War Production Board to make the particular product or except as provided in paragraph (c) (2) below.

(iv) Applications for specific authorization to accept delivery of phenolic resin or phenolic resin molding compound from a supplier should be made pursuant to Appendix B, as should all applications for specific authorization to use phenolic resin or phenolic resin molding compound to manufacture products made from or treated with phenolic resin or phenolic resin molding compound.

(2) In addition to being able to accept delivery from a supplier and use phenolic resin or phenolic resin molding compound pursuant to the specific authorization of the War Production Board,

(i) During any calendar month, a product manufacturer[2] may accept from all suppliers deliveries aggregating not more than 2,000 pounds of phenolic resin or phenolic resin molding compound for use in previously authorized end uses, and a product manufacturer may use in any calendar month, and cause others to use pursuant to a toll agreement, not in excess of 2,000 pounds of phenolic resin or phenolic resin molding compound for previously authorized end uses. A product manufacturer placing a purchase order under the provisions of the last sentence should mark his order "Previously Authorized." A "previously authorized use" of a particular manufacturer is an end use described by him on his Form PD–600 or Form WPB–2945 filed under Order M–246 for phenolic resin or phenolic resin molding compound, which end use has been approved in writing by the War Production Board for the particular manufacturer at any time after September 30, 1943. This 2,000 pound provision does not apply to cast phenolic resins or phenolic resins containing tung oil or para phenyl, phenol, or to resins in which para tertiary butyl phenol is the sole phenolic reactant.

(ii) During any calendar month, a product manufacturer[2] may accept from all suppliers, deliveries aggregating not more than 5 pounds of resin containing any para phenyl phenol or resin in which para tertiary butyl phenol is the sole phenolic reactant, and a product manufacturer may use in any calendar month, and cause others to use pursuant to a toll agreement, not in excess of 5 pounds of such resin. In addition, during any calendar month, a product manufacturer[2] may accept deliveries aggregating not more than 50 pounds in the case of all other phenolic resins or phenolic resin molding compounds, and may use in any calendar month, and cause others to use pursuant to a toll agreement, not in excess of 50 pounds of each other material. A product manufacturer placing a purchase order under the provisions of either of the last two sentences should mark his order "Small Order".

(3) No product manufacturer who has received a specific authorization from the War Production Board covering a quarterly period which authorization permits him to acquire during any one calendar quarter 20,000 pounds or more in the aggregate of phenolic resin or phenolic resin molding compound, shall place orders specifying the delivery of more than 40% of the total amount authorized by that authorization in any one month.

(4) If the War Production Board stamps or writes the word "Defer" in Column 10 of a product manufacturer's Form WPB–2945 (formerly Form PD–600), the product manufacturer shall not produce or deliver to his customer the products made from or treated with phenolic resin or phenolic resin molding compound described on the lines so marked, if their production or delivery interferes in any way with the production or delivery on time of other products which the product manufacturer is entitled to make.

(5) Each product manufacturer receiving phenolic resin or phenolic resin molding compound pursuant to an authorization of the War Production Board, must use it solely for the purposes specified in writing in the authorization. However, despite the provisions of Form WPB–2945 and Form PD–600, a product manufacturer may include in the 2000 pounds of phenolic resin or phenolic resin molding compound which he may use in any calendar month for previously authorized end uses (as that term is defined in paragraph (c) (2) (i), material which he was specifically authorized by the War Production Board to accept for a different purpose.

(d) *Sales by a product manufacturer of frozen or excessive inventories.* No product manufacturer shall sell any frozen or excessive stocks of phenolic resin or phenolic resin molding compound except in compliance with Priorities Regulation No. 13. In general that regulation prohibits him from selling, without the specific authorization in writing of the War Production Board, to any person other than a supplier.

(e) *Disposition by product manufacturers of primary products which may not be delivered or used for allocated end uses.* If a product manufacturer has on hand any product made from or treated with phenolic resin or phenolic resin molding compound which he cannot dispose of for the specific end use for which the phenolic resin or phenolic resin molding compound was allocated, he shall not deliver or use the product without first receiving the specific written authorization of the War Production Board to do so. This paragraph (e) applies to, but is not limited to, products which do not meet specifications, or products for which military contracts have been cancelled.

Application for specific authorization to dispose of the products should be made by letter in triplicate directed to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M–246, setting forth the material facts.

(f) *Restrictions on persons acquiring products made from or treated with phenolic resin or phenolic resin molding compound.* (1) Each person placing or seeking to place a purchase order with a product manufacturer for products made from or treated with phenolic resin or phenolic resin molding compound shall furnish with his order a certificate specifying the end use of the product ordered. Such certificate may be placed on or attached to the purchase order and shall be in substantially the following form, signed manually or as provided in Priorities Regulation No. 7:

DESCRIPTION OF END USE

Pursuant to Allocation Order M–246, the undersigned hereby certifies to the seller and to the War Production Board that the product covered by the accompanying purchase order will be used solely for the purposes listed above.

---------- (Purchaser)	---------- (Address)
By ---------- (Signature and title of duly authorized officer)	---------- (Date)

(2) Notwithstanding the provisions of paragraph (f) (1) above, no purchaser of such products shall be required to file a certified description of end use for the purpose of this order, if the end use is apparent to the product manufacturer from his own observation and experience (for example, in the case of the sale of a molded distributor head). However, where the purchase is by or for the account of one of the Armed Services, the product manufacturer must receive and retain in his files written evidence of that fact even if the end use is apparent.

(3) In the event that two or more end uses are involved in a single purchase order for products, the amount of the product required for each different use shall be listed as a separate item in the certificate. Each item shall bear an identifying number so that it will be possible for the product manufacturer to advise his customers, by purchase order number and item number, as to the action taken by the War Production Board on his application for the phenolic resin or phenolic resin molding compound needed to make the product ordered by the customer.

(4) Each product manufacturer is requested to notify each customer as soon as possible of a denial, in whole or in part, by the War Production Board of any item or items for which application has been made by such customer.

(5) Any product manufacturer may accept and rely upon any certified description of end use furnished pursuant to this paragraph (f) unless he knows or has reason to believe it to be false.

(6) Each person furnishing a certified description of end use with a purchase order pursuant to paragraphs (f) (1) and (f) (3), shall use the products delivered on such purchase order only for the purpose specified in such certificate, except as otherwise specifically authorized in writing by the War Production Board. Application for such authorization may be made by letter in triplicate directed to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-246, setting forth the material facts.

(f) *Reports.* The reporting provisions of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942. Each supplier and each product manufacturer shall file such other reports as may be required from time to time by the War Production Board, subject to the approval of the Bureau of the Budget.

(g) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected hereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priorities control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-246.

Issued this 15th day of February 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A—INSTRUCTIONS FOR SUPPLIERS' APPLICATIONS FOR AUTHORIZATION TO DELIVER

Each supplier seeking authorization to deliver phenolic resins or phenolic resin molding compound shall file application on Form WPB-2496 (formerly Form PD-601) in the manner prescribed therein, subject to the following instructions:

Form WPB-2946 (formerly Form PD-601). Copies may be obtained at local field offices of the War Production Board.

Time of filing. Applications shall be filed in time to ensure that copies will have reached the War Production Board on or before the 23d day of the month preceding the month for which allocation is requested.

Number of copies. The signed original application and one copy shall be sent to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-246.

Number of sets. A separate set of forms shall be submitted for each of the six classes of products described in Appendix B, under the heading "Number of Sets"—namely, molded products, protective coatings A, protective coatings B, plywood, laminates, and specialties. In case of doubt as to how to classify a particular end use, be guided by the Forms PD-601 and WPB-2946 previously returned to you by the War Production Board. Even where deliveries are to be made from more than one producing plant, only one set of forms shall be submitted for each class of use.

Monthly or quarterly forms. A supplier shall always file monthly on Form WPB-2946.

Heading. Under "Name of Chemical", specify "Phenolic resin" or "Phenolic resin molding compound"; under "WPB Order No.", specify "M-246"; under "This schedule is for deliveries to be made during the month of", specify "Delivery month"; under "Unit of measure", specify "Pounds (net)"; and otherwise fill in as indicated.

Table I. The application need only cover the request for a general authorization to deliver pursuant to orders marked "Small Order" or "Previously Authorized". The supplier will list in Column 1 "Total small order deliveries" and "Total previously authorized deliveries", and in each case will enter in Column 4, as one lump sum, the total quantity proposed to be delivered during the month covered by the application. The War Production Board will issue to suppliers their specific authorizations to deliver against other types of orders on the basis of information furnished by the customers of the suppliers to the War Production Board.

Rolling stock. Leave blank columns at end of Table I relating to rolling stock requirements.

Table II. Fill out Table II on each set of Form WPB-2946 filed by you. The instructions as to filling out this table contained in the letter of the Director General for Operations of the War Production Board dated November 10, 1942, are hereby revoked.

In lieu of a listing of each separate grade in Column 8, one listing should ordinarily be made to cover all grades. There are two exceptions to this. List separately any grade or sub-class where manufacturing capacity or some other specific limitation exists which prevents the supplier from fulfilling all demands placed upon him. Also list separately by grade number each grade of protective coating resin containing any para phenyl phenol and of any other protective coating resin in which para tertiary butyl phenol is the sole phenolic reactant. Fill out all columns.

On the last two lines of Table II, write in the following captions: "Total small orders delivered last month" and "Total previously authorized orders delivered last month", and fill in the respective figures.

APPENDIX B—INSTRUCTIONS FOR APPLICATIONS FOR AUTHORIZATION TO ACCEPT DELIVERY AND APPLICATIONS FOR AUTHORIZATION TO USE

General. Each person seeking specific authorization to use or accept delivery of phenolic resin or phenolic resin molding compound shall file application on Form WPB-2945 (formerly Form PD-600) in the manner described therein, subject to the following instructions:

Form WPB-2945 (formerly PD-600). Copies may be obtained at local field offices of the War Production Board.

Time of filing. Applications shall be made in time to ensure that copies will have reached the supplier and the War Production Board on or before the 18th day of the month preceding the period for which authorization for use or acceptance of delivery is sought.

Number of copies. One copy of Form WPB-2945 shall be sent to the supplier and on this copy, Tables II, III and IV may be left blank. The original and three copies shall be sent to the War Production Board, Chemicals Bureau, Washington 25, D. C., Reference M-246. The original shall be completely filled out, but on the copies, Tables II, III, and IV may be left blank. Attention of applicants is called to the fact that a copy of each application may be sent to the supplier named on it. The original must be signed.

Number of sets. If the applicant has more than one operating unit which does its own buying of phenolic resin or phenolic resin molding compound, each such unit shall be treated as a separate company for the purposes of determining how many sets of Form WPB-2945 shall be filed. An applicant who wishes phenolic resin or phenolic resin molding compound for the manufacture of two or more of the six classes of products specified below shall file a separate set of WPB-2945 forms for each. A separate set of Forms WPB-2945 shall also be filed if the applicant is seeking permission to use material for an end use other than that for which it was originally acquired or for permission to use material obtained for inventory subject to further authorization. All applicants, whether or not manufacturing more than one class of product, shall indicate the product covered by the application on the right side of the upper margin (using only the appropriate italicized word or words):

Molded products

Protective coatings A (coatings to contain any resin made with any para-phenyl phenol or to contain any other resin in which para-tertiary butyl phenol is the sole phenolic reactant).

Protective coatings B (coatings other than the above).

Plywood—laminates

Specialties (which include all other products).

Monthly or quarterly forms. Applications shall be monthly or quarterly as follows, unless the product manufacturer has been authorized by the War Production Board to do otherwise:

Monthly

Manufacturers of molded products.
Manufacturers of protective coatings A and B.

Quarterly

Manufacturers of plywood (including shaped plywood and shaped impregnated wood).
Manufacturers of laminates.
Manufacturers of all other products (specialties).

Heading. Under "Name of chemical" specify "Phenolic resin" and/or "Phenolic resin molding compound"; under "WPB Order No.", specify "M-246"; under "Unit of measure", specify "Pounds, net"; and otherwise fill in as indicated. If the application is for permission to use material for an end use other than the one for which it was obtained, or for permission to use material obtained for inventory subject to further authorization, insert the words "From inventory" under the heading "Your supplier's name".

Table I. Specify in the heading the calendar month or quarter for which authorization for use or acceptance of delivery is sought.

Column 1. Specify supplier's grade number or other identifying symbol or words.

Column 2. Specify separately the quantities (in pounds, net) required for each primary product and each end use specified in Columns 3 and 4.

Column 3. In the case of a manufacturer of molded products, describe the product to be produced and identify by giving its function. For example, specify "aircraft radio condenser" not merely "aircraft", "radio" or "condenser".

In the case of a manufacturer of protective coatings, indicate the primary product by its code number used in WPB-I-217 (primary Products and End Use List) prepared by the Protective Coating Section, Chemicals Bureau, War Production Board.

In the case of a manufacturer of plywood (including shaped plywood and shaped impregnated wood) specify "Plywood".

In the case of a manufacturer of laminates, specify "sheets, rods, tubes, and molded shapes".

In the case of a specialty manufacturer, describe the product to be produced and identify by giving its function. For example, specify "brake-lining" not "friction material".

All manufacturers may insert the word "inventory" when they wish to acquire material to be kept in inventory in the original form. Distributors should insert the word "resale".

Column 4. Opposite each primary product listed in Column 3, specify in Column 4, end use as stated in certified description of use, or, in the absence of such certificates, on the basis of the applicant's own observation and experience. Indicate that governing contract is by or for the account of the Armed Services if you have written evidence of that being the case.

Manufacturers of protective coatings shall use the End Use List (WPB-I-217) to give information as to the specific end use to which the coating is to be put by the ultimate user.

Opposite "resale" or "inventory" in Column 3, write in Column 4 "subject to further authorization".

Columns 9 and 10. Leave blank.

Table II. Make one listing in Column 11 covering the total of material acquired from all suppliers of "All grades" subject to this order which fall into this particular broad class (molding, specialty, etc.) under which application is being made. Then specify separately in Column 17, each grade listed in Column 1 of the application. In all cases, leave Columns (15a), (15b), and (15c) blank.

Where applications are being made on a quarterly basis, list figures for the quarters indicated below. In Columns 13, 14, and 15, strike out the words "Last month" and indicate the quarters (which are not calendar quarters) in these columns as follows:

Quarter Number:	*Period covered*
DJF	Dec. 1 to Feb. 28, inclusive.
MAM	Mar. 1 to May 31 inclusive.
JJA	June 1 to Aug. 31, inclusive.
SON	Sept. 1 to Nov. 30, inclusive.

Even when application is on a quarterly basis, fill in Column 16 as indicated on the form.

Table III. Fill in Column 17 and 18 as indicated, and leave Column 19 blank.

Table IV. Leave blank.

II. *Special instructions for laminators.* Laminators may use this variation of the General procedure given above as desired. When it is not practicable for a laminator to give product end use in Column 4 of his Form WPB-2945, he should write "subject to further authorization" in this column.

The laminator shall then apply on a Form WPB-2947 (formerly Form PD-602) for authorization to deliver the sheets, rods, tubes, and molded shapes for specific end uses, and may not make delivery unless authorized in writing to do so by the War Production Board.

Subchapter D—Office of the Rubber Director

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 4600—RUBBER, SYNTHETIC RUBBER, BALATA AND PRODUCTS THEREOF

[Rubber Order R-1, Appendix III as Amended Feb. 15, 1944]

Introductory. Appendix III to Rubber Order R-1 as amended is a compilation of supplementary orders and directives of general applicability which affect rubber and rubber products. In the past, these orders and directives have involved principally the conversion of products from crude rubber to synthetics and have been issued individually to the manufacturers of the particular products. The purpose of Appendix III is to issue these directives and miscellaneous supplementary orders in printed form.

The material in Appendix III is arranged in accordance with the following product classifications:

Mechanical goods: Wire and cable; Tires and tubes; Footwear; Heels and soles; Proofing and combining of fabrics; Medical, surgical, dental, drug sundries; and Miscellaneous.

Each of these product classifications has been assigned a section number commencing with § 4600.51. Supplementary orders and directives in each group are designated by letter.

§ 4600.50 *Applicability of Rubber Order R-1.* Supplementary orders and directives which appear in Appendix III shall govern in case of inconsistency with other provisions of Rubber Order R-1. These orders and directives may be incorporated in the Rubber Order from time to time, at the discretion of the War Production Board.

§ 4600.51 *Mechanical goods.* The following supplementary orders and directives are applicable to mechanical goods:

(a) *Vibration mount and shock absorber.* No crude rubber or natural latex may be consumed in the manufacture of compression type mountings or insulations of Shore Durometer hardness of 40 and above. Crude rubber may, however, be used for bonding cements and for use in tie-gum compounds which shall not exceed 1/32" in thickness.

No crude rubber or natural latex may be consumed after March 1, 1944, in the manufacture of compression types of mountings or insulators having a Shore Durometer hardness of less than 40. Crude rubber may, however, be used for bonding cements and for use in tie-gum compounds which shall not exceed 1/32" in thickness.

No crude rubber or natural latex may be consumed after March 1, 1944, in the manufacture of plate, sandwich, tubular, or other types of shear mountings or insulations. This restriction covers mountings or insulations where the temperatures of applications are minus 40° F. and above. Aircraft engine and instrument mounts may be considered as falling in the applications functioning below minus 40° F. Crude rubber may be used for bonding cements and tie-gum compounds which shall not exceed 1/32" in thickness.

Torsional vibration dampers may be manufactured from crude rubber until further notice.

(b) [Deleted Jan. 12, 1944]

(c) *Pipe rings.* After February 1, 1944, no crude rubber or natural latex may be consumed in the manufacture of pipe rings.

(d) *Milking machine inflations.* After April 1, 1944, no crude rubber or natural latex may be consumed in the manufacture of milking machine inflations. During the month of March, 1944, no person shall manufacture milking machine inflations using crude rubber or natural latex in more than 50% of his production during the month.

Liquefied petroleum gas except when sold for use in the manufacture of synthetic rubber and aviation gasoline.
Industrial naphthas and solvents derived from petroleum.

SEC. 1.2 *To what transactions, persons and areas this regulation is applicable.* (a) This regulation covers all types of sales and deliveries either by refiners, blenders, resellers or any other person with the following exceptions:

(1) Retail sales at retail establishments.

(2) Exchanges of petroleum products between refiners unless a provision is written or a price established solely for this type of transaction.

(3) Sales between original suppliers pursuant to assignments or reassignments under Petroleum Directive No. 59 of the Petroleum Administration for War unless a provision is written or a price established solely for this type of transaction.

(4) Sales between corporations when one is a wholly owned subsidiary of the other, or when both are wholly owned subsidiaries of a third corporation, and sales between such other affiliated corporations as are especially excepted by order in writing of the Price Administrator or his duly authorized representative.

(5) Sales by the Defense Supplies Corporation at pipe line termini.

(b) This regulation applies in the forty-eight states of the United States, District of Columbia and the territories and possessions of the United States except in the Panama Canal Zone where the provisions of Supplementary Order No. 8 apply.

SEC. 1.3 *Products and transactions exempted from the General Maximum Price Regulation.* Any products or transactions stated in sections 1.1 or 1.2 to be excepted from the coverage of the provisions of this Regulation are also exempt from the provisions of the General Maximum Price Regulation.

SEC. 1.4 *Sales for export.* The maximum price at which a person may export any commodity covered by this regulation shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation including amendments issued or hereafter issued by the Office of Price Administration.

SEC. 1.5 *Imports.* The provisions of this regulation do not apply to the purchases, sales or deliveries of the commodities named in this regulation if they originate outside of and are imported into the continental United States. Sales, purchases and deliveries of such imported commodities are governed by the provisions of the Maximum Import Regulation.

SEC. 1.6 *Sales to United States and other governments under secret contract excepted.* This regulation shall not apply to sales or deliveries of any product made under a contract or subcontract that is officially classified as "Secret" and certified as such to the Office of Price Administration by the United States or any agency thereof, or by the Government or any agency thereof of any country whose defense the President deems vital to the defense of the United States under the terms of the Act of March 11, 1941 entitled "An Act to Promote the Defense of the United States". Such certification shall set forth the date of the secret contract or subcontract and its number or other designation. The certifying Government agency shall notify the contractor or subcontractor and the Office of Price Administration whenever such contract or subcontract ceases to be secret; upon receipt of such notification this exception shall not apply.

SEC. 1.7 *Transfers of business or stock in trade.* This section covers cases where the business effects or stock in trade of any seller or any person are sold, leased or otherwise transferred after October 15, 1941, and the transferee carries on the business or contracts to deal in the same commodity in an establishment separated from any other establishment previously owned or operated by the transferee. In such cases the maximum prices of the transferee shall be the same as those to which his transferor would have been subject if no such transfer had taken place. His obligation to keep records and make reports shall be the same as those of the transferor. The transferor shall either preserve and make available or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the provisions of this regulation and those of the General Maximum Price Regulation where the latter were applicable.

SEC. 1.8 *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery. Where a petition for adjustment or amendment is pending the buyer and seller may agree that prices for deliveries made during the pendency of the petition shall be determined in accordance with the disposition of the petition. Such change in prices will be allowed if the deliveries are necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended.

SEC. 1.9 *Applications for adjustment and petitions for amendment*—(a) *Government contracts.* Any person who has entered into or proposes to enter into a "Government contract" as defined by Revised Supplementary Order No. 8 who believes that a maximum price contained in this regulation impedes or threatens to impede production, manufacture or distribution of a commodity essential to the war program, may file an application for adjustment in accordance with Procedural Regulation No. 6 and under the terms of Revised Supplementary Order No. 9.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

(d) *Local shortages.* The Office of Price Administration, or any duly authorized representative thereof, may adjust by order any maximum price established under this regulation for any seller or group of sellers when it appears:

(1) That there exists or threatens to exist in a particular locality a shortage in the supply of a petroleum product which aids directly in the war program or is essential to a standard of living consistent with the prosecution of the war; and

(2) That such local shortage will be substantially reduced or eliminated by adjusting the maximum prices of such seller and of like sellers for such petroleum product; and

(3) That such adjustment will not create or tend to create a shortage, or a need for increase in prices, in another locality, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

NOTE: Applications for adjustment shall be filed in Washington, D. C. in accordance with Revised Procedural Regulation No. 1.

(4) Any maximum price or prices established pursuant to an order issued under the provisions of § 1340.156 (d) of Revised Price Schedule 88 shall continue in full force and effect subject to revocation or amendment upon written notice from the Office of Price Administration.

SEC. 1.10 *Taxes.* Any tax increase or new tax hereafter imposed upon or incident to the sale, delivery, processing or use of any petroleum product covered by this regulation may be collected by a seller in addition to the maximum prices established under this regulation.

NOTE: Supplementary Order No. 31 (7 F.R. 9894) provides that: "Notwithstanding the provisions of any price regulation, the tax on transportation of all property (excepting coal) imposed by section 620 of the Revenue Act of 1942 shall, for purposes of determining the applicable maximum price of any commodity or service, be treated as though it were an increase of 3% in the amount charged by every person engaged in the business of transporting property for hire. It shall not be treated, under any provision of any price regulation or any interpretation thereof, as a tax for which a charge may be made in addition to the maximum price."

SEC. 1.11 *Shifts which must be reported.* A seller who on the last sale prior to January 15, 1944 sold a particular petroleum product to a purchaser who is a reseller on a delivered price basis at a given point and thereafter sells such a reseller on an f. o. b. shipping point price basis shall report such fact to the regional office of the Office of Price Administration serving the point of destination for such shipment within ten days after either the effective date of this regulation or the date such sale is made, if but only if, the effect of selling on an f. o. b. shipping point price basis is to increase the laid-down cost to the reseller above the seller's maximum delivered price to such reseller.

SEC. 1.12 *Records and price filing requirements.* Every person selling petroleum products subject to this regulation shall for a period of two years keep and make available for examination by the Office of Price Administration records of the same kind as he customarily kept, relating to the prices which he charged for such petroleum products and in addition, records showing the basis upon which he determined maximum prices for such petroleum products.

SEC. 1.13 *Compliance with this regulation required.* (a) On and after the effective date of this regulation regardless of any contract, obligation or understanding, no person shall sell or deliver and no person shall buy or receive in the course of trade or business any petroleum products covered by this regulation at prices higher than the maximum prices fixed by this regulation, and no person shall agree, offer, or attempt to do any of these things. Prices lower than the maximum prices may, of course, be charged and paid.

(b) *Evasion.* The price limitations set forth in this regulation shall not be evaded either by direct or indirect methods in connection with a sale, delivery or transfer of petroleum products alone or in conjunction with any other materials or by way of any commission, service, transportation, loading, tank car rental or other charge or discount, premium or privilege or by tying agreement or other trade understanding or by a change in the quality of a product or otherwise.

(c) *Penalties for non-compliance*—(1) *In general.* Any person violating a provision of this regulation is subject to the criminal penalties, civil enforcement actions and suits for treble damages provided by the Emergency Price Control Act of 1942 as amended.

War procurement agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. Persons who make sales covered by this regulation to war procurement agencies and buyers to whom such products have been allocated by any such agencies are, however, subject to all the liabilities imposed by this regulation. "War procurement agencies" include the War Department, the Navy Department, the United States Maritime Commission and the Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies.

(d) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 1.14 *Definitions.* (a) "Person" includes any individual, corporation, partnership, association, or any other organized group of persons, the legal successors thereto and representatives thereof and includes any government, its political subdivisions and agencies.

(b) "Product of the same grade." For a product of a particular seller to be regarded as of the same grade as the product of another seller it must customarily have been so regarded in trade practice at the point of sale and it must be a product that has customarily been sold in competition with the product of such other seller.

(c) "Contract" means an agreement, the existence of which is established by written evidence.

(d) As determined or established under any provision of this regulation, a maximum price of a product in bulk lots f. o. b. a refinery or a shipping point means a price that a seller may charge for the product loaded into transportation facilities except when the product has been placed in packages or containers for shipment.

(e) "Tank wagon price" means the price at which a petroleum product is sold and delivered by tank wagon to the ultimate consumer of the particular product or to a person who resells the product at a retail establishment.

(f) "Tank wagon area" as used in this regulation means the reference seller's tank wagon area served from any given point (see Article VII for designated reference sellers).

(g) "Retail establishment" means a store, shop, garage, service station, or other place of business in which a petroleum product covered by this regulation is sold at retail other than by delivery in tank wagon or larger lots.

(h) "Reseller" as used in any paragraph of Article II of this regulation means a reseller at a retail establishment.

(j) "Marketing" and "eligible marketer".

(1) "Marketing", as the term is used in this regulation, means the business of buying petroleum products and reselling the same to any person other than a domestic consumer.

(2) An "eligible marketer" is a marketer who within the 60 day period preceding January 15, 1944, was engaged in the business of marketing petroleum products covered by this regulation and was maintaining an office therefor. SEC. 1.15 *How to ascertain a particular maximum price under this regulation*—(a) *Prices of fuel oil and fuels (except waste lubricating oil or re-refined lubricating oil prices).* After you have read Article I containing various general provisions, check Article II and ascertain whether there is a specific maximum price at the shipping or delivery point involved in your sale; if not, and if you are selling a fuel oil of the types mentioned in Article III, your maximum price will be established or determined under one of the tables therein and the provisions of the Article. If neither Article II nor III applies, it may be that your maximum price can be determined from one of the formulas set forth in Article V.

If it can be, then you should also examine Article VI carefully to ascertain whether there are any additions which may be made or any reductions which must be made to the formula price. Note that more than one addition to the maximum price determined under Article V may be provided by Article VI. If you are concerned with a maximum tank wagon price, Article VII should then be examined. It deals with provisions for determining a maximum tank wagon price at the point of sale in accordance with the maximum tank wagon price of the state's reference seller at the same point. Note two things: First, if you have not been able to ascertain your maximum price under any preceding Article of the regulation, you may adopt the reference seller's price providing he has one at that particular point, and second, even if your price has been determined under Article V you may nevertheless at some points adopt the reference seller's price instead if it is higher than your own, though at other points you are required to take the reference seller's price even if it is lower than yours.

If you have not been able to ascertain a maximum price under the aforementioned Articles, you should then apply to the Office of Price Administration for a maximum price pursuant to the provisions of Article VIII.

(b) *Prices of waste lubricating oil or re-refined lubricating oil sold for use as fuel oil.* Read Article I for the various general provisions of the regulation, then turn to Article VIII which provides that maximum prices for either waste lubricating oil or re-refined lubricating oil must be established by application to the Office of Price Administration. There is no other method for establishing a maximum price for such products.

(c) *Liquefied petroleum gas prices.* After you have read Article I containing general provisions, check Article II and ascertain whether there is a specific maximum price at the shipping or delivery point involved in your sale. If Article II does not apply, it may be that your maximum price can be determined from the formulas set forth in Article V.

If it can be, then you should also examine Article VI carefully to ascertain whether there are any additions which may be made or reductions which must be made to the formula price.

If you have not been able to ascertain maximum prices under the aforementioned articles, you should then apply to the Office of Price Administration for a maximum price pursuant to the provisions of Article VIII.

(d) *Gasoline prices.* After you have read Article I containing various general provisions, check Article IV and ascertain whether there is a specific maximum price at the shipping or delivery point involved in your sale. If not, it may be that your maximum price can be determined from the formulas set forth in Article V.

If it can be, then you should also examine Article VI carefully to ascertain whether there are any additions which may be made or any reductions which must be made to the formula price. Note that more than one addition to a maximum price determined under Article V may be provided by Article VI. If you are concerned with a maximum tank wagon price, Article VII should then be examined. It deals with provisions for determining a maximum tank wagon price at the point of sale in accordance with the maximum tank wagon price of the state's reference seller at the same point. Note two things: First, if you have not been able to ascertain your maximum price under any preceding article of the regulation, you may adopt the reference seller's price providing he has one at that particular point, and second, even if your price has been determined under Article V you may nevertheless at some points adopt the reference seller's price instead if it is higher than your own, though at other points you are required to take the reference seller's price even if it is lower than yours.

If you have not been able to ascertain a maximum price under the aforementioned articles, you should then apply to the Office of Price Administration for a maximum price pursuant to the provisions of Article VIII.

(e) *Naphtha and solvent prices.* After you have read Article I containing various general provisions, turn to Article V. It may be that your maximum price can be determined from the formulas set forth in such article. If it can be, then you should also examine Article VI carefully to ascertain whether there are any additions which may be made or any reductions which must be made to the formula price. Note that more than one addition to a maximum price determined under Article V may be provided by Article VI.

If you are not able to ascertain a maximum price under Article V, you must apply to the Office of Price Administration for a maximum price pursuant to the provisions of Article VIII.

(b) *On sales to governmental agencies pursuant to public bidding.* If bids are taken by a governmental agency on an f. o. b. shipping point price basis then, on such a bid, if the bidder is an eligible marketer, as defined in section 1.14 (j), the sum of ¼ of a cent per gallon may be added to a maximum f. o. b. refinery price established for the particular shipping point under any other section of this Article II, *Provided*, That the laid-down cost to such governmental agency does not exceed the sum of the maximum f. o. b. price of each person participating in the particular bidding as determined or established under any other section of this regulation for the shipping point from which each bidder proposes to make shipment plus the actual cost of transportation that would be incurred from such point to destination by such person.

Special section 2—Permissible brokerage charges to buyers. The terms "broker," "eligible broker" and "brokerage commission" are defined in section 1.14 (k) of this regulation. On f. o. b. refinery shipments found or negotiated by an eligible broker or eligible brokers a buyer may, however, be charged such brokerage commission which, added to the applicable maximum f. o. b. refinery price established below in this Article II, will not increase the buyer's cost f. o. b. the particular refinery to more than ⅛ of a cent per gallon above the said maximum f. o. b. refinery price.

ARTICLE V—FORMULAS FOR ASCERTAINING MAXIMUM PRICES

SEC. 5.1 *Published prices.* A seller's maximum price for a petroleum product of a particular grade shall be the lowest quoted price published in the October 8, 1941 issue of the National Petroleum News for a product of the same grade. Where such products are sold and prices are quoted on a delivered basis then the maximum delivered price shall be the lowest quoted delivered price so published. Where products are sold and prices are quoted on an f. o. b. shipping point basis, then the maximum f. o. b. price shall be the lowest quoted f. o. b. price so published.

Quotations in the above named periodical for 80, 72–74, and 66–70 octane motor gasoline; for kerosene and/or No. 1 fuel, No. 2, No. 3, No. 5 and No. 6 fuel oil, as set forth on Page 42 of such publication under the heading "Atlantic Coast," except when prices quoted are specifically designated as barge prices, shall be used only in determining a seller's maximum price for such products loaded into motor transports and tank cars.

Quotations in the above-named periodical for the States of California, Oregon, Washington, Arizona and Nevada shall not be used in determining maximum prices.

If a seller's maximum price for any product covered by this regulation is established by this paragraph and if on his last sale of either of such products to a purchaser of a particular class during the 60 days prior to October 15, 1941 the seller granted a discount or discounts and the discount or discounts were stated as such in the contract of sale, or on the invoice to the purchaser, then discounts no less favorable shall be granted by the seller to all purchasers of the same class in connection with sales of the product on which the discount was granted. Deliveries pursuant to contracts of sale entered into more than 60 days prior to October 15, 1941, shall not be considered as sales for the purpose of determining discounts hereunder.

SEC. 5.2 *In accordance with price charged on specified sales in a base period*—(a) *Definition of sale.* The term "sale" as used in section 5.2 shall include (1) Sales and contracts of sale made during the period specified, (2) Deliveries made during the period specified under a contract made prior thereto, if the prices chargeable under such contract were adjustable to reflect market conditions during the said period, and (3) Deliveries to tank wagon resellers during the period specified under a contract made prior thereto if said contract provided for varying the price to the reseller in accordance with a stipulated posted or market price (or prices) at the point or points where such buyer resells.

(b) *Definition of purchaser of the same class.* "Purchaser of the same class", as used in sections 5.2 and 5.3, refers to the practice adopted by the seller in setting different prices for a commodity for sales to purchasers performing different functions (for example, refiner; jobber; distributor; commercial, industrial or private consumer; service station tank car dealer; divided or undivided tank wagon dealer; etc.), or for purchasers performing the same function but located in different areas or buying in different quantities or grades or under different conditions of sale. Price is prima facie evidence but not conclusive evidence to be considered in determining if a purchaser belongs to a particular class; however, a lower price to a particular purchaser which was to meet competition and otherwise was inconsistent with the seller's practice in setting the same price to the particular purchaser and one or more other purchasers, shall neither result in placing the particular purchaser in a lower price class nor be considered in determining a seller's maximum price.

(c) *Maximum prices of fuel oil,*[1] *fuels, gasoline and liquefied petroleum gas.* Where the maximum price for fuel oil, fuel, liquefied petroleum gas, or gasoline at a given shipping or delivery point cannot be determined under section 5.1 the maximum price for each seller at such shipping or delivery point, except as provided hereunder in paragraph (d), shall not exceed the price charged at that point by him on the last sale of the same product to a purchaser of the same class within 60 days prior to October 15, 1941. Where the product is sold on a delivered basis at a given point the maximum price shall be the price charged by the seller on the last sale of the same product to a purchaser of the same class made on a delivered basis at that point in the period specified. Where the product is sold at a given point on an f. o. b. shipping point basis the maximum price shall be the price charged by the seller on the last f. o. b. shipping point sale at that point to a purchaser of the same class in the period specified.

(d) *In the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, and in the District of Columbia.—Maximum prices of Nos. 2, 3 and 4 fuel oil according to size of delivery.* Within the States of Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, and in the District of Columbia, any seller's maximum per gallon tank wagon price for Nos. 2, 3 and 4 distillate fuel oils at a particular point shall be his maximum per gallon tank wagon price established under provisions of sections 5.2 (c) and 6.3 of this regulation for single lot deliveries of 150 gallons or more of the product of the same grade at the same point except that any seller shall be permitted to charge an additional amount of not more than ½¢ per gallon on deliveries of less than 100 gallons.

(e) *Maximum prices for naphthas and solvents.* Where the maximum price for a naphtha or solvent cannot be determined under section 5.1 of this article the maximum price for each seller at each shipping point or delivery point shall not exceed the highest price charged at that point by him to a purchaser of the same class within the month of March 1942. Where such product is sold on a delivered basis at such point the maximum price charged shall be the highest price charged on a delivered basis at that point in the month specified to a purchaser of the same class. Where such product is sold on an f. o. b. shipping point basis the maximum price shall be the highest price charged a purchaser of the same class on an f. o. b. shipping point sale in the month specified at the same shipping point.

SEC. 5.3 *In accordance with maximum prices of other sellers at the same point.* When the maximum price at a given shipping point for any petroleum product covered by this regulation cannot be determined under sections 5.1 or 5.2 a seller's maximum price at such shipping point shall be the highest maximum price at such shipping point of any seller of the same class to a purchaser of the same class. When the maximum price at a given delivery point for any such petroleum product cannot be determined under sections 5.1 or 5.2 a seller's maximum price at the particular delivery point shall be the highest maximum delivered price at such point of a seller of the same class to a purchaser of the same class.

ARTICLE VI—INCREASES OR REDUCTIONS TO MAXIMUM PRICES DETERMINED UNDER ARTICLE V

SEC. 6.1 *On any product covered by this regulation*—(a) *On sales to government agencies pursuant to public bidding.* (1) A seller may charge for any petroleum product covered by this regulation on any sale thereof, pursuant to open and public bidding, to any governmental agency, whether state or Federal, or to any state or political sub-division thereof, either

The maximum price for all sales of oil burner maintenance and repair services shall be determined in accordance with Supplementary Service Regulation No. 19.

(d) *In the States of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota and Wisconsin.—On sales to certain tank wagon sellers.* Under the circumstances set forth in subparagraphs (1) and (2) below, in the States of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin, on deliveries of kerosene and fuel oil by a supplier to a tank wagon seller whose maximum price has been increased by the provisions of section 7.4, there may be added to the supplier's maximum price, as determined under section 5.2 for a particular grade at a particular delivery point, a sum computed pursuant to the provisions of subparagraphs (1) or (2) below:

In computing the supplier's maximum price, the tank wagon price used in any computation herein shall be regarded as .3 of a cent less than the

SEC. 7.5 *In States other than those covered by section 7.4—Use of reference seller's maximum prices optional.* A seller's maximum tank wagon price, in states other than those named in section 7.4, for a particular grade of gasoline, kerosene, range or stove oil, distillate fuel oils, and tractor and diesel fuel shall be the maximum price as determined under other provisions of this regulation of the reference tank wagon seller for the same grade at the same point: *Provided,* The reference tank wagon seller's maximum price is higher than the maximum price which would otherwise be applicable.

ARTICLE VIII—MAXIMUM PRICES TO BE ESTABLISHED UPON APPLICATION

SEC. 8.1 *Continuing effectiveness of certain maximum prices heretofore approved under § 1340.159 (b) (7) or (b) (16) of Revised Price Schedule No. 88.* If a maximum price for a product at a given shipping or deliver point cannot be established under any preceding article of this regulation and if a maximum price for the product at the particular point was heretofore approved for the seller under § 1340.159 (b) (16) or § 1340.159 (b) (7) of Revised Price Schedule No. 88, then such approval shall be deemed to continue in full force and effect as if granted under section 8.2 or 8.3 below.

SEC. 8.2 *For waste or re-refined lubricating oil sold for use as fuel oil.* When waste lubricating oil or re-refined lubricating oil is sold for use as fuel oil, a seller may not charge and a buyer may not pay a price therefor until a maximum price has been approved in writing by the Office of Price Administration. Applications for such approval must be made in writing to the Petroleum Branch of the Office of Price Administration, Washington, D. C., and shall contain the same information as is required for an application under section 8.3 below.

SEC. 8.3 *For all other products covered by this regulation.* (a) If under any preceding section of this regulation a seller is unable to determine the maximum price at a given shipping or delivery point for any product covered by this regulation then the seller may nevertheless make a sale of such product at the said point or may notify the Office of Price Administration in writing that he has set a tentative maximum price for the product at the said shipping or delivery point. In giving notice of the setting of such tentative maximum price or within 15 days of the making of the said sale, the seller shall file with the Petroleum Branch of the Office of Price Administration, Washington, D. C., a written request for the approval of either the tentative or sale price and together with such request a statement setting forth:

(1) Such tentative or sale price and in the latter case, full details of the sale;

(2) An explanation as to why it is impossible for the seller to establish a selling price under preceding articles of this regulation;

(3) Whenever applicable that the price set or charged by him is in line with the level of maximum prices for the three most closely competitive sellers of his same class and his own maximum price for the same product at three other points nearest the point at which the tentative price is set;

(4) Whenever subparagraph (3) is not applicable, an explanation, supplemented by specifications as to how the particular product differs from the two products having the most nearly similar specifications for which maximum prices are established under preceding articles of this schedule, the maximum prices of such products and a statement showing a computation of the cost to the seller[1] of the particular product and how that differs from the cost to him of the two products having the most nearly similar specifications.

Such tentative or sale price shall be the seller's maximum price at the particular shipping point or delivery point for the particular product until the said price is disapproved in writing by the Office of Price Administration or until the seller is notified in writing that a substitute maximum price has been set by the Office of Price Administration. Either an approved tentative or sale price or a substitute maximum price set by the Office of Price Administration may be replaced by another maximum price upon written notice to the seller from the Office of Price Administration.

(b) If a seller shall fail to report a sale as required by paragraph (a) above the Office of Price Administration may at any time upon written notice to the seller establish his maximum price for the particular product at the particular point effective retroactively to a date 15 days after the making of the said sale.

Effective date. This regulation shall become effective February 19, 1944 as to the 48 states and the District of Columbia and April 4, 1944 as to the territories and possessions, except the Panama Canal Zone.

NOTE: All reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 14th day of February 1944.

PART 1305—ADMINISTRATION

[Gen. RO 5,[1] Amdt. 46]

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

General Ration Order No. 5 is amended in the following respects:

1. Section 1.2 (b) is amended by inserting the words "such as a particular plant" after the words "fixed location" in the parenthetical statement in that section.

2. Section 2.1 is amended by substituting the word "six" for the word "three" in the title.

3. Section 2.1 (a) is amended to read as follows:

(a) Institutional user establishments are divided into six groups:

(1) A "pooled book" group, called Group I;
(2) An "involuntary confinement" group, called Group II;
(3) A "general group", called Group III;
(4) An "on the job feeding" group, called Group IV;
(5) A "hospital" group, called Group V;
(6) A "child feeding and school lunch" group, called Group VI.

3a. Section 2.2 (b) is amended by adding the following sentence at the end thereof: "Any other establishments which meet the above tests are in Group I, even if they also meet the tests for Group IV, V, or VI."

4. Section 2.3 (a) is amended by adding the following parenthetical sentence at the end thereof: "(Public and private orphanages are included in Group II.)"

5. Section 2.4 (a) is amended to read as follows:

(a) All institutional user establishments not covered by sections 2.2, 2.3, 2.5, 2.6 or 2.7 are in Group III.

6. Section 2.5 is redesignated section 2.8, and a new section 2.5 is added to read as follows:

SEC. 2.5 *Group IV establishments and users.* (a) An institutional user establishment is in Group IV if it is operated by an employer, or by his employees or their representatives, principally for the purpose of feeding those employees in connection with their work. An institutional user establishment is also in Group IV if it is operated (by anyone) principally for the purpose of feeding employees of another person pursuant to a contract and if ninety percent (90%) or more of its services of food regularly are to the employees covered by that contract.

(b) Any institutional user who has an establishment in Group IV is called a Group IV institutional user with respect to that establishment.

7. Section 2.6 is added to read as follows:

SEC. 2.6 *Group V establishments and users.* (a) A hospital or other establishment principally engaged in the care and treatment of the sick is in Group V. (However, a hospital or similar establishment which is part of a prison, insane asylum, home for delinquents or other institution of involuntary confinement, or of a public or private orphanage, is in Group II.)

(b) Any institutional user who has an establishment in Group V is called a Group V institutional user with respect to that establishment.

8. Section 2.7 is added to read as follows:

SEC. 2.7 *Group VI establishments and users.* (a) An institutional user establishment is in Group VI if it is operated at a school, child care center, children's camp or similar establishment and if ninety percent (90%) or more of the services of food there are to children of 18 years or less.

(b) Any institutional user who has an establishment in Group VI is called a Group VI institutional user with respect to that establishment.

8a. Section 3.5 is amended to read as follows:

SEC. 3.5 *Re-registration of certain establishments.* (a) An institutional user who combined in a single registration establishments which, beginning March 1, 1944, are in more than one group as a result of the provisions of Article II, as amended, shall re-register those establishments, according to their groups, when he next applies for allotments after February 29, 1944. He shall file with the Board additional OPA Forms R–1307 and R–1307 Supplement, giving the information called for by those forms separately for each group of establishments. Any remaining excess inventory of the originally combined establishments may be apportioned among the establishments as re-registered, in such proportion as he chooses.

9. The title of Article V is amended to read as follows: "Article V—Allotments for Groups II, III, IV, V and VI users".

10. Section 5.1 is amended to read as follows:

SEC. 5.1 *Institutional users (other than Group I users) are entitled to allotments.* (a) Institutional users are entitled to allotments of rationed foods for establishments in Groups II, III, IV, V and VI. (A Group I user is not entitled to allotments of rationed foods and the provisions of this order dealing with allotments do not apply to him except where specific provision is made for him.)

11. Section 5.2 (a) is amended by deleting the words "Groups II and III" in the first sentence of that section.

12. Section 5.3 is amended by deleting the words "Groups II and III" and substituting in place thereof the word "institutional" in the headnote of that section.

13. Section 5.3 (a) is amended by deleting the words "in Group II or III" in the first sentence of that section, and by changing the words "in these groups" to read "other than a Group I user" in the first sentence of the parenthetical statement of that section.

14. Section 5.3 (b) is amended to read as follows:

(b) Applications for allotments are to be made to the Board, in person or by mail, during the first fifteen (15) days of each allotment period, on OPA Form R–1309 (Revised). However, applications for the March-April 1944 period may be made during the first thirty (30) days of that period. An institutional user who will be in Group IV, V or VI because of the provisions of Article II, shall be classified in one of these groups when he applies for allotments for the March-April 1944 period. He shall submit together with his Form R–1309 (Revised) information showing that he is within one of those groups. (Applications for supplemental allotments may, however, be made at the times and under the conditions specified in Article XI.)

15. Section 5.4 is amended by deleting the words "Group II or III" in the title.

16. Section 5.4 (a) is amended by deleting the words "Group II or III" in the first sentence of that section.

17. Sections 5.4 (c) and 5.4 (d) are amended to read as follows:

(c) Each future allotment of a rationed food shall be equal in amount to the institutional user's last regular allotment. (For example, on May 1, 1944, an applicant applies for a regular allotment of sugar for May and June and a future allotment for July and August. If his allotment for May and June is 500 pounds, the Board may grant an allotment of an additional 500 pounds for July and August.)

(d) When an applicant who has received a future allotment next applies for a regular allotment, the Board shall compute the regular allotment which he would have received for the allotment period covered by the future allotment. If the amount of the future allotment exceeds the amount of that regular allotment, the difference shall be deducted from the allotment for which he is applying. If the amount of the future allotment is less than the amount of the regular allotment which he would have been entitled to receive, the difference shall be added to the allotment for which he is applying.

18. Section 5.5 is amended by changing the word "food" to read "meals" in paragraphs (a) (4), (a) (6), (a) (8), and (d) and by adding a paragraph (f) to read as follows:

(f) The terms "meal" and "meal service" are used in this Order for convenience to cover any service of food other than a service of a refreshment only. This term "food", when used alone, covers all food items and includes both meals and refreshments. OPA Forms R–1307 Supplement and R–1309 (Revised) use the terms "food services" and "persons served food". These terms, for the purposes of this Order, have the same meaning as "meal services" and "persons served meals".

19. Section 5.6 is amended by adding the following note after paragraph (c) of that section:

NOTE: Some Group III users referred to in this section and in section 5.5 are changed to Group IV, V or VI users, effective March 1, 1944. However, the provisions of sections 5.5 and 5.6 apply to them despite the change in groupings.

20. Section 6.1 (a) is amended by deleting the first sentence of that section and substituting in place thereof the following sentence:

(a) An institutional user's allotment for establishments in Group II is based on the total number of persons he served there.

21. Section 6.2 is amended to read as follows:

SEC. 6.2 *Computation of allotments.* (a) The allotment of each rationed food for each allotment period shall be computed by multiplying the total number of persons served during the preceding allotment period by the allowance per person fixed for that food.

22. Section 6.3 is revoked.

23. The title of Article VII is amended to read as follows "Article VII—Computation of allotments for Group III, IV, V, and VI users".

24. Section 7.1 is amended to read as follows:

SEC. 7.1 *Group III, IV, V and VI users have a separate "base" for each rationed food for meals and for services of refreshments only.* (a) An institutional user has a base for each rationed food for "meal services" and a separate base for "services of refreshments only", for his establishments in Groups III, IV, V and VI.

(b) His base for meal services is determined in the following way:

(1) The amount of each rationed food used there during December 1942 for meal services is multiplied by the "December use factor" fixed for that food by the Office of Price Administration as set forth in a supplement to this order. (For the purpose of determining the base, canned milk shall be excluded from, and all cheeses except cottage, pot and bakers', shall be included in, foods covered by Ration Order No. 16);

(2) The number of persons served meals there during December 1942, is multiplied by the "allowance per person" fixed for that rationed food by the Office of Price Administration, as set forth in a supplement to this order;

(3) The smaller of the two figures obtained under (1) and (2) above is his "base" for meal services for that rationed food.

(4) The applicable "December use factor" and "allowance per person" in (1) and (2) above depend upon the percentage of bread, rolls, doughnuts and crullers, pies, cakes, and pastries he served there during December 1942, that he himself baked for such service during that month. The tests for determining the factor and the allowance per person that are to be applied appear in a supplement to this order.

(c) His base for services of refreshments only is determined by multiplying the amount of each rationed food used there during December 1942 for services of refreshments only, by the refreshment factor for that food, as set forth in a supplement to this order. (For the purpose of determining the base canned milk shall be excluded from, and all cheeses except cottage, pot and bakers', shall be included in foods covered by Ration Order No. 16.)

(d) In counting the number of persons served, anyone who was served more than once is to be counted separately for each occasion he was served. (For example, a person who was served on 30 separate occasions is to be counted as if he were thirty (30) persons.)

(e) In counting the number of persons served and in determining the amount of rationed food used during December 1942, services to Army, Navy, Marine Corps or Coast Guard personnel messed under the command of a commissioned or non-commissioned officer, who were served pursuant to written contract with an agency of the United States, are not to be included.

(f) The amount of sugar used is figured in pounds. The amount of processed foods and foods covered by Ration Order 16 used is figured in points and their point value is to be computed in the same way as the point value of the opening inventory of processed foods and foods covered by Ration Order 16. (This computation is covered by sections 3.2 (f) and 3.6 (b).)

(g) Whenever the December use factor, the allowance per person or the refreshment factor for a rationed food is changed, the base for that food of any institutional user affected by the change shall be recomputed when he next applies for his regular allotment. The recomputed base shall be treated as his base for all purposes.

25. Section 7.2 is amended to read as follows:

SEC. 7.2 *Institutional users who discontinue baking operations.* (a) An institutional user whose bases for meal services were computed by using the higher factors and allowances for baking operations fixed in the supplement to the order, may, during the March-April 1944 period, or during a subsequent period, cease to bake the percentages of the baked goods that he uses necessary to qualify for those factors and allowances, as set forth in the supplement. If he ceases, his bases for meal services shall be recomputed when he next applies for regular allotments, by using the lower factors and allowances fixed in the supplement for those who did not do enough baking to qualify.

26. Section 7.3 is amended to read as follows:

SEC. 7.3 *Computation of meal service allotments for Group III users who charge.* (a) If an institutional user charges for meal services and did charge during the month used in determining his base, his allotment of each rationed food for meal services for his establishments in Group III, is determined by comparing his volume of business during December 1942 with his volume during the preceding period.

(b) If the number of persons served meals during the preceding period is less than twice the number of persons he served meals in December 1942, his allotment of a rationed food for meal services is computed in the following way:

(1) The number of persons he served meals during the preceding period is divided by the number he served meals in December 1942;

(2) The figure so obtained is multiplied by his meal service base for that food;

(3) The result is his allotment for meal services.

(c) If the number of persons he served meals and his dollar revenue from meal services during the preceding period are both more than twice his corresponding figures for December 1942, his allotment of a rationed food for meal services is computed in the following way:

(1) The number of persons served meals during the preceding period is divided by the number he served meals in December 1942;

(2) His dollar revenue from meal services during the preceding period is divided by his dollar revenue from meal services in December 1942;

(3) The smaller of the two figures obtained under (1) and (2) above is multiplied by his meal service base for that food;

(4) The result is his allotment for meal services.

(d) In all other cases, his allotment for meal services is twice his meal service base for each rationed food.

(e) In counting the persons served and determining his dollar revenue, service to Army, Navy, Marine Corps or Coast Guard personnel messed under the command of a commissioned or non-commissioned officer who were served pursuant to written contract with an agency of the United States is not to be included.

(f) Where an institutional user makes a combined charge for food and lodging or other services, his dollar revenue is computed by determining how much of the total charge reasonably covers the service of food and non-alcoholic beverages. (However, if the combined charge covers entertainment that part of the charge is included in the dollar revenue.) If a determination has been made under any maximum rent regulation of the Office of Price Administration of the part of the total charge which is for rent, that determination shall be used for the purpose of this paragraph.

27. Section 7.4 is amended to read as follows:

SEC. 7.4 *Commutation of meal service allotments for Group III users who do not charge.* (a) If a Group III institutional user does not charge for meal services, or did not charge during the month used in determining his base, his allotment of each rationed food for meal

*Copies may be obtained from the Office of Price Administration.

services for his establishments in Group III, is twice his meal service base for that food. However, if the number of persons he served meals during the preceding period is less than twice the number he served meals in December 1942, his allotment of a rationed food for meal services is computed in the following way:

(1) The number of persons he served meals during the preceding period is divided by the number of persons he served meals in December 1942;

(2) The figure so obtained is multiplied by his meal service base for that food;

(3) The result is his allotment for meal services.

NOTE: A Group III institutional user may not, under this section, obtain an increased allotment for a Group III establishment which made no charge for meal services.

28. Section 7.5 is redesignated section 7.7, section 7.6 is redesignated section 7.8, and a new section 7.5 is added to read as follows:

SEC. 7.5 *Commutation of refreshment service allotments for all Group III users.* (a) A Group III institutional user's allotment of each rationed food for services of refreshments only is computed by multiplying his refreshment base by a multiplier fixed for that food in a supplement to this order. (The meal and refreshment allotments, once obtained, are treated as a single allotment.)

29. A new section 7.6 is added to read as follows:

SEC. 7.6 *Commutation of meal and refreshment service allotments for Group IV, V and VI users.* (a) An institutional user's allotment of each rationed food for meal services for establishments in Group IV, V or VI is computed in the following way:

(1) The number of persons he served meals during the preceding period is divided by the number he served meals during December 1942;

(2) The figure so obtained is multiplied by his meal service base for that food;

(3) The result is his allotment for meal services.

(b) An institutional user's allotment of each rationed food for services of refreshments only for his establishments in Group IV, V or VI is computed by multiplying his refreshment base by a multiplier fixed for that food in a supplement to this order. (The meal and refreshment allotments, once obtained, are treated as a single allotment.)

30. Section 8.1 is amended to read as follows:

SEC. 8.1 *Institutional users who operated during only part of December 1942.* (a) If an institutional user operated his establishment for only part of December 1942 the figures which determine his bases and allotments are to be converted to a full December basis in the following way:

(1) Each of his figures for December 1942 is divided by the number of days he operated or was open for business during that month;

(2) Each result is multiplied by the number of days he would have operated or would have been open for business during December 1942 if it had been a normal month of operation;

(3) The figures so obtained are treated as his figures for December 1942, for all the purposes of this order, just as if those were his actual figures.

31. Section 8.2 is amended to read as follows:

SEC. 8.2 *Institutional users who did not operate in December 1942.* (a) If an institutional user did not operate his establishment during any part of December 1942 but did so at any time between January 1, 1942 and February 28, 1943, the figures which determine his bases and allotments are taken from his most recent period of operations instead of December 1942.

(b) His bases and allotments are to be determined from his figures for his last full calendar month of operation between January 1, 1942 and February 28, 1943. If he did not operate for a full calendar month, his bases and allotments are to be based on his actual figures for the last calendar month in which he operated. However, if the last calendar month is February 1943, his actual figures shall be converted to a full month basis in the way provided in section 8.1 for institutional users who operated during only part of December 1942.

(c) The figures so obtained are treated as his figures for December 1942, for all the purposes of this order just as if those were his actual figures for that full month.

32. Section 9.3 (a) is amended by changing the words "a Group II or III institutional user" in the first sentence of that section to "an institutional user (other than a Group I user)", and by inserting the words "meal service" before the word "allotment" wherever it appears in that section.

33. Section 9.4 and section 9.7 are revoked, section 9.5 is redesignated section 9.4 and section 9.6 is redesignated section 9.5.

34. Section 10.1 is amended to read as follows:

SEC. 10.1 *Seasonal users.* (a) An institutional user is a seasonal user with respect to an establishment which is not in operation during every month in the year. However, if he has two or more establishments registered together, he is a seasonal user as to those establishments only if there is some month in the year in which he does not operate any of them.

(b) A seasonal user who was not in operation between March 1 and March 10, 1943 inclusive, and who did not register between those dates, may register at any time prior to resuming operations. His registration constitutes an application for an allotment for the first allotment period in which he will operate.

(c) His application for an allotment for any subsequent allotment period in which he will operate must be filed during the first fifteen (15) days of the period. However, when he suspends operations he may apply for an allotment for the allotment period following the date on which he suspends operations, even though he will not be in operation during that period. The allotment to which he would be entitled for that period is to be used as his allotment for the allotment period in which he resumes operations. The Board may, at his request, issue a certificate to him when he resumes operations, instead of at the time of the application.

(d) Until a seasonal user has operated in at least two calendar months after February 28, 1943, his allotments for each rationed food shall be twice his bases for that food, except that:

(1) If his bases were determined on a full calendar month of operation (or by conversion to a full calendar month basis of his figures for part of December 1942 or February 1943) and he will not be in operation during the entire allotment period, he must notify the Board of the number of days he will not be in operation during that period. His allotments shall be equal to twice his bases reduced by an amount corresponding to the part of the period during which he will not be in operation;

(2) If his bases were determined on his actual figures for a part of a month only (not converted to a full calendar month basis) and he will operate in any allotment period less than twice the number of days he operated during the month used to determine his base, he shall notify the Board of the number of days he was in operation during that month and of the number of days he will be in operation during the allotment period. His allotments shall be computed by multiplying his bases by the number of days that he will be in operation during the allotment period and then dividing the result by the number of days he was in operation during the month used in determining his bases.

(e) After a seasonal user has been in operation in two calendar months after March 1, 1943, his allotments shall be determined in accordance with section 6.2, 7.3, 7.4, 7.5, or 7.6, whichever is applicable. In computing his allotments, the calendar months in which he was not in operation shall be disregarded and the months in which he was in operation shall be treated as if he operated continuously. (For example, a seasonal user may operate only from August 15 to September 30 and from December 1 to February 28. His January-February allotment will be based on his actual operations in September and December—the two calendar months preceding the allotment period.)

35. Section 10.2 (a) is amended by deleting the words "in Group II or III" in the first sentence of that section and substituting in place thereof the words "other than a Group I user."

36. Section 10.4 is redesignated section 11.7 and amended to read as follows:

SEC. 11.7 *Supplemental allotments for user who has not operated in two months after February 1943.* (a) Until an institutional user has been in operation, after February 1943, in two calendar months prior to the allotment period in which application for a supplemental allotment is made, his eligibility to receive a supplemental allotment shall be determined, and such allotment shall be computed by using his figures for the base month multiplied by two instead of his figures for the preceding allotment period. (However, this section does not apply to a new institutional user's first period of operations, since he may apply in the same manner that he applied to be registered, for permission to correct his estimate of the number of persons to be served during that period, and for an additional allotment computed on the basis of his corrected estimate.)

37. Section 11.1 is amended to read as follows:

SEC. 11.1 *Institutional users may get supplemental allotments for meal services if operations increase.* (a) If an institutional user finds that, because of increased meal services, his allotment of any rationed food will be exhausted before the end of the current period, he may apply for a supplemental allotment for meal services. The application must be made to the Board on OPA Form R-315. However, an institutional user is not entitled to a supplemental allotment for establishments in Group III if he does not charge for food, or did not charge during the month used in determining his base. (No supplemental allotment may be obtained under this Article to provide for an increase in "refreshment services only.")

(b) The application must show the number of persons served meals from the beginning of the current period to the date of the application. In the case of a Group III user, it must also show his dollar revenue from meal services during that time.

38. Section 11.2 is amended to read as follows:

SEC. 11.2 *Supplemental allotments for Group II users.* (a) If a Group II user applies for a supplemental allotment, the Board shall grant it only if it finds that the number of persons he will serve during the current period will be more than twenty percent (20%) larger than the number he served during the preceding period.

(b) The supplemental allotment is to be computed in the following way:

(1) The number of persons he served during the preceding period is subtracted from the total number he will serve during the current period;

(2) The difference is multiplied by the allowance per person for the rationed food for which application is made;

(3) The result is the supplemental allotment to be granted.

39. Section 11.3 is amended to read as follows:

SEC. 11.3 *Supplemental allotment for Group III user.* (a) If a Group III user applies for a supplemental allotment, the Board shall grant it only if it finds that:

(1) The number of persons he will serve meals during the current period and his dollar revenue from meal services during the current period will be more than twenty percent (20%) larger than the corresponding figures during the preceding period; and

(2) He has already served meals in the current period to eighty percent (80%) of the number of persons he served meals during the preceding period and he has already received in the current period eighty percent (80%) of the dollar revenue from meal services that he received in the preceding period.

(b) The supplemental allotment is to be computed in the following way:

(1) The amount of the increase in the number of persons he will serve meals, as estimated by the Board, is divided by the number he served meals during the preceding period;

(2) The amount of the increase in his dollar revenue from meal services, as estimated by the Board, is divided by his dollar revenue from meal services for the preceding period;

(3) The smaller of the two figures obtained in (1) and (2) above, is multiplied by his meal service allotment of the rationed food for the current period;

(4) The result is the supplemental allotment to be granted.

40. Section 11.4 is amended to read as follows:

SEC. 11.4 *Supplemental allotment for Group IV, V and VI users.* (a) If a group IV, V or VI user applies for a supplemental allotment, the Board shall grant it only if it finds that the number of persons he will serve meals during the current period will be twenty percent (20%) larger than the number he served meals during the preceding period.

(b) The supplemental allotment is to be computed in the following way:

(1) The amount of the increase in the number of persons he will serve meals, as estimated by the Board, is divided by the number he served meals during the preceding period;

(2) The figure obtained is multiplied by his meal service allotment of the rationed food for the current period;

(3) The result is the supplemental allotment to be granted.

41. Section 11.5 is amended to read as follows:

SEC. 11.5 *Applicant accounts for supplemental allotment when applying for subsequent allotment.* (a) An institutional user who has received a supplemental allotment of a rationed food prior to March 1, 1944, for which he has not as yet fully accounted, shall, when he applies for his regular allotment for the March-April 1944 period, report the total number of persons served and, except in the case of a Group II user, his dollar revenue for the period for which he received that supplemental allotment. The Board shall compute the amount, if any, to be deducted from his regular allotment in the following way:

(1) The total of his allotments (regular and supplemental) granted for the period in which he received that supplemental allotment is determined;

(2) The number of persons served during that period is divided by the number of persons he served in December 1942;

(3) The dollar revenue (in the case of a Group III user) received during that period is divided by the dollar revenue received in December 1942;

(4) The smaller of the figures obtained in (2) and (3) is multiplied by his base during that period;

(5) If the figure obtained in (1) is larger than the figure obtained in (4), the difference is to be deducted from his allotment for the March-April 1944 period. (He is, however, to be credited with any part of the supplemental allotment for which he has already accounted.)

(b) If he received a supplemental allotment for which he has not yet fully accounted, in more than one period, the procedure set forth in paragraph (a) is to be followed as to each such allotment.

(c) If an institutional user receives a supplemental allotment of a rationed food during the March–April 1944 period or during any subsequent period, it is added to his allotment for meal services for that period. If the total is larger than the allotment for meal services for the next period, the difference must be deducted from his allotment for that next period.

(d) The provisions of this section do not apply to supplemental allotments granted under section 11.6.

41A. A new section 12.3 is added to read as follows:

SEC. 12.3 *Petitions for refreshment base or adjustment.* (a) A Group IV, V or VI user may petition the Board on OPA Form R-315 for a refreshment base or for an adjustment of that base. He shall state the facts required and follow the procedure set out in section 12.2 (a). The Board shall not act upon the petition but shall forward it to the District Office. The District Office may grant a petition for a refreshment base or for an adjustment of a refreshment base if it finds that such relief is necessary to meet the nutritional needs of the persons fed or because of the nature of their work.

42. Section 13.2 (d) is amended by inserting the word "(Revised)" after the words "OPA Form R-1309" in that section.

43. Section 13.2 (e) is amended by substituting the words "allotment period" in place of the words "two periods" in the first sentence of that section.

44. Section 13.2 (f) is amended by changing the figures "6.3" to read "6.2".

45. Section 13.3 is amended by changing the headnote to read as follows:

SEC. 13.3 *New establishments which are registering separately.*

46. Section 13.3 (a) is amended to read as follows:

(a) A person who desires to operate a new Group III establishment at which a charge will be made for the meals served, or a new Group IV, V or VI establishment, and who has no such establishment, or who has two or more such establishments which have been registered separately, or who has only one such

establishment and will register the new one separately, must apply to the Board to be registered pursuant to this section.

47. Section 13.3 (b) (5) is amended by adding the parenthetical phrase "(in the case of a Group III user)" before the semicolon.

48. Section 13.3 (b) (6) is amended to read as follows:

(6) Whether he intends to do his own baking of bread, rolls, doughnuts and orullers, pies, cakes, and pastries, and the percentage he himself expects to bake of each of these baked goods that he expects to serve.

49. Section 13.3 (b) (7) is amended by inserting the word "meals" after the words "he expects to serve."

50. Section 13.3 (d) is amended to read as follows:

(d) If the District Office is satisfied that the new establishment will be a Group III establishment at which a charge for meal services will be made, or a Group IV, V or VI establishment, it shall give the applicant allotments of rationed foods for meal services (but none for refreshment services) for the allotment period in which he commences operations, and shall authorize the Board to issue any certificates to which he may be entitled. The amount of the allotment of each rationed food for that period shall be determined by the District Office on the basis of the manner in which the establishment will be operated, the number of persons which it estimates will be served meals during that time, and of the allotments for meal services which have been granted to similar or comparable establishments. However, in no case may the allotment exceed the amount obtained by multiplying the allowance per person for that food by the estimated number of persons to be served meals. After acting on the application the District Office shall return the file to the Board. Thereafter, applications for allotments shall be made to the Board.

51. Section 13.3 (e) is amended to read as follows:

(e) When he applies for his second allotment he shall report to the Board, on OPA Form R–1307, the following information as to his use of foods during the last thirty (30) days:

(1) His use for meal services of the rationed foods listed in Schedule A of that form (in points for processed foods and foods covered by Ration Order 16 and in pounds for sugar); and

(2) His total use (for all services) of the unrationed foods listed in that schedule.

He shall also report to the Board, on OPA Form R–1307—Supplement, the number of persons served meals and the baking information called for by that form for those thirty (30) days, and, in the case of a Group III user, his dollar revenue from meal services. If he has not yet operated for thirty (30) days, he shall report the information for the number of days he did operate and the figures are to be converted to a full month basis in the manner described in section 8.1. The figures for the last thirty (30) days (or converted to a full month basis if he has not operated for thirty (30) days) shall be used for all the purposes of this order, as if they were his figures for December 1942.

52. Section 13.3 (f) is amended to read as follows:

(f) The Board shall compute a base for meal services for each rationed food (to be used in determining the amount of allotments for the periods following the one in which he commenced operation) in the following way:

(1) The allotment of each rationed food given by the District Office is divided by the number of persons the District Office estimated he would serve meals and the result is multiplied by the number of persons served meals during the last thirty (30) days, computed in accordance with paragraph (e);

(2) The figure obtained shall be his base for meal services. However, if his use of the rationed food for meal services during those thirty (30) days is less than that figure, the amount he used shall be his base for meal services.

53. Section 13.3 (g) is amended to read as follows:

(g) The allotment of each rationed food for meal services for the allotment period following the one in which he began operations shall be twice his base for meal services. The allotments for subsequent periods shall be computed in the same way as the subsequent allotments of other users in that group.

54. Section 13.3 (h) is amended to read as follows:

(h) If the number of persons actually served meals during the period in which he began operations is less than the number of persons which the District Office estimated he would serve meals, his next allotment shall be reduced in an amount computed in the following way:

(1) The allotment of each rationed food given by the District Office is divided by the number of persons the District Office estimated he would serve meals;

(2) The figure obtained is multiplied by the difference between the number of persons actually served meals and the number of persons which the District Office estimated he would serve meals;

(3) The result shall be the reduction in his next allotment.

55. Section 13.4 is amended to read as follows:

SEC. 13.4 *Combined registration of new institutional user establishment.* (a) A person who desires to operate a new institutional user establishment, other than a Group I establishment, to be registered together with one or more other establishments of the same group which he already operates, must notify the Board of his intention to do so and of the address of the proposed establishment. This shall constitute registration on the form already filed for his other establishments. No separate allotment will be granted for the new establishment. He may, however, apply for a supplemental allotment, and the Board is authorized to grant it to him, disregarding the percentage limitations imposed by sections 11.2 (a), 11.3 (a) and 11.4 (a). (There is an exception to this rule as far as registration is concerned in the case of certain educational and eleemosynary Group III establishments, covered in section 28.10 (a).)

56. Section 13.6 is revoked.

57. Section 15.2 (a) is amended by changing the words "Group II or III institutional user" to read "institutional user (other than a Group I user)" and by deleting the phrase "and any allotments granted to him for the next period" in the first sentence of that section.

58. Section 15.3 (b) is amended by deleting the words "are Group II or III establishments," and by adding "(other than Group I)" after the words "same group".

59. Section 15.4 (a) is amended by deleting the words "a Group II or III institutional user" and substituting in place thereof the words "an institutional user (other than a Group I user)" in the first sentence of that section.

60. Section 15.5 is amended by changing the words "Group II and III institutional users" to "Group II, III, IV, V and VI institutional users" and by changing the words "Group II or III institutional users" to "Group II, III, IV, V or VI institutional user" wherever they appear in that section.

61. Section 16.2 (a) and 16.2 (b) are amended by changing the words "a Group II or III institutional user" to "an institutional user (other than a Group I user)" wherever it appears in those sections.

62. Section 16.2 (c) is amended to read as follows:

(c) Any institutional user (other than a Group I user) who is eligible to open a ration bank account and who has combined his establishments in one registration, may open one account for all of his combined establishments or a separate account for each or for any combination of them. No account may be opened for, or serve, establishments in more than one group. If an account is opened pursuant to this paragraph for any establishment in a group, all other establishments in that group must also have an account or accounts.

63. Section 17.1 is amended by changing the headnote to read as follows: "*A person who lives in an institutional user establishment must give up his war ration books.*"

64. Section 17.1 (a) is amended by deleting the words "Group II or III institutional user establishment" and substituting in place thereof "institutional user establishment (other than a Group I establishment)".

65. Section 17.1 (b) is amended by deleting the words "a Group III establishment" and substituting in place thereof the words "an establishment (other than a Group I and II establishment)".

66. Section 17.1 (c) is amended by deleting the words "a Group II or a Group III establishment" and substituting in place thereof the words "an institutional user establishment (other than a Group I establishment)".

67. Section 17.1 (d) is amended by deleting the words "in Group II or III" and substituting in place thereof the words "(other than a Group I user)."

68. Section 18.2 (b) (3) is amended by changing the words "food was" to "meals were".

69. Section 18.2 (b) (4) and (6) are amended by changing the word "food" to read "meals".

70. Section 18.2 (c) is amended to read as follows:

(c) Every Group IV, V and VI institutional user must keep a record for each establishment or group of establishments on which he enters daily:

(1) The total number of persons served;

(2) The number of persons to whom refreshments only were served;

(3) The number of persons to whom meals were served.

NOTE: OPA Form R–1311 may be used for keeping this record.

71. Section 18.2 (d) is amended to read as follows:

(d) If, because of the nature of his operation, it is an undue hardship for a Group III, IV, V, or VI user to keep records in accordance with this section of the actual number of persons served and, in the case of a Group III user, of the dollar revenue received, he may file with the Board a petition for relief on OPA Form R–315. He must state in his petition his method of keeping records of cash receipts (such as punch checks, written checks, cash register, etc.), the reason why it would be a hardship in his type of operation to keep the required records, and the method, other than a complete daily count, he can use for determining the required information. If the Board finds that it is an undue hardship for the institutional user to keep daily records, it may authorize him, in writing, to keep such records for any full week in each month, specifying the record-keeping method and the weeks which it approves. The proportion which the number of persons served meals during that week bears to the total persons served during that week, will be deemed to be the proportion for the entire month. In the case of a Group III user, the proportion which the dollar revenue from meal services during that week bears to the total dollar revenue during that week will be deemed to be the proportion for the entire month. If such user petitions for permission to use a method not involving records for a full week in each month, the Board may not act on his petition, but must forward it to the District Office. The District Office shall act on such petitions in accordance with instructions from the Washington Office.

72. Section 21.5 (a) is amended by substituting for the words "food served" the word "services" in the title and in the last sentence.

73. Section 22.1 is amended as follows:

a. The definition of "dollar revenue" is amended to read as follows:

"Dollar revenue" means gross dollar revenue derived from the service of meals and refreshments (other than alcoholic beverages). Where a combined charge is made for food and lodging or other services, dollar revenue is computed by determining how much of the total charge reasonably covers the service of meals and refreshments (other than alcoholic beverages). (However, if the combined charge covers entertainment, that part of the charge is included in dollar revenue). If a determination has been made under any maximum rent regulations of the Office of Price Administration, of the part of the total charge which is for rent, that determination shall be used in computing dollar revenue. Dollar revenue does not include revenue derived from services to Army, Navy, Marine Corps, or Coast Guard personnel messed under the command of a commissioned or non-commissioned officer pursuant to written contract with an agency of the United States.

b. The following definition is inserted between the definition of "dollar revenue" and the definition of "foods covered by Ration Order No. 16":

"Food", when used alone, includes all items of food, whether they constitute "meals" or "refreshments". (The terms "food service" or "persons served food", when used in OPA Forms R–1307 Supplement or R–1309 (Revised), have the same meaning as "meal" service or "persons served meals".)

c. The following definition is inserted between the definition of "issue" and the definition of "person":

"Meal" or "meal service" means any service of "food" other than a "service of a refreshment only".

d. The following definition is inserted between the definition of "person" and the definition of "processed foods":

"Persons served" includes both persons served "meals" and persons served "refreshments only". The terms "persons served meals" or "meal services", and "persons served refreshments only" are used when a distinction between refreshment services only and other types of services is intended.

e. The following definition is inserted between the definition of "rationed food" and the definition of "stamp":

"Refreshments" means all items commonly known as such, and includes, but is not limited to, all beverages, such as alcoholic and carbonated beverages, fruit and vegetable juices, non-carbonated water beverages (such as orangeade, lemonade, etc.), milk, milk drinks (such as malted milk, milk shakes and chocolate floats), tea, cocoa, coffee, coffee substitutes, hot chocolate and ice cream sodas. The term also includes items such as ice cream dishes of all kinds, ice cream cones, sherbets, snowballs, popcorn, potato chips, peanuts, candy and pretzels.

A service is considered to be a "service of a refreshment only", if the refreshment, or a mixture or combination of refreshments, is served to a person to whom nothing else is served. It is also considered a service of a refreshment only, even if some incidental item is also served (such as service of crackers with hot chocolate), if no separate charge is customarily made for that incidental item when served with a refreshment.

74. Section 26.1 (a) is amended by deleting the words "Group II and III", in the last sentence of that section and by inserting the parenthetical phrase "(other than a Group I user)" after the words "institutional users".

75. Section 27.1 is amended by substituting the words "Group IV" in place of the words "Group III" in the title of that section and by amending paragraph (a) to read as follows:

(a) A Group IV institutional user may apply for a special allotment of processed foods if he needs additional processed foods and if he cannot get enough fruits or vegetables to meet the minimum nutritional needs for such foods of the employees fed by him because:

(1) The place where he feeds such employees, or the employer's business or occupation is of such a nature, that a source of supply of fresh fruits and vegetables is not reasonably accessible; and

(2) He has no facilities for preserving such foods long enough, and in the quantities required, to meet such needs. (A Group I institutional user may not apply for a special allotment under this section. Consumers eating in Group I establishments are permitted, under similar circumstances, to apply for additional points under Revised Ration Order 13.)

76. Section 27.2 is amended by substituting the words "Group IV" in place of the words "Group III" in the title and by changing the words "poultry and eggs" to "and poultry" wherever they appear in that section.

76a. Section 27.2 (a) is amended to read as follows:

(a) A Group IV institutional user may apply for a special allotment of foods covered by Ration Order 16 if he needs additional amount of such foods and if he cannot get enough fresh fish, fresh milk or poultry to meet the nutritional needs of the employees fed by him because:

(1) The place where he feeds such employees, or the employer's business or occupation is of such a nature that a source of supply of fresh fish, fresh milk and poultry is not reasonably accessible, except at infrequent intervals; and

(2) He has no facilities for preserving such foods long enough, and in the quantities required to meet such needs. (A Group I institutional user may not apply for a special allotment under this section. Consumers eating in Group I establishments are permitted, under similar circumstances, to apply for additional points under Ration Order 16.)

76b. Section 27.2 (b) (4) is amended by deleting the words "and the number of dozens of eggs".

77. Section 28.3 is amended by deleting the words "Group II and III," and inserting the parenthetical phrase "(other than a Group I user)" after the words "institutional users" in the title of that section.

78. Section 28.3 (a) is amended by deleting the words "Group II or III" in the

subtitle, and by substituting for the words "A Group II or III institutional user" in the first sentence the words "An institutional user (other than a Group I user)".

79. Section 28.3 (c) is amended by deleting the words "Group II and III" and the words "Group II or III".

81. Section 28.4 is amended by deleting the words "Group II or III" wherever they appear in that section, and by substituting for the word "a" the word "an" in the title and in the first sentence of that section, and by adding "(other than a Group I user)" after "institutional user" in the first sentence.

82. Section 28.7 is amended by substituting for the words "a Group II or III institutional user" the words "an institutional user (other than a Group I user)" in the title and in the first sentence of that section.

83. Section 28.8 and section 28.9 are amended by inserting the figures ", V or VI" after the words "Group III" wherever they appear in those sections and in the title.

84. Section 29.2 (d) is amended by inserting after the words "Group III" the figures ", IV, V or VI".

85. Section 29.3 (b) (2) (ii) is amended so that the first five sentences shall read as follows:

If establishments in other groups are being transferred, the transferor must also apply to the Board with which he is registered for a redetermination of his allotments and, except in the case of Group II establishments, of his bases. In the case of a transfer of Group III, IV, V or VI establishments, the transferor must also report the December 1942 use of rationed foods for meal services and the information required on OPA Form R-1307 Supplement, for the establishment or establishments being transferred. The Board shall send the application and notices of both parties, and the transferor's registration to the District Office. If the transferred establishments are in Group II, III, IV, V or VI and if the District Office finds that they will continue to be operated in substantially the same manner as before the transfer, it shall grant allotments to the transferee and, except in the case of Group II establishments, shall assign bases to him. It shall first determine the amount of the transferor's allotments and of the transferor's bases allocable to the transferred establishment or establishments.

86. Section 29.4 (a) is amended by inserting after the words "Group III" the figures ", IV, V or VI" in the second sentence.

87. Section 29.6 (a) is amended by substituting for the words "Group II or III establishment" the words "establishment (other than a Group I)."

88. Section 30.2 is amended by substituting for the words "Group II or III establishment" the words "establishment (other than a Group I establishment)" in the title and in the first sentence of that section,

89. Section 30.3 is amended to read as follows:

SEC. 30.3 *Closing of chain establishments*—(a) *Same rules apply to closing of entire chain.* The rules set forth in sections 30.1 and 30.2 apply where a person who has more than one institutional user establishment goes out of business at all of them, whether or not they were registered separately.

(b) *Closing of part of chain.* (1) A person who has several institutional user establishments, which are registered separately, may go out of business at one or more, but may continue to operate the others. In that case, he must follow the procedure set forth in section 30.1 or 30.2, whichever is applicable, as to each of the establishments at which he goes out of business.

(2) A person who has several institutional user establishments which are registered together may go out of business at one or more, but may continue to operate the others. In that case he must notify the Board within five (5) days.

(c) If the establishments were in Group I, the rules of section 30.1 apply.

(d) If the establishments were in Group II, the notice must state:

(1) The name and address of the establishment or establishments;

(2) The number of persons served in December 1942, at the establishment or establishments being closed; and

(3) The number of persons served in the establishment or establishments for the month in which they go out of business and for the preceding month.

(e) If the establishments were in Groups III, IV, V or VI, the notice must state:

(1) The name and address of the establishment or establishments;

(2) The number of persons served meals, the number of persons served refreshments only, the amount of rationed foods used for meal services and for services of refreshments only (and in the case of the closing of Group III establishments, the dollar revenue from meal services and from services of refreshments only) in December 1942, at the establishment or establishments being closed; and

(3) The number of persons served meals, the number of persons served refreshments only (and in the case of Group III establishments, the dollar revenue from meal services and from services of refreshments only) for the establishment or establishments for the month in which they go out of business and for the preceding month.

(f) In the case of an institutional user other than a Group I user, the Board shall send the notification and his registration to the District Office.

(g) The District Office shall reduce the institutional user's allotments for the allotment period in which the establishments are closed (and, in the case of Group III, IV, V or VI establishments, their bases) by the amount allocable to the closed establishments. He must give up to the Office of Price Administration certificates or ration checks equal to the amount of the reduction in his allotments. If he does not have certificates or ration checks to give up, that amount shall be treated as excess inventory.

(h) Subsequent allotments for Group III, IV, V and VI institutional users shall be computed by using the bases as recomputed in accordance with paragraph (g), and the dollar revenue and persons served figures of the establishments still in operation.

90. Article XXXI is added to read as follows:

ARTICLE XXXI—SPECIAL ALLOTMENTS FOR CERTAIN GROUP IV USERS

SEC. 31.1 *Certain Group IV users may get special allotments.* (a) Certain Group IV institutional users who feed heavy workers will be granted special allotments of rationed foods to meet the nutritional needs of those workers. Such allotments will be given only if those workers are in an industry or occupation designated by the Washington Office, and only after a determination based on studies and recommendations made by the War Food Administration.

(b) Allotments, when granted, will be based on the average number of different persons fed per day. (For this purpose, a person will be counted only once, on any one day even if he actually eats more than one meal there on that day, since allotments will be based on a monthly allowance per person.)

(c) Application shall be made to the Board on OPA Form R-315. Boards and District Offices may grant such special allotments only when authorized by instructions from the Washington Office, and only to the users and under the conditions and limitations set forth in those instructions.

(d) Any Group IV institutional user establishment for which such a special allotment is granted will be required to register separately, so that the allotment can be used only for feeding the persons for whose benefit it is granted. Furthermore, any special allotment granted will be in place of all other allotments to which the user might otherwise be entitled, since the purpose of the special allotment will be to cover nutritional needs to the extent that food supplies and other conditions permit.

91. A new article XXXII is added to read as follows:

ARTICLE XXXII—SPECIAL PROVISIONS FOR CERTAIN GROUP VI USERS

SEC. 32.1 *Certain Group VI users may apply for adjustment of base.* (a) A Group VI institutional user who operates an establishment at a school may apply for an adjustment of his meal service base if he needs more rationed foods because of a change in the character of his operations.

(b) The application shall be made to the Board on OPA Form R-315, and must state:

(1) The place where the meals will be served;

(2) The type of meals that will be served (e. g., F. D. A. type "A" or "B" lunch or other type); and

(3) The number of persons estimated to be served meals during the current allotment period.

(c) If the Board finds that the institutional user needs more rationed foods because of a change in the character of his operation, it may determine an adjusted meal service base for each rationed food, in accordance with instructions from the Washington Office. The applicable allowances per person to be used in adjusting the meal service base of an institutional user who serves lunches meeting the standards set by the War Food Administration for "Type A" or "Type B" lunches are contained in a supplement to this Order.

This amendment shall become effective March 1, 1944, except that section 5.3 (b) shall become effective February 15, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[RO 16,[1] Amdt. 107]

VITAMIN A OR D OILS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Ration Order 16 is amended in the following respects:

1. Section 7.13 (a) (2) is added to read as follows:

(2) An industrial user may get a provisional allowance to enable him to acquire rationed fats or oils to manufacture vitamin A or D oils which have a potency at least equal to the standards set forth in the U. S. Pharmacopoeia XII for "Oleovitamin A", "Synthetic Oleovitamin D", "Oleovitamin A and D" or "Oleovitamin A and D Concentrate", as the case may be.

2. Section 7.13 (b) (2) is added to read as follows:

(2) An industrial user's application for a provisional allowance for rationed fats or oils for use in manufacturing vitamin A or D oils must contain the following information:

(i) The product made by him for which the provisional allowance is requested;

(ii) The minimum potency of the product in terms of vitamin A and D U. S. P. standard units per gram of the product;

(iii) The number of pounds of the product which he expects to make during the period for which application is made;

(iv) The average number of pounds of each type of rationed fats or oils (stated separately for each type) which he used during 1942 to make each 100 pounds of the product;

(v) A report of his use of his last provisional allowance showing the number of pounds of rationed fats or oils used (stated separately for each type), and the number of pounds of the product made;

(vi) The number, if any, of unused points remaining from his last provisional allowance (or supplemental allotment, if any) for rationed fats or oils for that product.

If he makes more than one product for which he is entitled to receive a provisional allowance, he may include them all in a single application. However, he must give all of the required information separately for each of the products.

3. Section 7.13 (c) (2) is added to read as follows:

(2) The amount of the provisional allowance for rationed fats or oils for use in manufacturing vitamin A or D oils shall be computed in the following way:

(i) The number of pounds of the product which the applicant expects to make during the quarter is multiplied by the number of pounds of each type of rationed fats or oils which he used for each 100 pounds of that product during 1942;

(ii) The result, in each case, is multiplied by the factor fixed (in the supplement to this order) for provisional allowances for rationed fats or oils for vitamin A or D oils;

(iii) The resulting figures are multiplied by the point value established on the Official Table of Trade Point Values for the rationed fats or oils used by the applicant;

(iv) These figures are added together and the result is his provisional allowance for the period.

The board shall issue to him a certificate for the amount of his provisional allowance less the point value of any unused balance of his last provisional allowance, or supplemental allotment, for rationed fats or oils to make that product.

This amendment shall become effective February 19, 1944.

Regulation No. 3 of Livestock Slaughter Payments, issued by Defense Supplies Corporation on June 16, 1943, is amended as follows:

Section 7003.1 is amended by adding three new paragraphs, (x), (y), and (z) as follows:

(z) "Established prices" means the range of prices which may be paid for live cattle of each grade delivered at slaughtering establishments within specified zones, or at specified markets, as certified to Defense Supplies Corporation by the Office of Price Administration and the War Food Administration. The prices, zones and markets so certified on December 18, 1943, as amended, are those in the attached certification.[1]

Section 7003.3, paragraph (d), subparagraph (1), is amended by inserting after the words "Only one application", a comma and the words "except as provided in § 7003.16, paragraph (b) of this regulation,".

Section 7003.5, paragraph (a) is amended to read as follows:

(a) *Rate of payment*—(1) *Accounting periods beginning on or before December 25, 1943.* Defense Supplies Corporation will make payment on approved claims covering accounting periods beginning on or before December 25, 1943, at the following rates:

Section 7003.5, paragraph (b) is amended by adding a new subparagraph (4), as follows:

(4) Deductions from claims for cattle slaughtered during accounting periods beginning after December 25, 1943, will be made in accordance with §§ 7003.16 and 7003.17 of this regulation.

A new § 7003.15 is added as follows:

§ 7003.15 *Payment by grades of beef*—(a) *Separate grade rates.* Payment will be made by Defense Supplies Corporation on account of cattle slaughtered during accounting periods beginning after December 25, 1943, at the following rates for each grade:

	Cents a pound
AA or Choice	1.0
A or Good	1.45
B, Commercial or Medium	.9
C, Utility or Common	.5
Canner and Cutter	.5
Bologna Bulls	.5

(b) *Reporting.* Every applicant who files an application for cattle slaughtered in an accounting period beginning after December 25, 1943, shall report by grades the dressed carcass weight of beef produced from such cattle, and payment will be based on the live weight equivalent of the amount in each grade at separate grade rates, except that:

(1) Any applicant who slaughters 25,000 pounds or less of cattle, live weight, in all his establishments (including cattle custom killed for him) in any one accounting period may file applications based only on his total live weight of cattle slaughtered, and the applicable rate of payment shall be one cent ($0.01) a pound for all of his grades of cattle.

(2) Any applicant who slaughters more than 25,000 pounds of cattle, live weight, in all of his establishments (including cattle custom killed for him) in any one accounting period may file application reporting his total live weight of cattle slaughtered and the applicable rate of payment shall be five-tenths of a cent ($0.005) a pound for each of his grades of cattle.

(c) *Grading.* Every applicant who reports his cattle slaughter by grades in accordance with paragraph (b) of this section, shall report the carcass grades as determined by an official grader of the United States Department of Agriculture, unless the applicant has applied for grading by such an official and has been refused such grading in writing since July 1, 1943. If an applicant reports by carcass grades determined by his own graders, payment shall be made by grades at the separate grade rates, but the total payment shall not exceed the total number of pounds, live weight, of cattle slaughtered, multiplied by one cent ($0.01) a pound.

(d) *Weighing.* Dressed carcass weights must be reported as chilled weights, after twenty-four hours in the cooler, less allowance for washing, shrouding, and other factors which would distort the percentage of the total weight represented by each of the various grades, or result in either overstating or understating the actual dressed carcass chilled weights.

(c) *Amount of live weight.* Payment will be made at the separate grade rates on the total amount of actual live weight of cattle slaughtered in all grades, distributed among the grades in the same proportion as the calculated live weight in each grade computed from the dressed weight in that grade by using the applicable conversion factors certified to Defense Supplies Corporation by the Office of Price Administration and the War Food Administration. The calculated live weight in each grade shall be that computed in accordance with § 7003.17 (b).

A new § 7003.16 is added as follows:

§ 7003.16 *Cost of live cattle.* Every applicant, except as provided in paragraphs (b) and (c) of this section, who files an application for payment for cattle slaughtered during an accounting period beginning after December 25, 1943, shall report his total cost of cattle purchased during such an accounting period on forms approved by Defense Supplies Corporation.

(a) *Applications for payment by grade.* Every applicant who files an application for payment reporting slaughter by grades in accordance with § 7003.15, for cattle slaughtered during an accounting period beginning after December 25, 1943, shall report on each such application his total cost of live cattle purchased during the period covered by this application for slaughter in the establishment covered by the claim, subject to the following qualifications:

(1) Such applications shall report only cost of cattle purchased for slaughter within thirty (30) days, and shall not report cost of cattle purchased for resale alive, or purchased for feeding for more than thirty (30) days.

(2) Such applications shall not include any cattle slaughtered which were not purchased by the applicant within thirty (30) days of slaughter.

(3) Such applications shall not include cattle slaughtered which were purchased by the applicant from a member of a 4-H Club, Future Farmers of America, or other recognized farm youth organizations, if such sales are made at the place and time of a fair, show or exhibition.

(b) *Separate application for payment by grade on cattle excluded under § 7003.16 (a).* (1) Every applicant who files an application for payment reporting slaughter by grades, for cattle slaughtered during an accounting period beginning after December 25, 1943, may file separate applications for cattle slaughtered during such accounting period which are excluded from his applications under paragraphs (a) (2) and

[1] 8 F.R. 17014, 9 F.R. 709. Certification filed as part of the original document.

(a) (3) of this section. Such separate applications shall report the slaughter by grades; shall not include a report of the cost of such cattle; shall be filed with the application covering other cattle slaughtered in the same establishment during the same period; and, in the case of cattle excluded under paragraph (a) (3) of this section, shall be accompanied by a written statement approving such sale, signed by a county agricultural agent, a county club agent, a vocational agricultural instructor, or the chief administrator of the state department of agriculture. All pertinent provisions of this regulation shall apply to such separate applications.

(2) If records are not available to make complete separate reports of the cattle slaughtered, for cattle purchased for slaughter within thirty (30) days and for the cattle which were not purchased by the applicant within thirty (30) days of slaughter, Defense Supplies Corporation shall have the right to require reports and applications in such form as will supply information as to the applicant's cost of live cattle.

(c) *Applications for payment without grading.* (1) Any applicant who elects, under § 7003.15, paragraph (b) (1), to file an application for payment based on his total live weight of cattle slaughtered, shall not be required to report his cost of cattle purchased during such accounting period.

(2) Any applicant who elects, under § 7003.15, paragraph (b) (2), to file an application for payment based on his total live weight of cattle slaughtered, shall be required to report his cost of cattle purchased during such accounting period, and all the cattle he purchased shall be considered to be of the grade of bologna bulls in computing his permissible maximum cost, and of the grade of cutter and canner in computing his permissible minimum cost under § 7003.17, paragraph (c).

A new § 7003.17 is added, as follows:

§ 7003.17 *Deductions from applications for cattle.* Defense Supplies Corporation shall deduct from each claim covering cattle slaughtered during any accounting period beginning after December 25, 1943, of any applicant who is required to report the amount of his cost of cattle by § 7003.16 of this regulation, the net amount by which the total of the cost to such slaughterer of live cattle purchased during such accounting period either (1) is below the total cost he would have had at the lower of the applicable established prices, or (2) exceeds the total cost he would have had at the higher of the applicable established prices. Such deductions shall be computed as follows:

(a) *Cost of cattle.* The total cost of cattle shall include all charges for transportation to the applicant's establishment, including charges for feeding, watering, and bedding en route, but shall not include commissions or other service charges, or any allowance for shrinkage, subject to the following qualifications:

(1) "Hard wheat" means any of the purchased during the period covered by the application, for slaughter within thirty (30) days in the establishment covered by the application, except that Defense Supplies Corporation shall have the right to require an allowance for changes in inventory of live cattle at the beginning and end of such period.

(2) There may be deducted from the cost of cattle purchased in any one market during an accounting period, and slaughtered in any establishment east of a line following the eastern side of Lake Michigan, the eastern boundary of Indiana, and the Ohio and Mississippi rivers to the Gulf of Mexico, an amount equal to 80% of the actual cost of railroad freight paid on such cattle from that market to the applicant's establishment, not to exceed 45¢ a live hundred weight from any one market.

(b) *Calculated live weight slaughtered in each grade.* The amount of live weight in each grade shall be calculated by dividing the amount of dressed weight in each grade produced from cattle slaughtered in an establishment during an accounting period, by the conversion factors (yields or dressing percentages) certified by the Office of Price Administration and War Food Administration to Defense Supplies Corporation as applicable to the zone or market in which the establishment is located.

(c) *Permissible cost.* The calculated live weight in each grade shall be multiplied by the lower price and by the higher price of established prices applicable to the establishment and the resulting amounts for each grade shall be totaled to give total minimum and maximum permissible cost: *Provided,* That:

(1) On applications filed in accordance with paragraph (c) (2) of § 7003.16, the total minimum permissible cost shall be computed by multiplying the total live weight of cattle by the lower price of the established prices for cutter and canner cattle applicable to that establishment, and the total maximum permissible cost shall be computed by multiplying the total live weight of cattle by the higher price of the established prices for bologna bulls applicable to that establishment; and

(2) The established prices applicable during an accounting period shall be the established prices certified to Defense Supplies Corporation and published in the FEDERAL REGISTER prior to the beginning of such accounting period, or, at the option of the applicant, the prices so certified and published after ten (10) days prior to the beginning of such accounting period and before the end of such accounting period.

(d) If the actual cost of cattle is above the minimum and below the maximum permissible cost, no deduction shall be made from the claim.

(e) If the actual cost of cattle is below the minimum, or above the maximum permissible cost, the amount it is below the minimum or above the maximum shall be deducted from the total amount of the claim.

This amendment shall become effective as of December 18, 1943.

Issued this 18th day of December 1943.

GEORGE H. HILL, Jr.,
Executive Vice President.

No cancellations after December 1, 1943, will be deducted from the net forward sales of flour registered in accordance with § 7004.7 of this regulation:

§ 7004.6 *Base of payment.* Payments will be made on the amount of wheat of each type ground on and after December 1, 1943, subject to the following qualifications:

(a) No payment will be made on wheat ground or processed into any other products than flour as defined in § 7004.1, paragraph (c) of this regulation.

(b) No payments will be made on imported wheat ground in bond.

(c) Payments will not be made on account of a greater number of bushels of wheat than the number required, at the rate of 2.35 bushels for a hundredweight of flour, to produce the amount of flour ground by the applicant during the period covered by this application.

(d) No payment will be made on the wheat ground into flour on and after December 1, 1943, and prior to the date of termination of this regulation, to produce the amount of the net forward sales of flour, made by the applicant and unfilled at the close of business on November 30, 1943, and registered with Defense Supplies Corporation in accordance with § 7004.7 below.

(e) Payment will be made on the wheat ground into flour within one hundred and twenty (120) days after the termination of this regulation, not to exceed whichever is lower of (1) the amount of wheat which has been deducted in accordance with paragraph (d) of this Section, and (2) the number of bushels required to produce the amount of net forward sales of flour made by the applicant and unfilled at the close of business on the day preceding the day notice is given of termination, provided that in computing the amount of such net forward sales of flour, a deduction will be made of the amount of contracts which include a provision for determination of the price at the time of delivery.

§ 7004.7 *Registration of applicants.* Every applicant shall register with Defense Supplies Corporation before filing his first application for payment on forms provided by Defense Supplies Corporation. Registration shall be by each applicant, not by each mill, and shall include a report of total net forward sales of flour unfilled at the close of business on November 30, 1943, except that a person who ground less than 110,000 bushels of wheat during the first eleven months of 1943, may register with Defense Supplies Corporation by reporting his total grind during such period, the daily capacity of his mill or mills and his inventory of flour at the close of business on November 30, 1943. If such person registers in accordance with this exception, he shall be considered to have no

net forward sales of flour; he will have no deductible amounts under § 7004.6 (d); he will have no right to additional payments under § 7004.6 (e); and the rate of payment applicable to the amount of wheat he grinds during a month will be the rate in effect during that month.

§ 7004.8 *Determination of wheat ground.* The amount of each type of wheat ground during a month shall be the actual number of bushels of wheat of that type ground during the month into flour as defined in paragraph (c) of § 7004.1, determined in the following manner:

(a) One sixtieth (1/60) of the number of pounds of wheat of each type weighed into the mill bin or hopper of the mill during the month, and ground into flour, less allowance for dockage.

(b) If records are not available to use the method of paragraph (a) of this section, the number of bushels of each type ground during a month shall be: the inventory of wheat of that type in the mill elevator at the beginning of the month, plus additions of that type to inventory during the month, less wheat of that type taken out during the month for uses other than grinding into flour by that mill, less inventory of wheat of that type in the mill elevator at the end of the month, less allowance for dockage. This calculation shall be in terms of bushels of wheat.

(c) If records are not available to use the methods of either paragraphs (a) or (b) of this section, the number of bushels of each type ground during a month shall be determined in accordance with the customary practice of the mill, less allowance for dockage, by special permission of Defense Supplies Corporation.

§ 7004.9 *Terms of payment*—(a) *Partial payment.* A claim may be paid in whole or in part.

(b) *Persons to whom payments are to be made.* Payments will be made only to the person who files the claim with the Defense Supplies Corporation. No claim filed pursuant to this regulation shall be assignable except as a part of a bona fide transfer of the applicant's business to a legal successor.

(c) *Frequency.* Payments will be made monthly upon preliminary approval of the claim.

(d) *Terms.* Preliminary approval and payment of claims shall not constitute final acceptance of the validity or amount of the claim. On a finding that the claim is invalid or defective, Defense Supplies Corporation shall have the right to require restitution of any payment or any part thereof. Any sums found to be due to Defense Supplies Corporation shall be deductible against any accrued or subsequent claim for any payment of Defense Supplies Corporation to the person.

§ 7004.10 *Right to declare claims invalid.* Defense Supplies Corporation shall have the right to declare invalid, in whole or in part, any claim which does not meet the requirements of this regulation, and any claim filed by an applicant who, in the judgment of the War Food Administrator or the Price Administrator has wilfully violated any regulation of their respective Agencies, applicable to the purchase, sale or distribution of wheat or flour.

§ 7004.11 *Right to modify or revise claims.* Upon announcement of any decision or interpretation issued hereunder, any applicant may within thirty (30) days, apply to Defense Supplies Corporation for the right to modify or revise any claims theretofore filed which are affected by such decision or interpretation and which accrued within the period of ninety (90) days immediately preceding the first of the month following the date when the decision or interpretation was announced. If Defense Supplies Corporation finds justification for reopening the claim, it shall so notify the applicant and the latter may thereupon submit a new application for payment which shall be processed in the same manner as though submitted within the required time.

§ 7004.12 *Termination.* This regulation may be terminated at any time after ten (10) days notice. Such termination shall not preclude the filing of applications (1) on account of wheat ground on or before the date of termination for which the applicant would otherwise have been eligible, and (2) on account of wheat ground within one hundred and twenty (120) days after the date of termination, as provided in § 7004.6 (e). Such applications must be filed within thirty (30) days after the end of the month in which such wheat is ground.

§ 7004.13 *Effective date.* This Regulation No. 4 shall become effective as of November 30, 1943.

Issued this 29th day of November 1943.

TITLE 7—AGRICULTURE

Chapter XI—War Food Administration (Distribution Orders)

[FDO 22-6]

PART 1425—CANNED AND PROCESSED FOODS

CANNED VEGETABLES, CANNED FRUITS, CANNED VEGETABLE JUICES, AND CANNED FRUIT JUICES REQUIRED TO BE SET ASIDE DURING 1944

Pursuant to the authority vested in me by Food Distribution Order No. 22, issued by the Secretary of Agriculture on February 19, 1943, as amended (8 F.R. 2243 and 6397), and to effectuate the purposes thereof, it is hereby ordered as follows:

§ 1425.8 *Quota restrictions and allocations*—(a) *Definitions.* The definitions contained in Food Distribution Order No. 22, as amended, shall, when used herein, have the same meaning as set forth in Food Distribution Order No. 22, as amended; and when used in this order, unless otherwise distinctly expressed or manifestly incompatible with the intent thereof:

(1) The term "quota period" means the period from January 1, 1944, to December 31, 1944, both inclusive.

(2) The term "base period" means the period from January 1, 1942, to December 31, 1943, both inclusive.

(3) The term "base pack" means, when applied to each canned food listed in column A of table 1 attached hereto and by this reference made a part of this order, one-half the total amount, by net weight, of all types, styles, varieties, and grades of such food canned by the respective canner or processor during the base period: *Provided*, That if the respective canner or processor canned any particular food listed in column A of table 1 during only one of the two calendar years of the base period, his base pack for that food shall be his total pack, by net weight, of such food during the said calendar year in which he canned the said food. In the event a canner or processor packed any product listed in column A of table 1 attached hereto during the base period at any plant which he does not operate during the quota period, there shall be deducted, in computing his base pack, the portion represented by his production at such plant during the base period. In the event a canner or processor packs any product listed in said column A of table I during the quota period at any plant which he did not operate during the base period, there shall be added, in computing his base pack, the proportionate quantity represented by the production, if any, of the person who operated such plant during the base period.

(b) *Applicability of this order.* The terms and conditions of this order shall be applicable to (1) all canned vegetables, canned fruits, canned vegetable juices, and canned fruit juices listed in column A of table 1 which are packed during the quota period in any of the 48 States of the United States or the District of Columbia, and (2) all canned pineapple and canned pineapple juice which are packed during the quota period in the Territory of Hawaii.

(c) *Set-aside restrictions.* Each canner or processor who packs any canned vegetable, canned fruit, canned vegetable juice, or canned fruit juice covered under this order during the quota period shall, to the extent that the quantity so packed may be adequate, set aside and thereafter hold for sale and delivery to Government agency from his pack of each such product, for the quota period, a quantity equivalent to the quantity obtained by applying the percentage for the particular product listed in column D of table 1 against his base pack of that product. If the type, style, variety, or grade of the particular product is specified in the aforesaid table 1, the portion set aside shall, so far as available, be in the type, style, variety, and grade so specified; but other types, styles, varieties, or grades in the possession of a particular canner or processor as may be specified by the procuring Government agency shall be substituted to the extent that those specified in said table 1 have not been packed by such canner or processor. In the event a canner or processor is preparing to pack, during the quota period, any canned vegetable, canned fruit, canned vegetable juice, or canned fruit juice, listed in column A of said table 1, which he did not pack during the base period and for which unlimited tinplate is available under § 3270.31 of Conservation Order M-81, issued by the War Production Board on February 11, 1942, as amended (7 F.R. 947, 10321, 8 F.R. 14455, 9 F.R. 82), he shall so inform the Director by letter, and state therein the quantity of such product which he anticipates that he will pack; and such canner or processor shall set aside for sale and delivery to Government agency a portion of his pack of each such product for the quota period equivalent to the quantity obtained by applying the percentage for the particular product, listed in column D of table 1, against his total production of such product during the quota period.

(d) *When entire pack not set aside for Government agency.* (1) In the event a canner or processor packs any canned vegetable, canned fruit, canned vegetable juice, or canned fruit juice, listed in column A of table 1, for non-governmental requirements as well as for governmental requirements, the portion of each such product required to be set aside by him for Government agency shall be set aside as follows: (i) At least two-thirds of the set-aside portion, if it is available, shall be taken from the first preference grade of the canned product, as specified in column F of table 1, but, if the quantity of the said first preference grade which is available is not sufficient to meet that requirement, the total quantity of such first preference grade shall be set aside for Government agency; (ii) To the extent that the quantity set aside for Government agency from the first preference grade in accordance with the provisions of (i) above may fail to complete his set-aside quota, he shall set aside from his production of the second preference grade of the canned product, as specified in column G of table 1, such quantity to complete his set-aside quota as may be available, but, if the quantity of said second preference grade which is available is not sufficient to complete such set-aside quota, the total quantity of such second preference grade shall be set aside for Government agency; and (iii) To the extent that the quantities set aside for Government agency from the first and second preference grades in accordance with the provisions of (i) and (ii) above may fail to complete his set-aside quota, he shall set aside from his production of his third preference grade of the canned product, as specified in column H of table 1, sufficient of such quantity to complete his set-aside quota as may be available: *Provided*, That, if there is an insufficient quantity of all three preference grades to complete his set-aside quota, he shall set aside from such other grades in his posession as may be designated by Government agency sufficient of such quantity to complete his set-aside quota as may be available.

(2) In the event a canner or processor packs a canned product covered hereunder partly in tinplate containers and partly in glass containers, the portion to be set aside for Government agency from the several preference grades of such product in accordance with the provisions of (d) (1) hereof shall be that which is packed in tinplate to the extent that such type of pack is available in the respective grades; and the particular product packed in glass containers shall be set aside from any such preference grade only in the event and to the extent necessary to meet any such deficiency when there is not enough of that product of that preference grade packed in tinplate to meet the set-aside requirements for such grade.

(3) Within the limits of, and subject to the restrictions, set forth in (d) (1) and (2) hereof, a minimum of one-half and a maximum of two-thirds (except with the consent of the particular procuring Government agency) of the quota of any canned product for Government agency shall be set aside in the largest can size specified for that product in column I of table 1 to the extent that the product packed in such largest can size is available in the respective preference grades, and the remainder, if any, of the set-aside quota for the canned product shall be in the other can sizes, if any, specified in said column I of table 1: *Provided*, That the portion of the set-aside quantity of the canned product represented by the contingency reserve percentage for such product shown in column C of table 1 may, at the option of the particular canner or processor, be packed and set aside in any can size permitted under the aforesaid Conservation Order M-81, as amended.

(e) *Reports.* The reports required by § 1425.1 (c) of Food Distribution Order No. 22, as amended, shall be submitted on Form FDA-685. The reports shall be submitted to the Director within 15 days after the completion of the pack. (This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.)

(f) *Purchase, inspection, and specifications.* The Army of the United States is hereby allocated the quotas prescribed herein for Government agency, and the Army may purchase said quotas for its own account or the account of other Government agencies whenever it has agreed with such agencies to do so. The Army of the United States and the Office of Distribution, respectively, are authorized to inspect and grade such canned foods pursuant to § 1425.1 (d) of Food Distribution Order No. 22, as amended. The Army of the United States is authorized to issue specifications at any time with regard to the processing, packing, containers, container treatment, can marking, labeling, boxing, and strapping of such canned foods pursuant to § 1425.1 (b) (5) of Food Distribution Order No. 22, as amended.

(g) *Provisions of Director Food Distribution Orders Nos. 22-4, as amended, and 22-5 not affected.* The provisions of this order shall not be considered as rescinding or modifying the provisions of Director Food Distribution Order No. 22-4, as amended (8 F.R. 6573 and 11590), or the provisions of Director Food Distribution Order No. 22-5 (8 F.R. 16097).

(h) *Effective date.* This order shall be effective as of 12:01 a. m., e. w. t., February 11, 1944.

WESTERN UNION TELEGRAPH CO. AND CABLE AND WIRELESS OF WEST INDIES, LTD.

RATES BETWEEN U. S. AND WEST INDIES, CENTRAL AND SOUTH AMERICA

In the matter of the Western Union Telegraph Company and Cable and Wireless of West Indies, Ltd. Charges for telegraph communications between Puerto Rico and the United States. In the matter of the investigation of the rates and charges applicable to communications between various points in the United States and various points in the West Indies, Central America, and South America.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 8th day of February, 1944;

It appearing that Cable and Wireless of West Indies, Ltd., which operates a cable telegraph service between the continental United States and Puerto Rico in conjunction with The Western Union Telegraph Company, is collecting charges for telegraph communications from Puerto Rico to the continental United States which are different from the charges specified in the applicable legally effective tariff schedules filed with this Commission by Cable and Wireless of West Indies, Ltd., and concurred in by The Western Union Telegraph Company;

It further appearing, that the rates and charges, and related classifications, practices, and regulations, shown in the presently effective tariff schedules filed with the Commission by Cable and Wireless of West Indies, Ltd., and concurred in by The Western Union Telegraph Company, and the rates and charges actually being collected in Puerto Rico by Cable and Wireless of West Indies, Ltd., for telegraph communications to the continental United States from Puerto Rico, are contrary to the principles decided upon by this Commission in its report and order of June 22, 1943 (T-29), in its Docket No. 6046, with respect to rates between the United States and the West Indies, including Puerto Rico;

It is further ordered, That Cable and Wireless of West Indies, Ltd., and The Western Union Telegraph Company shall also appear and show cause why the matter of the apparent violations of the Communications Act of 1934, as amended, constituted by noncompliance with applicable legally effective tariff schedules on file with the Commission, should not be referred by the Commission to the Attorney General of the United States with the request that all necessary proceedings for the enforcement of the provisions of the act and for the punishment of such violations, in accordance with the provisions of the act, be instituted and prosecuted;

It is further ordered, That Cable and Wireless of West Indies, Ltd., and The Western Union Telegraph Company shall also appear and show cause why they should not forthwith establish rates and charges, and related classifications, practices, and regulations, for and in connection with telegraph communications to the continental United States from Puerto Rico which are in conformity with the principles decided upon by the Commission in its report and order of June 22, 1943, in Docket No. 6046;

FEDERAL POWER COMMISSION.

[Docket No. G-524]

CONSOLIDATED GAS UTILITIES CORPORATION

NOTICE OF APPLICATION

FEBRUARY 14, 1944.

Notice is hereby given that on February 7, 1944, the Consolidated Gas Utilities Corporation, a Delaware corporation having its principal place of business in Oklahoma City, Oklahoma, filed an application with the Federal Power Commission for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, as amended, to authorize the construction and operation of the facilities hereinafter described, and for authorization to abandon a certain portion of its transmission facilities under section 7 (b) of the Natural Gas Act.

The proposed construction consists of a 4½-inch gas pipe line approximately 5,280 feet in length, to replace 1½ miles of 5½-inch Boiler Flue pipe line, the former to serve Applicant's existing distribution system in the City of Sterling, Rice County, Kansas. The pipe line to be installed will begin at a connection with Applicant's 6⅝-inch gas pipe line at the Northeast corner of Section 16, Township 21 South, Range 8 West, Rice County, Kansas, and extend in a Southerly direction 5,280 feet along the East line of Section 16 to a point of connection with Applicant's existing distribution system in the City of Sterling, Kansas.

The pipe line which Applicant seeks authorization to abandon consists of approximately 1½ miles of 5½-inch Boiler Flue pipe line commencing at a connection with Applicant's previously installed 8-inch gas transmission line in the North half of the Southwest quarter of Section 13, Township 21 South, Range 8 West, Rice County, Kansas, and extending in a Southwesterly direction across the North half of the Southwest quarter of said Section 13, and across the South half of Section 14, Township 21 South, Range 8 West, Rice County, Kansas, to a connection with Applicant's previously installed 4-inch gas pipe line at the West line of the South half of said section 14.

Applicant states that the use of the 1½ miles of Boiler Flue pipe during the last five years has required continuous maintenance expenditures to prevent excessive leakage of gas, and that the condition of the 5½-inch line is such that adequate repairs can no longer be made.

Applicant asserts that no customers are served from the 5½-inch line which it requests authorization to abandon, and that the new 4½-inch line will eliminate the maintenance expense and excessive leakage of gas caused by the operation of the existing 5½-inch line.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 1st day of March, 1944, file with the Federal Power Commission a petition or protest in accordance with the Commission's provisional rules of practice and regulations under the Natural Gas Act.

Secretary.

SIGFRIED OLSEN SHIPPING COMPANY

DENIAL OF LICENSE PRIVILEGES

In the matter of Sigfried Olsen Shipping Company, One Drumm Street, San Francisco, California. Decision and Order on Appeal in Case No. 26.

Pursuant to Part 807 of the regulations adopted under section 6 of the Act of July 2, 1940, as amended, the Trade Intelligence Division of the Office of Exports, Office of Economic Warfare (now Trade Intelligence Division of the Requirements and Supply Branch, Foreign Economic Administration) charged the Sigfried Olsen Shipping Company (hereinafter referred to as appellant) with violations of section 6 of the Act of July 2, 1940, as amended, and the regulations adopted pursuant thereto. Apellant filed a written answer to said charges and the matter came on for oral hearing before Kelly Kash, Compliance Commissioner, for the Administration. The Compliance Commissioner received the evidence presented and after due consideration of the record, on the 11th day of January 1944, filed his findings of fact and recommendations in this matter.

The Compliance Commissioner found that the appellant had violated section 6 of the Act of July 2, 1940, as amended, and the regulations adopted pursuant thereto and, on the 13th day of January 1944, J. C. Foulis, Deputy Chief, Requirements and Supply Branch, Bureau of Supplies, Foreign Economic Administration, upon consideration of the record, findings of fact, and recommendation of the Compliance Commissioner in the matter, issued an order denying to appellant and any person, association, or organization acting in its behalf, or for its account, the privilege of obtaining individual, or any other type of export license or release certificate, and the use of any general or other type of export license authorizing any exportation whatsoever from the United States until February 29, 1944, and revoking all outstanding export licenses or release certificates issued to said appellant.

The appellant, within ten days after receipt of a copy of said order, duly filed a written appeal from said order to the undersigned, Director of the Requirements and Supply Branch, Bureau of Supplies, Foreign Economic Administration. The undersigned, having reviewed the record, findings of fact, conclusions, and recommendations of the Compliance Commissioner in this matter, and having given due consideration to the grounds set forth in the appellant's appeal, finds that the facts and conclusions of the Compliance Commissioner are supported by the record and that the order issued pursuant thereto on January 13, 1944, by J. C. Foulis, Deputy Chief, Requirements and Supply Branch, Bureau of Supplies, Foreign Economic Administration, while disregarding the recommendations of the Compliance Commissioner as to the disciplinary action to be taken, was proper and ought not be modified.

Now, therefore, it is determined and ordered, That the said order of the Deputy Chief, Requirements and Supply Branch, Bureau of Supplies, Foreign Economic Administration, denying to the appellant and any person, association or organization acting in its behalf or for its account, the privilege of obtaining individual or any other type of export license or release certificate and the use of any general or any other type of export license authorizing any exportation whatsoever from the United States until February 29, 1944, and revoking outstanding export licenses and release certificates issued to the appellant, is affirmed.

BITUMINOUS COAL IN NEW YORK REGION

Revised Order No. G–21 under Revised Maximum Price Regulation No. 122. Sales of emergency bituminous coal.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, and for the period commencing with the effective date of this order and expiring on April 30, 1944, *It is hereby ordered:*

(a) In Region II, consisting of the States of Delaware, Maryland, New Jersey, New York, the Commonwealth of Pennsylvania, and the District of Columbia, the maximum prices for sales of emergency bituminous coal, as defined in paragraph (c) hereof, shall be determined in the following manner:

(1) Any dealer making sales of bituminous coal delivered to premises that have, prior to the current heating season, used bituminous coal, shall determine his maximum price for such sales pursuant to the appropriate pricing rule contained in Section 1340.254 of Revised Maximum Price Regulation No. 122. Any dealer who, prior to the current heating season, made yard sales of bituminous coal, shall likewise determine the maximum price for such sales pursuant to the appropriate pricing rule contained in Section 1340.254 of Revised Maximum Price Regulation No. 122.

(2) The maximum price for sales of bituminous coal delivered to premises that have, prior to the current heating season, consumed anthracite or coke, and that have not, prior to the current heating season, used bituminous coal, shall be the sum of:

First, the per net ton cost to the dealer of the bituminous coal, f. o. b. supplier's shipping point;

Second, the actual transportation cost from supplier's shipping point to the dealer's yard, dock, or other terminal facility;

Third, the dealer's margin over alongside costs on like sales of anthracite or coke being replaced, taking into account class of purchaser, quantity of differentials, method and terms of delivery, and the size of the fuel replaced: *Provided*, That, where sales or deliveries are contemplated in communities subject to area dollars-and-cents orders issued under Revised Maximum Price Regulation No. 122, dealers shall add no more than the margins prevailing in the area for such sales of anthracite, and used in the determination of area dollars-and-cents prices. On request, the Regional Office or the appropriate District Office of the Office of Price Administration will notify dealers of those margins which must be reported under paragraph (b) hereof: *And further provided*, That a dealer eligible for compensatory adjustment under Compensatory Adjustment Regulation No. 1 shall, in place of the item marked Second in this sub-section (3), substitute the lowest transportation cost he would have incurred during December, 1941, in bringing the bituminous coal to his terminal facility.

(3) The maximum price for yard sales of emergency bituminous coal for dealers who have not, prior to the current heating season, sold bituminous coal at their yards, shall be the sum of:

First, the per net ton cost to the dealer of the bituminous coal, f. o. b. supplier's shipping point;

Second, the actual transportation cost from supplier's shipping point to the dealer's yard, dock, or other terminal facility;

Third, such dealer's margin over alongside costs on yard sales of buckwheat sized anthracite, sold to other dealers for resale, provided that if such margin is less than $1.25 per net ton, the maximum price shall be determined by adding an amount not in excess of $1.25 per net ton to supplier's cost plus transportation as set forth in the previous subparagraphs designated "First" and "Second": *Provided*, That, where sales or deliveries are contemplated in communities subject to area dollars-and-cents orders issued under Revised Maximum Price Regulation No. 122, dealers shall add no more than the margins prevailing in the area for such sales of anthracite, and used in the determination of area dollars-and-cents prices. On request, the Regional Office or the appropriate District Office of the Office of Price Administration will notify dealers of those margins which must be reported under paragraph (b) hereof: *And further provided*, That a dealer eligible for compensatory adjustment under Compensatory Adjustment Regulation No. 1 shall, in place of the item marked Second in this subsection (3), substitute the lowest transportation cost he would have incurred during December, 1941, in bringing the bituminous coal to his terminal facility.

(b) *Reports.* Every dealer subject to this order shall, within ten days after he determines his maximum prices hereunder, report to the District Office of the Office of Price Administration under whose geographical jurisdiction his principal place of business is located:

(1) His maximum price for sales of emergency bituminous coal.

(2) The method employed in computing or determining that price including, where applicable, the margin added to alongside costs for sales to different classes of purchasers.

(3) A statement of the margin over alongside costs on the dealer's similar sale of anthracite coal to different classes of purchasers.

(c) *Definitions.* When used in this Revised Order No. G–21 the term:

(1) "Emergency bituminous coal" means bituminous coal sold as a substitute fuel replacing anthracite or coke, delivered to premises that have, prior to the current heating season, used anthracite or coke, and that have not, prior to the current heating season, used bituminous coal. "Emergency bituminous coal" also comprehends bituminous coal sold at the yard by dealers who have not, prior to the current heating season, made yard sales of bituminous coal.

(2) Unless the context otherwise requires, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to all other terms used herein.

(d) This order, which may be revoked, amended, or corrected at any time shall, unless earlier revoked or replaced, expire on April 30, 1944.

TITLE 10—ARMY: WAR DEPARTMENT

Chapter III—Claims and Accounts

PART 35—PAYMENT OF BILLS AND ACCOUNTS

PAYMENTS UNDER CONTRACTS, FORMAL AND INFORMAL

Sections 35.5 to 35.9, inclusive, pertaining to payments under contracts, are hereby amended to read as follows. The regulations in these sections are also contained in Army Regulations No. 35–6040, dated 1 February 1944, the particular paragraphs being shown in brackets at end of sections.

§ 35.5 *To whom payment may be made*—(a) *Other than lowest bidder.* Payment may be made to other than the lowest bidder where the award was made in accordance with §§ 81.201 to 81.294 (Procurement Regulation No. 2) and §§ 81.301 to 81.395 (Procurement Regulation No. 3) of this Title.

(b) *Other than original contractor.* Payment may be made to other than the original contractor when the rights under the contract have been validly assigned or transferred. See §§ 81.390 to 81.395 (Procurement Regulation No. 3). Also see R.S. 3477 (31 U.S.C. 203); R.S. 3737 (41 U.S.C. 15); act 9 October 1940 (54 Stat. 1029; 31 U.S.C. 203; 41 U.S.C. 15) [Par. 2]

§ 35.6 *When payment may be made*—(a) *Advances of public money prohibited.* Section 3648, Revised Statutes (31 U.S.C. 529) prohibits payments in advance of the delivery of supplies or rendition of service. Purchases of coupon books for gasoline and oil are within the prohibition and payment may not be made until the supplies are actually furnished. See 8 Comp. Gen. 454. Certain exceptions to the general prohibition contained in section 3648, Revised Statutes, have been made by later statutes. See sec. 1 (c), act 2 July 1940 (54 Stat. 712); sec. 201, Title II, First War Powers Act, 18 December 1941 (55 Stat. 839; 50 U.S.C. App. 611); sec. 401, Title IV, First War Powers Act, 18 December 1941 (55 Stat. 841; 50 U.S.C. App. 621); and Title I, Executive Order 9001, 27 December 1941,

(b) *Procedure for making advance payments.* The procedure for effecting advance payments to contractors under the statutes and Executive order listed above is set forth in §§ 81.319 to 81.321 of this Title (Procurement Regulation No. 3). [Par. 3]

§ 35.7 *What payment is authorized*—(a) *Payments under contracts for indefinite quantities and unlimited amounts.* It has been stated that contracts for indefinite quantities are invalid. This is merely the statement of the general legal principle that the undertakings of the parties to a contract must be sufficiently definite to be capable of enforcement. Thus in 14 Comp. Gen. 446, it was stated that one of the first and most important requisites of a valid contract is that the terms thereof shall be certain, definite, and specific and that, while it may not be possible to determine definitely the quantities which may be required under certain conditions, there appears no reason why there should not be an estimated quantity specified with a variance of 10, 20, or 25 percent. It has also been stated that contracts purporting to obligate the Government to pay unlimited amounts are not authorized. This statement reflects the principle that, with certain exceptions, no contract or purchase on behalf of the United States shall be made unless the same is authorized by law or is under an appropriation adequate to its fulfillment (R. S. 3732; 41 U.S.C. 11); whereas an obligation involving payment of an unlimited amount might exceed the appropriation. 15 Comp. Dec. 405, 407; 5 Comp. Gen. 450, 454. These principles do not invalidate the so-called "indefinite quantity contract" under which the contractor undertakes to furnish all of the actual requirements of a Government agency for a particular item and the Government agency in turn agrees to purchase from the contractor all of its requirements of that item during the specified period. See 19 Comp. Gen. 599. Likewise, these principles do not affect the validity of cost-plus-a-fixed-fee contracts expressly authorized by statute (sec. 2, act 28 June 1940 (54 Stat. 676; 50 U.S.C. App. 633); sec. 1, act 2 July 1940 (54 Stat. 712)), pursuant to which a

contractor agrees to deliver a specified quantity of items or to perform a specified service, and the Government agrees to pay an undetermined amount to be computed by adding to the fixed fee the actual cost incurred.

(b) *Rates effective "until further notice".* In the absence of competition there is no objection to entering into agreements for public utilities service at stipulated rates "until further notice," without necessity for new agreements or annual renewals except to cover changes in rates or service, unless the interests of the Government require otherwise in a particular case, the original agreements and all changes to be filed in the General Accounting Office, and the vouchers to cite the agreement involved and bear a statement by a responsible officer of the public utility concerned as to the rates charged. Payment may not be made for service in an amount stipulated in a substitute agreement which is in excess of the rate stated in the original contract, effective "until further notice," prior to the date of actual receipt of the substitute agreement by the proper administrative representative of the Government. See 15 Comp. Gen. 920; MS. Comp. Gen. A 65231, 15 December 1936.

(c) *Customs duties on foreign purchases*—(1) *Duty free purchases.* The act approved 30 June 1914 (38 Stat. 399; 34 U. S. C. 568) authorized the Secretary of the Navy to make emergency purchases of war material abroad and provided that the same shall be admitted free of duty. By Executive Order 9177, dated 30 May 1942, this authority was extended to the Secretary of War and others.

(2) *Payment of customs duties.* Where the importation is not duty free the amount of the customs duty is properly chargeable to the same appropriation as the purchase, notwithstanding the fact that the importation and the purchase are in different fiscal years; the customs duty is not chargeable to the appropriation for the fiscal year in which the importation occurs (26 Comp. Dec. 610). Checks issued in payment of customs duties will be drawn payable to and forwarded to the Collector or Deputy Collector of Customs at the port where entry was made.

(3) *Philippine export tax.* Appropriated funds may not be used to pay an export tax on property of the United States shipped from the Philippines sought to be imposed pursuant to the authority granted in the Philippine Independence Act of 24 March 1934 (48 Stat. 456), as amended by the act of 7 August 1939 (53 Stat. 1226). See 21 Comp. Gen. 226. [Par. 4]

§ 35.8 *Adjustments*—(a) *Mistakes in contract price.* Where a contractor claims payment in addition to the contract price on the ground that a mistake was made in the contract price, consideration may be given to whether the contract should be amended in accordance with the procedure outlined in §§ 81.304 to 81.308g of this Title (Procurement Regulation No. 3). In the event that the contract is amended in accordance therewith, payment will be made in accordance with the contract as amended. Otherwise, only the price specified in the contract will be paid and the contractor will be advised to present to the General Accounting Office any protests he may have in connection with the settlement as made.

(b) *Contract provisions for price adjustment.* The contract may contain provision for price adjustment. (For various price adjustment contract articles see §§ 81.322 to 81.368 of this Title (Procurement Regulation No. 3)). Payment will be made in accordance therewith.

(c) *Transportation costs*—(1) *Shipment from point nearer than f. o. b. point.* Shipment to the designated destination from a point nearer than the f. o. b. point does not entitle the contractor to the savings in freight charges over what the Government would have had to pay had shipment been from the f. o. b. point, even though the supplies

cost the contractor more at the shipping point than they would have cost at the f. o. b. point. See 3 Comp. Gen. 56.

(2) *Land-grant deductions.* Where a contract provides for delivery f. o. b. destination and shipment is made on Government bill of lading, which entitles the Government to certain land-grant deductions from the regular commercial rates, the contractor is not entitled to the benefits obtained by the Government on account of said land-grant deductions. See MS. Comp. Gen. A 30249, 8 April 1930.

(3) *Adjustments by General Accounting Office.* Where a contract requires the contractor to deliver at a point f. o. b. and provides that the Government may direct delivery to be made at other points, with an adjustment in the contract price corresponding to the resulting increase or decrease in the amount of the freight, a disbursing officer will not attempt to adjust the matter if the contractor refuses to accept payment on the usual basis and contends that he has paid transportation expenses which the Government was obligated to pay or that the deduction from the contract price sought to be made on account of freight paid by the Government is excessive. Such cases will be transmitted to the General Accounting Office for direct settlement as claims. See 8 Comp. Gen. 500.

(d) *Inferior goods.* Varying contract provisions are found dealing with goods that do not conform to specifications but are nevertheless retained and used by the Government. For instance, certain quartermaster contracts dealing with canned foods provide for deductions from the contract price and for cash reimbursement, in lieu of the right to reject and require replacement of defective cans. Other contracts provide that, if public necessity requires use of rejected goods not conforming to specifications, payment therefor shall be made at a proper reduction in price. Payment for rejected goods so retained and used has usually been on the basis of their reasonable value as distinguished from the contract price. See *Barry* v. *United States*, 229 U. S. 47; *Cor & Sons* v. *United States*, 55 Ct. Cl. 7; 5 Comp. Gen. 993; 15 id. 612. In all such cases disbursing officers will submit the vouchers to the Fiscal Director for instructions as to payment.

(e) *Set-off.* The Government always has the right to set off against an amount due a claimant any sum the claimant owes the Government, either under the same or other contracts or obligations. See *Barry* v. *United States*, 229 U. S. 47; 37 Op. Atty. Gen. 215; 7 Comp. Gen. 186; 18 id. 524. The right of set-off does not apply to unliquidated demands, but the Government has the equitable right to withhold payment of moneys due under one contract to a contractor who is in default under another contract until his indebtedness thereunder can be liquidated. See 7 Comp. Dec. 213. Where a contract so provides, payment to an assignee shall not be subject to reduction or set-off for any indebtedness of the assignor arising independently of the assigned contract. See act 9 October 1940 (54 Stat. 1029; 31 U.S.C. 203; 41 U.S.C. 15)

(f) *Delay in performance*—(1) *When no damages provided for in contract.* (i) Where no specific provision is made in a contract for either liquidated or actual damages, the contractor is, upon failure to complete the contract within the specified time, chargeable with actual damages caused the Government by the delay, unless the delay is excusable under the provisions of the contract or under statutory provisions. Act 31 May 1941 (55 Stat. 236); sec. 301, act 27 March 1942 (56 Stat. 177; 50 U.S.C. App. 633).

(ii) Where there has been delay in performance under a contract which does not contain a provision for damages, the contracting officer will determine whether or not the delay resulted in actual damage to the Government.

(iii) In cases where the contracting officer has determined that the delay resulted in actual damage to the Government, the contracting officer will furnish for file with the voucher a statement of the damage resulting from the delay.

(iv) In cases where the contracting officer has determined that the delay did not result in actual damage, the contracting officer will not be required to furnish a certificate to that effect, except as hereinafter provided. In all cases where the voucher is not accompanied by a statement as to damages, it will be assumed that the contracting officer has determined that no actual damages resulted or that the contractor was not responsible for the delay, and the disbursing officer will make full payment of the voucher, if otherwise correct. If in any such case the General Accounting Office should, after payment of the voucher, request a certificate, contracting officer will prepare and furnish a certificate that the delay did not result in any actual damage to the Government.

(2) *When actual damages provided for in contract.* Whenever under a contract containing provisions for actual damages the contracting officer determines that the failure to complete the contract within the specified time did not result in any actual damage to the Government, the provisions of subparagraph (1) (iv) of this paragraph will apply.

(3) *When liquidated damages provided for in contract.* (i) Whenever, under a contract containing a liquidated damages clause, the contractor fails to perform within the stipulated period and the time is not extended or the liquidated damages waived, the disbursing officer will deduct the maximum amount of liquidated damages for which the contractor may be liable and claim credit for the net amount only, crediting the amount so deducted to the open allotment and project account entitled "Reserve for Settlement of Claims", subject to final adjustment by the General Accounting Office. Accounts deducted on account of liquidated damages will not again become available for obligation or for payment by disbursing officers, settlement to be authorized by the General Accounting Office. Any protests made by the contractor against the deduction of liquidated damages will be forwarded, together with a statement of all payments made, citations to all vouchers and a detailed statement from the contracting officer, through the Fiscal Director to the General Accounting Office. See 16 Comp. Gen. 374, and Procurement Regulation No. 308–E. (§ 81.308e of this Title)

(ii) Where a contract contains a liquidated damages clause based on the contract price and also contains an offer of discount for prompt payment, the liquidated damages should be deducted on the basis of the gross contract price and without regard to the discount. The discount is likewise to be computed on the gross contract price without regard to the amount of the liquidated damages.

(iii) Where a contract contains a liquidated damages clause based on the contract price, which price is subsequently modified, and also contains an offer of discount for prompt payment, the liquidated damages and the discount should each be computed on the basis of the modified contract price.

(iv) Where a contract contains a liquidated damages clause based on the contract price and also contains clauses providing for price reduction and for penalties, the liquidated damages should be computed on the price as revised but without regard to any penalties that may be assessed. See 18 Comp. Gen. 784.

(g) *Disposition of amounts collected by reason of contractor's default.* Amounts collected on account of actual damages or excess costs charged to defaulting contractors should be credited to Miscellaneous Receipts (see MS. Comp. Gen. A 26073, 20 March 1929, 8 August 1929; 10 Comp. Gen. 510), but amounts refunded because of the rejection of unsatisfactory supplies may be credited to the appropriations from which the original payments were made. See 8 Comp. Gen. 103.

(h) *Violations of 8-hour law*—(1) *Disposition of amounts collected.* Amounts withheld from a contractor as a penalty for violation of the 8-hour law of 19 June 1912 (37 Stat. 137; 40 U.S.C. 324), are moneys collected for the use of the United States as specifically provided in said law, and, accordingly, are for depositing and covering into the Treasury as miscellaneous receipts as provided by sections 3617 and 3618, Revised Statutes. Such amounts, however, may be permitted to remain to the credit of the appropriation involved until such time as the right of appeal to the head of the department, as provided in the act of 19 June 1912, has expired (6 months), or until final action on such appeal in case same is duly filed. See 10 Comp. Gen. 504.

(2) *Suspension of law.* Because of the national emergency, Congress provided in section 5b, act of 28 June 1940 (54 Stat. 679), that the provisions of the 8-hour law should be suspended for work covered by Army, Navy, and Coast Guard contracts. This act was superseded by section 303, act 9 September 1940 (54 Stat. 884; 40 U.S.C. 325a), by the terms of which work in excess of 8 hours a day

is now permitted upon compensation for all hours worked in excess of 8 hours per day at not less than one and one-half times the basic rate of pay. The effect of this latest statute is to reinstate the provisions of the act of 1912, and to provide a statutory waiver thereof where time and one-half is paid. Hence, if the contractor fails to pay such extra compensation, he still violates the 1912 statute and is subject to its penalties. See 20 Comp. Gen. 233; id. 890; 21 id. 1110.

(i) *Partial payments in doubtful cases.* Where a disbursing officer is in doubt as to the legality of a portion of the amount covered by a voucher which is before him for payment, only the amount in doubt will be withheld for submission to The Comptroller General or transmission to the General Accounting Office, and payment will be made to the contractor of such portion of the voucher as is not in question. Disbursing officers will consider such vouchers with a view to paying the maximum amount consistent with protection of the interests of the Government. [Par. 5]

§ 35.9 *Payment where there is no valid contract*—(a) *Lost contract.* Where all executed copies of a contract have been lost, its contents may be proved by the production of the original proposal, a certified copy of its acceptance, and an unsigned copy of the contract, so as to authorize payment at the contract rates for supplies which have been actually delivered. See 4 Comp. Dec. 82.

(b) *Completed transactions.* When payment has been made and accepted under an agreement shown to be reasonable, but informally executed (that is, not signed at the end as required by section 3744, Revised Statutes), the transaction is complete and both parties are bound thereby. See 24 Comp. Dec. 226.

(c) *Quantum meruit.* (1) Accounts covering supplies furnished or services rendered before the making of a contract, without a valid contract, or where otherwise settlement is on a quantum meruit basis, should be transmitted through the Fiscal Director to the General Accounting Office. (See MS. Comp. Dec. A. D. 4997, 6 August 1920.) For exception, see (3) below.

(2) The agreed price, if any, is prima facie but not conclusive evidence as to the amount of liability. See 8 Comp. Dec. 526; 20 id. 437.

(3) Notwithstanding the provisions of subparagraph (1) of this paragraph, a cost-plus-a-fixed-fee contractor may be reimbursed for proper expenses which were not included in the fixed fee and which were incurred in connection with expediting performance of work under the contract prior to its formal execution, but after verbal notification that the contract would be awarded. See 21 Comp. Gen. 462.

(4) Where a military order commandeered labor and property upon the terms and with compensation as set forth therein, and the parties to whom the order was directed could not have refused to obey it, the Government is liable on an implied contract to pay them on a *quantum meruit* basis the value of the labor, material, supplies and equipment furnished thereunder. Such an agreement may not be considered a contract within the meaning of that word, as used in statutes prohibiting the procurement of supplies or labor under contracts on a cost-plus-a-percentage-of-cost basis. However, in support of reimbursement vouchers, there should be furnished such evidence as will satisfactorily establish that the labor and materials involved were actually furnished pursuant to orders, and, where reimbursement is to be made for the actual cost thereof, evidence that the amounts claimed have actually been paid. See MS. Comp. Gen. B 36873, 16 October 1943.

Procedure relative to adjustment in the rates of pay of employees of the War Relocation Authority.

§ 803.33 *General Order No. 33.* (a) The National War Labor Board delegates to the War Relocation Authority, to be exercised on its behalf by the Director of the War Relocation Authority, the authority to approve adjustments in the wages or salaries of the employees of the War Relocation Authority, not fixed by statute, which would otherwise require the prior approval of the National War Labor Board, all in accordance with the further provisions of this order.

TITLE 30—MINERAL RESOURCES

Chapter VI—Solid Fuels Administration for War

[Reg. 13, Amdt. 2]

PART 602—GENERAL ORDERS AND DIRECTIVES

LUMP AND DOUBLE-SCREENED COALS IN SOUTHEASTERN STATES

Since the critical shortage of solid fuels in the southeastern states affected by this regulation has been substantially mitigated by shipments of bituminous coal made in accordance with this regulation, it is now necessary to issue this amendment in order to permit a more normal distribution of solid fuels. Producers should, however, arrange their distribution schedules so that the affected states will receive an equitable share of lump and double-screen coals. Accordingly, pursuant to Executive Order No. 9332 (8 F.R. 5355), Solid Fuels Administration for War Regulation No. 13 (9 F.R. 1005-1006; 9 F.R. 1483) is hereby amended as follows:

1. Section 602.236 is amended to read as follows:

§ 602.236 *Producers in District No. 8 required to make available 5% of lump and double-screened coals for shipment pursuant to directions.* (a) Each producer in District No. 8 shall make available for shipment pursuant to specific directions issued by the Solid Fuels Administration, 5% of each week's production of lump and double-screened coal (but not including household domestic stocker coal). However, if no specific direction from the Solid Fuels Administration is received by any such producer by Thursday of any week, such producer may ship the entire production of lump and double-screened coal of that week on orders on hand subject to the provisions of Solid Fuels Administration for War Regulation No. 10 (8 F.R. 15773) or of other regulations or directions issued by the Solid Fuels Administration.

(b) All directions issued, pursuant to this regulation, prior to the effective date of this amendment must be complied with prior to February 20, 1944.

(c) Notwithstanding the provisions of paragraphs (a) and (b) of this section, no producer described in those paragraphs shall be deemed to be required by such paragraphs to curtail his production, and he may ship coal upon any order if such shipment is necessary to permit uninterrupted operation at his mine.

2. Section 602.238, *Reports*, is hereby rescinded.

This amendment shall become effective February 17, 1944.

Issued this 14th day of February 1944.

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–476]

LOUIS FINKEL

Louis Finkel is engaged in business at "A" and Clearfield Streets, Philadelphia, Pennsylvania. On June 17, 1943, without approval of the War Production Board he purchased paper converting machinery of a value of $5,726 at public auction; this machinery was used critical industrial machinery as defined by Limitation Order L–83, and the order forbade disposition of such machinery to a person other than a distributor at auction without approval of the War Production Board if the value exceeded $200; Louis Finkel may be considered a distributor for the purposes of this sale. Subsequently, however, and with knowledge of the provisions of Limitation Order L–83, he transferred the paper converting machinery to his wife, Anna Finkel, doing business as the Lee Box Company, Philadelphia, Pennsylvania, on an order which was not an approved order. This delivery constituted a wilful violation of Limitation Order L–83.

This violation of Limitation Order L–83 has diverted scarce materials to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing facts, *It is hereby ordered*, That:

§ 1010.476 *Suspension Order No. S–476.* (a) Deliveries of material to Louis Finkel, his successors or assigns, shall not directly or indirectly be accorded priority over deliveries under any other contract or order, and no preference ratings shall be assigned, applied, or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation shall be made directly or indirectly to Louis Finkel, his successors or assigns, of any material the supply or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Nothing contained in this order shall be deemed to relieve Louis Finkel from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on February 15, 1944, and shall expire on June 15, 1944.

Issued this 8th day of February 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–477]

LEE BOX COMPANY

Mrs. Anna Finkel of Philadelphia, Pennsylvania, doing business as Lee Box Company, is engaged in the manufacture of paper boxes. Subsequent to June 17, 1943, she accepted delivery of paper converting machinery, which is critical industrial machinery as defined by Limitation Order L–83, of the value of $5,728, which exceeded the value of $200 permitted by Limitation Order L–83, on an order which was not an approved order. This machinery had been purchased by her husband, Louis Finkel, on June 17, 1943, at an auction sale, and transferred by him to her without approval of the War Production Board and in violation of Limitation Order L–83. At the time of this transaction she was aware of the restrictions contained in Limitation Order L–83, and this act constituted a wilful violation of Limitation Order L–83.

This violation of Limitation Order L–83 has diverted scarce materials to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing facts, *it is hereby ordered*, That:

§ 1010.477 *Suspension Order No. S–477* (a) Deliveries of material to Anna Finkel, individually or doing business as Lee Box Company or otherwise, her or its successors or assigns, shall not directly or indirectly be accorded priority over deliveries under any other contract or order, and no preference ratings shall be assigned, applied or extended to such deliveries by means of preference rating certificates, preference rating orders, general preference orders or any other orders or regulations of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(b) No allocation shall be made directly or indirectly to Anna Finkel, individually or doing business as Lee Box Company or otherwise, her or its successors or assigns, of any material the supply or distribution of which is governed by any order or regulation of the War Production Board, unless hereafter specifically authorized in writing by the War Production Board.

(c) Anna Finkel, individually or doing business as Lee Box Company or otherwise, her or its successors or assigns, shall not directly or indirectly receive any paper or paperboard, unless hereafter specifically authorized in writing by the War Production Board.

(d) Nothing contained in this order shall be deemed to relieve Anna Finkel from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on February 15, 1944, and shall expire on April 15, 1944.

Issued this 8th day of February 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–486]

F. P. HOLLISTER

F. P. Hollister of 166 Blaine Street, Batavia, Illinois, is employed by a corporation as sales promotion manager and expediter in the purchase of steel wire. Apart from his regular employment duties, between October 16, 1942, and November 27, 1943, he purchased for himself without authority of the War Production Board and in violation of General Preference Order M–21 and Conservation Order M–126, 26,000 pounds of sub-standard wire and sold the wire at a profit to be used for florists' supplies. In order to accomplish this transaction, he procured the entry of eleven purchases and invoices under a fictitious name. The respondent's regular employment requires him to purchase and deal in wire and he had knowledge of War Production Board orders relating to this business. Mr Hollister admits that his actions were violations of General Preference Order M–21 and Conservation Order M–126, and they were so grossly negligent as to be deemed wilful.

This improper use of steel wire has diverted critical materials to uses not authorized by the War Production Board and has hampered and impeded the war effort of the United States. In view of the foregoing, *It is hereby ordered*, That:

§ 1010.486 *Suspension Order No. S–486.* (a) F. P. Hollister, as an individual and for his own account, his successors or assigns, shall not directly or indirectly buy, receive, trade in, sell or deliver any iron, steel or other ferrous products, unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve F. P. Hollister, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except in so far as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on February 15, 1944, and shall expire on May 15, 1944.

Issued this 8th day of February 1944.

PART 1157—CONSTRUCTION MACHINERY [1]

[Supplementary General Limitation Order L–53–b, as Amended Feb. 16, 1944]

REPAIR PARTS FOR TRACK-LAYING TRACTORS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain repair parts necessary to service track-laying tractors for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1157.7 [1] *Supplementary General Limitation Order L–53–b*—(a) *Definitions.* For the purpose of this order:

(1) "Track-laying tractor" means a vehicle powered by an internal combustion engine, used for pushing or pulling heavy loads, obtaining traction and steered by a full crawler or track-type device; but does not include Ordnance models of tank-type construction such as models M–2, M–4 and M–5.

(2) "Repair part" means:

(i) Any part manufactured for use in the repair of track-laying tractors, but not parts sold to other manufacturers for manufacturing purposes; and

(ii) Tools which bear a producer's standard parts number and which are used in servicing track-laying tractors or attachments.

(3) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(4) "Producer" means any person engaged in the manufacture of both track-laying tractors and repair parts.

(5) "Domestic dealer or distributor" means any person located within the United States or Canada who, by agreement with a producer, has been granted a sales territory for the sale of repair parts within the United States or Canada.

(6) "Export dealer or distributor" means any dealer or distributor, who, by agreement with a producer, has been granted a sales territory for the sale of repair parts outside the United States and Canada.

(7) "Certificate of minimum requirements" means a declaration in writing by a purchaser pursuant to paragraph (c) (1) of this order.

(8) "War project" means:

(i) A construction project (and maintenance and operation thereof) undertaken by, or contracted for by or for the account of, the Army, the Navy, Maritime Commission or Defense Plant Corporation, or any other construction project granted a preference rating of AA–4 or higher under any order in the P–55 or P–19 series.

(ii) Any other project which shall be so designated by the War Production Board.

(9) "Essential civilian operation" means:

(i) The operation of any mine that holds a serial number under Preference Rating Order P–56;

(ii) Any operation directly incident to the production of logs of any species, including the delivery of logs to sawmills, pulp mills or other dealers in or users of logs;

(iii) Any operation directly incident to the planting, growing or harvesting of agricultural products (excluding flowers, shrubs and other plants grown for decorative purposes);

(iv) Any operation in the petroleum industry directly incident to production, natural gasoline production, transportation (by pipe line), refining, or marketing (other than retail marketing), as these terms are defined in Preference Rating Order P–98–b as amended;

(v) Any operation directly incident to the transportation (by pipe line) and marketing (other than retail marketing) of natural gas; or

(vi) Any other operation or project which shall be so designated by the War Production Board.

(10) "United States" means the forty-eight states of the United States and the District of Columbia.

(11) "Foreign base" means a construction project (and maintenance and operation thereof) located outside the United States and Canada, being built for or under the supervision of the War Department, Navy Department, or other United States Government agency by civilian contracting or engineering organizations which normally purchase repair parts from sources located within the United States.

(12) "Military agency" means the Army, Navy, Maritime Commission, War Shipping Administration or any of the following persons when acting as the authorized procurement agents for the Navy:

(i) George A. Fuller Co. and Merritt-Chapman and Scott Corp.;

(ii) M. T. Reed Company;

(iii) Siems-Drake, Puget Sound;

(iv) Pacific Naval Air Bases.

(b) *Limitations on sales by producers.* (1) No producer shall sell or deliver repair parts except to:

(i) A military agency,

(ii) A domestic dealer or distributor located within the United States or Canada, or

(iii) Any person for export outside the territorial limits of the United States and Canada subject to paragraph (b) (2) hereof.

(2) No producer shall sell or deliver repair parts to any person (other than a domestic dealer or distributor for delivery to persons engaged on foreign bases, a military agency, or an export dealer or distributor) for export outside the territorial limits of the United States and Canada except upon receipt of Form WPB–1319 (or Form PD–556) approved by the War Production Board. In order to receive such approval, a purchaser shall file Form WPB–1319 (or Form PD–556), in quadruplicate, with the War Production Board, Washington 25, D. C., Ref.: L–53–b. Nothing in this order shall be deemed to relieve any person from the necessity of obtaining an export license from the Board of Economic Warfare, where such license is required.

(3) No producer shall, during the period of July 1, 1942, to June 30, 1943, sell or deliver to all the military agencies combined any repair parts in excess of an aggregate of 40 percent of the value, at invoice price, of his total shipments of such repair parts during such period. No producer shall, during the period of July 1, 1943, to June 30, 1944, sell or deliver to all the military agencies combined any repair parts in excess of an aggregate of 40 percent of the value, at invoice price, of his total shipments of such repair parts during such period. This 40 percent restriction does not limit purchases made by a military agency from domestic dealers or distributors upon a certificate of minimum requirements.

(4) Except as provided in paragraph (b) (5) of this order or unless specifically authorized in writing by the War Production Board, no producer shall during any calendar quarter sell or ship to any domestic dealer or distributor a quantity of repair parts of a value, at invoice price, in excess of either $500.00 or 60 percent of the value of such producer's shipments to such domestic dealer or distributor during the preceding six calendar months, whichever is the greater.

(5) Notwithstanding the provisions of paragraph (b) (4) of this order, a producer may sell or ship to any domestic dealer or distributor during any calendar quarter repair parts in an amount up to and including 25 percent in excess of the quota of such domestic dealer or distributor as computed in accordance with the terms of paragraph (b) (4) of this order, but any sales or shipments in excess of such quotas shall be charged against the quota of such domestic dealer or distributor for the next calendar quarter, and such excess shipments shall not be used in computing any base period quota thereafter.

(c) *Limitations on sales by domestic dealers and distributors.* (1) Except as provided in paragraphs (c) (3), (c) (4), and (c) (5) of this order, no domestic dealer or distributor of repair parts shall sell or deliver any repair parts to any person (except a producer or another domestic or export dealer or distributor) unless he has received from such person a certificate of minimum requirements for specific track-laying tractors for which repair parts are sought to be purchased. The purchaser shall furnish such certificate of minimum requirements in one of the following ways:

(ii) In the case of a purchase order placed by telegraph, the purchaser shall include in the telegram: all information specified in items (I), (II), (III), (IV) and (V) of the certification prescribed in paragraph (c) (1) (i), the statement "Certified under L–53–b", and the name of the person sending the telegram, provided that such person shall be an official duly authorized to make such certification. The statement "Certified under L–53–b" shall constitute a certification to the seller and to the War Production Board of the correctness of all information included in the telegram and shall constitute a certification of all facts specified in items (VI), (VII) and (VIII) of the certificate prescribed in paragraph (c) (1) (i). In such case, a copy of the outgoing telegram shall be retained by the person placing the order and such copy shall be signed by an authorized official, either manually or as provided in Priorities Regulation No. 7.

(iii) In the case of a purchase order placed by telephone, the purchaser shall state to the domestic dealer or distributor, at the time of placing the order, the substance of the certification set forth in paragraph (c) (1) (i), provided, however, in such case, that the person making the statement is an official duly authorized to make such certification, and the person making the statement furnishes to the domestic dealer or distributor within 15 days after placing the purchase order, written confirmation of such order, bearing a certification substantially in the form prescribed in paragraph (c) (1) (i). In case of failure to receive written certification within such 15 day period, the domestic dealer or distributor shall not accept any other order from, or deliver any additional repair parts to, the purchaser until such written certification is furnished.

(2) No domestic dealer or distributor of repair parts shall sell or deliver pursuant to paragraph (c) (1):

(i) A quantity of repair parts to any person in excess of such person's certified minimum requirements.

(ii) Any repair parts to any person whose certificate such domestic dealer or distributor knows or has reason to believe is false.

(3) Notwithstanding the provisions of paragraphs (c) (1) and (c) (2) of this order, a domestic dealer or distributor may sell and deliver repair parts to a purchaser for use on a foreign base under circumstances where the distances involved, the time element, or the lack of shipping facilities make it impracticable to furnish a certificate of minimum requirements, provided such domestic dealer or distributor receives from such purchaser Form WPB–1319 (or Form PD–556) approved by the War Production Board. In order to receive such approval a purchaser shall file Form WPB–1319 (or Form PD–556), in quadruplicate, with the War Production Board, Washington 25, D. C., Ref.: L–53–b.

(4) Notwithstanding the provisions of paragraph (c) (2) of this order, a domestic dealer or distributor may sell or deliver fuel filters and oil filters in sufficient quantity to permit 500 hours operation if he has received from the purchaser a certificate in accordance with paragraph (c) (1) hereof even though subdivisions (VII) and (VIII) of such certificate are not completed.

(5) Notwithstanding the provisions of paragraphs (c) (1) and (c) (2) of this order, a domestic dealer or distributor may sell and deliver repair parts to a purchaser for reconditioning and salvaging worn or damaged parts or subassemblies which have been replaced on a particular tractor by other parts or subassemblies, provided such domestic dealer or distributor receives from such purchaser Form WPB–1319 (or Form PD–556) approved by the War Production Board. In order to receive such approval, a purchaser shall file Form WPB–1319 (or Form PD–556) in quadruplicate with the regional or any district office of the War Production Board in the region in which such parts or subassemblies are to be reconditioned and salvaged.

(d) *Procedure for domestic dealer or distributor in placing orders for critical repair parts.* (1) A domestic dealer or distributor in placing a purchase order with a producer for repair parts for which he has received customers' orders that he is unable to fill out of stock may, if he wishes such purchase order to be entitled to the treatment by the producer required in paragraph (e) of this order, state on the purchase order that the repair parts are for one of the following purposes: (i) War projects as defined in paragraph (a) (8); (ii) foreign bases as defined in paragraph (a) (11); (iii) essential civilian operations (which include only certain mining, logging, agricultural, petroleum and natural gas operations) as defined in paragraph (a) (9); (iv) export; or (v) miscellaneous use. Such statement by the domestic dealer or distributor shall be based on the specific job description shown by item (IV) of the certificate of minimum requirements of customers for whom the repair parts are being ordered or by Form WPB–1319 (or Form PD–556) in the case of orders for customers who have obtained authorization to purchase on Form WPB–1319 (or Form PD–556). The term "miscellaneous use" as used in this paragraph (d) (1) shall be construed to identify any purchase order to be filled out of the category of sales described in subdivision (v) of paragraph (e) (1). A domestic dealer or distributor shall not include, in a single purchase order placed with a producer, orders for repair parts to be filled out of more than one of the categories of sales described in paragraph (e) (1). Repair parts received from a producer by such domestic dealer or distributor, pursuant to each such purchase order, shall be delivered to the customers for whom they were ordered in the sequence in which the customers' orders were received by such domestic dealer or distributor or as otherwise directed by the producer from whom the repair parts were received. Nothing in the foregoing shall be construed to permit a domestic dealer or distributor to place the statements specified above on any order for repair parts placed with a producer for the purpose of building inventory stock.

(e) *Procedure when inventory of producer is insufficient to fill orders.* (1) Whenever unfilled orders in the hands of a producer calling for immediate delivery of any repair part shall exceed his inventory of such repair part, he shall, so long as such condition exists, make no sale (except to military agencies and for export pursuant to paragraph (b) (2) of this order) on any purchase order not containing the statements referred to in paragraph (d) (1) of this order and shall apportion his sales of such repair part as follows:

(i) Sales directly to military agencies: Not more during any month than 40 percent of his total sales of such repair part during that month.

(ii) Sales to domestic dealers and distributors for delivery to persons engaged on war projects and on foreign bases (as indicated by the purchase order of the dealer or distributor) and sales to persons engaged on foreign bases: Not more during any month than 20 percent of his total sales of such repair part during that month.

[1] Item (VI) of the certificate of minimum requirements is not to be included in certificates used by persons in Canada.

(iii) Sales to domestic dealers and distributors for delivery to persons engaged in essential civilian operations (as indicated by the purchase order of the dealer or distributor): Not more during any month than 20 percent of his total sales of such repair part during that month.

(iv) Sales for export (except to military agencies and to, or for delivery to, persons operating on foreign bases): Not more during any month than 15 percent of his total sales of such repair part during that month.

(v) Sales to persons or for purposes other than those specified in subdivisions (i) through (iv) of this paragraph (e): The remainder of his total sales during the month.

(2) (i) If at any time a producer has filled all orders that he has received in one or more of the categories of sales specified in subdivisions (ii), (iii), (iv) or (v) of paragraph (e) (1), he may fill, out of the sales quota allotted to such category or categories, purchase orders in any other of the categories of sales described in subdivisions (ii) (iii), (iv) and (v) of paragraph (e) (1).

(ii) If at any time a producer has filled all orders that he has received in all of the categories of sales specified in subdivisions (ii), (iii), (iv) and (v) of paragraph (e) (1), he may fill, out of the sales quota allotted to any of those categories, purchase orders in the category of sales described in subdivision (i) of paragraph (e) (1).

(iii) If at any time a producer has filled all orders that he has received in the category of sales specified in subdivision (i) of paragraph (e) (1), he may fill, out of the sales quota allotted to that category, orders in any of the categories of sales described in subdivisions (ii), (iii), (iv) and (v) of paragraph (e) (1).

(3) Each producer shall fill purchase orders within each of the categories of sales specified in subdivisions (ii), (iii), (iv) and (v) of paragraph (e) (1) above in the order in which they were received by him.

(4) No producer shall fill any purchase order for a repair part which does not contain the statements specified in paragraph (d) (1) of this order so long as he has on hand unfilled orders for that repair part which do contain such statements.

(f) *Filling orders upon specific direction of the War Production Board.* Notwithstanding the provisions of paragraphs (d) and (e) of this order, a producer or a domestic dealer or distributor shall, upon the specific direction of the War Production Board make delivery of any repair part to fill any order specified in such direction, provided that nothing in this paragraph (f) shall authorize the War Production Board to reduce a producer's sales of any repair part to the military agencies, during any month, below 40 percent of such producer's total sales of such repair part during that month.

(g) *Applicability of priorities regulations.* (1) The provisions of § 944.2 through and including § 944.9 of Priorities Regulation No. 1, as amended, shall not be applicable to any purchase order for track-laying tractor repair parts placed with a producer or domestic or export dealer or distributor.

(2) Except as provided in paragraph (g) (1) hereof, this order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(h) *Records.* All persons affected by this order shall keep and preserve for not less than two years accurate and complete records concerning inventories, production, sales, purchase orders and certificates of minimum requirements pursuant to which they have sold repair parts.

(i) *Audit and inspection.* All records required to be kept by this order shall, upon request, be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(j) *Reports.* Any person affected by this order shall file with the War Production Board such reports and questionnaires as said Board shall from time to time require, subject to the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942. (The uses of Form WPB–1319 or Form PD–556 and the certificate of minimum requirements in this order have been approved by the Bureau of the Budget.)

(k) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of or from processing or using material under priority control and may be deprived of priorities assistance.

(l) *Appeal.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate referring to the particular provision appealed from and stating fully the grounds of the appeal.

(m) *Communications.* All reports to be filed, appeals and other communications concerning this order shall be addressed to War Production Board, Construction Machinery Division, Washington 25, D. C., Ref.: L–53–b, except as otherwise specifically provided in paragraph (c) (5) of this order.

(n) *Effective date.* This order shall become effective June 27, 1943.

Issued this 16th day of February 1944.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT[1]

[Limitation Order L–112 as Amended, Feb. 16, 1944]

INDUSTRIAL POWER TRUCKS

The fulfillment of the requirements of the defense of the United States has created a shortage in the supply of certain critical materials for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1226.117[1] *General Limitation Order L–112*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons, whether incorporated or not.

(2) "Industrial power truck" means any self-power-propelled industrial truck or wheel tractor designed primarily for handling material (either by carrying or towing) on floors or paved surfaces in and around industrial plants, warehouses, docks, airports or depots. The term shall not include automotive tractors, trucks, or wheeltype industrial tractors designed for use on tax-built highways, or in such operations as construction, earth-moving, mining, logging, industrial yard work, or petroleum development.

(3) "Manufacturer" means any person who manufactures, fabricates or assembles new industrial power trucks, and includes any sales and distribution outlets of a manufacturer.

(4) "Parts producer" means any person, other than a manufacturer, who manufactures parts to be incorporated in industrial power trucks.

(5) "Standard model" as applied to a manufacturer, means one model only of each type and capacity of industrial power truck listed in List A attached hereto, described in such manufacturer's catalogue or bulletin on July 10, 1942.

(6) "Approved standard model" means a standard model listed hereafter and from time to time by supplementary order or orders, as provided in paragraph (d) (2).

(7) "New", when applied to any industrial power truck, means any truck which has never been sold to a person acquiring the same for use. "Used" means any such truck which has been sold to a person acquiring the same for use, whether or not such truck has subsequently been reconditioned or rebuilt.

(8) "Dealer" means any person, other than a manufacturer, engaged in the business of selling or distributing new or used industrial power trucks, whether at wholesale, retail, or otherwise.

(9) "Owner" means any person (including a manufacturer or dealer) who owns any industrial power truck, regardless of whether such truck was acquired for resale or for use by such person.

[1] Formerly Part 1210, § 1210.1.

(5) *Restrictions on orders and deliveries*—(i) *New trucks.* (a) No manufacturer shall accept any order for a new industrial power truck unless such order is accompanied by the authorization of the War Production Board provided for in paragraph (b) (3) below. Orders so authorized shall be placed only with the supplier specified by the War Production Board.

(ii) No manufacturer shall hereafter deliver any new industrial power truck, except in fulfillment of an order (*a*) accepted before October 15, 1942, and rated A-9 or better on Form WPB-541 (formerly PD-1A) or WPB-542 (formerly PD-3A or on a form in the WPB-837 (formerly PD-408), or (b) accepted on or after October 15, 1942, and accompanied by the authorization of the War Production Board provided for in paragraph (b) (3) below.

(2) *Used trucks.* (i) On and after July 20, 1943 no manufacturer, dealer or owner shall accept any order for a used industrial power truck unless such order is accompanied by the authorization of the War Production Board provided for in paragraph (b) (3) below. Orders so authorized shall be placed only with the supplier specified by the War Production Board.

(ii) On and after July 20, 1943, no manufacturer, dealer or owner shall deliver any used industrial power truck, except in fulfillment of an order accompanied by the authorization of the War Production Board provided for in paragraph (b) (3) below.

(iii) Any manufacturer, dealer or owner specified as a supplier in the authorization for a used truck shall accept any order placed with him for such truck (if the order is accompanied by the authorization), as if such order bore a preference rating, unless he is permitted to, and does, reject the same under the provisions of Priorities Regulation No. 1, § 944.2. However, nothing herein shall require the sale of any used industrial power truck by any person who acquired and holds such truck for his own use and not for resale.

(iv) The restrictions contained in (i), (ii), and (iii) of this paragraph (b) (2) shall not apply to deliveries of used industrial power trucks made by one branch, division, or section of a single enterprise to another branch, division, or section of the same enterprise under common ownership where no transfer of title or ownership of such trucks is involved, or to deliveries of any used industrial power trucks owned by the Army, Navy, Maritime Commission or War Shipping Administration, from one department to another within any such agency, or from any of such agencies to any other of such agencies.

(3) *Authorizations.* Application for authorization of the War Production Board required by paragraph (b) (1) and (2) shall be made by the purchaser on Form WPB-1319 prepared in accordance with the instructions for such form. The War Production Board may grant such application unconditionally or upon specified conditions, including the requirement that the order be placed with a supplier named by the War Production Board, or that the order shall only cover such model, type or size of truck as may be designated by such Board.

(c) *Conservation of material*—(1) *Restrictions upon use of copper.* Parts producers and manufacturers shall be governed by the provisions of paragraph (b) of Limitation Order L-106, (§ 933.9) as amended, in their use of copper products or copper base alloy products (as defined in that order) in the production of parts for industrial power trucks.

(2) No manufacturer shall begin the manufacture of any industrial power truck if such truck contains any of the following materials, or accept delivery of any of the following materials for use in the manufacture of any industrial power truck:

(i) Rubber in any form, except in tires, storage batteries, radiator hose or wire or cable insulation.

(ii) Protective plating in any form, except when necessary to the operation of functional parts.

(iii) Steel plate, where substitution of a less critical material is practicable.

(iv) Lead for counter weights, except that reclaimed lead may be used when required by space limitations.

(v) Steel battery trays, where steel battery boxes are provided.

Provided, however, That the restrictions of this subparagraph (2) shall not apply to parts in the manufacturer's stock which, as of July 10, 1942, were completed, or processed to the point where other use is impracticable: *And provided further,* That the restrictions of this subparagraph (2) shall not apply to the manufacture or delivery of repair and maintenance parts.

(3) *Other regulations.* Nothing in this paragraph (c) shall be construed to permit any manufacturer to sell, deliver or otherwise transfer, or any person to purchase, receive delivery of, or otherwise acquire any raw materials, semi-processed parts or finished parts or products in contravention of the terms of any regulation or order of the War Production Board.

(d) *Standardization of models.* (1) No manufacturer shall after July 10, 1942 begin the manufacture of any industrial power truck which is not a standard model. The design and structure of any standard model shall be only as specified or described in such manufacturer's catalogue or bulletin; except that electric fork trucks with capacities from 2,000 pounds to 6,000 pounds may be built in both center and end control types; and that alterations may be made in counter weights, die pullers (power winch), height of lift, voltage, battery capacity, explosion or fire prevention features, and the length or width or type of fork or ram: *Provided, however,* That nothing herein shall be construed to prevent any change required by the limitations of paragraphs (c) (1) and (c) (2) hereof, or any change which results in further conservation of critical materials.

(2) On and after August 15, 1942, no manufacturer shall begin the manufacture of any standard model which is not an approved standard model. Approved standard models for each manufacturer shall be only those industrial power trucks listed hereafter and from time to time by order or orders supplementary to this order. The provisions of paragraph (d) (1) hereof relative to changes in design and structure shall be applicable to approved standard models.

(3) On or before the 15th day of October and of each succeeding calendar month, every manufacturer shall file with the War Production Board a report on Form WPB-1262 (formerly PD-385), which shall include (i) such manufacturer's proposed production schedules so far as then planned, but in any event, for not less than the three calendar months following the filing of the report; and (ii) his proposed delivery schedules so far as then planned, but in any event for not less than the one calendar month following such filing. The production schedules for the three calendar months, and the delivery schedules for the one calendar month following the filing of the report shall be deemed to be approved by the War Production Board upon the receipt of the report by the War Production Board, unless the War Production Board shall otherwise direct. The War Production Board may, at any time, change any schedules; direct the cancellation of any order shown on any schedule; prescribe any other schedule for production or deliveries for any period, regardless of whether a schedule for such period, or any part thereof, has been reported by the manufacturer, or theretofore approved by the War Production Board; allocate any order listed on the report to any other manufacturer; or direct the delivery of any industrial power truck so listed to any other person, at the established price and terms. No manufacturer shall produce or deliver any industrial power truck except in accordance with schedules approved or prescribed by the War Production Board, as above provided; and no manufacturer shall alter any such approved or prescribed production or delivery schedules unless authorized or directed to do so by the War Production Board.

(e) *Ninety-day exemption of Army, Navy and Maritime Commission.* Until ninety days after July 10, 1942, this order shall not apply to deliveries to and for the use of the Army, Navy, Maritime Commission, or War Shipping Administration to the extent that industrial power trucks of a design or structure prohibited by the terms of this order are required by any applicable specifications of the Army, Navy, Maritime Commission, or War Shipping Administration. As used in this paragraph, the terms "Army," "Navy," "Maritime Commission," and "War Shipping Administration" shall not include any privately operated plant or shipyard, financed or controlled by any of those agencies, or operated on a cost-plus-fixed-fee basis.

(f) *Miscellaneous provisions*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as issued and as amended from time to time.

(2) *Existing contracts.* Fulfillment of contracts in violation of this order is prohibited regardless of whether such contracts are entered into before or after July 10, 1942. No person shall be held liable for damages or penalties for default, under any contract or order, which shall result directly or indirectly from his compliance with the terms of this order.

(3) [Revoked July 10, 1943.]

(4) [Revoked July 10, 1943.]

(5) *Violations.* Any person who wilfully violates any provision of this order, or who wilfully furnishes false information to the War Production Board in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance by the War Production Board.

(6) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(7) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, General Industrial Equipment Division, Washington 25, D. C.; Ref.: L-112.

Issued this 16th day of February 1944.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[General Limitation Order L–332]

CONTAINER MACHINERY

The fulfillment of the requirements for the defense of the United States has created a shortage in the supply of material used in the production of container machinery for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.135 *General Limitation Order L–332*—(a) *What this order does.* This order restricts deliveries of new, used, and reconditioned container machinery; it does not restrict deliveries of repair parts. The order requires manufacturers to file monthly operations reports.

(c) *Restrictions on sales and deliveries.* After March 1, 1944, no person shall place an order for container machinery and no person shall accept such an order or deliver container machinery to fill an order received after March 1, 1944, unless the order bears a rating of AA–5 or higher. Machinery described as packaging and labeling machinery in List A of Order L–83 must not be delivered on orders accepted prior to March 1, 1944, unless the orders were accepted in accordance with Order L–83.

(d) *Exemptions.* The limitations and restrictions of paragraph (c) shall not apply to the following transactions:

(1) The renewal of a lease for any container machinery if the original lease or any prior renewal was approved in accordance with this order (or Order L–83) and the machinery is still being used for the purpose approved.

(2) Any order for container machinery for the direct use of the Army, Navy, Maritime Commission or War Shipping Administration.

(3) The seizure of container machinery (but not subsequent disposition or use thereof) upon default, by any person pursuant to the terms of a conditional sales agreement, chattel mortgage, pledge, or other security agreement; and the distraint or levy by execution (but not subsequent disposition thereof) by tax authorities.
